Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 25th October 1909.

From the 13th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 6th November all notifications and other matter intended for publication in the *Gazette* should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.

* Agents for sale of the Legislative Department publications

NOTICE—Books and Acts required for private use only can be purchased. Applications should be
accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in
which case, besides the ordinary postage, an additional charge is made for registration and commission

Books and Acts required for the public service should be obtained through the Local Government to
whom the applicant is subordinate.

Application for Government publications which are no longer in print should be made to the Agent
to the particular Government under whose orders they were originally issued.

[The amounts within parentheses are for packing and postage.]

SUPPLEMENT TO
The Gazette of India

No. 4.} CALCUTTA, SATURDAY, JANUARY 23, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such official papers and information as the Government of India may deem to be of interest to the public and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday,
the 20th January 1910, based on the Indian Daily Weather
Reports of the period.**

The weather during the week was determined chiefly by the depression which was affecting Baluchistan on the 13th, this depression travelled in an easterly direction right across northern India to Burma and during its passage through Rajputana it developed a slight secondary in the P. W. The disturbance gave moderate to heavy general precipitation in Baluchistan, Kashmir, Sind, the North-West Frontier Province, the Punjab, the northwest of the United Provinces and east Rajputana; there were also a few isolated falls in other parts of northern India. A warm wave preceded the depression, and was most strongly felt in the east Punjab and west of the United Provinces where weather was over 10° warmer than usual, while a cold wave followed in the rear and was very intense in Baluchistan; minimum temperature fell almost to degree at Quetta and Chaman and was the lowest on record at both places. The cold wave travelled across northern India and the central parts of the country and was felt in the Bombay Deccan and on the Konkan coast, at the close of the week temperature was recovering from its effects. A second depression appeared over Persia on the 19th and caused light precipitation in west Baluchistan and thick cloud in Baluchistan and extreme north of India.

Burma—Rain fell at Mergui on the last three days of the week and at Port Blair on the 19th. Skies were clear or lightly clouded. Weather was cooler than usual in

north Burma during part of the week and warmer at night in Tenasserim throughout the period.

Northeast India, including Orissa—Light rain fell in upper Brahmaputra valley and observations in Bihar reported a few cents rain. Skies were cloudy during the passage of the primary depression across the division on the 18th but were generally clear on other days. The cold wave began to affect the division on 18th and by the 20th temperature was generally in defect.

The United Provinces, Central India and the Central Provinces.—General moderately heavy rain fell in the northwest of the United Provinces and few isolated falls were reported from east of the division. Skies were completely overcast in the northwest of the United Provinces on the 16th but they were clear or only lightly clouded in the rest of the division throughout the period. During passage of warm wave across the division temperature was in marked excess especially in northwest of the United Provinces where it was over 11° above normal, but as the cold wave advanced eastward temperature fell very rapidly and on last three days of the week weather was decidedly cooler than usual.

Northwest India.—Moderate to heavy precipitation occurred in Baluchistan, Kashmir, the North-West Frontier Province, the Punjab, Sind and east Rajputana. Skies were thickly clouded during the period of disturbed weather in northwest India. Temperature was unusually high in front of the depression especially in Rajputana and the Punjab where it was over 12° in excess at some stations. The cold wave in the rear, however, was very intense in Baluchistan, and temperature was about 30° below normal during the coldest period. In the rest of the division wave was only of moderate intensity and on the 20th temperature was recovering from its effects.

The Peninsula—Skies were clear or only lightly clouded and temperature did not differ much from the normal except in the Bombay Deccan and on the Konkan coast where it was in defect from the 16th to the 19th.

The following summarises the chief rainfall amounts as reported at 8 hrs each day:—

January 14th	Sonemarg 1.95", Peshawar 1.63", Cherat 3.00", Dera Ismail Khan 0.92", Jacobabad 1.07", Karachi 0.35" and Quetta 0.97".
„ 15th	Rawalpindi 1.49", Cherat 3.10" and Peshawar 1.68".
„ 16th	Meerut 0.80", Roorkee 0.92", Dehra Dun 0.84", Chakrata 1.56", Delhi 0.86", Ambala 1.15", Simla 1.28", Ludhiana 1.03", Lahore 1.06", Sialkot 1.42", Rawalpindi 1.87", Cherat 1.40", Peshawar 0.82", Murree 2.86", Srinagar 2.65", Sonemarg 3.90", Dras 1.23", Minimarg 1.71" and Kotah 0.47".
„ 17th	Jubbulpore 0.75", Dehra Dun 0.72", Chakrata 1.29" and Muktesar 1.10".
„ 19th	Mergui 1.78"
„ 20th	Mergui 2.03" and Port Blair 0.97"

The rainfall for week was in very large excess in west of the United Provinces, the Punjab, Kashmir, the North-West Frontier Province, Baluchistan, Sind and east Rajputana and in most of these areas it has considerably increased the already large excess in the rainfall for the period beginning the 3rd December 1909.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 15th January 1910.

Burma—Slight showers fell in five northern districts. Reaping of winter rice approaches completion and threshing and winnowing are in progress. Cultivation of spring rice and other spring crops is proceeding. Reaping of some miscellaneous crops is going on. Standing crops are thriving well. Variations in the price of unhusked rice show a rise in two districts and a fall in seven.

Eastern Bengal and Assam—The weather was seasonable. The rainfall was light but well distributed. Harvesting of winter rice is almost finished. Transplantation of spring rice is in progress. Sugarcane, mustard and pulses are being harvested. Fields are being prepared for jute. Hoing and pruning of tea continue. Prospects of tea, wheat, tobacco and sugarcane are good and of mustard and pulses fair. The average price of common rice has fallen 4 per cent. Cattle disease prevails in Kamrup and Darrang.

Bengal—Light rain fell in Bengal Proper, Orissa and parts of Chota Nagpur. In Bihar there was no rain except at Sitamarhi in Muzaffarpur, where the fall was 1.17 inches. The recent rain has benefited the spring crops in Jessore and Darbhanga, but potatoes in Hooghly and the standing crops in Khulna have been damaged somewhat. Harvesting of winter rice is nearly over. Sugarcane pressing continues in Bihar, Orissa and parts of Chota Nagpur. Spring crops are doing well. Prospects are good. The price of common rice has risen in Nadia, Patna, Champaran, Monghyr, Angul and Sambalpur and has fallen in Bubbhum, Midnapore, Hooghly, Murshidabad, Jessore, Khulna, Gaya, Bhagalpur, Puri, Hazaribagh and Palamau. Cattle-disease is reported from Midnapore, Nadia, Patna, Gaya, Purnea, the Sonthal Patnagans, Angul, Puri, Sambalpur, Hazaribagh and Palamau. The fodder and water-supply is sufficient throughout the Province.

United Provinces.—The rainfall exceeded $\frac{1}{2}$ inch in Saharanpur and Aligarh and there were smaller amounts in 9 districts. More rain was received since the close of the week. Standing crops are flourishing. Sugarcane pressing, preparation of land for sugarcane and extra crops and irrigation of spring crops where necessary continue. Cattle are generally in good condition but disease continues in 14 districts. Fodder is ample. Prices are practically stationary.

Punjab—Good to moderate rain has been received throughout the Province which has been very beneficial to standing crops. Pressing of sugarcane and harvesting of *tooria* continue in some districts with outturns good to average. Standing crops are generally in good condition. Damage has been caused to crops by rats in Hissar and Rohtak. Prices are generally unchanged. Cattle are in good condition. Fodder is sufficient except in parts of Shahpur and Mianwali.

North-West Frontier Province—Excellent rain fell during the week all over the Province. The rain was very beneficial and has much improved the condition of the standing crops. The condition of standing crops is generally good throughout the Province. Pressing of sugarcane continues and the outturn is average generally. Planting of sugarcane is in progress in the Bannu district. The water supply is sufficient. There were floods in the Kurram and Tochi rivers in the Bannu district. Irrigation from the Pabarpur canal in the Dera Ismail Khan district is still stopped. Fodder is sufficient except in the Shigga circle of the Marwat tahsil of the Bannu district. The condition of cattle is good throughout the Province. The public health is generally good except that malarial fever is prevalent in the Charsadda tahsil of the Peshawar district. Prices of food-grains are nearly stationary. Prices—Wheat 11 to 13½, gram 15½ to 22, maize 15 to 22½, bajra 16½ to 17½ and barley 18½ seers per rupee.

Jammu—There was good rain. Prices are stationary. Prices—wheat sells from 11½ to 20 and maize from 16 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Jasmergarh, Basohli and Riasi tehsils of the Province. Fodder is sufficient.

Kashmir—Snow fell three times during the week which did good to spring crops. Spring crops are in good condition. There is no cattle disease. Fodder is sufficient except in flooded villages. Prices are unchanged.

Rajputana.—The rainfall during the week, in cents, was follows :—Bharatpur 73, Ajmer 30 and Bundi 19. Slight showers fell in Sirohi. Spring crops are progressing. Cattle are satisfactory. The condition of fodder is sufficient. Prices are rising in the hilly tracts of Mewar, Banswara, Pertabgarh, Shahpura, Kotah, Jhalawar, Jaipur, Kishangarh, Dholpur and Ajmer and are falling or are steady elsewhere.

Central India—Rainfall nil. Threshing of autumn and irrigation of spring crops are in progress. Crops have been damaged slightly in parts of Malwa and Bhopawar. Agricultural stock are in good condition except for some disease in Baghelkhand, Bundelkhand and Bhopawar. Prices are fluctuating in Indore and Bhopal and are high and steady elsewhere. Watering and weeding of poppy are in progress.

Central Provinces.—The weather continues to be cool and occasionally cloudy. Only Damoh, Jubbulpore and Narsinghpur had light showers during the week. Harvesting is almost over but threshing and winnowing of autumn crops and picking of cotton are still in progress in a few districts. Gram and *til* have been damaged slightly in 21 villages of the Sohagpur tahsil of Hoshangabad by hail. Linseed in Wardha, *ringu jwar* and pulses in Chanda, linseed and pulses in Bhandara and pulses in Bilaspur have suffered somewhat from insect pests and the recent rainfall. Prospects of spring crops are excellent in Damoh, Narsinghpur and Drug and generally good elsewhere. The supply of fodder and water is adequate. Cattle are doing well. Prices.—The price of wheat, gram and *jwar* remained steady in 17 districts and rice in 16. Wheat in Saugor and Hoshangabad and *jwar* in Nimar rose by $\frac{1}{2}$ to $\frac{1}{4}$ seer per rupee. Rice sells cheaper in Bilaspur by $\frac{3}{4}$ seers. Gram and rice in Chanda and *jwar* in Akola and Amraoti fell by 1 to $1\frac{1}{2}$ seers. Gram rose by 2 seers in Saugor. Variations are unimportant elsewhere.

Feudatory States—Jashpur and Korea had $1\frac{1}{2}$ and 1 inch of rain respectively during the week. Sirguja, Sarangarh and Sakti also received light showers not exceeding 60 cents. Cloudy weather has slightly damaged linseed and *tur* in Khairagarh. Otherwise the condition of standing crops is generally good everywhere. Pressing of sugar cane is in progress in Kawardha, Raigarh and Sakti. Fodder and water are sufficient. Prices.—*Kodon* became dearer by 7 seers per rupee in Khairagarh. Wheat in Nandgaon and rice in Raigarh rose by 1 seer. Prices were steady elsewhere or fluctuated slightly.

Bombay.—Slight rain fell during week in parts of Sind, Gujarat and Baroda. Standing crops are suffering from insufficient moisture in parts of Nasik, Ahmednagar, Poona, Sholapur, Bijapur and Kolhapur; have been damaged slightly by insects in Karachi; by rats and cloudy weather in West Khandesh and are generally good elsewhere. Threshing of autumn crops continues in parts of Larkana, the Upper Sind Frontier, the Konkan, Khandesh, Nasik, Ahmednagar, Poona and Kathiawar. Spring sowings are progressing in parts of Karachi, the Upper Sind Frontier, Ahmedabad, Kanara, West Khandesh, Nasik and Mahi Kantha. Harvesting is in progress in parts of Gujarat, Satara, the Karnatak, Baroda and Cutch. Cotton picking is progressing in Hyderabad, Broach, Khandesh and Belgaum. The fodder supply is generally adequate. Agricultural stock are sufficient, except in parts of the Deccan, and are generally in good condition. Drinking water is generally sufficient. Irrigation water is deficient in parts of Nasik and Poona. Grain stocks are sufficient. Prices have fallen in Surat, Ratnagiri and Satara; have risen in East Khandesh, Poona, Bijapur and Belgaum and are stationary elsewhere. The quantity purchasable per rupee is in Sind 20 to 41, in Gujarat 9 to 21, in the Konkan 2 to 40 and in the Karnatak 23 to 35 per cent. less than the normal and in the Deccan 4 per cent more to 27 per cent less.

Hyderabad.—No rain fell during the week. Harvesting of autumn crops is almost finished. Spring crops are being weeded in many parts. Their condition is bad owing to want of rain in parts of the Warangal and Medak divisions, specially in the Nalgonda, Warangal and Karimnagar districts. Some damage has been done to crops by insects in parts of Kodangal in the Gulbarga district and by rats in parts of Khuldabad in the Aurangabad district. The castor seed crop is being harvested but the outturn estimated in the Nalgonda district is only from 4 to 8 annas. Early rice is still being harvested and the crop has suffered in parts of the Warangal division. Late rice lands are still being prepared and sowings continue in Telingana and in the Gulbarga division but the area will be limited owing to the insufficient water supply. Cattle disease prevails in 6 talukas and fodder scarcity in 10. Water scarcity is reported in parts of Lingsugur in the Raichur district; Janwada in the Bidar district and Sultanabad in the Karimnagar district. Water is decreasing in Ashti in the Bu district, Palam in the Parbhani district, Udgir in the Bidar district, Paloncha in the Warangal district and in the Jagtial, Mahadeopur and Karimnagar talukas of the Karimnagar district. Prices.—wheat 7, coarse rice 7 and *jwar* $14\frac{1}{2}$ seers per rupee. White and yellow *jwar* are selling in Hyderabad City at 13 and 15 seers per rupee respectively. The highest price in districts is 8 seers in Chinnur in the Adilabad district and the lowest 22 seers in the Udgir taluka of the Bidar district.

Mysore—Prices of food-grains have fallen slightly in Hassan and Kadur ; are fluctuating in Shimoga and Chitaldrug and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Paddy is being harvested in parts of the State. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Ccoorg—Picking of coffee continues. Picking of cardamom is completed. Harvesting of rice has commenced. Prices of food-grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.---There was light rain during the week in Ganjam and Madura and no rain elsewhere. Irrigation supplies are sufficient in Ganjam, Vizagapatam, North Arcot, Malabar, South Canara and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are going on in parts. Standing crops are generally fair but some in parts of Guntur, the Deccan, the Carnatic, Central Tanjore and Madura have withered or are withering or require more rain. Harvests continue with outturn fair to bumper. Pasture is sufficient except in parts of the Circars, the Deccan and Nellore. Fodder is scanty in parts of Godavari, Guntur and Nellore. Cattle are generally in good condition. The price of rice is stationary in seven districts, has fallen in fifteen and has risen in one. The prices of millets have fluctuated as follows—*Ragi* is stationary in ten districts, has fallen in four and has risen in seven. *Cholam* is stationary in five districts, has fallen in six and has risen in three. *Cum* is stationary in five districts, has fallen in five and has risen in five. The public health is generally good. Prospects are generally fair but more rain is required in parts of Guntur, Cuddapah, the Carnatic, Salem and Trichinopoly. The condition of the labouring classes is good and employment is available. Grain stocks are generally sufficient.

21. Letter of His Highness the Nawab of Rampur, dated the 12th September 1909, to His Honour the Lieutenant-Governor of the United Provinces of Agra and Oudh.
 22. Letter of His Highness the Raja of Tehri, dated the 20th September 1909, to His Honour the Lieutenant-Governor of the United Provinces of Agra and Oudh.

* Separate letters were addressed to each of the Ruling Chiefs. The letter to His Highness the Nizam of Hyderabad will indicate sufficiently the purport of the letters.

(1)

Dated Simla, the 6th August 1909

From—His Excellency the Viceroy and Governor-General of India,

To—His Highness the Nizam of Hyderabad.

After compliments.—Now that seditious people have endeavoured to spread their nefarious doctrines in several of the Native States of India, I feel that it is desirable to address Your Highness on the subject. As those doctrines are subversive of internal peace and good government, the matter is one in which the interests of the Government of India and of the Ruling Princes in India are identical, and Your Highness will, I am confident, agree with me that it is appropriate that we should exchange opinions on the subject with a view to mutual co-operation against a common danger. For although in Your Highness's dominions there is no serious cause for anxiety at present—a result mainly due to the action of Your Highness in dealing with seditious manifestations—I feel that the time has come when we may advantageously concert measures and prepare a policy to exclude effectually seditious agitation. It is very true that in such a matter to be forewarned is to be forearmed.

I wish to assure Your Highness that I do not contemplate or counsel the adoption of any general rules or general course of action. The circumstances of different States vary so greatly, the treaty relations which unite them to the Paramount Power are so diverse, that any general policy would create endless difficulties, even were a general policy desirable. Your Highness will probably agree with me that each State must work out its own policy with reference to local conditions. Should it be necessary to combine in some matters such as in circulating information, and the surveillance of individuals suspected of propagating sedition, I shall still be firmly of opinion that each State should deal with its own problems.

But my advice in regard to the policy to be adopted is likely to be sought and I should greatly value a full and frank expression of Your Highness's opinion as to the measures which will be effectual in keeping out of Native States the insidious evil of sedition, and the manner in which I could assist towards this end. I feel confident that Your Highness, the old and valued ally of the British Government, will gladly help me with your wise and experienced advice.

(2)

Dated Purani Hawaili, Hyderabad (Deccan), the 15th October 1909

From—His Highness the Nizam of Hyderabad,

To—His Excellency the Viceroy and Governor-General of India

After compliments.—The Hon'ble Mr. M. E. O'Dwyer presented to me personally on the 26th August 1909 Your Excellency's esteemed Kharita of the 6th idem regarding the endeavours made by seditious people to spread their nefarious doctrines in several of the Native States of India.

-2. I quite agree with Your Excellency in thinking that these doctrines are subversive of internal peace and good government, and that the matter is one in which the interests of the Government of India and of the Indian Princes are identical. I am deeply sensible of the kind consideration with which you have taken me into your confidence and asked me to exchange opinions with Your Excellency with a view to mutual co-operation against a common danger. Once the forces of lawlessness and disorder are let loose there is no knowing where they will stop. It is true that compared with the enormous population of India the disaffected people are a very insignificant minority, but given the time and opportunity there exists the danger of this small minority spreading

its tentacles all over the country, and inoculating with its poisonous doctrines the classes and masses hitherto untouched by this seditious movement.

3. I thank Your Excellency for telling me that in my dominions there is no serious cause for anxiety at present, and that the result is mainly due to my action in dealing with seditious manifestations. I trust I may not be considered an optimist in indulging in the hope that, under God's blessing, there will probably be no cause for anxiety in the future also. My people as a rule are contented, peaceful and law-abiding, and I can say, with pardonable pride, that they are bound to me by ties of affection and loyalty. And as Your Excellency has been pleased to address me by my inherited title as the old and valued ally of the British Government, my people's loyalty to me means loyalty to the British Government also. I need hardly say that it has always been my endeavour to uphold and maintain the traditions of my house. From the very outset, my policy has been to trust my people and to show them that I trust them. I have abstained from causing them alarm by issuing manifestos warning them against sedition. But at the same time I have not been unmindful of the existing danger; and a very strict watch has been kept over local officials, more especially over those who are close to, and might be in sympathy with, the neighbouring seditious places in British India. Orders have been issued to the Police and District Magistrates not to allow any meetings to be held in which there was any likelihood of inflammatory speeches being made. Petty officials and other persons having a tendency to sympathise with the movement have from time to time been warned, and some of the former have been transferred, in order to break up any attempt to form a clique or combination for undesirable purposes. The head of the Educational Department has been specially directed to exercise strict supervision over teachers and students and to prevent their participation in any political demonstration whatever.

4. So far, any disaffected people coming from outside have not been able to gain a footing in my dominions. Judicious but summary action is taken under my orders in all such cases. Instances have occurred of disaffected individuals from British India arriving here, but my Police have ever kept a careful watch on them, and they have been promptly but quietly sent away from my territory. In matters of this kind, so far as my own dominions are concerned, I implicitly believe in working quietly but with promptitude and firmness. Believing, as I do, in the policy of deportation of undesirable individuals from my dominions, I need hardly say that I am in full sympathy with the Regulation of 1818 which I consider most efficacious in dealing with persons known to be given to sedition.

5. I am at one with Your Excellency in believing that no general rules or general course of action could be laid down as regards the Native States of India. The circumstances of different States are so diversified that one general policy for them all would not certainly be desirable. I am also in thorough agreement with your views that each State should work out its own policy with reference to local conditions. But it is necessary that there should be perfect co-operation in such matters as circulating information and surveillance of individuals suspected of propagating sedition. For this purpose I would ask Your Excellency to allow your Criminal Investigation Department to correspond directly and freely on all such subjects with my Inspector-General of the District Police who may be trusted to exercise discretion and judgment in such matters. It is obvious that unless this procedure is adopted, delays are likely to occur in obtaining information as regards the arrival or departure of suspected individuals. In the same manner I will issue orders to my Police to correspond freely in such matters with the Police in British India.

6. Your Excellency has been so kind as to ask my advice in regard to measures which may prove effectual in keeping out of Native States the insidious evil of sedition, and the manner in which Your Excellency should assist towards this end. My knowledge of the conditions obtaining in different Native States in India is very limited, but if I may venture to express an opinion it would be that Your Excellency should as often as possible write to some principal Ruling Princes and consult with them as regards all important matters touching the welfare of not only the Native States but also the Indian Empire as

a whole. I look upon the Native States in India as the pillars of the Empire, and I feel sure that the Ruling Princes will prove worthy of the confidence and trust that may be reposed in them. Indeed it cannot be otherwise; because as Your Excellency rightly observes in your Kharita, the interests of the Government of India and of the Ruling Princes in India are in this respect quite identical.

7. There are, however, two or three suggestions that I would make for Your Excellency's consideration:—

- (1) The Government of India as well as the Provincial Governments and Indian Durbars should as often as possible issue Press Communiqués for the purpose of officially contradicting or correcting false allegations or exaggerated reports, and call upon the news papers that publish such things to print formal contradiction or correction as directed. It is no longer safe or desirable to treat with silent contempt any perverse statement which is publicly made; because the spread of education, on the one hand, has created a general interest in the news of the country, and a section of the Press, on the other hand, deliberately disseminates news calculated to promote enmity between Europeans and Indians, or to excite hatred of Government and its officers in the ignorant and credulous minds. Official warnings to editors, publishers, proprietors and printers of the offending papers would also have a salutary effect and would probably often save the necessity of public prosecutions which may possibly do more harm than good.
- (2) The Native States should prohibit all clubs, libraries and other institutions from subscribing to any papers or journals believed to be instrumental in spreading sedition, and officials subscribing to or taking in such literature should be told that they would be looked upon with disfavour. I have myself taken the initiative in this matter and have issued orders to that effect.
- (3) I am also inclined to think that itinerant agitators (often disguised as Sanyasis) are not watched as thoroughly as they should be. Such persons should be followed from province to province and regularly handed over for surveillance.

8. The experience that I have acquired within the last 25 years in ruling my State, encourages me to venture upon a few observations which I trust will be accepted in the spirit in which they are offered. I have already said that my subjects are as a rule contented, peaceful and law-abiding. For this blessing I have to thank my ancestors. They were singularly free from all religious and racial prejudices. Their wisdom and foresight induced them to employ Hindus and Muhammadans, Europeans and Parsis alike in carrying on the administration, and they reposed entire confidence in their officers, whatever religion, race, sect or creed they belonged to. Hence it followed that in the early part of the last century Raja Chundoo Lal was Minister of Hyderabad for over a quarter of a century. The two Dattardars (Record-keepers of the State) were Hindus whose descendants still enjoy the jagirs, offices and honours conferred by my predecessors. Inheriting as I did the policy of my forebears, I endeavoured to follow in their footsteps. My present Minister, the highest official in the State, is, as Your Excellency is aware, a Hindu. One of my four Moin-ul-Mahams is Mr. Casson Walker whose services have been lent to me by the Government of India. The Secretary to my Government in the Revenue Department is Mr. Dunlop who has retired from the British service and Mr. Hankin, who is a Government of India official, is the Inspector-General of my District Police. Although I am a strict Sunni myself, some of my Muhammadan noblemen and high officers of the State are Shias. Arabs and other Muhammadan races number among my State officials. Hindus of all sects, creeds, and denominations serve in my State and many hold high positions. The Revenue administration of one half of my State is at present entrusted to two Parsis who are Subadars (Commissioners of Divisions). It is in a great measure to this policy that I attribute

the contentment and well-being of my dominions. Your Excellency will, therefore, quite understand how gratified I was to learn of the wise, generous, and liberal policy pursued by Your Excellency and the Secretary of State for India in giving effect to the principles, announced in the Queen's Proclamation of 1858 and solemnly reaffirmed in the King-Emperor's gracious message to the Princes and Peoples of India in 1908, by appointing an Indian as a member of Your Executive Council and two Indians as members of the Council of the Secretary of State. This liberal policy as also the enlargement of the Legislative Councils will, I earnestly trust, serve to allay the present unrest and to remove altogether the seditious movement which is happily confined to a very small minority.

9. I am a great believer in conciliation and repression going hand in hand to cope with the present condition of India which is but transitory. While sedition should be localised and rooted out sternly and even mercilessly, deep sympathy and unreserved help should manifest themselves in all dealings with loyal subjects without distinction of creed, caste or colour. I am exceedingly glad that this view has commended itself to Your Excellency and I feel sure that the Indian Empire has now entered on a new and brighter era of peace and prosperity under the benign reign of His Majesty the King-Emperor.

(3)

Dated Kota, the 28th August 1909

From—His Highness the Maharao of Kota,

To—His Excellency the Viceroy and Governor-General of India

After compliments—I beg to acknowledge the receipt of Your Excellency's Kharita of the 6th August intimating that in Your Excellency's opinion the time had come when concerted action should be taken between the Government of India and the Ruling Princes against all persons endeavouring to spread seditious doctrines and to incite feelings of hostility among the people against the constituted forms of Government.

So far as my State is concerned I am happy to be able to inform Your Excellency, with the utmost confidence, that the baleful disease of sedition is absolutely unknown and, so far, no members of the party of sedition, either openly or disguisedly, have attempted to preach their noxious doctrines among my people. They probably were all aware that any such attempts would not be tolerated for a moment and that, if made, the persons concerned would be immediately turned out of the State.

Knowing that my people were engrossed in their own agricultural pursuits, that only an infinitesimal minority ever read a newspaper and that the knowledge that in certain remote parts of India a disloyal faction had endeavoured to foster ill-feeling to the British Government and had even perpetrated murderous and violent acts was confined to a few of the higher and official classes, I, at first, did not consider it desirable to excite the childlike curiosity of my people to know what it was all about, and thus draw their attention to the fact that such feelings did unfortunately exist and that unlawful acts of sedition had occurred in India, by promulgating throughout the State special orders dealing with sedition and with explosive substances. Moreover, the promulgation of such orders was not really necessary seeing that, although justice is administered on the lines of the British Codes, personal rule in the Kota State has not been entirely abandoned for rule by legislation and the Kota Courts would have no hesitation in trying a person for an offence not specially or very definitely defined in the Penal Code if directed to do so by the Darbar.

But although the issue of such orders was quite unnecessary so far as the Kota State was concerned, yet cases of attempts to preach sedition against the British Government having been discovered in other Native States, I thought it desirable to show the sedition-mongers in other parts of India that

the Kota Durbar were ready to do all they could, however slight their power might be, to assist the British Government, a Government to whom the State was bound by feelings of the deepest loyalty, devotion and gratitude, to stamp out sedition. Such action seemed likely to deter sedition-mongers from attempting to visit the State for the furtherance of their detestable ideas.

I accordingly issued orders on the 26th July 1909, which, I hope, will effectually prevent any attempts in future in my State either to make seditious utterances or to commit acts of violence by explosive substances.

Copies of my orders have, I understand, been forwarded to the Hon'ble the Agent to the Governor-General and have perhaps by now been submitted for Your Excellency's information. I trust that Your Excellency may be pleased to approve of them.

Special orders for the prevention and punishment of persons attempting to incite sedition or to commit acts of violence by means of explosive substances on the lines of the British Acts having thus been promulgated, there only remains for me to reply to Your Excellency's suggestion regarding the advantage to be obtained by co-operation in certain matters such as in circulating information and watching suspicious characters.

I venture to state that I am entirely in favour of the adoption of Your Excellency's suggestion which, if followed, should be of much practical value.

I am happy to be able to inform Your Excellency that in this respect also, I have been so fortunate as to have been able to anticipate Your Excellency's kind advice. The preventive measures already taken should, I think, be sufficient to prevent sedition-mongers establishing any footing in my State, and I would only add that the task of watching suspicious characters will be greatly facilitated if information, when available, of the probable visit of such persons to my State can be communicated by the British authorities.

In conclusion, I beg to assure Your Excellency that, if any further action in this matter on my part is desired, I will be only too happy to do my utmost to carry into effect the wishes which Your Excellency may be graciously pleased to communicate to me.

(4)

Dated the 4th September 1909.

From—Her Highness the Begum of Bhopal,

To—His Excellency the Viceroy and Governor-General of India.

After compliments.—I have to thank Your Excellency for your Kharita of the 6th August in which Your Excellency has asked my advice as to the best way of keeping sedition out of Native States.

I quite agree with Your Excellency in thinking that the seditionists are working not only against the British Administration, but also against the established order of Government and society. It is apparent that we are all in the same boat and those, therefore, who are working against the established order of Government are working against us.

The various Native States of India are so different to each other in the characteristics of their peoples and other circumstances of equal importance, that it is only the individual rulers of these States who can gauge these matters accurately in so far as their respective peoples are concerned. With due consideration to these circumstances, every Ruling Chief must, I suppose, have, on the lines of the steps taken in this connection by Your Excellency's Government, already thought out the best means for keeping or rooting sedition out of his State. In respect of all this important matter, I can, generally speaking, think of the following measures:—

I. The seditious newspapers to be suppressed and their career of mischief brought to a summary end.

II. Every Ruling Chief to establish, or if need be, to increase the strength of Secret Police within his territory.

III. All Ruling Chiefs to co-operate with each other in the matter of supplying information and watching bad characters. The Indian Government to be kept informed through the Political Department.

IV. Supervision of teachers in the schools. A little education in etiquette and some religious instruction to be introduced into the curriculums everywhere, so that proper foundation be laid of that loyalty and obedience without which education is not worthy of its name.

V. Exemplary punishments to be meted out to seditionists whenever caught working to attain their nefarious ends.

As far as my own State is concerned, I have every hope that the steps that have already been taken will be fruitful of good results and that my people will, God willing, remain as free from all contamination as they did during the troubled days of 1857

(5)

Dated Camp Nanyah, the 6th September 1909

From—His Highness the Maharao Raja of Bundi,

To—His Excellency the Viceroy and Governor-General of India

After compliments—I am in receipt of Your Excellency's very kind Kharita, dated the 6th August, from Simla, on the subject of the suppression of seditious movements in the Native States, and beg to thank Your Excellency very much for your kindness in asking my advice on so important a subject.

As remarked, the matter is really one in which the interests of the Paramount Power and the Ruling Chiefs are identical; and I beg to assure Your Excellency that I am always ready to co-operate with and serve the British Government, as far as lies in my power, in any matter that concerns the welfare of the empire.

The peace and benefits which India and the Ruling Princes have enjoyed under the kind aegis of the benign and merciful British Government are well known, and it is therefore our bounden duty to see that nothing should happen within our territories that may be prejudicial to the peaceful administration of the empire.

I have already issued a notification throughout my State warning all my subjects and officials against the spread of sedition and disloyalty to the established Government and imposing upon them the duty of arresting any dangerous or suspected persons whenever found in the State. Through Your Excellency's kindness no dangerous persons seem to have visited my State as yet, but if any venture to do so in the future they will be promptly arrested and deterrent punishment awarded them and information thereof will be submitted to the Political Officer for communication to Your Excellency.

From the copy of the notification which I beg to enclose herewith for Your Excellency's kind perusal, Your Excellency will, I hope, note that it has been printed in the Bundi dialect so that everybody might be able to understand it and act accordingly. A reward has been promised to all who help in this desirable object.

(6)

Dated the 23rd September 1909.

From—His Highness the Maharaja of Orkha,

To—His Excellency the Viceroy and Governor-General of India.

After compliments.—I thankfully beg to acknowledge the receipt of Your Excellency's kind and welcome letter of the 6th August 1909. Really I am

very much obliged to Your Excellency for kindly inviting my opinion on an important subject which greatly concerns the Indian Government.

It is evident from some cases of sedition occurred in certain Native States that the seditious party is endeavouring to get a footing in the Native States

As far as I can think I am perfectly sure that no Native Chief in India will ever like this disloyal movement getting into his State.

The loyalty and the devotion of the Indian Chiefs for the benign British Government are well known to Your Excellency. Moreover as well stated in Your Excellency's letter, I quite agree with Your Excellency that sedition and anarchism are injurious not only to the Indian Government but also to all administrations and the established order of society, the prevention of which is beneficial both to the Paramount Power and the Indian Chiefs alike and therefore I am perfectly sure that no Chief will ever sympathise with such agitators and will spare no means to prevent such agitation and punish the agitators.

I am heartily thankful to Your Excellency for the assurance Your Excellency has given in the letter about the non-interference policy of the Government in the internal affairs of the Native States.

I beg to inform Your Excellency that my State is quite free from this sedition and anarchism. My subjects have no such disloyal feelings up till now, and I pray that the Almighty will always be pleased to preserve their such feelings. However as a precautionary measure I have addressed a message in vernacular to my subjects for general information and warning, asking them to act up to my orders, to continue such loyal feelings towards His Majesty's Imperial Government, the translation of which I annex herewith for Your Excellency's kind perusal

Over and above this I have instructed my officers to be always on the watch for any suspicious character and to have a very keen eye over his movements, arrival, departure, &c., and to inform the neighbouring district officers when necessary without any delay, and I hope the neighbouring district officers will adopt the same measure. As far as I know I think I have adopted such a policy that sedition is not probable in my State, and it is not likely that any suspicious character if imported from outside may escape detection and punishment.

I am doubtful how far my humble opinion will meet with Your Excellency's approval, however I beg to say that if Your Excellency sees no objection to such a course I would like to convene a meeting of my brother Chiefs of Bundelkhand at a convenient place to all, and will put before them my suggestions regarding the prevention of sedition and after discussing the necessary points with them on the important subject of inter-statal co-operation I shall then be in a position to inform Your Excellency of the final result of our meeting, and I hope this will produce better results. I need hardly inform Your Excellency that my house has ever remained loyal to the British Government. The services rendered by my ancestors in the trying time of the Mutiny of 1857 are well known to Your Excellency. As for myself I respectfully beg to inform you that I was not wanting in those feelings of loyalty to the British Crown and as a proof of this my services are well known to Your Excellency when in 1893 dakhaiti was raging in Lalitpur and Gwalior territories and was spreading in the whole of Bundelkhand. On this and on all former occasions my loyalty has been amply appreciated and rewarded by the benign British Government from time to time. Let me assure Your Excellency that I always pray for the peace and prosperity of the benign British rule under whose fostering care the whole of India enjoys every blessed happiness of justice, order and tranquillity

In conclusion, let me express my hearty thanks for the keen interest Your Excellency always takes in the welfare of Indian Chiefs generally and my State and myself particularly

(7)

Dated Dewas, the 28th September 1909

From—His Highness the Raja of Dewas, Senior Branch,

To—His Excellency the Viceroy and Governor-General of India.

After compliments.—It is with extreme pleasure and with intense feelings of thankfulness that I acknowledge Your Excellency's Kharita, dated the 6th August 1909, regarding the suppression of sedition which is of equal importance both to the Paramount British Government and the Ruling Princes. I am in absolute agreement with Your Excellency's view that the time has arrived when we may be well prepared to work hand in hand with each other in circulating information and watching suspicious characters connected with sedition. Of course, Your Excellency has been pleased to state in your Kharita that there is no contemplation of formulating general rules or general course of action which may involve interference in the internal government of the Native States. I for one fully realise Your Excellency's sincere feelings in this matter and assure Your Excellency that not for a moment did I doubt otherwise. Further I am deeply indebted to Your Excellency for offering assistance to Native States generally and to my State in particular, in case of need. Here I need hardly write that my State and myself are always ready at the service, whenever required, of His Imperial Majesty King Edward VII, Emperor of India, and his Empire.

2. There can be no question, as Your Excellency expressed in your Kharita, that the party of sedition is endeavouring to extend its dark and malicious operations even in Native States. It is a well-known fact that the endeavours of the seditious party are directed not only against the Paramount British Government, but against all constituted forms of government in India, through an absolutely misunderstood sense of "Patriotism" and through an attachment to the popular idea of "Government by people," when every level-headed Indian must admit that India generally has not in any way shown its fitness for a popular Government. Personally, if I were to say a few words on this subject, I should declare that it is historically proved and even well realised by all sound-minded people that India cannot really attain to the standard of popular Government as understood in the West. Reasons for this are manifold and I feel, I may be digressing from the main point contained in Your Excellency's Kharita, if I were to write those reasons here in full.

3. I consider it a great privilege to have been asked by Your Excellency to offer my suggestions for suppressing the seditious movement. Now I proceed to make the following few suggestions, which may, I hope, be of some use in dealing with sedition throughout British India and Native States, if they recommend themselves to Your Excellency.

(1) *Education*—It is a well-known fact that the germs of the present unrest in India were laid in that benefactor of human race, *viz.*, education. It sounds strange, but there it exists. It is not that education itself is injurious, but much depends on the principles underlying an educational movement. In my opinion, the higher education, temporarily at least, may be made so dear as to prevent every ordinary man who generally has not got the instinct for taking the best advantage of education, and the whole system of education, from primary to higher, may well be combined, as far as practicable, with moral education. Personally, I am all for increasing educational institutions for the use of the public; but I feel that above primary education, which, I must say, ought to be as free as possible and within the reach of almost every person, it is certainly now-a-days a point for discussion as to whether higher education may not be made dear. I realise the difficulties of this question and would suggest that at least the principles of moral education may be more widely attended to in the educational line and that every head of an educational institution may be strictly directed to prevent boys and girls from reading or obtaining seditious writings or mixing with seditious gangs or meetings. Of course, a teacher cannot be responsible for a student after his school-hours, but it may be circulated to all the parents of the boys and girls, who wish to enter their children in schools or colleges, that they will

have to sign a bond for their good and clean conduct in respect of seditious movements, before they are admitted, and thus put the responsibility on the parents as well. Further, all private educational institutions may be obliged to conform to the above-mentioned principles.

(2) *Press*.—Really speaking, a good many of the present newspapers in India deserve to be totally stopped. But there is one point which may be taken fully into consideration. It is this. If the Government stops newspapers totally, there is always a likelihood of more secret societies being formed to exchange views on malicious and dishonourable topics. Hence, the question arises whether it is better to allow views on the movement to be given a free or controlled vent to them and thus get an idea of the movement, or to suppress the publicity of the views totally and thus give a chance to further secret societies. At the same time, Indian papers have reached a stage when they cannot be allowed to be published without more control, because they have been the cause of greatest harm. Hence, I suggest that both in British India and in Native States, the respective local Governments may appoint a committee or a person or an officer to review all the writings of the Press, excepting those pertaining to commerce, medicine, health and general advertisements, and those writings that are to be published under the orders of the Paramount British Government or under the orders of the Durbars of the Native States, before they are published, and thus prevent the minds of the people from being corrupted for nothing. Further, any violation of laws framed for directing the Press, may be severely and unfailingly checked. These remarks may also apply equally well to all kinds of publications and writings, such as pamphlets and books.

(3) *Summary trials and political punishments*.—It is, in my opinion, very necessary that seditious offences being political offences, they may be disposed of in a summary method and much publicity to the proceedings may be stopped, because this for nothing creates misunderstandings and gives room for unnecessary criticism. This may be extended practically throughout British India by the Paramount Government of India and by the Ruling Princes of all the Native States throughout their territories. In this connection, it must be stated that, whenever possible and advisable, the Political Law, on the lines of Act III of 1818, may be enforced in more instances and offenders may either be deported to other places from their own native places or kept in local jails till further orders, when it is thought proper to release them. I lay great stress on these two points and feel confident that, though they may appear arbitrary to some to start with, yet these methods of dealing with political offenders in India are quite suited to the country and the peoples and may prove of immense help to the British Government and to the Native States in the end.

(4) *Sadhus and Fakirs and others of the kind*.—Under the guise of religious mendicants, it is quite probable that many Sadhus and Fakirs and others of the kind move about preaching or communicating seditious views. Such people may be strictly watched and every person, who suspects any of these religious mendicants in any way connected with sedition, may be made compulsory by law to report the matter under penalty. Further, if such mendicants live or assemble in private houses temporarily or permanently, the owner of the house may be made by law responsible. The same remarks may apply to religious Samajes or bodies.

4. The above-stated are the few suggestions of mine for suppressing sedition in British India and for the Native Princes to do the same in their territories, which, I hope, may recommend themselves to Your Excellency. And I trust, Your Excellency will excuse me if there is delay in replying to Your Excellency's Khari'a, but I can assure Your Excellency that the delay is due to the weightiness of the subject.

5. In conclusion, I need hardly assure Your Excellency of my readiness to do my utmost to put down sedition within the limits of my territory and whenever necessary to be of help to the Paramount Government outside the State, because I fully realise that the interests of the Paramount British Government and my State are quite identical in this matter, and further

it is, I consider, my duty to be, as I have said above, ready at the service of His Imperial Majesty the King-Emperor, and to put a stop to anything improperly said, written or done against His Imperial Majesty's Government.

(8)

Dated Tonk, the 29th September 1909.

From—His Highness the Nargib of Tonk,

To—His Excellency the Viceroy and Governor-General of India

After compliments.—I beg to acknowledge the receipt of Your Excellency's kind Kharita, dated the 6th August 1909, received through the Political Agent, Harnoti and Tonk, and beg to express my heartfelt thanks that I have been called on to express an opinion on a matter which is of equal concern both to the Imperial Government and to the Native States. I greatly regret that there should exist such persons who have adopted or may adopt an attitude of sedition and insubordination against the British Government. They seem to have forgotten the innumerable obligations which they owe to the British Government—a Government whose sole care is to provide for the prosperity and welfare of the people of India, who has taught them civilisation, opened paths of progress for them and who preserves peace and order. Surely it is the greatest ingratitude to adopt a hostile attitude against such Government.

It is not secret from Your Excellency or the Imperial Government that I am a loyal and staunch friend of the British Government and wish to assure Your Excellency that I shall never deviate from this path and will ever remain a loyal supporter of the British Government. The ties that connect this State with the Imperial Government are stronger than those of other States, inasmuch as this State was granted by the British Government itself. I thus naturally look upon the extermination of the enemies of the British Government as my bounden duty, and it was with a view to prevent the propagation of sedition that six months ago I passed an Act, and as necessity may arise from time to time necessary additions will be made therein prohibiting my people from any connection or correspondence with those who have made it their profession to preach sedition against the British Government and directing them not to cherish or entertain any ideas antagonistic to the constituted form of Government, otherwise they will suffer severe penalties.

I concur with Your Excellency's proposal that the British Government and the Native States should inform each other of the arrival and movements of any seditious persons, and I assure Your Excellency that this principle shall be rigidly followed in my State. ●

(9)

Dated Jaora, the 30th September 1909.

From—His Highness the Nawab of Jaora,

To—His Excellency the Viceroy and Governor-General of India

After compliments.—I beg to acknowledge, with thanks, the receipt of Your Excellency's Kharita of the 6th August 1909.

I myself had, some months ago, conceived the idea expressed in the first part of Your Excellency's letter about sedition, and dreading lest its progress should reach the limits of my State, I had taken such steps as I could to guard against the contending evil and influence.

I might add, for Your Excellency's information, that on the 30th October 1908 the Jaora Durbar communicated to the Political Agent in Malwa that "the Jaora State does not contain either the admirers of Shivaji or the followers of Tilak and is therefore entirely free from any sedition or mischievous agitation. The ruler and his subjects are as ever united and strong in their loyalty and allegiance to the Crown * * * if there happens to be any

(seditious case) in future, the Durbar would lose no time in dealing strongly with the offender and in bringing the matter to your notice”.

I am very glad to say that what I declared ten months ago, holds true down to this day, and I confidently trust that the State shall as hitherto remain free from the taint for ever.

I beg to assure Your Excellency that any measures other than those described above which Your Excellency's Government may suggest or prescribe shall be most willingly acted upon by the Durbar.

I might also draw Your Excellency's attention to the Press. I admit that the Press has much to do in elevating mankind, but I also think that, without restriction or control, the Press is as just apt to err on the wrong side as to mark the right path on the other. I might go further and say that it is the Press or certain papers solely that have been the cause of widening the gulf between the rulers and the ruled, and that they are mainly responsible for the present situation. They have been the instruments of disseminating seditious ideas and thoughts among the public. Masses of the Indian population of any sect or creed are loyal to the core of their heart to the British Government. It is therefore necessary that the Press should not be allowed to play too freely with the ignorant public and excite religious feelings and susceptibilities of one community against the other. Consequently some measures are imperative to effect a closer scrutiny and control over the Press.

My next point is education. Religious education is the key-note to the formation of character. This important branch has to be neglected in schools, because owing to diverse creeds and nationalities, the Government cannot undertake to impart religious instruction and the people themselves do not seem to realise that ideal, as their sole anxiety is to give them English education as soon as their children are fit to receive it. With religious education there is also a subservience of indigenous language or mother tongue, which keeps back the educated youths from imbibing properly the noble traditions of their ancient lineage and family. They join the school early where they spend only a few hours a day and the rest with bad associates at home. If residential institutions were established with every school, it will have a beneficial effect on the moulding of the character of the boys. As for the required funds, the Government cannot, of course, take the whole burden upon its shoulders and the people must come forward to help themselves.

The desirable results may also be secured in some measure by the selection of good teachers, men who are endowed with noble ideas, matured counsel and judgment and free from any of the dangers of a little knowledge. It matters little to what religion these may profess to belong, since the analysis of all religions in the world shows in its composition the elements of the same code of morals and virtue. The pupils may safely be put in charge of such good and able hands not during school hours only, but for the whole period of their educational life.

Another cause which has assisted in bringing on the present state of affairs is the treatment of seditious according to law. Undoubtedly the British Government cannot but deal with such cases according to law, but what I mean is that the rigour of the law in particular matters calculated to endanger the Sovereign's prestige should be severe and quick. Regular trials like those that have recently been held in Bengal do, in my humble opinion, more harm than good, as the longer the proceedings are protracted, the greater are the chances for craftiness to do its work.

I feel under deep obligation to Your Excellency for your so kindly offering assistance to my State, and I beg to say that whenever I and my State stand in need of help, I shall most certainly approach Government.

(10)

Dated Ratlam, the 6th October 1909.

From—His Highness the Raja of Ratlam,

To—His Excellency the Viceroy and Governor-General of India

After compliments.—In acknowledging the receipt of Your Excellency's Kharita regarding measures to be adopted against the party of sedition which has been found endeavouring to establish branches in certain Native States, I would, in the first place, express my feeling of gratitude and pride that a statesman like Your Excellency should consider me worthy of being the recipient of your confidence and take counsel with me in this matter, which is indeed of grave importance both to the Supreme Government and to the Native Princes

2. In the second place, I am delighted to be able to observe that within the limits of my State no seditious or revolutionary movement exists. On the contrary, all my subjects and officials love the British Government as much as they love me, and should any evil-minded persons enter this State clandestinely to sow seeds of disaffection towards the British Government, they will, I confidently prophesy, meet with scant success and on being detected will certainly fare very badly indeed

3. The blessing of peace under the enlightened and benign British Government, which blessing was unknown in olden times, is threatened by this baneful movement; and it is the duty of every Native Prince to readily combine with the Paramount Power to eradicate the rank growth of seditious and revolutionary spirit observable in a few ungrateful persons belonging to two or three communities, who have profited the most by the educational facilities graciously offered by the civilised British rule

4. To be able to thwart the machinations of the party of sedition, we must have a clear notion of their *modus operandi*. The society seems to have been divided into four departments, *viz.*—(1) the mechanical, (2) educational, (3) the journalistic, and (4) the spiritual

5. We have therefore to deal with (1) the actual murderers who are the maddened school-boys or collegians; (2) the imparters of national education, who literally as well as metaphorically teach the young idea how to shoot; (3) the ultra-patriotic journalists who always criticise Government policy adversely and try to make people believe that there is legalised and systematic loot in the present *régime*, and (4) missionaries or religious workers who are by no means as innocent as lambs and work on the religious sentiments of the villagers and the ignorant, whose number is legion.

6. Now, the Penal Code, the Explosive Substances Act and other Acts passed from time to time for maintaining law and order will look after the first department effectually. It is, however, necessary to advise that the Government will lose no time in framing new laws whenever the existing legislation will be found inadequate to cope with any emergency.

7. It has been observed in a majority of cases that it is among the student population that the agitation has mostly found a home. The conspirators have found that their older countrymen are not amenable to their preachings which are apparently shortsighted and of a disastrous character and have therefore worked on the highly impressionable youthful minds. The University reform scheme will deal with this department. The selection of teachers, especially of heads of schools and colleges, should be carefully made, or the young mind will be allowed to be poisoned till the disease will become chronic and incurable.

8. The Newspaper (Incitement to Offences) Act deals with the journals which are too patriotic. But legal technicalities which are growing more and more complex every day afford so many loop-holes through which the offenders often escape when prosecuted. This therefore necessitates the organisation of a press censorship in this country. Under the present circumstances, the courts of justice on the publication of seditious matter in a paper can rule whether it should not cease to exist; but, as pointed out above, the court's decision is hampered by legal technicalities of an intricate nature. The formation

of a committee of press censors should act as a wholesome control on cheap and nasty journals. So much for the third department.

9. But the last department of the society of sedition, *viz.*, the spiritual has not been hitherto paid any attention to.

10. That Hindus and for the matter of that all oriental peoples are swayed more by religion than by anything else is quite patent to the party of sedition as it is to the Government themselves. The latter have hitherto adopted, and rightly adopted the policy of allowing the different communities perfect freedom in the matter of their religious beliefs. So much so that even public nuisances have been tolerated if committed by any section in the name of religion. As an example in point, the feeling of tenderness to animal life, even vermin life, shown by Jains and some Hindus has been respected by Government to such an extent that they refrain from enforcing the destruction of rats recommended by eminent medical authorities as a preventive measure against plague. Perhaps so far the Government have been acting wisely; but when it is noticed that seditionists are seeking to connect their anarchical movement with religion, and the political Sadhu is abroad, it is high time to change the policy of non-interference in so-called religious affairs.

11. In the name of religion the Thugs murdered innocent people, but Government was not deterred from exterminating thuggism from their anxiety not to interfere with so-called religious beliefs. Sati also has been abolished, though it had been practised under the sanction of religious books.

12. The new religion which is being now preached by so-called religious associations under the pretence of reviving old religions is nothing but the cult of the swadeshi, the adoration of the motherland, self-respect, worship of heroes like Shivaji, and the doctrine of India for the Indians only.

13. It pains me to write as above; but already religion has played a prominent part in this matter, for religious books were found in almost every search made for weapons and bombs. The rôle of the priest or the Sadhu is most convenient, and rulers have bowed and do bow to religious preachers. These people generally distort the real import of religious precepts and thereby vitiate the public mind. The founders are sly enough to flatter the Government by an occasional address breathing loyalty and friendship; but it is essential to check this sudden growth of piety and religious propaganda.

14. These are my views of the present state of affairs. I have expressed them freely.

15. To recapitulate, then, we must watch suspicious characters and not allow them to enter our States and combine in circulating information about the movements of such people. We must exercise due care in the selection of at least the heads of the educational institutions, schools and colleges. In the absence of censorship the Native States must prohibit the circulation in their territories of the papers whose one object is to decry everything British. We must view with suspicion any sudden growth of religious activity and we must set a good example by publicly expressing our horror of seditious and anarchical movements; and this is the duty we owe to the British Government who have secured to us our possession of the States we rule over

(11)

Dated the 17th October 1909

From—His Highness the Maharaja of Kishangarh,

To—His Excellency the Viceroy and Governor-General of India.

After compliments.—I write to acknowledge the receipt of Your Excellency's Kharita, dated Simla, the 6th August 1909, which was delivered to me by the Resident, Colonel Showers, on the 21th ultimo. The subject is not quite new to me, as I have been watching during the last two years, with great concern, the trend of events in British India. The campaign of vilification and calumny directed ungratefully against the Paramount Power and its officers, whose sole

object is India's peace and prosperity, has been for a long time prosecuted by professional libellers whose wicked industry has been aided by the intrigues of a few disappointed and over-ambitious young men. The evil has spread; it has infected certain Native States; and recent events of violence and lawlessness such as have shocked humanity, go to show that the party of sedition has not yet slackened its efforts, much less abandoned them. The Ruling Princes of India, even more than the Paramount Power, are interested in stamping out the evil, and no one is better supplied with weapons than they to scatter and defeat the forces of anarchy should they make appearance within their dominions.

I feel quite flattered in being asked to co-operate with the Paramount Power in fighting a common enemy; and I take this occasion to assure Your Excellency that no sacrifice will be deemed by me too great to make in the interests of the Government, whose protection and friendship my State has uninterruptedly enjoyed for nearly a century.

As regards the present position of affairs in my State, I fully believe that it is absolutely free so far from the taint of sedition, such as I have described above; and that the propagators of anarchical doctrines have never thought it safe to direct their mischievous activities in any part of my territory. I do not apprehend that any of my subjects will ever be tempted into the criminal folly of entertaining feelings of disaffection and ill-will against the British Government, but what I do fear is that the malignant insanity which affected certain sections of the community in British India will, if not checked at its source, continue to spread through the land, and some of my peaceful subjects may unwittingly be involved in the mischief. It is also probable that evil-minded persons finding their actions watched in British India may take advantage of our less efficient police systems, and make use of our territory as centres from which to carry on their campaign against the Government. I need not say I shall do all in my power to prevent this happening; but at the same time if I may say so, it is at an earlier stage that the mischief should be checked, viz., before it has had time to spread beyond British India.

I am aware that much of the anarchical propaganda is diffused under the seductive name of religion, and hence in a great measure the difficulty of detecting crime of this kind. I entirely concur with Your Excellency that rather than wait for the advent of the evil, it would be wise to concert measures in time for its prevention. I have directed my Council to include in the schedule of offences all acts and omissions which have been made penal in British India under the Explosive Substances Act, 1908, the Newspaper (Incitement to Offences) Act, 1908, the Prevention of Seditious Meetings Act, 1907: offences of this nature will be considered equally penal whether committed or intended to be committed in Kishangarh or British India. The procedure, which I propose adopting with respect to such seditious cases that may come to light, is that all trials will be held in a summary way, by the Court in my State that can pass the highest sentences; and that all sentences passed will be final, subject only to my confirmation. I cannot but think that long drawn-out trials in such cases are an encouragement to, rather than a deterrent against, the continuance of these offences. I will further order that it will be obligatory upon every subject of mine to give forthwith to the nearest Magistrate or Police Officer information of the commission or intention to commit any of the offences alluded to above, whether in Kishangarh territory or British India. Any one withholding information will be seriously dealt with; so also any one harbouring or screening an offender of this class, whether he be my subject or not.

To make my views universally known, I also propose issuing a proclamation on the occasion of the Dashehra, when all my nobles and high officials will be assembled. I will then emphatically proclaim my utmost abhorrence and detestation of the vile deeds recently enacted in British India and England; and I will exhort my subjects to help me in keeping out of my territory the enemies of the British Government under whose aegis I am enabled to maintain a just and prosperous rule in the State.

In circulating information and watching suspicious characters, I am willing to co-operate with the British Government in any way it may be desired, and I will now take, moreover, a personal interest in the matter, and be ready both in this and any other matter that may arise to devote my utmost endeavours to the assistance of the Paramount Power.

Thanking Your Excellency again for consulting me.

(12)

Dated Udaipur, the 19th October 1909.

From—His Highness the Maharana of Udaipur, Mewar,

To—His Excellency the Viceroy and Governor-General of India

After compliments.—I write to acknowledge, with thanks, the receipt of Your Excellency's Kharita of the 6th August, asking my advice as regards measures to be adopted in connection with the mischievous efforts of some seditious people working in certain parts of British India with a view to create disquietude in the peaceful administration of the British Government and to spread their malevolent influence in other quarters as well. I deeply regret that those ill-advised people, under disguise of doing good to their country, have created an agitation which is detrimental to all good government and social administration. I believe, and every one will agree with me, that those mischievous people are suicidal in their attempts and will bring ruin on themselves.

It is a great disgrace to their name as also their religious beliefs that, in spite of the great prosperity India has been enjoying under the British régime, those people are acting in such an ungrateful way. I also endorse the opinion that such seditious attempts must be nipped in the bud; and the measures adopted by the British Government were undoubtedly expedient on the occasion to preserve the peace of the country.

All Rulers of Native States should heartily co-operate in guarding their respective subjects from mixing with those ill-advised people, who devise such hateful conspiracies and agitations, and they should try their best to realise the wishes of the Government of India on this occasion, nor should they allow such agitations to spread in their respective territories.

I am, however, glad to declare that in my territory there is no sign of any seditious movement at the present moment, and I hope there will be none in the future too. As this State of Mewar always desires the welfare of the British Government, its subjects will ever remain loyal, and will always try to undo the efforts of the agitators against the British Government. In case I discern any signs of such movements, I shall at once adopt strong measures to suppress them. I have, with a view to warn my subjects, already issued a proclamation to the effect that they should not be misled by the wicked advice of mischievous agitators against the British Government.

In conclusion, I desire to express the high consideration which I entertain for Your Excellency.

(13)

Dated Jammu, the 28th October 1909.

From—His Highness the Maharaja of Jammu and Kashmir,

To—His Excellency the Viceroy and Governor-General of India

After compliments.—I have much pleasure in acknowledging the receipt of Your Excellency's Kharita, dated the 6th August 1909, conveying Your Excellency's warm approval of my humble efforts in connection with the suppression of feelings of sedition and unrest that have, unfortunately, for some time past, been prevailing in certain parts of the Indian Empire.

I am extremely glad to be able to tell Your Excellency that, with the exception of one solitary instance which, as Your Excellency is perhaps aware, was dealt with with the utmost promptitude possible, there has been no sign of any unrest or disaffection in my territories, and I think I can safely give Your Excellency my sincerest assurance that my subjects, faithful to the traditions

of the past, entertain sentiments of profound loyalty and devotion to the Paramount Power. It is a matter of no less gratification to me to add, for Your Excellency's information, that those feelings of loyalty and devotion which both the ruling family and its subjects have cherished as a sacred trust since the State was recruited under the aegis of the British Raj have been strengthened by the notification which, Your Excellency is aware, I took care to issue in 1907 as a precautionary measure impressing upon my people in the strongest and clearest terms, possible that all feelings of anarchy and sedition are ruinous to the peace of the country, and as such are looked upon by me with the deepest abhorrence and detestation.

I need hardly submit to Your Excellency that, being fully alive to the patent fact that it is of vital importance alike to the Paramount Power and its feudatories to co-operate in preserving peace and order in the empire, I have, since the first appearance of the signs of disaffection and discontent among certain perverted and irresponsible people in British India, not only kept a most watchful eye on my subjects, but have thought it fit to adopt stringent measures to keep undesirable and suspicious characters out of my State and to otherwise guard against any possible dissemination of any seditious ideas among my people.

While heartily thanking Your Excellency for the honour done me by kindly giving me an opportunity to express my opinion on the delicate and vexed question of how to suppress unrest and sedition in Native States generally, I venture to state that, so far as I am aware, the few incidents of a seditious character that might come to notice in some of the Native States are by no means of local origin, being entirely traceable to outside evil influence. I, for one, am firmly convinced of the staunch and unshaken loyalty and devotion of the Indian Chiefs and their subjects, and think that seditious movements or anything inimical to the interest of the British Raj can find no footing there. But in view of the fact that dangerous elements may enter State territory secretly and unobserved and corrupt popular minds, if proper watch is not kept on arrivals of such elements from outside, I consider that the Chiefs should exert their personal influence on their subjects to prevent their imbibing poisonous ideas of sedition and anarchy and should put down promptly and with a strong hand the least symptom of demonstrations that can even be remotely connected with sedition and unrest; that secret and vigilant watch should be kept on the movements of irresponsible and suspicious persons visiting the State territories; that circulation of disloyal and inflammatory literature should altogether be put a stop to; and that last, though not the least, particular care should be taken to see that teachers and professors of schools and colleges in the several States are men of high religious and moral principles, free from any doubtful political views and ideals, so that the rising generation, under their care, may grow to be perfectly loyal and faithful citizens of the British Empire.

But to give a practical shape to these and similar other allied matters and to achieve the best results, it is essential, I think, for the Chiefs to mutually co-operate and to have opportunities of freely exchanging their views with one another. Considering the peculiar nature of the case, this seems to me to be the most suitable means by which prompt and effective measures could be taken to deal with the situation.

As regards the question as to how the desired co-operation may be effected, I leave the matter to Your Excellency's deliberation and wise judgment. I shall anxiously await Your Excellency's advice before I take any further action in the matter.

(14)

Dated Dholpur, the 30th October 1909.

From—His Highness the Maharaj Rana of Dholpur,

To—His Excellency the Viceroy and Governor-General of India.

After compliments—Your Excellency's esteemed Kharita of the 6th August regarding the endeavours of the persons who are trying to spread sedition in British India, as well as in certain Native States, was duly received by me.

I hasten to thank Your Excellency most cordially for the timely advice and warning conveyed therein.

I am quite alive to the fact that the welfare of the Paramount Power is the welfare of the Native States.

Although no signs whatsoever of the mischievous activities of the sedition-mongers have yet been discovered in my State, I have always been wide awake in this connection, and the State authorities are under instructions to be very vigilant and to be on the watch as regards the movements of any suspicious characters. Moreover, with a view to dealing promptly with any case of sedition that may occur in the future, as well as to minimising any chances of such an emergency arising, I have issued certain orders, a copy of which is herewith enclosed for favour of Your Excellency's perusal.

I feel highly honoured at Your Excellency asking my humble advice in the matter.

My humble opinion is as follows:—

- (a) A regular system of exchanging information between the Native States and the British Police should be established, and whenever necessary these reports regarding the movements of seditious characters should be made by telegram.
- (b) All the newspapers likely to publish seditious articles should be severely censored, i.e., more than they are now.
- (c) I have been observing carefully the judgment passed on persons who have been convicted of sedition, and in my humble opinion they have all been too leniently dealt with.

I assure Your Excellency that my State will always be at Your Excellency's service and we will spill our blood if need be.

Any order or advice that Your Excellency may be pleased to favour us with will be received with due respect.

(15)

Dated Rewah Fort, the 2nd November 1909.

From—His Highness the Maharaja of Rewah,

To—His Excellency the Viceroy and Governor-General of India.

After compliments.—I am much obliged for Your Excellency's Kharita of the 6th August last and for the compliment paid in consulting me about a matter, which, as Your Excellency remarks, is one in which the interests of the Paramount Power and Ruling Princes of India are identical.

2. I learn from newspapers that the seditionists have endeavoured to gain a footing in certain Native States, but I believe they have been foiled. I am glad to say that there has been no trouble in my State. My people are loyal and I have heard of no attempts being made in that nefarious direction in my territories. Should any steps be necessary executive or legal action can be taken by me at once, and I wish to assure Your Excellency that the Rewah Durbar will always most gladly co-operate with the officers of Your Excellency's Government in the suppression of the seditious propaganda and political crime. I have warned my chief officers in the districts and at the headquarters to keep a careful watch over suspicious characters so that action may be taken here, if necessary, or information circulated to Government officers in British India.

3. Thanking Your Excellency for the very kind offer of assistance.

(16)

Dated Jodhpur, the 3rd November 1909.

From—His Highness the Maharaja of Jodhpur,

To—His Excellency the Viceroy and Governor-General of India.

After compliments.—I beg to acknowledge with many thanks the receipt of Your Excellency's kind Kharita, dated the 6th August last.

t2. I have been watching with much concern the movement set up by sedition-mongers in certain Native States; but as regards Marwar, it is needless for me to assure Your Excellency that they will be given no quarter.

3. At present their *modus operandi* seems to be—

- (1) the criminal use of explosives;
- (2) the preaching of sedition;
- (3) the dissemination of seditious writings, whether by leaflets, pamphlets or periodicals; and
- (4) malevolent criticism of the actions of the Supreme Government.

4. With regard to (1), I have already taken the necessary steps by promulgating an Explosive Act in May last. It is my sincere belief that the stern attitude adopted by the Durbar will hardly afford any one the opportunity of creating a depôt for, or of keeping or using any explosives in this country, or of finding shelter in Marwar after they have been guilty of any of the offences included under the said Act. To place matters on a constitutional basis, I am, with the entire concurrence of my nobles and people, passing an Act making actions falling under categories (2), (3) and (4) penal, and I take this opportunity of submitting a copy of the same for Your Excellency's information.

5. I would at the same time ask Your Excellency's Government to include offences under sub-heads (2), (3) and (4) in article 5 of our Extradition Treaty.

6. For offences that are likely to fall under sections 3, 8, and 9 of my Act, I would feel obliged, as Your Excellency has fore-shadowed in the 2nd paragraph of Your Excellency's Kharita, if the Criminal Intelligence Department be ordered to furnish my Durbar with such information as may enable them to watch suspicious characters and to stop the circulation of seditious writings.

7. This Durbar has ever been and shall always be ready to co-operate with the Supreme Government in any measure calculated to strengthen and consolidate the British Empire and to arrest and eradicate seditious movements.

8. It shall ever be my pleasant duty to do my best in concerting measures against the enemy of the British Empire, whom I consider as my personal enemy.

(17)

Dated Mysore Palace, the 11th November 1909.

From—His Highness the Maharaja of Mysore,

To—His Excellency the Viceroy and Governor-General of India.

After compliments—In acknowledging the receipt of Your Excellency's Kharita of the 6th August last, I desire to express my appreciation of the confidence which Your Excellency has reposed in me by writing so frankly and fully on the subject of "Sedition in the Native States of India". The question is one which has been the subject of anxious consideration on my part, and I can assure Your Excellency that I shall never relax my efforts to prevent the nefarious doctrines of sedition from taking root in Mysore. I welcome the opportunity which Your Excellency has given me of expressing my opinions on the subject with a view to our mutually co-operating against a common danger.

It is, as Your Excellency points out, impossible to contemplate the adoption of any general rules or general course of action, and I trust therefore that Your Excellency will be satisfied with a general assurance on my part that I am resolved to deal promptly and rigorously with anarchy and sedition in whatever shape it may present itself within the borders of my State. No preacher of seditious doctrines shall be permitted to poison the minds of my subjects, and I shall promptly repress any attempt to sow the seeds of sedition either by prosecuting the offending individual under the criminal law or

by expelling him from my dominions. My own magistracy and police are on the alert to discover and report the advent of all seditious preachers, and I shall, if necessary, issue renewed and stringent orders on the subject. It is not, however, sufficient in my opinion for the Ruler of a Native State to merely discountenance the open preaching of sedition, for I hold that every Ruling Chief is bound to let it be clearly understood that he will view with strong displeasure any person, however high his rank and however valuable his public services, who in any way associates himself with doctrines which have produced the well-known extremist party in British India.

I shall not hesitate to express my reprobation of the entertainment of extremist views whenever an occasion should arise.

As regards seditious writings in the newspapers, I have armed myself by means of the Mysore Newspaper Regulation with ample and unrestricted powers to prevent the circulation, through the press, of anarchical and seditious propaganda among my subjects. I venture to observe in this connection that the distinguishing feature of the above Regulation is the complete power which it gives to the Executive Government of my State to deal with the evil against which the Regulation is aimed. From my point of view it seems a cardinal error in a country like India to tie the hands of the executive in dealing with the seditious press and to allow the tedious, cumbersome and expensive machinery of the Courts of Law to decide the question of fact whether or not a particular newspaper is seditious and should be suppressed. It is, I consider, essential that the executive Government should have a free hand to deal promptly and vigorously with seditious journalism without any interference from the Courts of Law, and I earnestly commend this prominent feature of the Mysore Regulation to Your Excellency's consideration. I may conclude this portion of my argument by assuring Your Excellency that I have found this Regulation a most useful and efficacious weapon against sedition. The attacks which have been made in the press upon the legislation in question have caused me no concern, for I feel that it is only the actual evil-doers who will be affected by the new law and that no really loyal subject need apprehend that his legitimate rights will be in any measure curtailed thereby. I am convinced that the Regulation was a wise and most necessary measure and I have no intention of modifying it.

Your Excellency refers in the second paragraph of the letter under reply to a necessity that may possibly arise for the Indian Princes to combine with the Government of India in some matters such as circulating information and the surveillance of individuals suspected of sedition. On this point I need hardly say that I should give my most careful consideration to any further suggestions that it may occur to Your Excellency's Government to make to me. I myself contemplate introducing on British Indian lines a more careful supervision over the publications of the vernacular press of my province by means of periodical extracts translated from the various newspapers and printed for circulation among the principal officers of the magistracy and police.

In conclusion, I may fairly claim for my own people that they have always retained a vivid recollection of the many benefits which Mysore has received from British rule. With the exception of an ebullition on the part of the local press (the handiwork of a very small and irresponsible section of the educated classes among my subjects influenced by wild utterances of their brethren elsewhere), which was met and promptly suppressed by the enactment of the Newspaper Regulation, I can confidently assert that there are no more loyal subjects of His Majesty in India than the people of Mysore. Anarchy and sedition have so far never taken root in my dominions, and I venture to say that universal feeling among my subjects is one of friendliness, gratitude and loyalty towards the Paramount Power. It is my fervent prayer that this sentiment may long continue.

I deeply appreciate the feeling of consideration for myself to which Your Excellency has given expression. I take this opportunity to express on my part the great regard which I feel for Your Excellency, and with feelings of high consideration and respect I beg to subscribe myself.

(18)

Dated Lakshmi Vilas Palace, Baroda, the 19th November 1909.

From—His Highness the Maharaja of Baroda,

To—His Excellency the Viceroy and Governor-General of India.

After compliments.—I have had the pleasure of receiving, by the hands of my friend Mr. Bosanquet, Your Excellency's esteemed Kharita, dated the 6th August last, conveying a warning that seditious people are endeavouring to establish their evil doctrines and practices in the Native States of India, and seeking my counsel as to how we can best assist one another in stamping out the common enemy.

2. I am deeply concerned to find that a new element has unfortunately been introduced into the country which not only aims at the embarrassment of the British administration, but works openly or covertly against the constituted order of society

3. The extent to which sedition has actually spread in Native States is not known to me. I was anxious to inform myself more fully on this subject, and to know the condition of affairs in other States generally, before replying to Your Excellency's Kharita. I was informed, however, through the Resident that such information could not be communicated, and I was referred to such reports as had appeared in newspapers. Judging from these reports there has been trouble only in one or two States, and I trust and hope that the evil will not spread any further

4. Your Excellency rightly observes that the interests of the Ruling Princes and the Paramount Power are identical, and I fully agree with Your Excellency in thinking that much good may result from a full, frank and friendly discussion on this grave question. It is obviously the duty of every Government to stamp out the forces which make for anarchy and sedition.

5. Since receipt of Your Excellency's Kharita I have obtained full information from my Police Department, and have also caused a Note to be drawn up by my Minister, with regard to the influence which itinerant men, mostly from British territory, have sought to exert on my State, and the precautions which have been taken. Copy of a Memorandum prepared for my information by my Minister is enclosed for the information of your Government. The subject receives the continuous attention of my officers, and such measures as may be considered needful from time to time will be adopted in the future.

6. I conclude by assuring Your Excellency that I am deeply conscious of my own responsibility in preserving peace and tranquillity in my State. I shall welcome any opportunities for a close consultation in these matters with your Government, whenever necessary; and I shall ever be ready to cordially respond to any reasonable call for co-operation and assistance in repressing anarchy and sedition.

7. With an expression of the high consideration I entertain for Your Excellency, &c.

Minister's Note.

Itinerant lecturers from outside occasionally visit the State of Baroda with the object of preaching reformation, or greater devotion to religion, or the encouragement of goods of Indian manufacture, &c. In course of these lectures, which are themselves harmless, doctrines are sometimes introduced which are objectionable. The Police have instructions to be watchful, and take the necessary action in such cases.

2. It appears that in the course of 18 months from the beginning of the year 1908, there were some thirty visitors, mostly from British India, whose movements were watched by the Police. Most of them were harmless lecturers who spoke on the Swadeshi movement, on unity between Hindus and Muhammadans, on the preservation of cows, on industries, on export of grain, on national education and physical culture, on the four stages of life and on caste,

on the caste rights of goldsmiths and blacksmiths, on the Hindu, Muham-madan, Christian and Buddhist religions, on Indians in South Africa, on the Vedas and the Vedic religion, and on similar subjects. A few of these visitors spoke on subjects of a distinctly political character or in a tone which was inflammatory; they were all watched, and soon left the State. In some other cases, the subject of the proposed lectures was the Swadeshi movement, but as the speakers were known to be political agitators, no meetings were permitted to be held.

3. Within the last few years, the Residency also brought to the notice of this Government a number of cases in which itinerant preachers from outside entered the State with the object of disseminating their views and doctrines among the people. His Highness's Government have responded to these friendly communications in every instance, have supplied information when information was asked for, have made enquiries, and have taken the necessary action when any action was called for.

4. Newspapers in this State, which are in their infancy, and generally uninformed, at times write articles in connection with these movements. Whenever anything of an objectionable character is published in them, the editors concerned are sent for and reprimanded, and in one recent case, the editor publicly apologised for his indiscreet writings. The Rules relating to Printing Presses and Newspapers in the State, framed many years ago, have recently been revised in view of the present state of political unrest in some parts of British India, and the question of a further revision, if need be, is always before the eyes of the Government.

5. Teachers and pupils of the several educational institutions in the State have hitherto held themselves aloof from associating themselves with political movements, and taking any part in organising and carrying on political agitation. The principles laid down by the Government of India in 1907 with the object of protecting higher education in India from this danger, were communicated to His Highness's Government by the Resident, and all the educational authorities in the State have been instructed to bear them in mind, and act up to the spirit of the same.

6. The Police of the State have instructions to be vigilant, and to bring promptly to notice all matters relating to seditious movements. The machinery for obtaining information has recently been reorganised. And with a view to arm the Police with more effective powers for the purposes of prevention, an amendment of the Police Act is now under consideration.

BARODA :
The 31st October 1909.

ROMESH DUTT,
Dewan.

(19)

Dated Gwahor, the 3rd December 1909.

From—His Highness the Maharaja Scindia of Gwahor,

To—His Excellency the Viceroy and Governor-General of India.

After compliments.—I have been much honoured and gratified by receiving Your Excellency's gracious letter of 6th August appreciating my action in the matter of sedition, and I am grateful for the confidence reposed in me by asking for my advice as to the best way of keeping sedition out of Native States generally.

2. The question is undoubtedly a grave one, affecting as it does the future well-being of India. Therefore I feel, it particularly behoves those who preside over the destinies of people and have large personal stakes, to do all in their power, to grapple with it vigorously till they have solved it satisfactorily.

3. The gravity of the question is only equalled, if not surpassed, by its delicacy, at least in the aspect in which Your Excellency has asked me to approach it.

4. I shall try to give my opinion frankly according to my lights and experience.

5. Whatever proportions sedition may have assumed in the country at large, including the Native States, I make no doubt that the personal loyalty of the Rulers of Native States to the British Throne remains and will always remain unshaken and above suspicion and also that they all desire peace, contentment and prosperity to reign in the land. And their loyalty is only natural, as they cannot but recognise that the permanent paramountcy of the British Government is an indispensable condition of their own existence and prosperity.

6. These sentiments of Native Chiefs cannot but be reflected in their administrations and cannot fail to permeate to the humblest of their subjects by a natural process. I cannot therefore help thinking that in Native States at any rate, the number of people entertaining questionable feelings towards the British Government must be infinitesimal, and such feelings wherever they exist must be entirely the product of extraneous influences.

7. The problem, therefore, is :—

- (1) How to prevent the importation into the Native States of ideas and feelings not in accord with their traditions, and
- (2) The eradication of those ideas and the punishment of persons guilty of holding them, if they have found their way in, unnoticed.

8. A suitable amendment or extension of the Criminal Law bearing on seditious movements should be introduced wherever necessary.

9. Even more effective than the above, would be the formation of "Vigilance Committees" composed of leaders of different communities who are also men of staunch convictions and are earnest supporters of law and order. These I now propose forming in my own State and ranging them on the side of the Durbar for the purpose of inculcating in all, by precept and example, a sense of the futility and wickedness of brewing disorder and anarchy and the wisdom of pursuing healthy avocations and profitable callings. These committees might also usefully serve as mediums for bringing to the notice of the Durbar, cases which may baffle their own private efforts.

10. Along with this, special care should be taken to see that the best possible influences are brought to bear upon the students of schools and colleges, and that all engaged in the profession of teaching take every possible opportunity of instilling correct notions into the minds of their pupils.

11. These steps supplemented by a public avowal of the convictions and policy of the Rulers on the subject of sedition, whether in the form of messages to their subjects or any other form, couched in unmistakable terms should go a long way towards keeping the people aloof from any proceeding designed to embarrass or weaken the authority of the British Government.

As an instance of the salutary effect of such an appeal or proclamation, I may cite the action taken by me at the last Singhashta Fair in Ujjain which had brought together some 6 lakhs of people of all grades and shades of opinion from all parts of the country.

12. The last point I would touch upon is the importation of seditious literature into the Native States. In regard to that, the Native States are practically helpless as the evil has to be checked at its source and this can only be done by the Government.

13. To show what measures I have adopted and how the foregoing suggestions could be given effect to, I beg to forward, for Your Excellency's perusal, copies of certain papers one of which has, I believe, been already brought to Your Excellency's notice.

(20)

Dated Bikaner, the 29th December 1909.

From—His Highness the Maharaja of Bikaner,

To—His Excellency the Viceroy and Governor-General of India.

After compliments.—I beg to gratefully acknowledge receipt of Your Excellency's kind Kharita of the 6th August 1909, and to tender my sincere apologies for the great delay in replying to the same, which I greatly regret and which has been due to a combination of circumstances and chiefly to domestic anxieties and trouble, which, as Your Excellency is aware, culminated in the lamentable death of my mother, and for the same reasons I beg that Your Excellency will be kind enough to forgive me.

Your Excellency's consulting the Ruling Princes and Chiefs of India on such a subject has, I feel sure, not only honoured and gratified them, but has also, I would venture to add, given another proof—not that one was wanted—of the sincere friendship which Your Excellency evinces for, and the genuine interest Your Excellency takes in, the Protected States of India and their Rulers, and of Your Excellency's solicitude that as "Pillars of the Empire" they should take their proper place and share the responsibilities and anxieties of the Supreme Government; and it is my humble belief that such steps are bound to result in good both to the Imperial Government and to the States themselves.

I am sure that no one can but realise that the movement of the party of sedition is, as Your Excellency remarks, directed not only against the British Government but against all constituted forms of government and the established order of society and that the matter is one in which the interests of the Paramount Power and the Ruling Princes of India are identical, and I think it can confidently be expected that Your Excellency will find—and no doubt has already found—that the Ruling Chiefs of India will, as in the past, vigorously rank themselves on the side of the Government which is also that of law and order. Already several instances are forthcoming of the staunch loyalty of the Chiefs and of their stepping forth in no hesitating manner and doing their utmost to co-operate with the Government, where seditionists have been tried and brought to book or substantial measures and precautions have been taken to prevent their States and subjects from getting infected by this most objectionable movement.

And there is every reason why this should be so—from whichever point of view the matter may be looked at. I would beg Your Excellency to believe that apart from interests being identical, there is a marked degree of true loyalty and genuine devotion towards their Sovereign on the part of the Chiefs, and that that is very real in spite of the scepticism of certain ill-informed and ignorant persons who affirm it to be based on mere selfish motives and worldly considerations. Our Hindu religion—and no doubt the Muhammadan religion as well—teaches us this; indeed it is one of its first principles, and history bears testimony to my assertion even as regards the past and under Sovereigns and Governments that contrast strangely and very differently to our present King-Emperor and His Majesty's Government out here. Motives of self-preservation also, looking at it from the worldly point of view, necessitate our energetic co-operation with the Government in this direction and we are also bound by our Treaties to do so.

It is difficult to suggest for British India anything more than what has already been, and is being, done to stamp out or check the spread of this curse where—if I may be permitted to say so—all sensible persons and those who have a stake in the country have watched with genuine admiration and lively gratification the far-seeing and statesmanlike policy adopted by Your Excellency by which while firmly and with a strong hand suppressing anarchy and sedition—which was so necessary—Your Excellency nevertheless declined to bring in such repressive measures as might punish and bear harshly on the innocent and loyal millions of India and I would further venture to join in voicing the expressions of the general opinion of such persons that any other method of coping with the critical situation through which we have just passed, any show of weakness on the part of the Government, any undue or harsh repressive or coercive measures—so

suicidally advocated by those who ill-judged the present times and who failed to realise the real gravity of the consequences of the policy they advocated—anything likely to have been interpreted as a breach of faith on the part of the Government of India, or any deviation from the right and honourable path of duty in satisfying the legitimate aspirations of the peoples of India—to which end the Government of India had themselves, in their self-imposed task of humanity, trained them and which end appears to have been well served by the introduction of the recent reforms—any such measures might easily have ended in the most serious results and consequences affecting not only India but the Empire as a whole—a situation, the dealing with which would not have been in the hands of the ill-advised and irresponsible persons who advocated a different policy, but which would have landed the Government of India and His Majesty's Government in England into an extremely difficult and awkward position. In short, so long as the Government of India adhere to the present policy of dealing firmly and promptly with all seditionists and seditious movements, and at the same time tempering it with kindness and parental solicitude for the loyalists and the innocent, and even magnanimously showing mercy in deserving cases, there ought to be and can be no cause for any anxiety in any way, even though as Your Excellency remarked in a recent speech there are still rocks and shoals ahead.

The only other step that seems to be called for at the present moment is some measure to put a muzzle on that portion of the venomous press in India which does so much harm and which is to a great extent responsible for all the serious unrest and violent crimes in India.

As for the Protected States, apart from what has already been done in many States and what doubtless is being, and will be, done by the remaining in the way of practical measures, a few suggestions occur to me which, with great diffidence, I beg to offer to Your Excellency for what they may be worth, and before doing so, the remark on my part seems hardly to be called for to the effect that any matters connected with the States and their Rulers must, of necessity, have a personal bearing for myself also, but I hope Your Excellency will believe that it is for no unworthy selfish motives—though self-interest naturally with all human beings must always be a consideration—that I propose bringing them forward here, but I do so because I feel that it is my duty, in accordance with one of my essential principles, of respectfully yet clearly and frankly putting forward my views and suggestions and I honestly believe that, in the event of these proposals being seriously and, as I hope, favourably considered by Your Excellency, they cannot but result in substantial advantage to all concerned and will go a long way towards bringing about a better state of affairs.

1. It is the universal experience of every one who has had anything to do with our States that no person, whether an official, or a noble, or a private gentleman, can render any signal or really useful services to the State or its Ruler or come to wield any beneficial influence of any importance unless his prestige and position is placed on a high pedestal so to speak and this is greatly influenced according to the consideration and support given to him by the Ruler of the State and his Durbar. I believe I am not going against the general consensus of opinion entitled to any weight when I say that as in the past as well as in recent times, so in the future also, in all times of stress and storm, the Ruling Princes and Chiefs are destined to play a prominent and honourable part in the history of the British Empire in India. It is true that loud protestations of loyalty shouted from house tops are of no value—perhaps this has been too much overdone already by certain interested communities to permit of much reliance being placed on them—but Your Excellency will be the first to realize that the loyalty of my community—the Ruling Chiefs—which has stood the severe tests of the Mutiny and all these years is not a hollow sham but something that is genuine and real and, should the time come again, it can confidently be asserted that we can be depended upon and we shall give further proofs by deeds and not by words alone. In ordinary times or those intermediate periods like the present, we have it in our power, and we consider it a privilege, to render in our own States our dutiful help to the Government of His Majesty the King-Emperor in India. But I have often

felt that we might make ourselves further useful, did circumstances permit, or were we placed in the position, of being able to render some services in British India also. One often notices cries in the papers and elsewhere for influential and responsible people coming forward and doing something more than mere talking in support of the Government and denouncing disloyal movements and seditionists and, if my memory serves me right, some feeble attempts have, at times, been made, since the disturbing element made itself visible above the surface in India, to constitute Societies and Bodies of Ruling Chiefs and Territorial Magnates, &c., to co-operate with Government and by tours, speeches, &c., to remove the misrepresentations deliberately spread about the Government and to disillusion the people from the deception practised by, and to expose the base motives and real character of, the agitators and seditionists. But after the first announcement, one never hears anything more about such leagues and societies; and the good they could have done, or are doing, must, it is feared, be very limited indeed. Thanks to the education and training imparted to our younger generation of Chiefs, we are beginning to look beyond our hitherto limited spheres and take due and real interest in the affairs of the Empire, and some of us will no doubt be found who would desire to take a more active personal part as apart from official—part in the attempt to co-operate with Government and like the big men in England who—not necessarily forming part of the Government—discharge their public duties, would also like to see whether we could not do something useful by going about British India addressing audiences, speaking to people, &c., and by all other practical means attempt to destroy the seeds of poison sown by seditionists and agitators and to counteract their baneful influence. In short, instead of our merely acting, as hitherto, on the *defensive*, we would now like to embark on an *offensive* campaign. Whether any success would attend this, no one can really say till the experiment has actually been tried.

But as in the Protected States, so in British India—and perhaps even more so in these democratic days of socialistic tendencies—no one could wield any wholesome influence unless he is looked upon as a person of importance and can command the respect due to his position and besitting his rank. Although—I believe I am right in saying—it is a fact that the majority of the people in British India are, on the whole, favourably disposed and sympathetically inclined towards us, it is perhaps only to be expected that the significant minority of the disloyalists and agitators—who do not love my community—do all in their power to belittle our worth and importance and attempt to set popular feeling against us, by hook or by crook, and to hold us up to ridicule. The correctness of this assertion would, I venture to say, be corroborated by the storm and outcry that is invariably raised and all the things that are said about, as well as the epithets that are applied to, us in certain newspapers whenever any one of my community writes or does anything in support of the Government or against the propaganda of agitation, sedition, and disloyalty.

I have no hesitation in saying that all the Chiefs gratefully realize that under the ægis of Your Excellency's rule, a very great deal has already been done to help them and their Durbars, and to smooth over difficulties and matters of a nature which caused them inconvenience and anxiety. But in spite of that perhaps my community are too sensitive and perhaps we are wrong, yet, whatever it may be, the fact remains that the feeling is that, for diverse reasons of several years' standing which it would be as unnecessary as it is out of place to touch upon here, our dignity and importance has gradually diminished to some extent and that we do not now occupy the same position as we did some 40 to 50 years ago and we consequently feel that this fact, to a very large extent, detracts from our usefulness and lessens our influence and power of doing good and of our contributing our modest quota of help to the British Government in maintaining law and order and checking lawlessness and violence.

I firmly believe that all the Chiefs will join in the expression of the earnest hope—and doubtless the kind consideration, sympathy and regard Your Excellency has already shown, as at the Agra Durbar in 1907, will

encourage and embolden them to so hope—that, in spite of the heavy work entailed on Your Excellency consequent on the introduction of the reforms, not to speak of the very responsible duties of wielding the destinies of the Indian Empire with which you are at all times occupied, Your Excellency will be able to find time in the, alas!, very short period remaining of your term of Viceroyalty to look into the matter, and to, at least, lay the foundations in concrete of restoring the *Izzat* and position of the Chiefs to their former standard.

II. The second point which I would respectfully bring forward for Your Excellency's favourable consideration is that according to present arrangements any person taking part even in the most violent or the most seditious movements against our States or their Rulers has only to go across into British India to enjoy perfect immunity and I am sure Your Excellency's Government would be still further putting the Chiefs and their Durbars under a debt of gratitude by the early consideration of the point as to whether or not such persons should be allowed to escape unpunished. Apart from the ordinary yet important considerations of the fact that any one hostile to any properly constituted government and one who is an enemy of all that counts for law and order should nowhere be able to find shelter, there would perhaps not be any two opinions about it that just as is the case that all such movements affecting the British Government and British India have both direct and indirect consequences for the Protected States, so exactly—though to a correspondingly smaller extent according to the lesser degree of our importance—such offences against the States and their Rulers must necessarily as a matter of course affect the British Government and British India also; and further a study of similar anarchical and nihilistic movements in other parts of the world leaves one little doubt for apprehending that the cult of the bomb at present directed mainly against officers of the Government of India in British India is bound in time to be directed against the Rulers of States as well as their own officers and looking ahead and keeping this in view, it seems to be most important and all the more urgently necessary that all persons guilty of sedition or any violent attempts against the States and their Rulers, of writing or publishing seditious articles, pamphlets, &c., or otherwise disseminating sedition in and against Native States and their Rulers should be liable to extradition and that they should not receive shelter in British India—whether such offences were committed in British India or the territories of the Protected States and may I be forgiven for respectfully pointing out that this would also be in conformity with the Treaties between the British Government and the majority of the States where the stipulation is put down in the very first Article that “the friends and enemies of one party shall be the friends and enemies of both parties”.

At present such offences are not included in the Extradition Treaties and even if extradition could not be arranged or sanctioned by Government it would seem to be desirable that at least the offenders should be duly dealt with in British India by the British Government. At any rate it could do nothing but good if either of these two alternatives were followed—preferably the former—and if it became widely known that no offenders and persons guilty of such serious offences would, any further, enjoy immunity either in British India or in the Native States—no matter whether such offences were committed against the Government or the States and their Rulers; and possibly some such concerted action, leaving little loophole for mischief-making against either party, might tend to the earlier stamping out of anarchism and disloyalty.

III. It is extremely advisable that there should be unity of action as regards the exchange and circulation of information concerning suspicious characters as Your Excellency has suggested. Indeed this is a point that I had already taken up on my own account in April last. What appears to me to be urgently called for is that we should be in possession, *at the earliest possible opportunity*, of the particulars of all the movements and actions of not only seditious persons but societies, and specially the dangerous ones. If possible, it would be a very great facility if some measures were taken to enable us to be put in possession of all the facts, as soon as they are known at the Criminal Intelligence Bureau, through the Political authorities if time permits, or even direct, in cases of urgency—copies of such inform-

ation being in due course sent to the local Political authorities also for their information. Besides British India, we are also ordinarily in complete ignorance of what is going on in our sister or even neighbouring States until we hear some time later from friends or see the announcement in the papers of discoveries or arrests or trials.

Although a somewhat different subject, yet another matter has a close resemblance with the above. Owing to there being, so far as I am aware, no Press Cuttings Agency in India, it is difficult for us to come to know what is being said or written about us in different parts of India in the various English and Vernacular newspapers and in many cases, and for obvious reasons, it is often very desirable that Chiefs and their Durbars should be fully posted about such comments, criticisms or attacks. Owing also to the diversity of languages and other difficulties it is practically impossible for them to collect or get hold of all such articles, &c., or their translations. The knowledge of the criticisms and comments directed against the Government of India—many of which we know to be vilely unfair—would also be of advantage to us and possibly of some use to Government also, when, as in some cases, we might be able to refute the same should it be within our power to do so and at the same time it would keep us acquainted with the state of the political atmosphere in British India.

As for what we have done in our State, Your Excellency is aware that we were the first State to pass an Explosive Substances Act in July 1908 and many months ago we issued confidential instructions to all local and district authorities. ~~The~~ Act forbidding the importation into, or the possession in, the State, of dangerous, seditious or disloyal papers including all such pamphlets, &c., is also about to be taken up and I have further under my consideration the question of stopping some of the really notorious and dangerous seditious and disloyal newspapers published in India from being brought or sent into my State. I am inclined to the view, in regard to the latter, that it is prudent to move cautiously in this matter and to exercise due discrimination between such papers and those which, though not of an altogether desirable tone, are not the active organs of sedition and the prohibition of which might do more harm than good by magnifying their importance and creating suspicion where none may exist or otherwise producing prejudicial effects, and I have already taken steps in this direction and obtained particulars of such papers through the Political Agent, Bikaner.

I am happy to add for Your Excellency's information that, so far at any rate, my State and people are free from all infection of a seditious or disloyal nature against the British Government and, although prophecies are dangerous, I have every hope that they will remain strictly loyal to the end. For the future, I hope no assurances are necessary from me to the effect that I and my Durbar will ever do all in our power to co-operate with the Government and that, as in the past, we shall, as occasion demands, ceaselessly and vigilantly continue to take all such measures and precautions as may appear best suited to cope with the situation with due regard to local conditions.

Of the staunch loyalty of my House and our unstinted devotion to the person of His Majesty the King-Emperor, I need say nothing. It is proved by actual deeds in past history; it is a matter of great pride and pleasure to us that my ancestor Maharaja Sirdar Singhji was the only Chief in Rajputana to personally march from Bikaner at the head of his troops to render assistance to the British Government in the dark days of the Mutiny and I consider it a privilege and my great good fortune to have personally rendered services to my Sovereign on active service, and I would beg Your Excellency to always rely on and count upon us in all future emergencies.

In conclusion, I would again express the hope that Your Excellency will forgive my having taken up so much of your time, and with all good wishes, &c.

(21)

Dated the 12th September 1909.

From—His Highness the Nawab of Rampur,

To—His Honour the Lieutenant-Governor of the United Provinces of Agra and Oudh

After compliments — I write to thank Your Honour for your kind letter of the 7th September from which I am very sorry to learn that the party of sedition and violence, so far from abandoning their seditious propaganda in British India, are trying to extend their baneful activities to Native States. Your Honour may rest assured that any assistance that I can give either in person or in any other way, will be freely and ungrudgingly given, because the traditional relations of this State with the British Government are those of the closest friendship and strictest loyalty, and the Treaties which have existed between the Government of His Most Gracious Majesty the King-Emperor and my House for so long bind me to that Government by ties of the deepest obligation and sincerest devotion. In this connection I may perhaps be permitted to recall the part my great-grandfather played in the troublous days of 1857 when he spared neither himself nor his subjects nor money in the cause of the British Government and in protecting Europeans.

While entirely agreeing with Your Honour that anarchism is a common enemy of the Paramount Power and the Indian Princes and also a menace to the established order of society I feel bound to say that apart from the ~~fact that~~ the danger is a common one I should ever deem it a privilege to place myself with all my resources at the disposal of the British Government.

I am happy to say that this State has so far been free from the influence of seditionists, who would find it most difficult to get a foothold in Rampur, but if any attempt is made to seduce my subjects from their loyalty we shall be prepared to deal with the evil promptly.

I have carefully considered the subject matter of Your Honour's letter and have embodied my ideas with regard to it, in rough outline, in a memorandum enclosed herein. I should be glad to obtain the benefit of Your Honour's views on the points raised in the memorandum and to modify or add to them in a way agreeable to your wishes so as to give complete effect to the policy of co-operation in stamping out anarchy and sedition to which Your Honour has referred in the letter under reply.

In conclusion, I am very glad to find that my letter of July 1908 has not been forgotten and that Your Honour has taken the earliest opportunity to give effect to the request contained in it. This I regard as a token of confidence on the part of the British Government of which I am justly proud and for which pray accept my sincerest thanks

(22)

Dated Tehri, Garhwal, the 20th September 1909.

From—His Highness the Raja of Tehri,

To—His Honour the Lieutenant-Governor of the United Provinces of Agra and Oudh.

After compliments — Your Honour's note was delivered to me in due course. No doubt the subject upon which Your Honour has been pleased to address me is a very important one, and I have given it due consideration. Fortunately in my State the propaganda of the anarchists may be said to be a thing unknown, nor is there any possibility of its ever taking roots in a soil so uncongenial to it as that of Tehri where loyalty to the throne has always been regarded as a part of religion. The proverb says "Qui se ressemble s'assemble." My people differ from the seditionists in their ideals, education, customs and manners that it becomes practically an impossibility for them to coalesce with each other. Nevertheless I quite agree that the time has come where some sort of measures should be taken, by the way of precaution, to remove any possibility of temptation being offered to the younger generation.

For the present I believe steps be taken first to prevent the circulation of seditious literature : secondly, to keep the State free from the seditionists.

Should Your Honour be pleased to approve of the proposals I would suggest that the Post Office be required to keep the civil authorities informed of all the newspapers that come for circulation, and to withhold the delivery of those that may savour of sedition. I am of opinion that no discrimination ought to be made between sedition under veil preached by indirect insinuations and sedition openly asserted, as sedition in any garb will always do the same mischief. Probably it may never become necessary to put in force the latter measure, as the majority of the educated people here are in the State service and we can use our influence to discourage seditious literature being read by them, without resorting to the other means, but I should like the Post Office to have such powers to deal (with) exceptional cases. I would require the police in British territory to keep us confidentially informed of the movements of any seditionist who may enter or wish to enter our territory. Directions will be issued to our police to remain alert, but the information that may be received from outside will always be valuable. If a suspected seditionist enters our territory I would have him kept under surveillance, and if the suspicion against him be justified, I would have him turned out of the State. If however during his stay in our territory he committed anything which, if committed in British territory, would be regarded as an offence under the laws in force, I would have him tried and punished in the same way as if he were in British territory. A close watch would also be kept on persons with tendencies towards anarchism, no matter whether they be outsiders or the residents of the State. With such measures which I have briefly described above, I think, we can keep sedition out of my territory. If, however, Your Honour may consider it necessary to frame severer measures, I shall indeed be glad to carry them out.

With kindest regards, &c.

1. Extract from the speech of His Highness the Maharaja of Alwar at the State banquet on the 26th October 1909.

Your Excellencies,—Allow me to greet you with a cordial welcome to the capital of my State on your first entrance into Rajputana during your official tour in our province; and we take delight in welcoming Your Excellency not only as the representative of His Most August Majesty the Emperor of India, whom we have been accustomed to regard with feelings of loyalty and esteem, but we welcome you also personally as the champion of the cause of India of the future.

We greet you as one whose sympathy and devotion for India's interests have, I think, been demonstrated in practical form, and whose respect and regard for the privileges and enhancement of the prosperity of the Indian States has, I am certain, been silently but surely valued and much appreciated by those concerned.

We were hoping Your Excellency would have been able to pay us a longer visit last March, but the Indian reforms which were then under the consideration of Government presumably necessitated the cancelling of your proposed visit, which was a source of much disappointment to us all.

However, we are entertaining you now with no less assurances of sincere pleasure, and during this interval the reforms also have taken a more practical shape, thus enabling those who are interested in them to study the situation which is calculated to further the progress and prosperity of this country.

India is now going through a state of transformation, and its deep slumber has been awakened by the light of education and travel, and partly by the radical march of events in the East.

Now has come the time when India, once the greatest of civilised nations, is going to attempt to rebuild some of its portions that have tumbled into decay, and when, if it is to eventually claim its position once more alongside those nations who are now on their heights, it must need help and guidance in order to ensure its steady and certain progress.

This task of guidance has been ordained by Providence to be placed in the hands of the British nation, whose King to-day rules the mighty dominions over which the sun never sets.

Surely no task has ever fallen upon a nation or a king in history which is greater or grander in its aspect—no task of which a nation could be more rightly proud.

All this experience of many centuries which has taken so long to weld together this great Empire is now being utilised for the benefit of this great continent of India, and it is left to the civilisation of this country to take advantage of this opportunity or to lose it, for the purposes of rebuilding itself under such just and sympathetic rule.

Since the time of the great wars of the Mahabharat the old and refined civilisation of poor India had been losing its foothold which was so strongly based on its religion of elevating and life-giving principles and the internal disorders and foreign invasions since had scattered its unity until it was on the verge of degradation and decay.

I was at such a time when the destinies of the country were at their lowest ebb that its future fate was placed in the hands of the British people.

What India would have otherwise been to-day seems almost difficult to even imagine, but it is no flattery to state that what we see of India to-day is the result of the tutorship of its new and welcome guardian.

I think right-minded and self-respecting Indians need not be ashamed of such a record of guardianship—indeed they can take this opportunity of helping and not hindering the cause of the rulers of this country; helping the ruler to raise India to the level of the other great nations of the world in points of civilisation and otherwise.

Your Excellency has now been at the helm controlling the affairs of this vast Empire for four years, and during this time we have been much interested in studying the various reforms which you have initiated with the intention of accelerating the progress of this country.

We have admired the sympathy and courage with which you had persisted in the face of storms and obstacles to embark on schemes intended to help the people of India, and our hearts have gone out to our great and popular statesman, the present Secretary of State for India, in his resolute determination to introduce schemes for the benefit of India in the face of dark clouds appearing on its horizon.

But while we thus appreciate your kindness and firmness in extending your helping hand to those who are in need, we are also in complete accord with you in your courage and firmness to suppress with your other hand the recent crimes against the law and the acts of miscreants calculated to retard the harmonious and peaceful progress of the country.

We feel glad, however, to think that in most cases they have only been the acts of a few fanatics who have not only deservedly received their due punishment, but have also aroused expressions of strong disapproval from their own countrymen.

The future of India must depend a great deal on the hands that are shaping its destiny, but it must also depend in no small degree on the people themselves.

Education will, I think, play a large part in its future progress, and it is on how the people digest it and apply it to the problems of life that it will depend how rapid that progress will be.

The problem of the future of India is one which I am sure haunts the minds of many people, and I cannot claim myself to be an exception to the rule, for I think with the question of the future of India also depends the question of the future of the Native States with which I am more directly concerned.

The two are so closely connected to each other, and the one question is so dependent on the other that I think they are inseparable.

But so long as the education that is given to the children of this country is based on life-giving and man-making principles and the hands that are shaping its destiny are as just, gentle and sympathetic as they have been, specially so during Your Excellency's term of office, I don't think the well-wishers of this great Indian Empire need be over-anxious about its peaceful and brilliant future.

I always take delight in ascribing the notions of loyal attachment to the throne and the love of peace and subordination to law among the great masses of the Hindus to the teachings they have received through the old schools or through their own societies regarding those noble principles of our religion.

I am personally of doubt, though I am open to correction, if the purely technical or literary or even degree-taking education can raise that firm foundation of character so essential for the well-being of a race.

I have no doubt that this important subject has already engaged Your Excellency's kind attention, and I would dearly like to see the day when a greater share of moral and religious education was introduced into at least our lower standard schools.

* * * * *

2 *Extract from the speech of His Highness the Maharaja of Jaipur at the State banquet on the 29th October 1909.*

"When Your Excellency came to India the political atmosphere was surcharged with elements of discontent and unrest, feelings new and alien to the country. In some parts there was a sense of dissatisfaction on account of the supposed ~~outing~~outing of aspiration on the part of Government. This created in inexperienced minds, overwrought by seditious teachings, violent

feeling, which found expression in crimes and outrages hitherto unknown in the land. The misdeeds of these perverted youths startled all right-thinking men and produced a feeling of abhorrence and righteous indignation all over the country showing thereby in an unmistakable manner how deep-seated was the faith of the people at large in the moderation, justice and impartiality of the British Government. Your Excellency at this juncture, undeterred by adverse criticism, adopted a line of action which has, I think, given general satisfaction, and I trust I may be allowed to express my warmest admiration of Your Excellency's attitude throughout, of your firm determination to suppress sedition combined with a kindly sympathy for the just and legitimate aspirations of all true and loyal subjects."

His Highness dwelt on the unfortunate neglect of religious instruction in the educational system of the country, but felt confident that His Excellency's wise policy would steer the vessel of State safely across the shoals, and bring all back once more to the safe anchorage that they had enjoyed under British rule. The Maharaja touched lightly on his own public acts in regard to sedition and assured the Viceroy that the British Government would always have the most loyal and unhesitating co-operation from the Jaipur State, and also, he had not the least doubt, from his brother-Chiefs in India.

3. *Extract from the speech of His Highness the Maharana of Udaipur (Mewar) at the State banquet on the 3rd November 1909.*

Your Excellency has been confronted in India with many troubles and anxieties. Certain evil-disposed persons, using as their weapons the ignorant among the people, have endeavoured to ferment sedition against the British Government, and they have committed some dastardly acts which have recoiled to their own detriment upon the heads of the very persons who committed them.

The policy and measures adopted by Your Excellency for stopping those crimes are sweeping away from the skies of India the black clouds which have obscured them. I am confident that these evil deeds and intentions which are not very widespread will not be able to bear fruit over the whole of India, and that they will never be able to spread in the Indian States. It gives me pleasure to be able to assure Your Excellency that in my State, at all events, such things will never be permitted to exist.

4. *Extract from the speech of His Highness the Maharaja Scindia of Gwalior at the State banquet on the 6th November 1909*

There is, however, one matter to which I must allude. I have watched with respectful admiration, the firm and enlightened views by which Your Excellency and Lord Morley have been guided in dealing with the great question of how to meet the legitimate aspirations of His Majesty's Indian subjects. I rejoice that the folly of an insignificant minority has not for a moment deterred Your Excellency from advancing boldly but cautiously on the path of reform. This is worthy of a nation that has ever displayed an unselfish resolve to do justice throughout the vast dominions which the wisdom of God has placed under the care of the British Empire.

I believe that an overwhelming majority of those who are entitled to some voice in Imperial concerns—including the great body of the Native Chiefs and those who have a real stake in the country—are perfectly content to await with confidence the measures which a benign Government may from time to time see fit to introduce.

5. Extract from the speech of Her Highness the Begum of Bhopal at the State banquet on the 11th November 1909.

* * * * *

3. Your Excellency, I thank God that the loyalty of my family is fully reflected in the hearts of my subjects; indeed it is difficult for us, who live in Bhopal, to realise that such a thing as disloyalty exists. England has won her way to greatness, not by the force of arms, but by her moral strength, and it is this moral strength which compels the admiration and fealty of every right-minded person. It was, indeed, well for India that she came under control of such a Power & control which has given to her people the inestimable gifts of peace, justice, and liberty, and which has led to a period of prosperity and progress the like of which has never before been dreamt of. It is beyond dispute that the vast majority of His Majesty's Indian subjects, and especially the Muhammadan section of them, gratefully acknowledge the manifold blessings that have accrued to them under British rule, the permanency of which they regard as the only guarantee of their welfare. The disloyalty of the few only serves to emphasize the loyalty of the many. As I have already said, we in Bhopal have little acquaintance with this minority; for my own part, those who compose it remind me of nothing so much as of Sadi's *but* who, happening to open his eyes in the daylight, and finding he could not see, straightway fell to abusing the sun.

4. Your Excellency, I as a Muhammadan can say without any fear of contradiction that the love, loyalty, and faithfulness which the Muhammadans bear to the British Government, is not due to any transitory and world policy, but it is based upon the teaching of their sacred book, which says—"Indeed thou wilt find the nearest friends of the believers' among those who call themselves Christians, because they have priests and monks and they are not proud."

5. It is not I alone, but all the Indian Chiefs that unanimously agree that Your Excellency's wise and broad policy has removed the darkness like the Sun that illumines the World. Your Excellency has in fact saved India from a great calamity like an experienced captain of a ship that saves her during a storm. Such statesmanship, I may be permitted to say, runs in Your Excellency's family of which in India in general and Bhopal in particular has had experience a hundred years ago.

* * * * *

6. Extract from the speech of His Highness the Maharaja of Baroda at the State banquet on the 15th November 1909

* * * * *

Ladies and Gentlemen, I rise now to propose the health of my illustrious guest, His Excellency the Viceroy. Two of His Excellency's predecessors, Lord Dufferin and Lord Elgin, favoured us with their visits within my time, and as on those occasions I rejoice once more in according a cordial welcome to the august representative of the King-Emperor. Years have lapsed since the visits of the preceding Viceroys, many changes have taken place with the years, but the friendly relations of my State with the British Government remain unchanged, and the firm and unalterable loyalty of my house to the British Throne remains unshaken. Indeed the lapse of years has drawn our mutual relations yet closer. We form portions of the same great Empire. We are inspired by the same object, which is the preservation of peace, and public tranquillity, and we are animated by the same wish, which is the promotion of the progress, the prosperity and the happiness of the people.

My Lord, it has always appeared to me that any true progress among the people must embrace their social and moral advancement, as well as their material well-being. I think the true function of Government is not to stand entirely aloof in these matters, but to keep pace with modern times and modern ideas. After all the masses are yet sunk in appalling ignorance, and they need our support, encouragement and help in effecting reforms. To minister to

social and moral advancement has always been the consideration and one of the duties of the sovereign in the East. I have myself sometimes been criticised for taking administrative action to correct social evils and religious abuses. So far, however, as one can judge, from the results, my policy has met with some measure of success. In these and in all other matters of internal administration every Native State, in proportion as it enjoys liberty of action, grows in efficiency in securing the welfare of its subjects, and, therefore, in promoting general progress any curtailment of freedom in internal affairs lessens our sense of responsibility, and weakens our power for effecting improvement. Loyalty has always been considered in the East as one of the first virtues in a people. But loyalty, when merely sentimental, is of small value. It should be real, genuine, and active. To secure such loyalty there should be a community of interest between the subjects and the ruling power. The former should have a proper share in the administration of the country and should feel that the Government is their own. It is for this reason that I hail with pleasure those great measures of reform which Your Excellency initiated, and which His Majesty's Government have accepted. These reforms will open out to the people of India a larger field of activity, and inspire them with a greater sense of responsibility in the performance of their civic duties, and future generations will recognise in these statesman-like measures a forward step in the progress and advancement of the community under the rule of England.

I know full well the difficulties with which education is beset, difficulties which many are liable to ignore in their haste to achieve in a day those results which are attainable only by the patient and selfless work of generations. I would have my people learn that progress, to be real, must have its roots in themselves, that they must look to the orderly conduct of their lives, that it is probity, fair-mindedness, public spirit and loyalty to the State which make good citizens and that he who can subordinate his private interests to the common weal, is he who is fitted for a voice in affairs of State. The truly educated will regard the personal liberty they enjoy as the most precious blessing of civilization, and their duties to the State as essential to their corporate existence.

Those, on the other hand, who confound liberty with license, and seek to undermine authority, must be repressed with a firm hand, and not allowed to endanger the public tranquillity or general progress. These, my Lord, are my ideals of education and self-help. In all my endeavours to achieve progress and to make my subjects worthy citizens, I know that I can rely on Your Excellency's support. I cordially acknowledge the ready assistance which my administration receives from Your Excellency's Government, and as cordially I assure Your Excellency of my readiness to respond, within my power, to any call for co-operation with the Government of India.

I desire, in conclusion, to express on behalf of the Maharani and of myself the gratification that we feel at Lady Minto's visit to our capital, and I wish once more to offer to Her Ladyship and to Your Excellency our heartiest welcome. Our welcome, my Lord, is fraught with the most heartfelt gratitude that Providence has saved Your Excellency from the dastardly attempt at outrage, of which the news has just reached us.

I voice, my Lord, the feelings not only of myself and of my people but also of the whole of India, in expressing, so far as words can express, our profound horror that such a crime could ever be thought of, much less attempted against one who is not only the representative of His Majesty, but also the truest friend and benefactor of our country.

7. *Extract from the speech of His Highness the Maharaja of Mysore at the State banquet on the 25th November 1909.*

On such an occasion it is only fitting that I should touch briefly on public affairs which Your Excellency is directing with so firm and sympathetic a hand.

The four years which have elapsed since you came to India have been years of strenuous work and grave anxiety and the Government of India have had no light task in maintaining that law and order which have always been the watch-word of British Rule in India. The struggle has been a severe and protracted one, but there is every reason to hope that the tide has at last turned, and that—thanks to the firmness and restraint of Your Excellency's Government and to their statesmanlike foresight in recommending and obtaining for educated Indians a larger share of representation, without at the same time relaxing their determination to suppress lawlessness—India may look forward to an era of peace and contentment. Your Excellency, the measures adopted by the Government of India to maintain their authority have always had my sincere sympathy, and I am, and always have been, ready to co-operate to the utmost of my power in loyally supporting those measures. Your Excellency needs no assurance of my own loyalty to our beloved King Emperor, and as regards my people I take this opportunity of publicly expressing my conviction that they do not forget the intimate associations of the past and are actuated by nothing but friendly feelings for the British race, and by loyalty and gratitude to the Paramount Power. Happily therefore, it has not been necessary for my Government to adopt any repressive measures except to arm ourselves, as a matter of precaution, with powers against seditious writings in the public press. These powers are, I firmly believe, necessary. Their existence is in itself sufficient to keep in check the evil against which they are aimed, and I trust it may never be necessary to enforce them rigorously. But it is not only as a strong and sympathetic Ruler that Your Excellency's name will live in Indian History. I feel that I may speak in the name of my brother Chiefs in all India when I say that Your Excellency has established a peculiar and special claim to our gratitude and affection by the sympathy and consideration which you have shown both in word and deed in your policy towards Native States. I can say from my heart that we Chiefs respond most warmly to the generous and kindly sentiments which Your Excellency has so frequently and eloquently expressed towards us, and that we shall ever cherish your memory as one of our truest friends and sympathisers. I would also like to express on this occasion the deep horror and indignation which has been aroused all over India, and which is no where stronger than in Mysore, at the dastardly outrage recently attempted at Ahmedabad. We all share the universal feeling of thankfulness that your lives and persons were so mercifully protected.

LEGISLATIVE DEPARTMENT.

NOTIFICATIONS.

Calcutta, the 25th January, 1910

No. 10.—In exercise of the power conferred by section 4 of the Indian Councils Act, 1909 (9 Edw. VII, c. 4), the Governor General is pleased to appoint the Hon'ble Sir Herbert H. Risley, K.C.I.E., C.S.I., being a member of his Council, to be Vice-President thereof.

The 27th January, 1910.

No. 11.—In exercise of the power conferred by section 10 of the Indian Councils Act, 1861 (24 and 25 Vict, C 67), as modified by the Indian Councils Act, 1909 (9 Edw. VII, C. 4), and in pursuance of the provisions of Regulation I B of the Regulations for the nomination and election of Additional Members of the Legislative Council of the Governor General, the Governor General is pleased to nominate the undermentioned non-official person to be an Additional Member of the said Council.—

Mr. Frank Rawson, C.M G.

The 28th January 1910

No. 12 — The following amendments of the Rules for the Conduct of the Legislative Business of the Council of the Governor General received the assent of His Excellency the Governor General on the 28th January, 1910, and are hereby promulgated for general information.—

In exercise of the power conferred by the Indian Councils Act, 1861, section 18, the following amendments of the Rules made on the 4th day of February, 1897, have been made by the Council of the Governor General assembled for the purpose of making Laws and Regulations at the meeting held on the 28th day of January, 1910, and have received the assent of the Governor General.—

Amendments in the Rules for the conduct of the Legislative Business of the Council of the Governor General

1. In rule 2, in the definition of "President," for the words "the senior Ordinary Member of Council present and presiding" the words and figures "the Vice-President appointed by the Governor General under section 4 of the Indian Councils Act, 1909:" shall be substituted.
2. Rule 4 shall be omitted.
3. For rule 5 the following rule shall be substituted, namely:—
"5 The Members shall sit in such order as the President may direct."
4. For rule 7 the following rule shall be substituted, namely:—
"7. The President shall preserve order, and all points of order shall be decided by him.
"No discussion on any point of order shall be allowed unless the President shall think fit to take the opinion of the Council thereon.
"Any Member may at any time submit a point of order to the decision of the President
"The President shall have all powers necessary for the purpose of enforcing his decisions."
5. (1) In rule 8, for the last nine words the words "shall speak from his place, shall rise when he speaks and shall address the President" shall be substituted.
(2) To the said rule the following shall be added, namely:—
"At any time, if the President rises, any Member speaking shall immediately resume his seat."
6. In rule 9, for the first two sentences the following shall be substituted, namely:—
"After the Member who makes a motion has spoken, other Members may speak to it in such order as the President may direct,
and in the third sentence the words "in turn" shall be omitted.
7. In rule 12, for the second and the third sentences the following shall be substituted, namely:—
"Votes may be taken by voices or by division and shall be taken by division if any Member so desires.
"The President shall determine the method of taking votes by division."
8. In rule 16, for the second sentence the following shall be substituted, namely:—
"If such motion be carried, a copy of the Bill with a full Statement of Objects and Reasons shall be sent by the Member to the Secretary."
9. In rule 40, for the second sentence the following shall be substituted, namely:—
"Application for order of admission is to be made through a Member to the Secretary at least two days before the meeting, and the order, if made shall be sent to such Member."

J. M. MACPHERSON,
Secretary to the Government of India.

NOTIFICATIONS.

Port William, the 26th January 1910

No. 208-G.—With the sanction of His Majesty's Government, the Governor-General in Council is pleased to recognise provisionally the appointment of Mr. R. H. Ireland as Consul for Belgium at Karachi.

The 28th January 1910.

No. 205-I. B—Whereas the Governor-General in Council has, in certain cases, criminal jurisdiction within the Political States of Seraikela and Kharsawan in Chota Nagpur in exercise of this jurisdiction and of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, and in supersession of the notification of the Government of India in the Foreign Department, No. 3444 I B, dated the 17th August 1906, the Governor-General in Council is pleased to issue the following orders with respect to such cases :—

- (1) The Deputy Commissioner of Singhbhum shall, subject to the general or special orders of the Commissioner of Chota Nagpur, exercise, when employed in respect of such cases occurring within the limits of either of the said States, the powers of a District Magistrate, as defined in the Code of Criminal Procedure, 1898 (V of 1898)
- (2) He shall also exercise the powers of a Sessions Judge, as defined in the said Code, in respect of such cases occurring within the limits of either of the said States
- (3) The Commissioner of Chota Nagpur for the time being shall exercise the powers of a Sessions Judge, as described in the said Code, in respect of all offences over which magisterial jurisdiction is exercised by the Deputy Commissioner of Singhbhum.

Provided that the Deputy Commissioner shall not commit an accused person for trial to the Commissioner acting as a Sessions Judge.

The powers of the Commissioner in respect of his original sessions jurisdiction under this clause may, subject to such rules as the Local Government may prescribe, be exercised by the Judicial Commissioner.

- (4) The Commissioner of Chota Nagpur for the time being shall also exercise the powers of a High Court, as described in the said Code, in respect of all offences over which magisterial jurisdiction or the jurisdiction of a Court of Session is exercised by the Deputy Commissioner.
- (5) In exercise of the jurisdiction of a Court of Session conferred on him by these orders, the Deputy Commissioner may take cognizance of any offence as a Court of Original Criminal Jurisdiction without the accused person being committed to him by a Magistrate, and shall, when so taking cognizance of any offence, follow the procedure laid down by the Code of Criminal Procedure, 1898, for the trial of warrant cases by a Magistrate.
- (6) A trial before the Deputy Commissioner as Sessions Judge in the exercise of the jurisdiction conferred by these orders may be without jury or the aid of assessors, and may, subject to the orders of the Lieutenant-Governor of Bengal, be held in such place as the Court may, in its discretion, fix for the purpose
- (7) The aforesaid British Officers, in the exercise of any jurisdiction delegated to them within the Political States of Chota Nagpur, or in advising the Chiefs, are to be guided by the law of British India relating to offences and criminal procedure in so far as it is applicable and (in cases where Chiefs and their subjects are concerned) so far as it is not inconsistent with any local law or custom or any order of the Lieutenant-Governor of Bengal in force for the time being.
- (8) These orders apply to all proceedings, except —
 - (a) proceedings against European British subjects, or persons charged jointly with European British subjects, and
 - (b) proceedings pending at the date of this notification, which should be carried on as if this notification had not been issued

GAZETTE OF INDIA.

NOTICE.

The 25th October 1909.

From the 13th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 6th November all notifications and other matter intended for publication in the *Gazette* should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P M on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

GOVERNMENT OF INDIA.
DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

No. ————
Calcutta, the 27th January 1910.

NOTIFICATIONS.

No. 1097 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 24th January 1910.—

No. 40 of 1910.—Hydrocarbon Converter Company, manufacturers, a corporation organized under the laws of the state of Delaware, with a place of business at No. 37 Wall street, in the city of New York, county and state of New York, United States of America *Improvements relating to the manufacture of gas from hydrocarbon oils and the like*

No. 41 of 1910.—Charles George Westhead, engineer, C/o Macbeth Brothers & Company, of No. 12 Mission Row, in the town of Calcutta, British India *A preparation for use on leather, canvas, or cloth goods and the like*

No. 42 of 1910.—Arthur Boyd Price, chief engineer to Marsland, Price & Co. Ltd, of Bombay, British India *Improvements in apparatus for consolidating concrete plastic or granular matter or for analogous purposes*

No. 43 of 1910.—Andrew Thomson Reid, engineer, of the North British Locomotive Co. Ltd, Hyde Park Works, Springburn, Glasgow, Scotland, and John Riekie, engineer, of 277 Nithsdale Road, Dumbreck, Glasgow. *An improved spring wheel*

No. 44 of 1910.—Alexander McLennan, manufacturer, of 165 Bermondsey street, Bermondsey, London, England *An improved process for the treatment of leather*

No. 45 of 1910.—Enoch Richardson, engineer, of Hawthorne, in the county of Bourke, in the state of Victoria, in the Commonwealth of Australia, and James Thompson Marshall, engineer, of 17 Francis street, Leeds, in the county of York, England *Improvements in slide valves for fluid pressure, steam and other engines*

No. 46 of 1910.—Ernest Armstrong, engineer, of "Elmwood," Wellington Road, Bush Hill Park, Enfield, Middlesex, England *Improvements in or relating to files, rasps, or similar tools*

No. 47 of 1910.—Kathleen Margaret Brown, of Tordeevra, Helen's Bay, county Down, Ireland, and Herbert Brown, manufacturer, of 14 Dublin road, Belfast, Ireland *Improvements in electric signalling on railways*

No. 48 of 1910.—James Newton Cook, baker, of Victoria street, Paddington, Sydney, New South Wales, in the Commonwealth of Australia. *A combination pipe attachment.*

No. 49 of 1910.—Albrecht von Groeling, engineer, of Vienna, Austria *Improvements in or relating to the utilisation of natural gases or petroleum distillation gases*

No. 50 of 1910.—George Spalding, gentleman, of Rockefeller Building, Cleveland, in the county of Cuyahoga, state of Ohio, United States of America. *Improvements in tilling machines.*

No. 1098 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Baroda, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open

to public inspection, from 11 A.M. to 4 P.M. daily, and Saturdays 11 A.M. to 1 P.M., at the Secretary's office, 2 Bankshall Street, Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

- No. 79 of 1909.—James Hope, agent, of 18, Quai de la Bourse, Rouen, France. *An improvement in ring spinning and doubling frames.* (Specification filed 14 December 1909.)
- No. 154 of 1909.—Bhola Nath Shantra, mechanic, carrying on business as such at Khurut, Panchanantollah, Howrah, in the suburbs of Calcutta. *The pressing of jute* (Specification filed 7 January 1910)
- No. 158 of 1909.—Haradhan Mondal, mechanic, residing at Dhurumtollah, Khurut, Howrah. *A pulley power jute press (regulated by sectional pinions).* (Specification filed 21 December 1909)
- No. 252 of 1909.—Rupert Skelton Hawkins, loco carriage and wagon superintendent, Assam Bengal Railway, Chittagong. *A new or improved fastening for railway wagon doors and the like.* (Specification filed 14 January 1910.)
- No. 257 of 1909.—Eleazer Kempshall, manufacturer, of Hotel Russell, Russell Square—London, W. C., England. *Improvements in and relating to pneumatic tyres* (Specification filed 15 December 1909)
- No. 272 of 1909.—Frederick Charles Lynde, consulting engineer, of Gretton Lodge, Mauldeth road, Withington, Manchester, England. *Improvements in automatic feed valves and apparatus connected therewith.* (Specification filed 15 December 1909)
- No. 285 of 1909.—Eisenwerk (vormals Nagel and Kaemp) Actien-Gesellschaft, of 4/8 Barmbeckerstrasse, Hamburg, Germany. *Improvements in or relating to paddy-separators.* (Specification filed 17 January 1910)
- No. 473 of 1909.—Edwin Percy Richards, assistant special engineer, Special Works Department, Corporation of Madras, Madras. *Improvements in methods of removal or deposition or both, from fluids or liquids, of matter suspended in such fluids or liquids.* (Specification filed 17 January 1910)
- No. 551 of 1909.—Archibald Allan Crawford, engineer, of 9, Meadows street, Bombay. *Improved suspension for battery cases under railway carriages* (Specification filed 18 December 1909.)
- No. 578 of 1909.—William Jackson, engineer, of Thorn Grove, Mannofield, near Aberdeen, in the county of Aberdeen, North Britain. *Apparatus for opening, or loosening, clotted tea leaves or other produce, and for sifting the same* (Specification filed 21 December, 1909)
- No. 634 of 1909.—Henry Edgar D'Esterre, planter, of Braemore Estate, Agra Patanas in the island of Ceylon. *Battens on roller tables* (Specification filed 14 January 1910.)
- No. 645 of 1909.—Couch Rice Milling and Manufacturing Company, of w. 2d, bt, Railroad and Girard streets, Houston, county of Harris, state of Texas, United States of America. *Grain hulling machines.* (Specification filed 13 January 1910.)

No. 1099 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each.—

- No. 344 of 1896.—Ernest Harry Archer. *Improvements in or connected with collapsible or other boxes or cases.* (From 9 February 1910 to 9 February 1911.)
- No. 472 of 1900.—Charles Payson Treat. *Improvements in telautograph apparatus.* (From 19 February 1910 to 19 February 1911)
- No. 505 of 1902.—James Thomas Jepson. *Improvements in self-discharging eight-wheeled or twelve-wheeled railway bogie wagons for the conveyance of minerals or other materials in bulk.* (From 24 March 1910 to 24 March 1911.)
- No. 498 of 1903.—Friedrich Turck. *Stamped out oval, six or more sided choonam box with sides formed in one piece with a cover for holding the cover.* (From 12 February 1910 to 12 February 1911.)

- No. 105 of 1904 —Window Glass Machine Company *Improvements in methods of and apparatus for drawing glass.* (From 15 April 1910 to 15 April 1911)
- No. 341 of 1905.—Villupuram Rajaratna Swaminatha Mudaliar *A self bucket lifting and depositing hand sanitary cart* (From 24 January 1910 to 24 January 1911)
- No. 414 of 1905 —Arthur Bernard Gill. *Improvements in the method of and means for electrically lighting railway carriages and the like.* (From 7 April 1910 to 7 April 1911)
- No. 476 of 1905.—David Robert *Improvements in or connected with road locomotives and vehicles.* (From 19 February 1910 to 19 February 1911.)

No. 1100 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling and using the said inventions in British India, and of authorizing others so to do, has ceased —

- No. 89 of 1905 —Mandayam Virambudi Srinivasa Iyengar *A victor improved huller or hammer.* (Specification filed 16 October 1905)
- No. 225 of 1905 —M Nethersole *Safety release clip for falling gates on weirs or canal regulators or escapes.* (Specification filed 16 October 1905.)
- No. 322 of 1905 —Mohamed Abdul Kuddus Badsha Sahib *The manufacture of collapsible mica lamp domes* (Specification filed 16 October 1905)
- No. 382 of 1905 —Alfred Hale *Improvements in ferrule extractors for boiler and condenser tubes and the like* (Specification filed 20 October 1905)

Fee in respect of the continuance of an exclusive privilege—

- 4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions

- No 159 of 1903 —Carl Christian Leopold Gether Budde *An improved method of sterilizing articles of food* (Specification filed 15 October 1903)

- No 310 of 1903 —Balfour Fraser McTear and Henry Cecil William Gibson *Improvements in or connected with the manufacture of tubes or hollow bodies* (Specification filed 21 October 1903)

Fee in respect of the continuance of an exclusive privilege—

- 4 (c) After the expiration of the fifth year and before the expiration of the sixth year from the date of the filing of the specification—

The sum of Rs 50 for each of the above inventions

NOTICES

THE PATENT OFFICE.

2, BANKSHALL STREET, CALCUTTA

Public room open, 11 A.M. to 4 P.M.; Saturdays, 11 A.M. to 1 P.M.

1. *All communications* relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act (V of 1888), or in continuation of such applications should be addressed to the Patents Secretary, 2, Bankshall Street Calcutta. Directions for inventors and others are given in the Act Manual (Price Rs 1 or 1s 6d)

2 *Fees* payable under the fourth and sixth Schedules must be received in full and in cash at the office within the times allowed by the Act. CIVIL ENGINEERING COLLEGE, SIBPUR.

Engineer Department.

SESSION, 1910-1911.

Applications for admission as Regular students to the Engineer Department of this College will be received by the Principal up to February 1st, 1910, in accordance with rule 9 of the Engineer Department rules. Every such application shall be accompanied by a Registration and Examination fee of Rs 4 which shall in no case be returned.

Candidates must appear at a Special Drawing Test as laid down in Rule 10 (b) and 13 which will be held in April 1910 in connection with the University Examinations. The exact date and centres will be announced when fixed.

The applicant for admission must produce with his application a medical certificate in the prescribed form signed within one month of its submission by a Civil Surgeon. No other form will be accepted. Candidates, if they so desire, may present themselves for Medical Examination before the Medical Officer resident at the College on Mondays and Thursdays from 7 to 10 A. M. or 4 to 5-30 P. M.

Special students are also admitted, they must apply before July 1st.

For further particulars and for copies of the Rules apply to the undersigned.

B. HEATON, Principal,
Civil Engineering College.

ORDERS BY THE HONOURABLE THE CHIEF COMMISSIONER OF AJMER-MERWARA.

NOTIFICATION.

Mount Abu, the 20th January 1910

No. 80—In supersession of the rules published in this office Notification No. 701, dated the 10th June 1907, the Hon'ble the Chief Commissioner is pleased to make the following rules under section 4 of the Agriculturists' Loans Act, 1884, for Ajmer-Merwara.

PART A.

ORDINARY LOANS.

1. In these rules—

(a) "Collector" means a Collector as defined in the Ajmer Land and Revenue Regulation, 1877,

(b) "Owners and occupiers of arable land" means any cultivator in the district of Ajmer or Merwara, and include an Istimrardar, Jagirdar, Bhumia and Muafidar,

(c) "Revenue Officer" includes a Girdawar

2. The Chief Commissioner shall place at the disposal of the Commissioner an allotment for loans under the Act for each financial year

The Commissioner shall divide this sum between Ajmer and Merwara at his discretion, and shall have the power of transferring from one district to the other. But the whole expenditure in the two districts shall be kept within the total amount assigned. If an additional grant is required it shall be at once applied for

3. Subject to the provisions of these rules the grant of loans shall be absolutely within the discretion of the Collector, who is authorized to empower a Revenue Officer subordinate to him, by name or in virtue of his office to grant loans up to the limit specified below, in each case—

Naib Tahsildar	R10
Tahsildar	R20
Extra Assistant Commissioner	R50

But the allotment made for either of the two districts shall not be exceeded without the sanction of the Commissioner. Subordinate Revenue Officers shall keep the Collector informed of all loans that may be granted by them, by the submission of such returns as he may, from time to time, prescribe

4. An application for a loan may be made to any Revenue Officer of or above the rank of Girdawar.

5. The application shall be, if made in writing, as nearly as possible, in form 1 attached. If an oral application is made, the officer to whom it is made shall cause it to be recorded as nearly as possible in the form

6. In respect of every application made under rule 4 an enquiry shall be made by a Revenue Officer not below the rank of Girdawar if the loan applied for does not exceed R100, or by a Naib Tahsildar when it exceeds that sum, for the purpose of ascertaining the particulars required in form 1. Such enquiry need not be elaborate, and shall not be carried further than is necessary for the due ascertainment of the security for the loan. If, in the opinion of the Revenue Officer dealing with the application, it is expedient that public notice of it should be given, such officer shall publish a notice thereof by fixing it in a conspicuous place in the village in which the applicant resides

7. (i) When the amount of the loan applied for does not exceed three-fourths of the value of the land offered in security no collateral security shall be required

(ii) When a loan is applied for by the members of a village community, or by a group of landed proprietors on their own joint personal security, the Collector of the Revenue Officer, as the case may be, may, at his discretion, advance on such security an amount not exceeding five times the annual assessment of the land held by the applicant

(iii) Personal security may also be accepted in special cases where the Collector or a Revenue Officer specially empowered by the Collector in this behalf, for reasons to be recorded by him in writing, deems such security sufficient

8(1) The rate of interest upon these loans shall be one anna in the rupee or 6½ per cent. per annum.

(2) The borrower shall be shown at the time of the grant of the loan the table of equated payments appended to these rules, which shall be explained to him, and it shall

be left to him to choose, subject to the approval of the lending authority and the provisions of rule 9, the number and mode of instalments in which the loan is to be repaid. No distinction shall be made in the account given to the borrower between principal and interest. All he need be told is the amount to be paid by him at each instalment and the number of instalments he will have to pay.

(3) Where a loan is advanced in more than one instalment, the interest due on the previous instalments should be deducted from the amount of the last instalment at the time when this is paid to the borrower. For the purpose of the table mentioned in (2) above the whole loan will then be considered to have been made on the date on which the last instalment was advanced to the borrower.

(4) In cases in which a loan is repaid in more than one instalment and the interest due on previous instalments is deducted from the last instalment in the manner stated in (3) above the Collector will make an adjustment in the Treasury accounts by debiting the head "Advances to Cultivators" and Crediting "XII—Interest" with the amount of the interest on the earlier instalment.

(5) It is essential that each instalment of repayment should be distributed between principal and interest, and tables A and B show how the distribution should be made in the case of a loan of Rs 100 repayable in 5 and 10 instalments. Similar tables should be drawn up for each loan.

(9) The dates fixed for the repayment of instalments shall not extend over more than ten years as a maximum. Loans for seed shall ordinarily be repaid from the crop produced from the seed, and those for purchase of plough cattle shall ordinarily be repaid within two years.

(10) The dates for repayment of instalments shall usually be the dates fixed for the repayment of land revenue, loans being recoverable as arrears of land revenue.

(11) Compound interest may be charged at the discretion of the Collector upon all over due instalments of interest or of principal and interest. Such interest shall not be levied, however, in cases in which the failure is due to the defaulter's inability to pay or in which the levy of such interest would be productive of hardship.

(12) When any loan or a part of it is found to be irrecoverable a special report shall be made to the Chief Commissioner, who may pass such orders thereon as he thinks fit.

(13) The following registers shall be maintained by the Officers hereinafter mentioned, in each case, in the form specified below:—

(I) A register of applications for loans under the Agriculturists Loans Act (XII of 1884)

This register shall be maintained by every officer empowered to grant loans under this Act, in the form I attached.

(II). A register of accounts of loans and repayments under the Agriculturists Loans Act (XII of 1884)

This register shall be maintained (1) by each Tahsildar for his own Tahsil,

(2) by the Revenue Extra Assistant Commissioner for the Istimrari area of the Ajmer district,

(3) by the Treasury officer, Ajmer, for the whole Commissionership, in form II attached.

(III) A register of receipts for repayment instalments of loans under the Agriculturists Loans Act.

This register shall be maintained by —

(1) each Tahsildar for his own Tahsil;

(2) by the Treasury Officer, Ajmer, for the Istimrari area of the Ajmer District, in form IV.

(IV) An abstract register of half-yearly accounts of loans under the Agriculturists Loans Act (XII of 1884).

This register shall be maintained by:—

(1) each Tahsildar for his own Tahsil,

(2) The Revenue Extra Assistant Commissioner for the Istimrari area of the Ajmer District,

(3) The Treasury Officer, Ajmer, for the whole Commissionership in form V.

(V) An annual statement of loans repayments under the Agriculturists Loans Act (XII of 1884)

This register shall be kept in form VI by the same officers as register No. IV.

14 (1) Half-yearly statements shall be prepared by the Tahsildars, Revenue Extra Assistant Commissioner and Treasury Officer from Registers Nos II (form II) and III (form V) and submitted to the Collector, who shall forward them to the Commissioner.

(2) And Annual statements shall be prepared in form VI by the Treasury Officer, Ajmer, from the half-yearly statements in form V and similarly submitted to higher authorities.

PART B.

Loans for the relief of distress.

15. Loans for the relief of distress may be made to owners and occupiers of arable land in accordance with the preceding rules to preserve cattle and to enable them and their dependants to subsist until the ripening of the next crop, subject to the following modifications :—

16. These loans shall be recoverable in the same way as ordinary loans but within a maximum period of three years.

17. When the officer authorised to grant loans is satisfied by enquiry made through the Tahsildar or otherwise that a loan is necessary and will be repaid, he shall order a loan to be given to the extent considered absolutely necessary and shall fix by written order the instalments by which it is to be given and repaid. When the number of such loans is large, the necessary enquiries shall be made well beforehand in order that the money may be disbursed without delay when actually required

18. The loans shall ordinarily be given by instalments monthly or every two months.

19. Payments of the loans sanctioned may be made in the presence of the officer ordering the loan or of the Tahsildar and shall be attested by the signature of such officer or Tahsildar

20. These loans are meant primarily for small land owners, and as they are recoverable as land revenue, it shall not generally be necessary to take security for them, provided that they are covered by the value of the recipient's property, and if they are not so covered, the loan shall not be given unless some sufficiently substantial person becomes security.

21. The loans may also be made to occupancy tenants provided that some sufficiently substantial person becomes security

22. Monthly returns of the loans shall be prepared and submitted to the Commissioner, loans made for subsistence being kept separate from other loans

By order,

W. H. J. WILKINSON,

First Assistant to the Agent to the
Governor-General, Rajputana, and
Chief Commissioner, Ajmer-Merwara

For every 100 words, or part thereof, in excess of 400	0	2	0

* In addition to the fee as above on the value or consideration expressed

NOTE (a).—When registration is refused, neither registration nor copying fee is to be levied.

Copies of reasons granted before registration are those which, in case of refused registration are given on application made by any person executing or claiming under the document, as provided in Section 76 of the Act.

NOTE (b).—When application for a copy under Section 57 necessitates a search the fee prescribed by Article II is to be levied in addition to that chargeable under Article III.

NOTE (c).—Government officers who may require to search the registers or take copies of entries in the registers for *bond fide* public purposes will be exempted from payment of the fees under Articles II and III, on a certificate being granted by the Registrar of the district that the information is required solely in the interests of Government.

NOTE (d).—The fees for copying maps and plans of estates or houses, etc., such as are filed in Supplementary Book No. 1, shall be determined by the head of the office.

EXTRA OR ADDITIONAL FEES.

ARTICLE IV.—For discretionary registration under section 30 :—

	R	a.	p.
(1) By the Registrar of the district under clause (a)	4	0	0
(2) By the Registrar of the Lahore district under clause (b)	10	0	0

NOTE.—The additional fee under this article is not payable on the registration of wills and authorities to adopt.

Nor is it to be levied in cases where the Sub-Registrar, owing to his being pecuniarily interested in the transaction, or to his being unacquainted with the language in which the deed is written or for any other sufficient reason, is unable to register himself.

ARTICLE V.—For the issue of commissions and for attending at private residences :—

	R	a.	p.
(1) When a satisfactory certificate is produced as to sickness or infirmity, or when the person to be examined is in jail	5	0	0
(2) In all other cases	10	0	0

NOTE.—In addition to the above fee, travelling allowance at the following rates is to be levied for the actual distance travelled over, provided that the place visited is more than one mile from the registration office :—

(a) In the case of Government officials at the rates prescribed in the Civil Service Regulations. For the purpose of Article 1005 of those regulations the Departmental and Honorary Sub-Registrars are regarded as officers of the third class.

(b) In the case of Commissioners if appointed, at the rates prescribed for third class officers.

(c) The daily allowance admissible in the case of Sub-Registrars and of Commissioners is Rs. 1.

ARTICLE VI.—For filing translations 1 0 0

ARTICLE VII.—For deposit, withdrawal, and opening of sealed wills :—

	R	a.	p.
(1) When deposited in sealed cover under Section 42	4	0	0
(2) When withdrawn under Section 44	2	0	0
(3) When opened under Section 45	4	0	0

NOTE.—No fee beyond the copying fee under Article III shall be levied for copying into book No. 3, wills opened under Section 45.

ARTICLE VIII.—For the authentication of a power-of-attorney under Section 33 1 0 0

ARTICLE IX.—When under Section 36 application is made to issue and serve a summons, process fees and remuneration of the person summoned, at the rate prescribed for the Civil Courts of the province, are to be levied from the person at whose instance, or for whose behalf, the application is made, and forwarded with the application. When, however, the person summoned is the person who has executed the document, remuneration is not to be allowed him.

ARTICLE X.—For the safe custody of documents, remaining unclaimed after registration, or after registration is refused :—

	R	a.	p.
When application for return of a registered document, or of a document registration of which has been refused is made more than one week, but not more than two weeks, from the date of such registration or refusal	0	4	0
And for delay in applying for return of such document beyond two weeks, for each week or fraction thereof	0	4	0
Provided that the maximum fee leviable under this article in the case of a single document shall not exceed	5	0	0

NOTE (1).—The Inspector-General of Registration is empowered in his discretion to remit, in whole or in part, fees levied under this article, in cases in which it appears to him that their exaction would be productive of injustice or hardship."

NOTE (2).—It must be understood that no custody fee is leviable when application for the return of a document is made *within one week after the date of registration*.

Thus, if the document be registered on the 31st March, no fee is chargeable if application for its return be made between 1st and 7th April, but if the application be made after 7th April, fees are leviable as follows —

R	a	
0 4		if application be made between 8th and [REDACTED]
0 8	"	" " 15th and 21st April,
0 12	"	" " 22nd and 28th April,
1 0	"	" " 29th April and 5th May,
1 4	"	" " 6th and 12th May,

and so on, an additional fee of 4 annas being leviable for each week's farther delay in making application for return, up to a maximum fee of Rs 5

Remarks by the Administrative Medical Officer, North-West Frontier Province.

At thousand one hundred and twenty-one births were registered in the Province during the month of December 1909, giving a birth-rate of 38 per mille of population. Of the total number of births, 3,381 were boys and 2,740 girls. The total number of deaths registered from all causes in the Province during the month of December 1909 was 5,513 against 4,696 in the previous month and 6,679 in the corresponding month of the past year, giving an annual death-rate of 14.30 and 41 per mille of population per annum, respectively.

There was not a single death registered under the head of cholera.

From small-pox 104 deaths were registered against 77 in the previous month and 43 in the corresponding month of the past year.

From fevers 4,319 deaths were registered against 3,699 in the previous month and 5,584 in the corresponding month of the past year.

From accidents 24 against 11; snake-bite and killed by wild beasts nil against nil, and from all other causes 863 against 755 in the corresponding month of the past year.

PESHAWAR :

G. W. P. DENNY, Lieut.-Col., I.M.S.,

The 19th January 1910.

Administrative Medical Officer, North-West Frontier Province.

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 28.

GOVERNMENT OF INDIA. LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 28th January 1910:—

NO. 1 OF 1910.

A Bill Further to amend the Indian Penal Code.

WHEREAS it is expedient further to amend the Indian Penal Code, It is hereby enacted as follows:—

1. This Act may be called the Indian Penal Code Amendment Act, 1910.
Short title.

2. For section 75 of the Indian Penal Code the following shall be substituted, namely:—
Substitution of new section for section 75, Indian Penal Code

“75. Whoever, having been convicted,—

(a) by a Court in British India, of an offence punishable under Chapter XII or Chapter XVII of this Code with imprisonment of either description for a term of three years or upwards, or

(b) by a Court or tribunal in the territories of any Native Prince or State in India acting under the general or special authority of the Governor General in Council or of any Local Government, of an offence which would, if committed in British India, have been punishable under those Chapters of this Code with like imprisonment for the like term,

shall be guilty of any offence punishable under either of those Chapters with like imprisonment for the like term, shall be subject for every such subsequent offence to transportation for life, or to imprisonment of either description for a term which may extend to ten years.”

STATEMENT OF OBJECTS AND REASONS

THE object of the Bill is to amend section 75 of the Indian Penal Code so as to enable Courts in British India to recognise, for the purposes of that section, previous convictions by the various Courts or tribunals in the territories of Native States which exercise their jurisdiction under the general or special authority of the Government of India or of a Local Government. As the law at present stands, a person who, having been convicted by any such Court, is subsequently convicted by a Court in British India, is not liable to the punishment to which he would have been liable if the previous conviction had been obtained in British India.

This state of the law has been found to cause serious practical difficulties, more especially in dealing with habitual offenders, and the amendment proposed in the Bill is designed to remove these difficulties by including convictions by such Court within the scope of the section referred to.

The 19th January 1910.

H. H. RISLEY.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 28th January 1910 --

NO. 2 OF 1910.

A Bill to provide for certain matters in connection with the taking of the Census.

WHEREAS it has been determined to take a census of British India during the year 1911, and it is expedient to provide for certain matters in connection with the taking of such census; It is hereby enacted as follows --

1. (1) This Act may be called the Indian Short title and Census Act, 1910 extent.

(2) It extends to the whole of British India, inclusive of British Baluchistan, the Santhal Parganas and the Pargana of Spiti.

2. (1) The Local Government may appoint Appointment of any person to take, or aid in or supervise the taking of, the census within any specified local area. census-officers.

(2) Persons so appointed shall be called census-officers.

(3) The Local Government may delegate to such authority as it thinks fit the power of appointing census-officers which is conferred by this section.

3. (1) A declaration in writing, signed by any officer authorised by the Local Government in this behalf, that any person has been duly appointed a census-officer for any local area shall be conclusive proof of such appointment. Proof of appointment of census-officers, and their status as public servants.

(2) All census-officers shall be deemed to be public servants within the meaning of the Indian Penal Code.

4. (1) (a) Every officer in command of any body of men belonging to His Majesty's military or naval forces or to His Majesty's Indian Marine Service or of any vessel of war, Discharge of duties of census-officers in certain cases.

(b) every person (except a pilot or harbour-master) having charge or control of a vessel,

(c) every person in charge of a lunatic asylum, hospital, workhouse, prison, reformatory or lock-up, or of any public, charitable, religious or educational institution,

(d) every keeper, secretary or manager of any sarai, hotel, boarding-house, lodging-house or club, and

(e) every occupant of immoveable property and every manager or officer of a railway or other commercial or industrial enterprise who has at the time of the taking of the census not less than fifty persons employed under him, or living on or in such property,

shall, if so required by the District Magistrate or by such officer as the Local Government may appoint in this behalf, perform such of the duties of a census-officer in relation to the persons who at the time of the taking of the census are under his command or charge, or inmates of his house or present on or in such immoveable property, as such Magistrate or officer may, by written order, direct.

(2) All the provisions of this Act relating to census-officers shall apply, so far as they can be made applicable, to all persons while performing such duties under this section and any person refusing or neglecting to perform any duty which he is directed under this section to perform shall be deemed to have committed an offence under section 187 of the Indian Penal Code. XI.V of 1860.

5. (1) The District Magistrate, or such officer as the Local Government may appoint in this behalf for any local area, may by written order, call upon certain persons to give assistance. Power of District Magistrate to call upon certain persons to give assistance. his district or of such local area, the case may be, call upon—

(a) all owners and occupiers of land, tenure-holders, farmers, assignees of land-revenue and lessees of fisheries under the Burma Fisheries Act, 1905, or Bur. Act III of 1905, the Upper Burma Land and Revenue Regulation, 1889, or their agents, III of 1889.

(b) all village-officers and servants in estates as defined in the Madras Proprietary Estates' Service Act, 1894 (Madras) and Mad. II of 1894.

(c) all members of panchayats appointed under the Village Chaukidari Act, 1870 (Bengal), or the Sylhet and Cachar Rural Police Regulation, 1883, all ghatwals and all circle-tahsildars appointed under the Chota Nagpur Rural Police Act, 1887 (Bengal), and all village-headmen in the Kumaun Division of the North-Western Provinces,

to give such assistance as he needs towards the taking of a census of the persons who are at the time of the taking of the census on the lands of such owners, occupiers, holders, farmers and assignees, or within the limits of such fisheries or in the villages or other areas for which such village-officers and servants, panchayats, ghatwals, circle-tahsildars or village-headmen are appointed, as the case may be

(2) Such order shall specify the nature of the assistance required, and such owners, occupiers, holders, farmers, assignees, lessees or their agents, and such village-officers and servants, the members of such panchayats and such ghatwals, circle-tahsildars and village-headmen shall be bound to obey it

6 Every census-officer may ask all such questions of all persons within the limits of the local area for which he is appointed as, by instructions issued in this behalf by the Local Government and published in the official Gazette, he may be directed to ask

7. Every person of whom any question is asked under the last foregoing section shall be legally bound to answer such question to the best of his knowledge or belief:

Provided that no person shall be bound to state the name of any female member of his household, and that no woman shall be bound to state the name of her husband or deceased husband or of any other person whose name she is forbidden by custom to mention.

8 Every person occupying any house, enclosure, vessel or other place shall allow census officers such access thereto as they may require for the purposes of the census and as, having regard to the customs of the country, may be reasonable, and shall allow them to paint on or affix to the place such letters, marks or numbers as may be necessary for the purposes of the census

9. (1) Subject to such orders as the Local Government may issue in this behalf, any census-officer may leave, or cause to be left at any dwelling-house within the local area for which he is appointed, a schedule for the purpose of its being filled up by the occupier of such house or of any specified part thereof with such particulars as the Local Government may direct regarding the inmates of such house or part at the time of the taking of the census.

(2) When any such schedule has been so left, the occupier of the house or part to which it relates shall fill it up, or cause it to be filled up,

to the best of his knowledge or belief, so far as regards the inmates of such house or part, as the case may be, at the time aforesaid, and shall sign his name thereto, and, when so required, shall deliver the schedule so filled up and signed to the census-officer or to such person as he may direct.

Penalties.

10 In any of the following cases, namely:—

- (a) if a census-officer or a person appointed to be a census-officer or a person lawfully required to give assistance towards the taking of a census refuses or neglects to use reasonable diligence in performing any duty imposed upon him or in obeying any order issued to him in accordance with this Act, or with any rule duly made thereunder,
- (b) if a census-officer intentionally puts any offensive or improper question or knowingly makes any false return,
- (c) if any person refuses to answer to the best of his knowledge or belief any question asked of him by a census-officer which he is legally bound by section 7 so to answer,
- (d) if any person occupying any house, enclosure, vessel or other place refuses to allow a census-officer such reasonable access thereto as he is required by section 8 to allow,
- (e) if any person removes, obliterates, alters or injures before the thirty-first day of March 1911, any letters, marks or numbers which have been painted or affixed for the purposes of the census,
- (f) if any occupier of a dwelling-house or part thereof knowingly and without sufficient cause fails to comply with the provisions of section 9 or makes any false return under that section,

he shall be punishable with fine which may extend to fifty rupees

11. (1) The Local Government may, by notification in the official Gazette, declare before what classes of Magistrates prosecutions under this Act may be instituted.

(2) Unless and until a notification is published under sub-section (1), all prosecutions under this Act shall, in the towns of Calcutta, Madras and Bombay, be instituted before a Presidency Magistrate, and elsewhere before the District Magistrate.

(3) No prosecution under this Act shall be instituted except with the previous sanction of the Local Government, or with the previous sanction of some officer authorised by the Local Government in this behalf.

12. No person shall have a right to inspect any book, register or record made by a census-officer in the discharge of his duty as such officer or any schedule delivered under

Records of census not open to inspection or admissible in evidence in certain proceedings.

section 9, and, notwithstanding anything to the contrary in the Indian Evidence Act, 1872, no entry in any such book, register, record or schedule shall be admissible as evidence in any civil proceeding or any proceeding under Chapter XII or Chapter XXXVI of the Code of Criminal Procedure, 1898.

13. Notwithstanding anything in any enactment or rule with respect to the mode in which a census is to be taken in any municipality, the municipal authority may, at the time appointed for the taking of the census of British India during the year 1911, cause the census of the municipality to be taken wholly or in part by any method authorised by this Act.

14. Notwithstanding anything in any enactment or rule, in regard to municipal, local or village funds, the Local Government may direct that the whole or any part of any expenses incurred for anything done in accordance with this Act, may be charged to any municipal, local or village fund constituted for, and on behalf of, the area within which such expenses were incurred.

15. (1) The Governor General in Council may make rules for carrying out the purposes of this Act.

(2) In particular, and without prejudice to the generality of the foregoing power, the Governor General in Council may make rules providing—

(a) for the appointment of census-officers and of persons to perform any of the duties of census-officers or to give assistance towards the taking of a census and for the general instructions to be issued to such officers and persons ;

(b) for the enumeration of persons employed on railways and their families and of other classes of the population for whom it may be necessary or expedient to make special provision ;

(c) for the enumeration of persons travelling on the night when a census is taken.

(3) The Governor General in Council may, by general or special order, direct that all or any of the powers conferred upon him by this section may also be exercised by any Local Government with respect to the territories administered by it.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide for the taking of a Census in 1911. It reproduces, with the necessary verbal alterations, the provisions of the Indian Census Act, 1900

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA,
ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS
UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS,
1861 TO 1909 (24 & 25 VICT., C. 67, 55 & 56 VICT., C. 14,
AND 9 EDW. VII, C. 4).

The Council met at Government House on Tuesday, the 25th January 1910.

PRESENT:

His Excellency THE EARL OF MINTO, P.C., G.C.M.G., G.M.S.I., G.M.I.E., Viceroy
and Governor General of India, *presiding*,

and 61 Members, of whom 55 were Additional Members.

OATH OF OFFICE.

The following Additional Members, before taking their prescribed oath or affirmation of their allegiance to the Crown:

The Hon'ble Nawab Saiyid Muhammad Sahib Bahadur.
The Hon'ble M. R. Ry. Nyapathy Subba Rao Pantulu Garu.
The Hon'ble Mr. G. K. Gokhale, C.I.E.
The Hon'ble Sir Vithaldas Damodar Thackersey, Kt
The Hon'ble Babu Bhupendra Nath Basu.
The Hon'ble Mr. Sachchidananda Sinha.

The Hon'ble Pandit Madan Mohan Malaviya.
 The Hon'ble Mr. Abdul Majid
 The Hon'ble Sardar Partab Singh, C.S.I.
 The Hon'ble Maulvi Abdul Karim Abu Ahmad Ghaznavi.
 The Hon'ble Maung Bah Too, C.I.E., K.S.M.
 The Hon'ble Mr. M. B. Dadabhoy.
 The Hon'ble Raja Vairicherla Vairabhadra Razu Bahadur, Zamindar of Kurupam
 The Hon'ble Sir Bijay Chand Mahtab, K.C.I.E., Maharajadhiraja Bahadur of Burdwan
 The Hon'ble Raja Partab Bahadur Singh, C.I.E., of Partabgarh.
 The Hon'ble Raja Pramada Nath Ray of Dighapatia.
 The Hon'ble Mr. G. M. Chitnavis, C.I.E.
 The Hon'ble Ahmad Muhi-ud-din, Khan Bahadur.
 The Hon'ble Mr. Mahomed Ali Jinnah.
 The Hon'ble Mr. M. Mazharul Haque.
 The Hon'ble Raja Sir Muhammad Ali Muhammad Khan, K.C.I.E., Khan Bahadur, of Mahmudabad
 The Hon'ble Maulvi Syed Shamsul Huda.
 The Hon'ble Mr. C. W. N. Graham.
 The Hon'ble Mr. C. H. Armstrong
 The Hon'ble Mr. J. Andrew
 The Hon'ble Mr. H. O. Quin.
 The Hon'ble Mr. F. A. Slacke, C.S.I.
 The Hon'ble Mr. J. M. Holms, C.S.I.
 The Hon'ble Mr. M. W. Fenton.
 The Hon'ble Mr. F. C. Gates, C.S.I.
 The Hon'ble Mr. P. C. Lyon, C.S.I.
 The Hon'ble Mr. F. A. T. Phillips
 The Hon'ble Sir T. R. Wynne, K.C.I.E.
 The Hon'ble Mr. J. M. Macpherson, C.S.I.
 The Hon'ble Mr. L. M. Jacob, C.S.I.
 The Hon'ble Mr. R. W. Carlyle, C.I.E.
 The Hon'ble Sir H. A. Stuart, K.C.V.O., C.S.I.
 The Hon'ble Mr. S. H. Butler, C.S.I., C.I.E.
 The Hon'ble Major-General R. I. Scallan, C.B., C.I.E., D.S.O.
 The Hon'ble Mr. J. S. Meston, C.S.I.
 The Hon'ble Mr. J. B. Brunyate, C.I.E.
 The Hon'ble Mr. W. Maxwell, C.I.E.
 The Hon'ble Surgeon-General C. P. Lukis, M.D.
 The Hon'ble Mr. G. H. B. Kenrick, K.C., LL.D.
 The Hon'ble Colonel F. B. Longe, R.N.
 The Hon'ble Mr. C. Stewart-Wilson.
 The Hon'ble Mr. F. F. Dempster, C.I.E.
 The Hon'ble Mr. H. W. Orange, C.I.E.
 The Hon'ble Mr. C. G. Todhunter.
 The Hon'ble Mr. C. H. Kesteven.
 The Hon'ble Sir Sassoon David, Kt.
 The Hon'ble Zulfikar Ali Khan of Maler Kotla.
 The Hon'ble Malik Umar Hyat Khan, C.I.E., Tiwana.
 The Hon'ble Mr. C. Madge.
 Bahadur Ranganath Narsinh Mudholkar.

REFORMED COUNCIL.

His Excellency THE PRESIDENT said:—"Gentlemen, I welcome the members of this newly-constituted Imperial Council on their first assembly at the capital of the Indian Empire.

"The occasion is replete with political meaning. It marks the close of a system of administration which, under the guidance of many illustrious statesmen, has contributed much to the prosperity of India and to the glories of her

history—it opens a new era with the inauguration of broader principles of government,—and though this Council Room is ill-adapted for the accommodation of our increased numbers and for the convenience of the public, it has seemed best to me that we should first assemble within the walls of the palace which Wellesley founded, and in the Council Chamber hallowed by the legislative traditions of the last hundred years.

“Those years have witnessed the consolidation of the Indian Empire as it exists today—they tell a story of troubles and anxieties, of hard-won successes and many glorious episodes—but they have throughout been years of recurring administrative changes in harmony with social progress and an advance in political thought largely due to the results of an education system introduced into India by British rulers.

“It has been a period of evolution. We have moved in successive stages from Wellesley's small Supreme Council appointed by the Board of Control—to the days of Lord William Bentinck and the Charter Act of 1833—to the conquering rule of Lord Dalhousie and the Charter Act of 1853—to the Council Acts of 1861 and 1892—great landmarks in Indian history. And each successive stage has witnessed either the grant of larger legislative powers to the Government of India or an increasing recognition of the necessity for broadening the basis of administration upon lines more representative of the general interests of the country. That necessity was first met by the nomination, and subsequently by the *quasi*-election, of additional members of the Governor General's Council. The first additional member was appointed nearly eighty years ago under the Act of 1833. That member was Lord Macaulay. Since then the machinery affecting their appointment has been gradually adapted to meet varying conditions, whilst their numbers were increased to a possible sixteen by the Act of 1892. That Act, like its predecessors, has been superseded by the adoption of more advanced legislation, and in accordance with the Act of 1909 this newly-constituted Imperial Council is now for the first time assembled.

“I have merely ventured to sketch the progress of British legislation, because I cannot but feel that much of the criticism of the recent policy of the Government of India has been oblivious of past history and has been based upon the assumption that the India of twenty years ago can continue to be the India of today. That is an impossibility—many influences have combined to make it so—and we have had to follow in the footsteps of the statesmen who have preceded us, and to recognise that British rule must again be re-adapted to novel conditions,—conditions far more novel than any with which our predecessors had to deal, in that political forces unknown to them have come into existence in India which it is no longer possible for British administrators to ignore, whilst the trend of events in the Far East has accentuated the ambitions of Eastern populations. When I took up the reins of government as Viceroy in the late autumn of 1905, all Asia was marvelling at the victories of Japan over a European Power,—their effects were far-reaching—new possibilities seemed to spring into existence—there were indications of popular demands in China, in Persia, in Egypt, and in Turkey, there was an awakening of the Eastern World, and though to outward appearances India was quiet,—in the sense that there was at that moment no visible acute political agitation,—she had not escaped the general infection, and before I had been in the country a year I shared the view of my Colleagues that beneath seemingly calm surface there existed a mass of smothered political discontent, much of which was thoroughly justifiable, and due to causes which we were called upon to meet. We heartily recognised the loyalty of the masses of the people, and we were not prepared to suppress new, but not unnatural, aspirations without examination. You cannot sit forever on a safety valve, no matter how sound the boiler may be. Something had to be done, and we decided to increase the powers and expand the scope of the Act of 1892.

“It is important that my Hon'ble Colleagues and the Indian public should know the history, the early history at any rate, of the reforms which have now been sanctioned by Parliament. They had their genesis in a note of my

own addressed to my Colleagues in August 1906—nearly 3½ years ago. It was based entirely on the views I had myself formed of the position of affairs in India. It was due to no suggestions from home—whether it was good or bad, I am entirely responsible for it. It dealt with the conditions it appeared to me the Government of India had then to consider, and as it is answerable for much that has followed in its wake, my Hon'ble Colleagues will perhaps allow me to read it to them. This is what I then wrote :—

'I feel sure my Colleagues will agree with me that Indian affairs and the methods of Indian administration have never attracted more public attention in India and at home than at the present moment. The reasons for their doing so are not far to seek. The growth of education, which British rule has done so much to encourage, is bearing fruit. Important classes of the population are learning to realise their own position, to estimate for themselves their own intellectual capacities, and to compare their claims, for an equality of citizenship, with those of a ruling race, whilst the directing influences of political life at home are simultaneously in full accord with the advance of political thought in India.

'To what extent the people of India as a whole are as yet capable of serving in all branches of administration, to what extent they are individually entitled to a share in the political representation of their country, to what extent it may be possible to weld together the traditional sympathies and antipathies of many different races and different creeds, and to what extent the great hereditary rulers of Native States should assist to direct Imperial policy, are problems which the experience of future years can alone gradually solve.

'But we, the Government of India, cannot shut our eyes to present conditions. The political atmosphere is full of change, questions are before us which we cannot afford to ignore and which we must attempt to answer, and to me it would appear all-important that the initiative should emanate from us, that the Government of India should not be put in the position of appearing to have its hands forced by agitation in this country or by pressure from home, that we should be the first to recognise surrounding conditions and to place before His Majesty's Government the opinions which personal experience and a close touch with the every-day life of India entitle us to hold.

'This view I feel sure my Colleagues share with me. Mr. Morley cordially approves it, and in pursuance of it announced, on my authority, in his recent Budget speech my intention of appointing a Committee from the Viceroy's Council to consider the question of possible reforms.

'Such enquiries have, as you are aware, taken place before. There was the Commission, over which Sir Charles Aitchison presided to enquire into the employment of Indians in the public services, and we have also the notable report of the Committee appointed by Lord Dufferin to consider proposals for the reconstruction of Legislative Councils on a representative basis (1888), over which Sir George Chesney presided, and of which the present Lord Macdonnell was Secretary. It is curious to see from that report how similar conditions and arguments were then to what they are now, with the one great exception that we have now to deal with a further growth of nearly twenty years of increasing political aspirations.

'But though increased representation is still the popular cry as it was in 1888, other demands or rather suggestions are shaping themselves out of a foreshadowed metamorphosis. We are told of a Council of Princes, of an Indian Member of the Viceroy's Executive Council, of an Indian Member on the Secretary of State's Council, and in addition to the older claims put forward on behalf of increased representation on the Legislative Councils, we are asked to consider new procedure as to presentation of the Budget to the Viceroy's Legislative Council, a prolongation of the Budget Debate, and further opportunity for financial discussion. As to possibilities such as these, I would be grateful for the opinion of the Committee I hope to appoint, limiting myself for the present to only one opinion that in any proposal for the increase of representation it is absolutely necessary to guard the important interests existing in the country, as expressed in paragraph 7, page 3, of the Report of Sir Charles Aitchison's Committee, viz.—

(a) the interests of the hereditary nobility and landed classes who have a great permanent stake in the country,

(b) the interests of the trading, professional and agricultural classes,

(c) the interests of the planting and commercial European community, and

(d) the interests of stable and effective administration.

The subjects which should propose to refer to the Committee are :—

(a) A Council of Princes, and if this is not possible might they be represented on the Viceroy's Legislative Council?

(b) An Indian Member of the Viceroy's Council.

(c) Increased representation on the Legislative Council of the Viceroy and of Local Governments.

(d) Prolongation of the Budget Debate. Procedure as to presentation of the Budget and powers of moving amendments.

'This Minute is circulated for the information of Members of Council, from whom I shall be glad to receive any suggestions or expressions of opinion which they may desire to make, and which will be communicated to the Committee.'

'When the Committee has reported, their Report will be laid before Council for full consideration.'

"That note elicited valuable opinions and was fully discussed in Council, and though, as you are aware, its suggestions were not accepted in their entirety by the Government of India, it laid the foundation of the first scheme of reform they submitted to the Secretary of State.

"Since it was written, Lord Morley has fought India's battles in both Houses of Parliament in many great and memorable speeches, and there has been a constant interchange of correspondence between him and the Government of India. Much of it has not as yet been made public, but as regards the reform of the Legislative Councils I commit no breach of confidence in indicating the lines which the Government of India has endeavoured to follow. We have distinctly maintained that representative government, in its Western sense is totally inapplicable to the Indian Empire and would be uncongenial to the traditions of Eastern populations—that Indian conditions do not admit of popular representation—that the safety and welfare of this country must depend on the supremacy of British administration—and that that supremacy can, in no circumstances, be delegated to any kind of representative assembly.

"But we have been deeply impressed by the changing political conditions alluded to in my note, and we have endeavoured to meet them by broadening the representation authorised by the Council Act of 1862, by expanding its rules of procedure and facilitating opportunities for debate, by inviting the leaders of Indian public opinion to become fellow-workers with us in British administration, and by securing the representation of those important interests and communities which go to form the real strength of India, whilst at the same time recognising the claims of educational advance. We have borne in mind the hopes held out to the people of India in Queen Victoria's Proclamation of 1858.

"We have felt that the political atmosphere of a bureaucracy may become close and confined, and that the admittance of outside air is beneficial to its health and strength. We have aimed at the reform and enlargement of our Councils, but not at the creation of Parliaments. I emphasise what I have just said in view of the opinions to which advanced Indian politicians appear not unfrequently to commit themselves.

"The machinery of our scheme was explained in our Resolution of November 15th. There is no necessity for me to analyse it—it has already been fully discussed by the public. We by no means claim perfection for it, we know that there will be much to learn from experience of its working, and that it may require alteration in the future, but if I have judged Indian public opinion correctly, the verdict has been in our favour in admitting the necessity for administrative changes, and the general soundness of the lines we have followed. Of course we have met with many criticisms. It would have been unfortunate indeed, if a scheme of vast political moment had not elicited discussion and diversity of opinion. But there is one criticism which I refuse to accept—the suggestion that the Councils Act of 1909 is the result of concessions to seditious agitation. There is no foundation in any such assumption—unless the recognition of the political condition of India in 1909, as I have endeavoured to describe it, is to be reckoned as a concession—though it was the necessity for which no responsible administrators could ignore the murders at Mozufferpore were the first of the political crimes which have horrified all India, and they were perpetrated 1½ years after my Committee had commenced to formulate their reform proposals. Then came the Manicktollah Garden discoveries, followed at intervals by a repetition of outrages, mysterious in their origin. Was the Government of India in the face of those outrages, and on account of them, to renounce the conclusions they had deliberately come to, and to throw overboard their schemes for reform? Were they to be frightened by an anarchical plot out of a policy they

had deliberately adopted? I absolutely refuse to admit that the just aspirations of the loyal subjects of the King-Emperor should be jeopardised by traitorous conspirators. That is a concession I will not agree to.

" But it is unfortunately too true that the progress of the work upon which we have been engaged, and in the completion of which we hoped to confer a welcome boon upon the people of India, has been marred by a succession of abominable crimes which have forced my Government into one repressive measure after another. And yesterday, on the eve of the assembly of this Council, a faithful and gallant public servant was brutally murdered within the precincts of the High Court and in the broad light of day. A spirit hitherto unknown to India has come into existence, a spirit opposed to all the teachings of Indian religion and traditions, a spirit of anarchy and lawlessness which seeks to subvert not only British rule but the governments of Indian Chiefs to whom I am so deeply indebted for their loyal assistance. We are called upon to deal with subterranean machinations, and methods of assassination and robbery, dangerous to the public safety and discreditable to the fair fame of India. We are aware of associations which are doing their best to inveigle into their meshes the youth of the country poisoned by the dissemination of revolutionary literature, which, out of a chivalrous unwillingness to interfere with any form of freedom of speech, British administrations have tolerated for too long. Present dangers we are prepared to meet, and the moral training of the rising generation our duty will no longer allow us to neglect. We can no longer tolerate the preachings of a revolutionary Press. We are determined to bridle literary license. I am glad to believe that the support of an enlarged Council will go far to assure the Indian public of the soundness of any measures we may deem it right to introduce.

" I had hoped to open this new Council under an unclouded political sky. No one has longed more earnestly than I have to allow bygones to be bygones, and to commence a new administrative era with a clean slate. The course of recent events has cancelled the realisation of those hopes, and I can but assert that the first duty of every Government is to maintain the observance of the law, to provide for the present, and as far as it can for the future welfare of the populations committed to its charge,—to rule, and, if need be, to rule with a strong hand.

" But, gentlemen, though I have no wish to disguise from you the anxieties of the moment, I do not for an instant admit that the necessity of ruthlessly eradicating a great evil from our midst should throw more than a passing shadow over the general political situation in India. I believe that situation to be better than it was five years ago. We must not allow immediate dangers to blind us to the evidences of future promise. I believe that the broadening of political representation has saved India from far greater troubles than those we have now to face. I am convinced that the enlargement of our administrative machinery has enormously strengthened the hands of the Viceroy and of the Government of India, and has brought factors to our aid which would otherwise have had no sympathy with us. I believe above all that the fellow-service of British and Indian administrators under a supreme British Government is the key to the future political happiness of this country. It is in that belief that I have worked hard for India, and when I see around me today the representatives of the powerful communities and interests for whom I pleaded in my note, I feel convinced that the dignity and good sense of this Council will be worthily maintained. The navigation of the Indian ship of state will be loyally and

And now that my tenure of my high office is drawing to a close, I hope that my years of work have borne some fruit, and I am grateful to Providence in that He has spared me to be present on this great historical occasion."

RULES FOR THE CONDUCT OF LEGISLATIVE BUSINESS.

The Hon'ble MR SINHA said —" My Lord, I beg to give notice that at the next meeting of the Council I shall propose certain amendments in the Rules

for the conduct of Legislative Business of the Council of the Governor General. A copy of the existing Rules, together with the proposed amendments, and a Statement of Objects and Reasons for those amendments, has been placed on the table before each Hon'ble Member, and today I mean to make only two remarks with regard to these proposed amendments. Firstly, that those Rules for the conduct of Legislative Business are, Hon'ble Members will notice, entirely distinct from the Rules which have been made by the Governor General in Council, that is, the Executive Council, and already published; that is, Rules for the discussion of Resolutions on matters of public interest, Rules for the discussion of the Financial Statement, and Rules for the asking of Questions. Those Rules are made by the Governor General in Council, and the Legislative Council has nothing to do with them. The Rules which we now seek to amend are Rules for the conduct of Legislative Business properly so-called. The second remark which I desire to place before the Council is this: that the amendments which we propose are of a purely formal nature, intended merely to adapt the existing Rules to the altered constitution of the present Council; for example, in the old Council, Members used to make their speeches sitting; with a Council of 60 Additional Members it would be almost impossible for the Members to hear a speaker if he were to speak while retaining his seat. So that we propose to alter that and to make it a Rule, subject of course to the Legislative Council passing it, that Members henceforth should stand when making their speeches. The other alterations are more or less of the same character. We considered that it was not desirable to make any substantial changes in the Rules before we had a larger and longer experience of the existing Rules, which, if I may venture to say so, seemed to work very well so far as the old Councils were concerned. I hope Hon'ble Members will agree with me that it would be inadvisable and inexpedient to make any changes of substance of the existing Rules before we have gained some practical experience of the working of the Rules which I shall propose at the next meeting of the Council.

"That is all I have to place before the Council today, I merely make these observations in order that Hon'ble Members may feel that we are not proposing any drastic changes in the existing Rules of Business."

The Council adjourned to Friday, the 28th January 1910.

J. M. MACPHERSON,
*Secretary to the Government of India,
Legislative Department.*

CALCUTTA ;
The 26th January 1910. }

SUPPLEMENT TO
The Gazette of India

No. 5.] CALCUTTA, SATURDAY, JANUARY 29, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday,
the 27th January 1910, based on the Indian Daily Weather
Reports of the period.**

The depression which appeared over Persia on the 19th, gave light precipitation in Baluchistan and the extreme north of India at the beginning of the week, with its disappearance on the 22nd, a period of dry weather set in and continued throughout the remainder of the week. Temperature had recovered from the effects of the cold wave which crossed northern India last week by the 22nd, and apart from a slight deficiency in the central part of the country during the latter half of the week, temperature was generally normal.

Burma.—Light rain fell in south Tenasserim on the 23rd and 24th, and was again recorded on the 26th. Skies were cloudy on the 24th and 25th and were very cloudy on the remaining days. Temperature was approximately normal.

Northeast India, including Orissa.—Skies were clear or lightly clouded, and temperature was normal or in slight defect.

The United Provinces, Central India and the Central Provinces.—Skies were lightly to moderately clouded on the 24th and 25th, and were clear during the rest of the period. Temperature was generally slightly below normal during the latter half of the week.

Northwest India.—Snow fell in the hills of the north Punjab, Kashmir and Baluchistan on the 20th and locally in Kashmir on the 21st. Skies were overcast in

Kashmir on the 21st and were practically free from cloud for the rest of the week. Maximum temperature was generally normal and the minimum normal or in slight defect.

The Peninsula.—Skies were clear or lightly clouded and temperature was normal at most observatories.

The following summarises the principal rainfall amounts as reported at 8 hrs. each day .—

January 21st Sonemarg 1·25" and Quetta 0·27".

„ 24th. Mergui 0·56".

The normal rainfall for the week is appreciable in the United Provinces, the east of Central India, upper India and Baluchistan, and as there was no precipitation except in Kashmir and Baluchistan there has been a considerable reduction in the large percentage excess hitherto shown in these areas.

J. PATTERSON,
for Director-General of Observatories.

R. W. CARLYLE,
Secretary to the Government of India.

SIMLA,
The 27th January 1910.

GOVERNMENT OF INDIA

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 22nd January 1910.

Burma—Rain was reported in the Mergui District only. Harvesting of the winter rice crop is nearly completed as also of millet, *juar*, groundnuts and winter sessamum. Other agricultural operations are proceeding normally. Prices of unhusked rice are generally the same as last week with some enhancement at Rangoon, Akyab, Bassein and Mandalay, remaining below the normal for the month in Rangoon and Bassein and considerably below the normal in Mandalay and Shwebo.

Eastern Bengal and Assam—The weather was dry with no rain during the week except light showers on and near the hills. Reaping of winter rice continues. Transplantation of spring rice is in progress. Harvesting of mustard and sugarcane is going on and that of pulses is nearly finished. Fields are being prepared for jute. Prospects of tea, wheat, tobacco and sugarcane are good and of mustard and pulses fair. The average price of common rice has fallen by 1 per cent. Cattle disease prevails in four districts.

Bengal.—Light rain fell in Gaya, Saran, Champaran, Muzaffarpur, Purnea and Darjeeling. There was no rain in the rest of the Province. Harvesting of winter rice is almost completed. Pressing of sugarcane continues in Bihar, Orissa and Chota Nagpur. The standing spring crops are doing well. Some damage has been done by insect pests in parts of Monghyr and by the recent rain in Khulna. The price of common rice has risen in Burdwan, Midnapore, Patna, Gaya, Saran, Darbhanga, Monghyr, Bhagalpur, Hazaribagh, Manbhum and Cooch Bihar and has fallen in Nadia, Jessore, Muzaffarpur and Ranchi. Cattle disease is reported from ten districts. The fodder and water-supply is sufficient throughout the Province.

United Provinces—Rain fell in 42 districts averaging $\frac{1}{2}$ inch or more in the hills, the greater part of Rohilkhand, Meerut and the Western half of the Agra Division. Elsewhere smaller amounts were received. The heaviest falls were—Dehra Dun $2\frac{1}{2}$ and Garhwal $1\frac{1}{2}$ inches. Pressing of sugarcane and irrigation and weeding of spring crops continue. Standing crops are flourishing. Cattle are generally in good condition but 14 districts report disease. Fodder is abundant. Markets are well stocked. Prices are high and unchanged.

Punjab—Good to moderate rain fell in parts of Hissar, Ambala, Jullundur, Lahore, Sialkot, Rawalpindi and Mianwali. Slight rain is also reported from Shahpur. The rainfall has been very beneficial to standing crops. Pressing of sugarcane is in progress and harvesting of *toria* continues in a few districts with outturn good to average. Standing crops are generally in good condition and cover a large area. Rats are damaging standing crops in Hissar and Rohtak. Prices of food grains are generally unsettled. Cattle are in good condition. Fodder is generally sufficient.

North-West Frontier Province.—Slight showers fell in Abbottabad and in Marwa tahsil of the Bannu district and in the Tank tahsil of the Dera Ismail Khan district. Standing crops are generally in good condition throughout the Province. Sugarcane pressing still continues in the Peshawar and Bannu districts. Planting of sugarcane is in progress in the Bannu district. The water-supply is sufficient. Irrigation from the Paharpur canal in the Dera Ismail Khan district is still stopped. Fodder is sufficient except in the Shigga circle of the Bannu district. Cattle are generally in good condition except that in the Nowshera tahsil in the Peshawar district. The public health is generally good but malarial fever is still prevalent in the Charsadda tahsil of the Peshawar district. Prices, except those of wheat and maize, show a slight tendency to fall. Prices: Wheat 12 to $13\frac{1}{2}$, gram $16\frac{1}{2}$ to 22, maize 15 to $22\frac{1}{2}$; bajra $16\frac{2}{3}$ to 18 and barley $19\frac{1}{2}$ seers per rupee.

Jammu—The rain was good. Prices are fluctuating. Wheat sells from 11 to 17 and maize from 17 to 26 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Ramban, Basohli and Kotli tahsils. Fodder is sufficient.

Kashmir—Snow fell during the week. The condition of spring crops is good. There is no disease among cattle. Fodder is sufficient in flooded villages but in others it is average. Prices are unchanged.

Rajputana.—Showers fell at places. The maximum was 217 cents at Hindaun and the minimum 4 cents at Ajmer. Spring crops are progressing and the outturn is fair to good. Cattle disease prevails in Jaisalmer. Damage to crops by rats is reported in one district of Jhalawar. Fodder is sufficient. Prices are rising in Bikaner, Sirohi, Mewar, Partabgarh, Shahpura, and Kotah and are steady or falling elsewhere.

Central India.—The rainfall was slight in Gwalior, Baghelkhand and Malwa. Threshing of autumn and irrigation of spring crops continue. Crops have been damaged slightly in Malwa and Bhopawar. Agricultural stock are in good condition except for some cattle disease in Baghelkhand, Bundelkhand and Bhopawar. Prices are fluctuating in Indore and Bhopal and are high and steady elsewhere. Watering and weeding of poppy continue.

Central Provinces.—The weather has been cool and occasionally cloudy. No rain was received during the week. Harvesting of autumn crops still continues in a few districts. Reaping of wheat and linseed has commenced in Chanda and of linseed in Bilaspur. Threshing and winnowing of autumn crops are in progress. Cotton is still being picked in Hoshangabad, Nimar, Nagpur and Berar. Damage by frost and rats was reported from some villages in Saugor. Wheat and gram have been injured slightly by rats in parts of the Seoni tahsil of Hoshangabad. Rust appeared in wheat in portions of the Umer tahsil of Nagpur. The condition of standing crops is excellent in Damoh, Seoni, Narsinghpur and Chhindwara and generally good elsewhere. Fodder and water are sufficient. Agricultural stock are in good condition. Prices:—Wheat in Jubbulpore and rice in Drug rose and wheat in Chhindwara and *juar* in Nimar fell by $\frac{1}{2}$ seer per rupee. Gram in Saugor and Raipur *juar* in Wardha and rice in Bhandara became cheaper by 1 seer. Gram sold dearer by 1 seer in Jubbulpore. Prices of staple food grains were steady elsewhere or fluctuated slightly.

Feudatory States.—During the week Sirguja and Jashpur had a sprinkling of rain. Prospects are excellent in Chhuikhadan and generally good elsewhere. The supply of fodder and water is adequate everywhere. Prices.—Rice and *kodon* in Khairagarh and rice in Saragarh and Sakti became dearer and rice in Bastar and wheat in Saragarh fell by 1 seer per rupee.

Bombay.—Slight rain fell during the week in parts of Ahmedabad and the Panch Mahals. Standing crops are suffering from insufficient moisture in parts of Poona, Sholapur, Bijapur and Kolhapur, they have been damaged slightly by insects in parts of Karachi and Kolhapur, by cloudy weather in Surat and West Khandesh, by frost in Hyderabad, the Upper Sind Frontier, Palanpur and Cutch and are generally in good condition elsewhere. Threshing of autumn crops continues in parts of the Upper Sind Frontier, the Konkan, Khandesh, Nasik, Ahmednagar and Poona. Spring sowings are progressing in parts of Karachi, Kanara, Nasik and Mahi-Kantha. Harvesting is in progress in parts of Gujarat, the Deccan, the Karnatak, Baroda, Cutch and Rewa-Kantha. Cotton picking is progressing in Hyderabad, Kaira, Broach, Khandesh and Belgaum. The fodder supply is generally adequate. Agricultural stock are sufficient except in parts of the Deccan and are generally in good condition. Drinking water is generally sufficient. Irrigation water is deficient in parts of Nasik and Poona. Grain stocks are sufficient. Prices have fallen in Poona, Satara, Bijapur and Dharwar, have risen in the Panch Mahals and are stationary elsewhere. The quantity purchasable per rupee is in Sind 20 to 41 per cent, in Gujarat 31 to 23 per cent, in the Konkan 2 to 40 per cent. and in the Karnatak 17 to 20 per cent. less than the normal and in the Deccan 4 per cent. more to 27 per cent. less.

Hyderabad.—No rain fell during the week. The autumn harvest is over except for picking of cotton which is still going on in some parts of the Aurangabad division. The spring crop is being weeded and its harvest has begun in parts of Telangana. The crop is reported to be bad in parts of the Warangal and Medak divisions, especially in the Nalgonda, Warangal and Karimnagar districts. Some damage was done by rats in the Khuldabad taluka of the Aurangabad district. The cotton crop is being harvested and its outturn is estimated at 8 or below 8 annas. The early rice harvest is nearly completion. Late rice sowings are in progress and weeding has begun in parts of the area will be limited owing to the inadequacy of the water-supply in tanks. Cattle disease is reported in 6 talukas and fodder scarcity in 11. Water scarcity prevails in parts of the Lingsugur taluka of the Raichur district, Janwada in the Bidar district and Sultanabad in the Karimnagar district. The water supply is decreasing in the Ashti taluka of the Bir district, in Palam in the Parbhani district, Udgir in the Bidar district, Palencha in the Warangal district, and in the Jagtial, Mahadeopur and Karimnagar talukas of the Karimnagar district. Prices.—Wheat 7, coarse rice 7 and *juar* 14½ seers per rupee. White and yellow *juar* are selling in Hyderabad city at 13 and 15 seers per rupee respectively. The highest price in districts is 8 seers in Chinnur of the Adilabad district and the lowest 22 seers in Udgir in the Bidar district.

Mysore.—Prices of food grains have fallen slightly in Bangalore, Kolar and Tumkur and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Paddy and other crops are being harvested. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Picking of coffee and harvesting of rice continues. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras —There was light rain in the Vizagapatam Littoral and *nil* elsewhere. Irrigation supplies are sufficient in Ganjam, Vizagapatam, North Arcot, Malabar, South Canara and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Guntur, the Deccan, the Carnatic, Central Tanjore and Madura have withered or are withering or require more rain. Harvests continue with outturn fair to bumper. Pasture is sufficient except in parts of the Circars, the Deccan, Nellore and South Canara. Fodder is scanty in parts of Godavari, Guntur and Nellore. The condition of cattle is generally good. The price of rice is stationary in ten districts; has fallen in twelve and has risen in one. The prices of millets have fluctuated as follows —*Ragi* is stationary in nine districts; has fallen in eight and has risen in four. *Cholam* is stationary in six districts, has fallen in six and has risen in two. *Cumbu* is stationary in eight districts; has fallen in six and has risen in one. The public health is generally good. Prospects are generally fair though more rain is required in parts of Nellore, South Arcot and Salem. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are generally sufficient.

R. W. CARLYLE,
Secretary to the Government of India.

No. 572-594—7.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

COMMERCIAL EXHIBITIONS.

THE JAPAN-BRITISH EXHIBITION WHICH WILL BE HELD IN LONDON IN
MAY-OCTOBER 1910.

RESOLUTION.

Calcutta, dated the 25th January 1910.

THE following papers relative to the Japan-British Exhibition which will be held in London in May-October 1910, are published for general information. As regards the classification of exhibits, the Exhibition authorities have decided to follow, with possibly one or two unimportant modifications, the classification of the Franco-British Exhibition which was published with Resolution No. 3580—3600-5, dated the 25th April 1907.

2. The Government of India have decided not to participate in the Exhibition.

THE JAPAN-BRITISH EXHIBITION, 1910, THE GREAT WHITE CITY, LONDON, W.

Application for space.

Full Name of Firm _____

Address _____

To The SECRETARY of the ASSOCIATION,

I beg to request that the following space in the
Section be allotted to me for the display only of the articles enumerated below

Floor space _____ ft. long by _____ ft. wide	Total	(Country) _____
Additional frontage required _____ ft		
Wall space _____ ft. high by _____ ft. wide.	Total	_____ sq. ft.
	Total	£ _____

for which $\frac{1}{100}$ enclose herewith a cheque, value £ _____, being 50 per cent. of the total amount payable.

In the event of my application being granted in whole or in part, I undertake to pay to the Association the balance within six days of receiving notice to that effect, and hereby agree to observe and be bound by the annexed

Rules and Regulations, and that all goods exhibited shall be the produce of or manufactured in the British Empire

Special Features of Articles to be Exhibited	Full List of Articles to be Exhibited	If it is desired to illustrate a Manufacturing Process, for which Motive Power is required, state full particulars
<p>The expression "etc." and any other general term is to be disregarded and treated as a nullity.</p>		

A separate form must be filled up for each space required in the different groups of the classification.

A sketch, showing the proposed arrangements of the exhibits, should accompany this form

In the event of motive power, electricity, gas, or water being required, application must be made on a special form, which will be supplied on demand.

This Form, when filled up and signed, must be addressed to the Secretary of the Association, Great White City, Shepherd's Bush, London, W.

Rules and Regulations for Concessionaires, Exhibitors, and others.

1. It is intended that the Exhibition shall be opened during a period of about sixteen weeks (unless prevented by causes beyond the control of the Association) between the months of May and October 1910, from about 11 A M. to 11 P M daily, except Sundays, but the Association reserve the right to extend or restrict such periods or hours. Due notice will be given as to the opening and closing of the Exhibition.

2. The said ~~parties~~, whilst intending to adhere as closely as possible to their rules, regulations and plans, reserve the power to make any modifications or alterations they may desire.

3 Every concessionaire shall pay all expenses of conveying, delivering, installing, fixing, equipping, furnishing, arranging, decorating, maintaining and removing everything connected with the concession, and of the erection of all buildings (if any), structures, partitions, fixtures, screens, etc., required, and must, by a responsible representative, superintend the transmission, reception, unpacking, installation, and (at the closing of the Exhibition or expiration of his agreement, whichever shall first happen) the removal of all goods, articles and things connected with the concession.

4. No concessionaire shall assign, transfer, underlet or part with the possession of the allotted space or any portion thereof, or dispose of the concession, or any part, share or interest therein, nor place thereon anything other than the concession, and the concessionaire declares that no person whose name does not appear in the contract with the Association is pecuniarily or otherwise interested with him, and that he will not enter into partnership in respect of his contract or the concession without the previous written consent of the Association. Underletting.

5. No concessionaire shall allow any article of alimentation, refreshment, food, drink, tobacco, or any goods displayed or on the concession, or any other article or thing whatsoever, to be bought, sold, given away or consumed at, upon, or from the allotted space, or any part thereof, without having first obtained a license under the seal of the Association and paying the required fee therefor, and until he shall have entered into and signed the sale agreement of the Association; such license, however, may be withheld or not granted by the Association without any cause or reason being given therefor. Sales, etc.;

6. No deception of the public of any kind will be allowed. Anything which has not been clearly described, or which shall not be approved of by the Association, shall not be permissible for exhibition or display, and the Association reserve the right to refuse admission to, or to enforce the removal from, the Exhibition at any time of any article or object not so described or approved of or which they may deem unsuitable, dangerous, or in any way objectionable, without assigning any reason for so doing, and every concessionaire exonerates the Association from any claim or responsibility whatsoever in reference to any article or object so refused or removed. No deception.

7. All cases and goods for the Exhibition must bear on two sides the distinctive mark J B Ex., together with the name of the concessionaire and particulars of the concession, as well as the name and number of the building or site which the same are intended for, and the title of the Exhibition. Distinctive mark.

8. No goods or objects of any kind will be received earlier than four weeks before the date fixed for the opening of the Exhibition, unless the previous written consent of the Association has been obtained. All stands, show cases, etc., must be completely erected in position at least two weeks, and all articles displayed therein or thereon at least one week before such date. Receipt of goods.

9. All cases must be unpacked immediately after arrival, and the empty cases and litter removed forthwith by the concessionaire from the allotted space and Exhibition grounds, otherwise the Association reserve the right of doing this at the expense of the concessionaire. The Association will not take any responsibility in reference to cases or their contents. Removal

10. The concessionaire shall have all architectural work done through the offices of the Association, and all structural and other works, and everything else supplied or used by the concessionaire, must at all times be in accordance with the rules and regulations and subject to the approval of the Association, the London County Council, local and all other authorities, and the concessionaire shall execute all such works as are or may, under or in pursuance of any Act of Parliament already or hereafter to be passed, be directed or required by any public authority to be executed at any time during the continuance of his agreement, upon or in respect of the allotted space or concession. Work to be subject to approval.

11. All work in connection with the concession is at all times subject to the approval of the Association, and where the concession is made in or on any building no staple or other attachment shall be driven into the floor, wall or any other part of the building, nor may the flooring, walls or roof be altered, removed, strengthened or interfered with, except with the previous written consent of the Association and at the expense of the concessionaire. The flooring of the Exhibition buildings is calculated to bear a weight of 1,000 lbs. to the square yard, and in no case shall the concession have a greater weight per square yard unless and until the previous written consent of the Association has been obtained, and whatever alteration to the flooring may be necessary shall be made at the expense and risk of the concessionaire, and all damage caused by such alteration must be made good by him. Work.

Fittings, decorations, etc.

12. All constructions, fittings, decorations, designs, announcing boards, advertisements, flags and signs, etc., shall be new and subject in all respects to the approval of the Association, who may cause to be removed, or altered, anything they may deem objectionable, or of which they may not approve. No concessionaire may display advertisements or notices other than those referring to his own concession, or to which the Association may object.

Construction.

13. The construction and appearance of all concessions and stands are at all times subject to the approval of the Association, and stands must not exceed nine feet in height, inclusive of screens, decorations, and signs. Counters must not exceed three feet and platforms eight inches above the floor. Concessionaires occupying stands with two or more frontages must arrange their display on each frontage, and any bare woodwork or back of signs, etc., must be covered or decorated. No concession or any part thereof shall be arranged in such a way as to project beyond the allotted space, or obstruct the light or impede the general view in all directions, or be detrimental to any other concession. Every concessionaire must confine his concession strictly to the limits of the allotted space unless with the previous written consent of the Association.

Contractors.

14. The Association may appoint official and other contractors for buildings, erections and installations of every kind, as well as, stands, fittings, decorations and signs, to attend the Exhibition to take orders. No other contractor will be allowed to solicit orders on the Exhibition premises; concessionaires may, however, employ their own contractor, who will be admitted on their written request, but every concessionaire before placing any work in connection with the concession with any contractor shall procure him first to register his name and address with the Association, and to sign a memorandum agreeing to observe, and be bound by, these as well as the contractor's rules and regulations of the Association, and the concessionaire shall be responsible for all his work and actions.

Supply of electric current, gas and water.

15. Provision will be made where practicable at the concessionaire's expense and risk for the supply of electric power for concessions to be shown in motion and for the supply of electric current, gas and water, if application is made on the official forms provided for that purpose. Every concessionaire must state the approximate amount of electric current, gas or water he may require, and shall pay the Association for work in connection with the fitting and installation so required by him for his concession at the specified prices, and pay such deposit as may be required to sufficiently cover the cost of all electric current, gas or water which may be consumed. No persons other than those authorised in writing by the Association shall be permitted to execute any work whatsoever in connection with the installation upon the allotted space, concession or elsewhere. The name of the contractor who the concessionaire proposes to employ must be submitted to and approved of in writing by the Association (and he must sign a memorandum agreeing to observe and be bound by these and any other rules and regulations of the Association) before any work is started, and no work by the Association in connection with the connecting up of the concession will be undertaken unless and until the work on the allotted space has been carried out by such contractor, and completed and tested to the satisfaction of the Association. No person, however except the employes of the Association shall, without the previous written consent of the Association, interfere with, add to, take down or alter any installation or any part thereof, after the same has been connected with the Association. The Association, their agents, surveyors, and workmen, shall have the right to enter the allotted space and concession at all times for the purpose of doing such works and things as may be required for any repairs, alterations or improvements to the electric, gas and water mains and drains, and anything connected therewith in or under the same or in any other part of the Exhibition grounds.

Deposits.

16. In any case where a deposit shall have been made by any concessionaire with the Association for any purpose, the certificate of the Secretary as to the amount payable to the Association for such purpose shall be conclusive and binding on both parties and the difference between the amount deposited and the amount of such certificate shall be paid by or refunded to the concessionaire as the case may be.

17. If any damage or injury shall be caused or occasioned before the opening, during the season, or after the closing of the Exhibition, by the concessionaire or any person employed by him, or by any apparatus, or by the erection, installation, use or removal thereof, or by any object connected with the concession or belonging to or under the control of the concessionaire, to any visitor, concessionaire, or any person whomsoever, or to any object or thing, the concessionaire shall indemnify and save harmless the Association from and against all damage or injury, and all claims, demands, actions, suits, costs and expenses in respect thereof. Damage, accidents, etc.

18. The concessionaire, shall, at his own expense, insure, in the joint names of the Association and himself, to the approval of the Association and through their official Agents, in a first-class Insurance Company, the concession and everything contained therein against loss or damage arising through fire, water, the elements, explosions, theft, or any other cause (and any money received in respect of the same shall be applied in reinstating and replacing the property so damaged or lost), and against any claim made by visitors, employees or others in respect of any matter whatsoever. If such insurances are not effected and the policies, together with the receipts for the premiums, produced to the Association 14 days before the date fixed for the opening of the concession, the Association may themselves effect such insurances, and all expenses incurred by the Association in so doing shall constitute a debt immediately payable by the concessionaire to the Association, and may be retained by them out of any moneys due or to become due to the concessionaire. Insurance.

19. Every concession shall be at the sole risk and responsibility of the concessionaire, and the Association will not be responsible for the safety of any property or for loss or damage occurring from any cause whatsoever, to any concession or property belonging to the concessionaire or any other person. No concessionaire shall do anything to jeopardise or prejudice the leases, insurances or licenses of the Association, and every concessionaire must comply with all requirements of the Association's Fire Insurance Offices, and local and all other authorities. Responsibility for damage.

20. No concessionaire will be allowed to use unprotected lights, or fire or oil in any manner without the previous written consent of the Association. All fulminating, obnoxious, dangerous and explosive substances are absolutely forbidden. The Association reserve to themselves the right of examining, testing or having tested, at the cost and risk of the concessionaire, anything brought upon or to the premises. Dangerous articles.

21. Buildings, spaces or sites not fully occupied at least one week before the date fixed for the opening of the Exhibition may be otherwise allotted by the Association, and shall be forfeited by the concessionaire as well as all payments made in respect thereof, and any balance due by the concessionaire shall be payable as if the space had been occupied by him. Space not occupied.

22. No goods will be allowed to be delivered at, brought to, or removed from the Exhibition grounds during the hours the Exhibition is open to the public, and all cases received during the early hours must be removed before the Exhibition opens each morning. Receipt of goods.

23. The concessionaire shall not, by virtue of any agreement or otherwise, acquire any legal interest or state in the allotted space, any part thereof, but shall merely be permitted to use the same for the purpose of his concession during the period above mentioned if and so long as he fulfils with these rules and regulations, nor shall a partnership be created between the Association and the concessionaire by virtue of anything contained in his agreement or otherwise. No legal interest acquired.

24. It is understood that the Association shall be entitled to make a charge to the public for admission to the Exhibition, and no member of the public shall be admitted to the allotted space or any portion thereof, except persons who have been authorised to be admitted to the Exhibition by the Association. The Association shall have the right to enclose any portion of the Exhibition buildings or grounds, and close the same or make a special charge for admission thereto, either temporarily or permanently, and the concessionaire shall not be entitled to any compensation, allowance or damages by reason of their so doing. Admission to Exhibition.

The concessionaire shall not be entitled to any moneys received by the Association or others for admission to the Exhibition or otherwise, except only in respect of moneys (if any) taken for or at the concession.

Press view.

25. It is intended to hold a press view several days before the opening of the Exhibition, and it is essential that all the concessions shall be ready and every concessionaire present to give information, as much in his own interests as in those of the whole Exhibition.

Admission of employes.

26. One non-transferable pass for admission to the Exhibition will be issued to each concessionaire, free of charge, but the concessionaire shall purchase from the Association, for each *bona-fide* employé connected with the concession a non-transferable ticket at half the rate charged to the public for season tickets. All such tickets will be issued on the understanding that they shall be used by the employé named therein only for gaining admission for the purpose of carrying out his duties, and be subject to such conditions and restrictions, and admit at such hours and entrances as may be fixed by the Association from time to time, and shall be forfeited and not reissued or replaced if used by any other person or in the event of non-compliance with any of the conditions and restrictions upon which they are issued.

Cleanliness.

27. All concessions, allotted spaces, etc., must be properly cleaned and open for visitors at least fifteen minutes before the time fixed for the opening each day, and shall remain so during all hours that the Exhibition shall be open to the public, and if this is not done to the satisfaction of the Association, the concessionaire hereby authorises and empowers the Association to do whatever they may deem necessary at the sole risk and expense of the concessionaire.

Maintenance, employes, etc.

28. Every concessionaire shall bear all working expenses of his concession, and shall provide and pay the salaries and wages of all employes, attendants and staff, and no concessionaire shall allow any employé to enter upon his duties at the Exhibition or concession unless and until his name and address have been registered at the office of the Association, and he has signed a memorandum agreeing to observe and be bound by the rules and regulations of the Association, but no concessionaire shall, without the previous written consent of the Association, employ or engage any one who has been discharged from the service of the Association, any concessionaire or other person within the Exhibition. Arrangements for adequate lavatory accommodation must be provided under the direction of the Association by the concessionaire for the free use of his employees.

Nuisance, touting, etc.

29. No concessionaire shall do or suffer to be done any act which may in the judgment of the Association be or grow to be a nuisance or annoyance, or cause, or be likely to cause, damage or disturbance to the Association, any concessionaire, the public visiting the Exhibition, or the occupiers of any adjoining concession, sites, stalls or property, and no concessionaire shall tout or solicit the public in any way whatsoever, nor permit his agents or employes to do so, or to receive gratuities. The Association shall not be responsible to any concessionaire for the acts or conduct of, nor for the consequences of any breach of these or any other rules and regulations by any other concessionaire.

Behaviour of employes.

30. Every employé or other person connected with the concession must be neatly dressed and at all times courteous and of seemly behaviour; they shall not annoy the public, concessionaires, or others in any way, nor be seen at the Exhibition, excepting on the allotted space, in uniform or costume, and any employé or other person so doing may be expelled from the Exhibition premises by the Association and not allowed to re-enter. The Association also reserve the right to require the suspension or permanent discharge from service within the precincts of the Exhibition of, and, refuse admission to or remove from the Exhibition, any person without assigning any reason therefor. Concessionaires' employes and others connected with the concession must leave the Exhibition premises each evening immediately after the closing of the Exhibition.

Failure to pay employes.

31. The Association at their sole discretion may, but shall not be obliged to pay any salaries or wages of any employé of the concessionaire which he shall fail to pay on the due date for the payment thereof, and the Association may retain any sums paid by them in respect of such salaries or wages out of

any moneys due or to become due to the concessionaire, and upon any such sums being paid by the Association, the share of the concessionaire in the gross receipts of his concession shall be, *ipso facto*, reduced by the amount of the sums so paid, and such sums shall constitute a debt immediately payable by the concessionaire to the Association. In any case in which the concessionaire fails to furnish reasonable evidence as to the amount due in respect of such salaries for wages unpaid as aforesaid, the Association shall be entitled to pay such amounts as shall be claimed in respect thereof, and the Association shall be entitled to all the rights before mentioned in respect of the amounts so paid.

32. In all cases where concessions may be judged by a Jury appointed by the Association, their decision shall be final and binding, and the concessionaire shall not be entitled to make any appeal against their decision. Jury's decision final.

33. Every concessionaire shall cause all articles left by visitors or others, or found by any of his employes, on any part of the concession or the Exhibition, to be immediately deposited in such offices or places as the Association may from time to time designate for that purpose. Lost property.

34. The Association and any persons that they may authorise shall at all times have free access and right of entry to the concession, the allotted space and every part thereof, and the Association with the object of securing compliance with any condition, provision or stipulation of any agreement with any concessionaire, or of these rules and regulations, and any rules and regulations which may become binding on the concessionaire, shall have the right of forcible entry upon the allotted space, the concession, and every part thereof, and of opening or removing by force doors, windows, stands, show cases and any article or thing thereon without being liable in any way to the concessionaire. Right of entry.

35. No concessionaire shall allow handbills or advertisements of any kind to be given away or distributed in any manner within the Exhibition without the previous written consent of the Association, which consent the Association may withdraw at any time. Advertisements, etc.

36. No concessionaire shall, without the previous written consent of the Association, take down, alter, or remove the concession or any part thereof. Unauthorized removal.

37. a) Every concessionaire shall immediately after the closing of the Exhibition or the termination of his agreement with the Association, whichever shall first happen, forthwith withdraw from the allotted space and remove all property therefrom within fourteen days, and in default of such removal the Association may enter and remove from the Exhibition such concession, all erections, fittings, decorations and goods whatsoever, and everything connected therewith, and make good any damage done thereby, and all charges incurred for electricity, gas, water, or damage, shall be paid by the concessionaire before the removal of any of the concessionaire's goods from the Exhibition; goods, cases, etc., not removed within fourteen days, or such other time as may, in writing, be allowed by the Association, may be removed and stored at the cost and risk of the concessionaire, or the Association may, at their discretion, sell the same by auction or otherwise, and apply the proceeds to defray the expenses incurred by them. Removal of goods, deposits, etc.

(b) Any concessionaire removing or doing anything that is likely to, cause damage to or interfere with any property other than his own, shall deposit with the Commissioner-General an amount equal to Rs. 100 per square yard of the area of the allotted space, and if at the expiration of the time allowed for such removal (such time to be fixed by the Commissioner-General, if not already fixed) the concessionaire has not removed such property, or has failed to make good any damage caused by him or his employes, the Commissioner-General shall be entitled to cause the removal of such property, and make good to the satisfaction of the Association such damage as has been caused by the concessionaire or his employes or which may be caused by any means by reason of such removal. The Association shall repay themselves any cost so incurred in accordance with a certificate to be issued by the Commissioner-General in respect of the cost and expenses in connection with such removal and making good, and such certificate shall be final and binding on the concessionaire.

Accounts.

38. Any account or statement rendered by the Association to or inspected by the concessionaire, or any representative of his, shall be deemed to have been accepted and become binding upon such concessionaire, unless the same is objected to in writing by him within seven days of the same having been rendered or inspected.

Lien, etc., for payment.

39. The concession and all goods, accessories, etc., connected therewith, and everything thereon, shall be subject to a lien for any amount which may be due to the Association by the concessionaire, and the Association may at any time enforce such lien at the expense of the concessionaire by the sale of any assets of the concessionaire, either by public auction, or otherwise, and nothing shall be removed by the concessionaire without the previous written consent of the Association. The Association may at their option terminate any concession on account of any payment due by the concessionaire not having been made.

Non-compliance with agreements.

40. In the event of the concessionaire neglecting or failing to perform or observe any of the conditions, provisions or stipulations of any agreement with the Association or of these Rules and Regulations or any rules and regulations which may be binding upon the concessionaire, such concessionaire shall thereby forfeit all right to have his concession judged by any judge appointed by the Association or to participate in any awards distributed, and the Association shall be entitled, either to cancel every or any contract with the concessionaire or to take possession of the concession, the allotted space and everything therein or thereon, and to exclude the concessionaire, his employés and servants therefrom, and thereafter the Association may, but shall not be obliged to, continue, maintain, keep open and carry on the concession at the sole risk and expense of the concessionaire. In the event of the Association exercising this right, the share of the Association and of the concessionaire respectively in the gross receipts (if any) shall remain the same, but the Association shall be entitled to deduct from the share of the concessionaire, or any money otherwise due or to become due to him, all costs, charges and expenses incurred by the Association in continuing, maintaining, keeping open and carrying on or otherwise in connection with the concession, as well as all charges and expenses incurred by the Association in the exercising of their rights under this clause.

Photographs, catalogues, guides, etc.

41. The Association reserve to themselves the sole right of compiling, producing and publishing for sale or otherwise, catalogues, guides, programmes, souvenirs, and other publications, and of photographing, drawing, copying, or reproducing in any manner the concession or any part thereof, and the concessionaire shall not photograph, copy or reproduce in any manner the concession or any part thereof without the previous written consent of the Association, nor advertise or make any announcement within the Exhibition relating to the concession except through the Association or their authorised agents and at the established rates nor in any way or manner to which the Association may object.

The only arrangements recognised.

12. No arrangement made by any representative or agent of the Association will be accepted by or recognised by the Association unless and until the same shall have been confirmed by a resolution of the Board of Directors of the Association.

Right to terminate agreement by payment, (b) out payment.

13. The Association may terminate any contract at any time by giving the concessionaire notice in writing, leaving at or upon the allotted space one week's notice in writing, except that if before the expiration of 16 weeks from the opening of the Exhibition the Association shall so determine any Agreement, they shall refund or allow the concessionaire for the unexpired portion of the said period a proportionate amount of the sum paid by the concessionaire on the signing of his contract, and the amount so refunded or allowed shall be accepted by the concessionaire in full settlement of all claims and demands on the Association.

(b) In case a contract is determined at any time in consequence of the concessionaire or any employé, or any person in any way connected with the concession, doing anything which may be improper, immoral, or unfit for public view, or which may be contrary to the regulations of the London County Council or other authorities, or which may jeopardise or prejudice any of the

leases, licenses, or insurances of the Association, or be, or cause, or be likely to be or cause, an annoyance to visitors or neighbours, or any disturbance, or of any breach of any agreement or of the Association's Rules and Regulations, or through force majeure or any cause beyond the control of the Association, no repayment or compensation shall be allowed by the Association, or claimed by the concessionaire or others, nor shall any amount paid by the concessionaire be refunded.

44. In the event of any concessionaire committing any act of bankruptcy his contract shall, if the Association so elect, be determined, and all moneys due to or paid by him under such contract shall be forfeited and become the absolute property of the Association. The making of an order for the winding-up of a corporation shall be deemed to be the commission of an act of bankruptcy. Insolvency and Bankruptcy.

45. These rules and regulations and such further rules and regulations as may be issued by the Association for the government of the Exhibition shall be read and construed as forming part of every agreement made between the Association and the concessionaire, and he shall observe and be bound by the conditions and stipulations and perform the obligations contained therein, and procure all persons employed upon or connected with the concession to sign a memorandum agreeing to observe and be bound by such rules and regulations, and shall at all times assist the Association in enforcing the same. The right to alter, amend, add to, or cancel any of such rules or regulations, and to waive or grant relaxation from them in individual cases is reserved to the Association. Right to amend rules.

46. The Association shall be the sole authority in the Exhibition and have full power to enforce any and all of these rules and regulations and a Director of the Association shall be the acknowledged Arbitrator in all disputes concerning matters referred to in these rules and regulations. If any question or dispute arises between the concessionaire and the Association on any matter not provided for in these rules and regulations, or between the concessionaire and any person other than the Association on any matter connected with the concession or allotted space, the Association shall have the right to appoint an arbitrator to settle such question or dispute, and the concessionaire shall accept the decision of the arbitrator as binding and final. Any consent (other than and except consents contained in any written agreement made with the Association) given by the Association may be cancelled at any time without any cause or reason being given therefor, nor shall any concessionaire or other person be entitled to any compensation or damages by reason of such cancellation. All arbitration proceedings and hearings shall take place in London, England, and all agreements shall be construed to take effect according to English Laws, and the concessionaire shall submit to the jurisdiction of the English Courts. Disputes.

47. In the event of any legal proceedings being instituted against the concessionaire by any public authority or institution, the Association shall be entitled to make any arrangement that they may think fit for a settlement or other termination of such proceedings at the expense of the concessionaire, and he shall accept the same and give effect thereto, and in the case of proceedings instituted against the concessionaire the Association shall be entitled at the expense of the concessionaire to be legally represented at all stages of such proceedings. Legal Proceedings

48. In the Association's agreements, rules and regulations and other publications, the following terms shall have the following meanings respectively: "the Association," the Shepherd's Bush Exhibition, Limited; "the Secretary," the Secretary for the time being of the Association; "Exhibition," any Exhibition held on the Association's grounds at Shepherd's Bush, London, W., between the months of May and October; "Concessionaire," any government, municipality, person, partnership or other body of persons whether incorporated or not incorporated and whether domiciled in the United Kingdom or elsewhere who or which has an agreement with the Association for a concession or has signed a copy of these rules and regulations; "Concession," the attraction, entertainment, show, exhibit or privilege of the concessionaire as set forth in his agreement with the Association and everything relating thereto or connected therewith and any part thereof; "allotted space," the site, building or portion thereof, or any part thereof allotted to the concessionaire for the purpose of his concession; "employee," any agent, representative, manager, attendant, Terms.

servants, assistant or other person occupied either temporarily or permanently for any purpose, and under any circumstances whatsoever in connection with, or for the purpose of the concession; "Commissioner-General," Mr. Imre Kiralfy, of Tower House, Cromwell Road, South Kensington, London, S. W. and his nominees appointed in writing, and words denoting the singular number only shall include the plural number, words denoting the male gender shall include the female gender, and words denoting persons only shall include Corporations and Companies and *vice versa*. The headings in the margin of these rules and regulations shall not be taken as part thereof or in any manner affect the interpretation or construction thereof.

49 Any notice served hereunder shall be sufficiently served on the concessionaire if left addressed to him on the allotted space, or forwarded to him by ordinary letter post or left at the address given in his contract, or such address as he may have registered with the Association, and when sent by post shall be deemed to be served at the time when in due course of post it would be delivered at the address to which it is sent.

Tariff of Space.

The price for Exhibit Space will be the same as that charged at the Franco-British Exhibition, and in accordance with the following schedule:—

		s.	d.	
Up to	50 square feet taken in one block .	10	0	per square foot
"	100 " " " "	9	0	" "
"	150 " " " "	8	0	" "

N.B.—Provinces named in the first and last columns include their chief port or ports. "Madras ports" include the ports of Madras, Pondicherry (exclusive of sea imports from Non-British Ports and Foreign countries), Nagapattinam, Tuticora, Calcut, Coimbatore, Vizagapatnam, Cuddalore, Cochin, Tellicherry, Cannanore, Mangalore, Quilon, Porto Nova, and Badagara. The last eight ports were added from 1st April 1909.

PART I.

Government of India Notifications, Appointments, Promotions, etc.

LEGISLATIVE DEPARTMENT

NOTIFICATIONS

Calcutta, the 2nd February, 1910.

No. 13.—In exercise of the power conferred by section 10 of the Indian Councils Act, 1861 (24 and 25 Vict., c. 67), as modified by the Indian Councils Act, 1909 (9 Edw. 7, c. 4), and in pursuance of the provisions of Regulation I B of the Regulations for the nomination and election of Additional Members of the Legislative Council of the Governor General, the Governor General is pleased to nominate the undermentioned non-official person to be an Additional Member of the said Council —

♦ Kanwar Sir Ranbir Singh, K.C.S.I., of Patiala

The 3rd February 1910.

No 14.—Whereas the validity of the election on the 4th day of January, 1910, of the Hon'ble M. R. Ry. Nyapathy Subba Rao Pantulu Garu by the non-official members of the Legislative Council of the Governor of Fort St. George to be an Additional Member of the Legislative Council of the Governor General has been brought in question under Regulation XVI of the Regulations for the nomination and election of Additional Members of the Legislative Council of the Governor General by M. R. Ry. C. Vijaraghavachariar, one of the candidates at the said election, on the ground of the improper rejection by the Returning Officer of a vote recorded in his favour ;

The Governor General in Council, having made enquiry into the matter, is pleased hereby to declare that the said Hon'ble M. R. Ry. Nyapathy Subba Rao Pantulu Garu was duly elected.

J. M. MACPHERSON,

Secretary to the Government of India.

HOME DEPARTMENT.

NOTIFICATIONS.

MEDICAL.

Calcutta, the 2nd February 1910.

No. 98 —The services of Captain R. K. White, I M S., are placed temporarily at the disposal of the Hon'ble the Chief Commissioner, Central Provinces.

The 4th February 1910.

No. 103 —Lieutenant-Colonel F. J. Drury, M B., I M S., is confirmed in the appointment of Principal and Professor of Medicine, Medical College, Calcutta, and First Physician to the College Hospital, with effect from the 1st January 1910.

SANITARY—PLAGUE.

The 3rd February 1910.

No. 281 —Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Palni in the Palni taluq of the Madura District, of the Madras Presidency, if persons from the Mysore State are permitted to assemble at that place on the occasion of the ensuing Panguni Uttiram Festival :

In exercise of the power conferred by section 2, sub-section (1), of the Epidemic Diseases Act, 1897 (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Vayampatti, Ayyalur, Kalpattichatram, Dindigul, Vadamadurai and Tamaraipadi on the South Indian Railway, shall be sold from the 13th March to the 2nd April 1910 (both days inclusive) within the Mysore State to any person intending or believed to be intending to proceed to the Panguni Uttiram Festival at Palni.

JUDICIAL.

The 3rd February 1910.

No. 151 —With effect from the date on which he assumes charge of his duties, Mr. J. K. Batten, I.C.S., First Additional Judicial Commissioner, Central Provinces, is appointed to officiate as Judicial Commissioner, Central Provinces, during the absence on combined leave of Mr. H. V. Drake-Brockman, I.C.S., or until further orders.

H. A. STUART,

Secretary to the Government of India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

NOTIFICATION.

CIVIL VETERINARY ADMINISTRATION,

Calcutta, the 1st February 1910.

No 179—127-4.—In pursuance of section 2, sub-section (1) of the Glanders and Farcy Act, 1899 (XIII of 1899), the Governor General in Council is pleased to declare, in respect of the areas noted below, that, for the purpose of the definition contained in the said sub-section, "diseased" includes affected with surra:—

- (1) The districts of Sylhet, Cachar and Kamrup.
- (2) The station of Shillong in the district of the Khasi and Jaintia Hills.
- (3) The Shillong-Gauhati cart road in the district of Khasi and Jaintia Hills, and a strip of land on either side of the said road throughout its length and measuring 400 yards in width from the centre of the roadway.

R. W. CARLYLE,

Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Fort William, the 29th January 1910.

No. 294-Est.-(B).—Captain D Le G Pitcher, 39th Central India Horse, is appointed Assistant Inspecting Officer, Central India States Imperial Service Cavalry and Transport, with effect from the 29th October 1909.

No. 295-Est.-(B).—ERRATUM.—In the notification by the Government of India in the Foreign Department, No 4178-Est.-(B)., dated the 16th December 1909, regarding Captain A. D. Strong, 10th Lancers, for the words "Rajputana States Imperial Service Cavalry and Rampur and Jaipur States Transport" substitute the words "Rajputana Imperial Service Cavalry and Transport".

The 31st January 1910.

No. 248-G.—With the sanction of His Majesty's Government, the Governor-General in Council is pleased to recognise the appointment of Mr. William Underwood Nicholas as Consul at Karachi for the Austro-Hungarian Empire.

No. 311-Est.-A.—Major W. G Grey, a Political Assistant of the 1st class, is posted on return from furlough, as First Assistant to the Resident in Mysore, with effect from the 25th January 1910.

The 1st February 1910

SEPARATE REVENUE.

STAMPS.

JUDICIAL.

The 2nd February 1910

No. 577-Exc—In exercise of the powers conferred by section 35 of the Court Fees Act, 1870 (VII of 1870), the Governor General in Council is pleased to remit the fees chargeable under the said Act, on applications for mutation of names in all Government estates in the districts of the Dacca, Chittagong and Rajshahi Divisions of the province of Eastern Bengal and Assam.

2. The Notification of the Government of India No. 3093-Exc, dated the 18th June 1909, is hereby cancelled.

ACCOUNTS AND FINANCE. PUBLIC DEBT.

Fort William, the 3rd February 1910.

No. 622A.—In pursuance of Rule 22 of the Rules made by the Government of India under section 14 of the Indian Securities Act, XIII of 1886, and published in the *Gazette of India* of the 7th January 1888, page 6, the following list is hereby advertised of Securities lost or destroyed, in respect of which an order has been made for payment of interest pending the issue of a duplicate Security, or for the issue of such duplicate Security. All persons, other than the respective claimants named below, who have any claim upon these Securities should communicate immediately with the Comptroller General, the Treasury, Calcutta.

The list is divided into two parts,—Part A being the list of Securities now advertised for the first time, and Part B the list of Securities previously advertised.

N.B.—Under section 13 of the said Act, Government will be discharged from all liability in respect of these original Securities after the lapse of six years from (a) the several dates stated against them in the last column of the list, or (b) the last payment of interest on them, whichever day is the later.

MERCHANT SHIPPING

The 2nd February 1910.

No. 898—3.—In the Notification of the Government of India in the Department of Commerce and Industry, No. 361-3 Merchant Shipping, dated the 17th January 1910, for the words “Inland Steamships Act” in line 9 substitute the words “Indian Steamships Act.”

CUSTOMS ESTABLISHMENT.

The 3rd February 1910.

No 953—3 — Mr A H P Wolferstan, an Assistant Collector in the Imperial Customs Service, is granted privilege leave for one month and six days combined with furlough for nine months and twenty-four days, with effect from the 28th March 1910, or any subsequent date on which he may avail himself of the leave.

No. 913—918—115.

RESOLUTION.

TELEGRAPH ESTABLISHMENT.

Calcutta, the 2nd February 1910.

The Government of India have now received the approval of the Secretary of State to the proposals submitted to him for the reorganisation of the Telegraph Department on the lines recommended by the Telegraph Committee of 1906.

2 The existing organisation of the Department is as follows. For Telegraph purposes the whole of India is divided into twenty divisions, each in charge of a Superintendent, an officer of the rank and standing of an Executive Engineer in the Public Works Department. Each division includes two or more minor charges known as sub-divisions, of which there are 73, the more important of them being in charge of Assistant Superintendents, i.e., junior officers of the superior staff, and the less important in charge of Sub-Assistant Superintendents, who are upper subordinates.

In addition to the heads of the Divisions there are eight officers of the same rank who are also immediately subordinate to the Director-General, viz., the four Superintendents in charge of the Calcutta, Bombay, Madras and Agra

- 1 Deputy Director-General
- 2 Directors for Construction and Traffic
- 2 Deputy Directors for Construction and Traffic
- 1 Personal Assistant
- 1 Superintendent in the Traffic Branch
- 2 Superintendents also are usually posted to the Direction.

Offices, the Superintendent of the Check Office, the Electrician, the Superintendent of Stores and the Superintendent of the Workshops. The whole Department is controlled by a Director-General, who is assisted at head-quarters by the

staff of officers enumerated in the margin.

3. This organisation is in several respects defective. There are as many as twenty-eight subordinate officers, whose powers are very limited, in direct correspondence with the Director-General; and the latter officer is consequently overwhelmed with a mass of unimportant references. The five officers of the Department next in seniority to the Director-General are all stationed at head-quarters. This concentration of so many of the senior officers at head-quarters and the lack of adequate devolution of responsibility have undoubtedly been prejudicial to the efficient administration of the Department in the past.

4. The new organisation now approved by the Secretary of State is as follows. The whole of India will be divided into eight circles coterminous with the eight postal circles, each of which includes in its bounds one of the great provinces of India. The officers placed in charge of these circles will bear the title of "Director of Telegraphs" followed by the name of the circle. Arrangements have been made for the delegation to these officers of many of the powers now exercised by the Director-General, and after the formation of the circles there will remain in the Direction, in addition to the Director-General himself, his Personal Assistant, who will be of the rank of an Assistant Superintendent, and the Directors of Traffic and Construction, who will be graded with the heads of circles. Two

Assistant Superintendents will also ordinarily be posted to the Direction to work under the Directors of Traffic and Construction. The ten appointments of Director will be interchangeable, and the tenure of the appointments of the Directors of Traffic and Construction and the Personal Assistant will ordinarily be limited to three years.

5. The Telegraph Committee pointed out that, if both divisional and sub-divisional officers were retained while circle officers were created, a fresh link would be added to the official chain of correspondence, and business would be more delayed than under the present centralized system. They therefore proposed that the number of divisions should be increased from 20 to 34 and their area reduced so as to bring them within manageable proportions, and, at the same time, that the existing sub-divisions should be abolished, the officers at present in charge of them being posted to the head-quarters of the divisional Superintendents. This proposal has been accepted, and effect will be given to it as soon as the necessary arrangements can be made. It will be possible either to place the Assistants to the Divisional Superintendent in charge of specified portions of the divisions, as at present, or, if circumstances render this course preferable, to place one officer in charge of construction work, and another officer in charge of traffic work, but they will in any case be posted to the head-quarters of the Divisional Superintendent, will have no office establishment other than his, and will obtain his orders, when necessary, not by official correspondence, but unofficially either by verbal discussion or by means of unofficial notes. The reduction which will thus be effected in the volume of routine work will be of great advantage to the Department, and will enable the Divisional officer to maintain a close and salutary control over all the work for which he is responsible. It is not of course intended that as a result of this change officers will remain constantly at head-quarters; on the contrary, they should move freely about the division, and it is expected that under the new system the Superintendent will be able to do more touring than at present.

6. An integral part of the Committee's scheme for the better organisation of the Department was the formation of a Technical Branch, consisting of officers and subordinates who would specialize in electrical work, and would be employed solely on duties of a technical kind. This proposal also has been approved. The branch will consist of an Electrical Engineer-in-Chief, five electrical engineers and forty subordinates. The duties which will be assigned to the members of this branch are fully described in paragraphs 22 to 29 of the Committee's Report.

7. The sanctioned number of officers in the Department is at present 101, but this will now be reduced to 96, of whom six will belong to the Technical Branch. Three out of the five appointments by which the establishment is reduced will, however, in future be filled in a different way, so that the staff will actually be reduced by two officers only. The Check Office will be placed in charge of a civil accounts officer, a Chief Store-Keeper recruited outside the Department will replace the present Superintendent of Stores, and the appointment of the Superintendent of the Workshops will also ordinarily be held by an outsider. The number of officers actually employed is at present 103, and some time must elapse before the excess is absorbed. The appointment of a Chief Store-Keeper will, therefore, be kept in abeyance for the present.

8. The question of the pay of the superior officers of the Telegraph Department has engaged the serious attention of the Government of India. They have received at various times petitions from officers of the Department praying that they may be granted the same rates of pay as have already been sanctioned for officers of the Public Works Department. It has been urged that whenever an improvement in the pay and prospects of officers of the Public Works Department has been introduced a similar improvement has also sooner or later been sanctioned for the Telegraph Department, and on this ground it has been claimed that the revised scales of pay should have effect from the same date in both Departments. The Government of India have carefully considered these requests, but they are unable to accept the conclusion that officers of the Telegraph Department can demand, as a matter of right, the same rates of pay as those in force in the Public Works Department. They

do not find that any promise or pledge has at any time been given by Government which would entitle Telegraph officers to expect the same pay as their contemporaries in the Public Works Department, and in fact the rates have been the same, grade for grade, only for a short period of about three years, from 1902 to 1905. At the same time the Government of India attach much weight to the argument which has been admitted on more than one occasion that it is desirable in the interests of efficiency that the prospects of advancement in the Telegraph Department should not be inferior to those in the Public Works Department. Taking all the circumstances of the case into consideration, they decided that an increase in the scale of pay should be granted, and they were of opinion that rates approximating to those which had been introduced in the Public Works Department constituted a liberal, though not unsuitable, scale for the Telegraph Department. They have now obtained the approval of the Secretary of State to the introduction of a time scale of pay for Superintendents and Assistant Superintendents which will take effect from the 19th December 1909, the date on which the Secretary of State's despatch on the subject was received in India. With regard to the claim that the higher rates of pay should be granted to these officers, as well as to those in the administrative grades, with retrospective effect, the Government of India decided after careful consideration that it could not be admitted. The Government desire that this opportunity should be taken of announcing definitely that neither now nor hereafter can the contention be admitted that an improvement in the pay of one of the two departments must necessarily be conceded to the other.

9. The new rates of pay now sanctioned for the whole superior staff are set forth in Appendix I to this Resolution. Except for a difference in the pay of the administrative officers and a modification in the increments of officers of the Provincial Service, these rates are the same as those already in force in the Public Works Department. Exchange Compensation Allowance will, however, be no longer admissible in the case of any appointment except that of the Director-General. The increments will be given for approved service only, but after the first increment has been admitted by the Director-General, and subject to the reservations with respect to the maximum pay of Assistant Superintendents explained in the two succeeding paragraphs, subsequent increments may be drawn in each class on the date on which they are due, and may be admitted in audit without sanction of higher authority, provided that an order withholding the increment in any particular case has not been issued by the Director-General or the Government of India.

10. No officer of the Imperial Service will be promoted to the rank of Superintendent of Telegraphs until he is in permanent charge of a division. No Assistant Superintendent in the Imperial Service will be permitted to draw more than Rs. 660 a month until he is reported fully qualified for the charge of a division, nor will any such officer draw more than Rs. 800 a month unless he holds a divisional charge, or a charge which is recognised as of equal importance. An Assistant Superintendent of less than eight years' service officiating in charge of a division will draw, in addition to his substantive pay, an officiating allowance of Rs. 100 a month, subject to a maximum salary of Rs. 700. Temporary promotion to the rank of Superintendent will be abolished.

11. An officer of the Provincial Service will be eligible for appointment as Director of Telegraphs, if fully qualified to perform the duties attaching to the appointment, and of the thirty-four divisions now established, twelve will ultimately be filled by officers of that service, as soon as there are twelve officers of sufficient standing, who are certified to be fit for divisional charge. The increase, up to twelve, of the divisional charges entrusted to Provincial officers will, however, necessarily be made gradually owing to the paucity of such officers at present in the service who are qualified to hold charge of a division. Promotion to the rank of Superintendent in the Provincial Service will be dependent on—

- (1) the existence of a permanent vacancy in one of these twelve charges;
- (2) the possession of the necessary qualifications for the charge of a division.

An Assistant Superintendent officiating in charge of a division will receive an officiating allowance of Rs. 100 subject to a maximum salary of Rs. 650. No Assistant Superintendent will be allowed to draw more than Rs. 600 until he is declared to be fully qualified for the charge of a division, nor will any such officer draw more than Rs. 650 unless he holds a divisional charge or a charge which is recognised as of equal importance. Temporary promotion to the rank of Superintendent will be abolished. All officers of the Provincial Service now in the Department are given the option of electing for these new conditions of service. If election is made within two months from the date of this Resolution, it will take effect from the 19th December 1909, the date from which the new scale is sanctioned; otherwise with effect from the date of election. A reasonable extension of time, at the discretion of the Director-General, may be permitted in the case of officers on leave or on foreign service out of India.

12. It is expected that leave vacancies can be filled satisfactorily by Assistant Superintendents of not less than six years' service in the Imperial Branch, and of not less than twelve years' service in the Provincial Branch. If, however, owing to a shortage of officers this should not in any case be possible, acting appointments as Superintendent may be given to selected Deputy Superintendents.

13. The rates of pay sanctioned for the superior staff generally are subject to some modification in the case of the Technical Branch. The pay of the Electrical Engineer-in-Chief will start on Rs. 1,500, the minimum pay of a Director, and will rise by five annual increments of Rs. 50 and five of Rs. 100 to Rs. 2,250, the maximum pay of a Director. The remaining officers of the Technical Branch, who will be styled Electrical Engineers, will draw the same rates of pay as the officers employed in the general line, according as they belong to the Imperial or Provincial Services, except that the reservations with respect to the maximum pay of Assistant Superintendents explained in paragraphs 10 and 11 above will not apply in their case. Any officer found unsuited to the Technical Branch will be transferred to the General Branch.

14. The members of the Technical Branch will be specially recruited for it and, subject to the reservation mentioned in the preceding paragraph, will ordinarily remain in it for the whole of their service. But the Government of India must reserve to themselves the right to transfer at any time any officer to the general line from the Technical Branch, should they consider it necessary to do so, and in the event of promotion in the Technical Branch being seriously blocked, they will be prepared to consider the question of allowing an officer to leave it and enter the ordinary line. The officers who are already in the Department and employed on technical work will be given the option of entering the new branch or of returning to divisional work. In the case of those electing the former alternative, the choice will be final; but officers who prefer the General Branch may continue to be employed on technical work, until the occurrence of vacancies in the superior staff gives the opportunity of recruiting other officers in the Technical Branch, and when this can be arranged they will finally leave it.

15. In the case of both Imperial and Provincial Service officers all time spent on leave with allowances, on foreign service, and on deputation on special duty, will count as service for increments on the time scale in the absence of orders in any particular case to the contrary. In regard to the date on which increments become due, the rule in the Civil Service Regulations, Article 151, will apply. This will not, however, in any way affect the question of relative seniority which, as at present, will be regulated by the date or order of permanent appointment as the case may be.

16. The Director-General will determine the initial salary to be drawn by each officer on the new scales of pay, which will ordinarily be the maximum admissible for his length of permanent service. It should be understood, however, that no officer whose promotion has been retarded in the past is, by reason of length of service, entitled to claim a higher rate of pay under the new scales than that admitted to the officer immediately above him in the seniority list.

17. The question of the appointments under the revised organisation which should be substituted for the appointments in which approved service under the existing system counts towards the special additional pensions referred to in Articles 642 and 643 of the Civil Service Regulations, is engaging the separate consideration of the Government of India. Orders on this point will be communicated to the Director-General of Telegraphs in due course.

18. In paragraphs 38 to 42 of their report the Telegraph Committee discussed the system under which the Provincial Branch of the superior staff of the Department was recruited and made proposals for its improvement. The present system consists in the maintenance of a special class for the training of candidates for the Telegraph Department at Rurki. Entrance to the class is obtained by the Rurki Entrance Examination, or on the nomination of the heads of the other Engineering Colleges. On the conclusion of the period of training the candidates compete for appointments in the Department. Criticism has been directed to several features of the system. It has been found that hitherto the Telegraph class at Rurki has failed as a rule to attract candidates from more than one province, that there has been a complete absence of healthy competition, that the small size of the class has made it difficult to make satisfactory arrangements for it, and that the College authorities themselves would prefer to see the arrangements altered. The Government of India are satisfied that the present methods of recruitment are not productive of good results and that it is necessary to make some new arrangement.

19. Hitherto the maintenance of a special class at one college for the training of candidates for the Telegraph Department has been necessitated by the fact that the other colleges did not make any provision, in their ordinary curriculum, for training in electrical engineering. This condition of things is, however, rapidly disappearing, and in the course of a few years the need for a special class will probably cease to exist. The Committee, recognizing this fact, based their scheme on the likelihood that before long the Engineering Colleges will be able to maintain thoroughly equipped classes in electrical engineering, quite apart from the requirements of the Telegraph Department, and recommended that appointments should be made by selection from the graduates in the engineering classes in any College which gives a suitable and adequate training in electrical engineering. This proposal has been approved subject to the modification that applications for appointment will be open to all competitors, whether educated at Engineering Colleges or Technical Institutes or in Europe. The Director-General will nominate, for the approval of the Government of India, after the candidates have been interviewed by himself or some high officer of the Department, the one who, in his opinion, is best fitted for employment in the Telegraph Department having regard not only to his educational qualifications, but also to his physique, moral character, habits of activity and gentlemanly bearing. The new system cannot be introduced at once, as in fairness to the students now in the special telegraph class at Rurki one appointment must be offered for competition this year. No appointment therefore can be made under the new system until 1911 at the earliest, and even then the present excess in establishment must first be absorbed before recruitment under the new system can commence.

20. Under the existing rules the number of officers admitted to the Provincial Service is two and one in alternate years, on the assumption that the annual recruitment of four officers is necessary to keep the Department up to its proper strength. The Provincial Service will therefore eventually constitute three-eighths of the superior staff. As an occasional measure, a Sub-Assistant Superintendent of marked ability and merit may under the present system be promoted to a suitable grade of the Provincial Service. Only one officer has actually been promoted to the superior staff under this rule, which has therefore practically been a dead letter. The Committee, in paragraph 42, expressed the hope that, if the methods for the selection and training of Sub-Assistant Superintendents were improved as they proposed, suitable candidates for promotion to the Provincial Service might be found within the Department. They did not propose that the rule should be revised, but pointed out, that even a very few appointments made under it would be a great encouragement to the whole subordinate staff. The Government of India are in entire sympathy

with the Committee's recommendation, but they consider that the rule should be revised and that the claim of the subordinate ranks to share in the higher appointments should be distinctly recognized. It has therefore been decided that in future while five-eighths of the superior establishment will still be recruited in England, one-fourth will be obtained from the Indian Engineering Colleges or Technical Institutes in the manner explained in paragraph 19 above and one-eighth will be provided by promotion from the subordinate ranks. This arrangement will result in the promotion of a subordinate once in every two years on the average as soon as the excess in the sanctioned number of officers mentioned in paragraph 7 of this Resolution is absorbed.

21. There are at present seventy-two sanctioned appointments of Sub-Assistant Superintendents equally divided between two grades. The pay of the second grade is Rs. 250 rising to Rs. 275 by five annual increments of Rs. 5, and that of the first grade Rs. 275 rising to Rs. 350 by five annual increments of Rs. 15. A Sub-Assistant who has drawn the maximum pay of the first grade for five years may be granted a first increment of Rs. 50, and after five years' service on Rs. 100 a second special increment of the same amount. These officers will in future be styled Deputy Superintendents, and the rates of pay will be assimilated to those already in force for officers of the same standing in the Traffic Branch. The rates of pay now sanctioned are set forth in Appendix II to this Resolution. Twenty-four Deputy Superintendents will be placed in the first class and forty-eight in the second. Eight of the officers in the first class will be eligible to rise to a higher maximum of Rs. 500. The allowance of Rs. 30 a month drawn at present by Sub-Assistant Superintendents in charge of sub-divisions will disappear with the sub-divisions.

22. In the Technical Branch there will be as already stated forty subordinates. Six of these officers will be of the rank of Deputy Superintendent, three in the first class and three in the second. One officer in the first class will be eligible to rise to the higher maximum of Rs. 500. The remaining thirty-four officers will be granted an allowance of Rs. 20 a month in addition to their scale pay as telegraphists, and as no distinction of duties will exist similar to that which separates Telegraph Masters from telegraphists, they will continue to draw their increments, after reaching the maximum of the telegraphists' scale, subject, however, to the proviso that the total of pay and allowance does not exceed Rs. 250 a month. The new rates of pay are set forth in Appendix III to this Resolution.

23. The establishment of the Circle and Divisional organisation herein described and the institution of the Technical Branch will take effect from the 1st April 1910, from which date the revised rates of pay will come into force, except in the case of Superintendents and Assistant Superintendents, who will come on to the new time scale with effect from the 19th December 1909. It may not be possible to effect the abolition of all the sub-divisions by the 1st April 1910, and the allowance of Rs. 30 a month referred to in paragraph 21 above will continue to be drawn by the Sub-Assistant Superintendents in charge of such sub-divisions as are not abolished by that date, subject to a time limit of three months thereafter.

24. In this Resolution several of the minor details of the scheme of re-organization have been omitted. Orders will be communicated to the Director-General regarding those points separately.

ORDERED that this Resolution be published in the *Gazette of India* for general information, and that it be communicated to the Home, Finance and Public Works Departments of the Government of India, to the Director-General of Telegraphs, and to the Examiner of Telegraph Accounts.

W. MAXWELL,

Offg. Secretary to the Government of India,

ARMY DEPARTMENT.

Fort William, the 4th February 1910

APPOINTMENTS.

INDIAN SUBORDINATE MEDICAL DEPARTMENT.

ASSISTANT SURGEON BRANCH

No. 85.—The position of the undermentioned 4th Class Assistant Surgeons of the Indian Subordinate Medical Department of the batch of 31st March 1905, is readjusted in the order shown below —

Charles Lionel Anderson.
 Joseph Francis L'Fleur
 Herbert Clay Berlie
 John Paul Pereira
 George Hope Lawrance
 John Michael Pereira.
 Stanley Desmond Rieley.
 Alexander Edmond Westrap
 William Archibald Clement Perrenna
 Harold James Clarke Flanagan
 Aubin Joseph Gomez.
 Charles William Doig Dunlop.
 Stephen Clarence Gomez.
 Richard Luke Dunn
 Percival James Conquest.
 Alfred Newton Ross
 Joseph Reginald Herbert Cabral.
 Vincent Herbert Ariss.
 Wilfred Ernest Friend Hart.
 William Arthur Beer.
 Melville George Coombes

Military Department Notifications Nos 587 and 604, dated respectively the 7th July 1905 and 14th July 1905, are hereby cancelled

ORDNANCE DEPARTMENT

Northern Circle

No. 86.—Sub-Conductor Thomas Tannyang, Assistant Overseer, Ammunition Factory, Dum Dum, *seconded*, is brought on the effective list, and Sub-Conductor Patrick Walsh is appointed Assistant Overseer in that Factory and *seconded*, with effect from the 22nd December 1909

COMMANDS

No. 87—Colonel H D'U Keary, *A D C*, D.S.O., Indian Army, to be a Colonel-on-the-Staff, *vice* Brigadier-General A. B. Fenton, C.B., and is granted the temporary rank of Brigadier-General whilst so employed. Dated 20th January 1910.

No. 88—Colonel C. J. Melliss, *A D C*, *V C*, Indian Army, to be a Colonel-on-the-Staff, to fill an existing vacancy, and is granted the temporary rank of Brigadier-General whilst so employed. Dated 25th January 1910.

PROMOTIONS

INDIAN ARMY.

No. 89.—The following promotions are made, subject to His Majesty's approval.—

To be Colonel

20th January 1910

Brevet-Colonel Henry D'Urban Keary, *A D C*, D.S.O., Indian Army

22nd January 1910

Brevet-Colonel Alfred Woodrow Stanley Wingate, Indian Army

25th January 1910

Brevet-Colonel Charles John Melliss, *A D C*, *V C*, Indian Army

Majors to be Lieutenant-Colonels

30th January 1910

Colin Finch, Supply and Transport Corps

Robert Ross Renton, 18th Infantry.

No. 90—The promotion of the undermentioned officer to the rank of Lieutenant is antedated to the date noted opposite his name.—

Lieutenant James Ramwell, 26th Prince of Wales's Own Light Cavalry, —12th November 1904

INDIAN MEDICAL SERVICE

No. 91—The following promotions are made, subject to His Majesty's approval.—

Lieutenants to be Captains

4th October 1909.

Norman Niel George Cowan McVean, M.B.

Robert Francis Hbbert

James Smalley, M.B.

William Malcolm Thomson, M.B.

Francis Hugh Salisbury, M.B.

Frederick Charles Fraser, M.D.

2nd February 1910

Owen Alfred Rowland Berkeley-Hill, M.B.

Walter Lidwell Harnett, M.B., F.R.C.S.

John Drummond Sandes, M.B.

William Percival Gould Williams, M.B.

Siavax Byramjee Mehta, F.R.C.S.E.

Alexander Harper Napier, M.B.

Gilbert Holmoyd, M.B.

Arnold Egbert Grisewood, M.B.

David Livingstone Graham, M.B.

Pheraya Kharsedji Tarapore.
 Roger Brighthouse Nicholson.
 George Staunton Husband, M.B.
 James Alexander Cruickshank.
 John Alfred Steele Phillips.
 Dwarkanath Dharmaji Kamat.
 Ernest David Simson, M.B.
 Alexander Frederick Babonau, M.B.
 Patrick Manson Rennie, M.B.

No. 92 —Army Department Notification No 966, dated the 22nd October 1909, promoting Lieutenant Joseph Frain James, M.B., to the rank of Captain, subject to his passing the required Departmental Examination in October 1909, is hereby cancelled.

MILITARY WORKS SERVICES, INDIA

No. 93 —Sergeant Arthur Inward, Supervisor, 2nd Grade, to be Sub-Conductor, with effect from 30th November 1909, *vice* Sub-Conductor C. Duncan, appointed to the Provincial Engineer Service.

No. 94 —Sergeant Albert Harvey, Supervisor, 2nd Grade, to be Sub-Conductor, with effect from 14th December 1909, *vice* Sub-Conductor A. M. B. O'Connor, retired.

NATIVE ARMY.

APPOINTMENTS AND PROMOTIONS.

No. 95.—Subject to His Majesty's approval, the honorary rank of Captain is conferred, on retirement, on Subadar-Major Abiram Gurung, *Sardar Bahadur*, 2nd Battalion, 8th Gurkha Rifles. Dated the 1st January 1910

No. 96 —The following promotions are made :—

6th Fat Light Infantry

Jemadar Kanha to be Subadar and Havildar Jug Lal to be Jemadar, *vice* Lehri, transferred to the pension establishment, with effect from the 1st January 1910

83rd Wallajahbad Light Infantry.

Jemadar Abdus Sattar to be Subadar, and Havildar-Major Abdul Wahab to be Jemadar, *vice* Muhammad Mustafa, transferred to the pension establishment; with effect from the 19th December 1909.

1st Battalion, 8th Gurkha Rifles

Color-Havildar Indrabir Thapa, to be Jemadar, *vice* Jagia Thapa (I), transferred to the pension establishment; with effect from the 23rd December 1909.

RESIGNATIONS.

INDIAN ARMY.

No. 97.—Lieutenant Archibald Clement Campbell Rogers, 64th Pioneers, has been permitted by the Right Hon'ble the Secretary of State for India to resign the service, subject to His Majesty's approval, with effect from the 1st December 1909

RETIREMENTS

INDIAN ARMY.

No. 98 —Colonel William Grenville Mansel, Indian Army, Unemployed Supernumerary List, has been permitted by the Right Hon'ble the Secretary of State for India to retire from the service, subject to His Majesty's approval, with effect from the 30th December 1909.

INDIAN MEDICAL SERVICE.

No. 99.—Lieutenant-Colonel William Henry Burke, M B, Indian Medical Service, Bombay, is permitted to retire from the service, subject to His Majesty's approval, with effect from the 1st January 1910

No. 100—Lieutenant-Colonel James Cort Marsden, Indian Medical Service, Madras, is permitted to retire from the service, subject to His Majesty's approval, with effect from the 10th February 1910

VOLUNTEER CORPS.

APPOINTMENTS, PROMOTIONS AND RESIGNATIONS.

Suma Valley Light Horse

No. 101—Frank Henderson Carslaw to be Second-Lieutenant, *vice* G. C. Balfour, transferred to the Supernumerary List. Dated 15th June 1909.

Calcutta Light Horse

No. 102—Walter Erskine Crum to be Second-Lieutenant, to fill an existing vacancy. Dated 20th December 1909

Charles Steele Steele Perkins to be Second-Lieutenant, to fill an existing vacancy. Dated 20th December 1909

Assam Valley Light Horse.

No. 103.—Captain Addison Yalden Thomson resigns his commission. Dated 22nd December 1909

Madras Artillery Volunteers "The Duke's Own"

No. 104.—George Adolf Bambridge to be Second-Lieutenant, to fill an existing vacancy. Dated 1st January 1910

Charles Augustin William Payne to be Second-Lieutenant, to fill an existing vacancy. Dated 1st January 1910

Frank Buckney to be Second-Lieutenant, to fill an existing vacancy. Dated 1st January 1910

1st Battalion, Calcutta Volunteer Rifles

No. 105.—Daniel Lewis McIver to be Second-Lieutenant, to fill an existing vacancy. Dated 1st December 1909

Eastern Bengal State Railway Volunteer Rifles

No. 106—The Hon'ble Sir Edward Norman Baker, K C S I, Lieutenant-Governor of Bengal, to be Honorary Colonel. Dated 24th December 1909

Arthur Vernon Hawkins to be Second-Lieutenant, to fill an existing vacancy. Dated 1st December 1909

Sind Volunteer Rifles

No. 107—Henry James Dibbs to be Second-Lieutenant, to fill an existing vacancy. Dated 1st October 1909

Richmond Horace Nicholas to be Second-Lieutenant, to fill an existing vacancy. Dated 1st October 1909.

Madras Railway Volunteers.

No. 108.—Lieutenant Charles Napier Alexander Tew to be Captain, *vice* G. H. Lyle, transferred to the Supernumerary List. Dated 10th December 1909

Second-Lieutenant Lindsey Cecil Hobson to be Lieutenant, *vice* C. N. A. Tew, promoted. Dated 10th December 1909

Eastern Bengal Volunteer Rifles.

No. 109—Robert Baker McCormack to be Second-Lieutenant, to fill an existing vacancy. Dated 12th December 1909.

MEDALS AND DECORATIONS.

No. 110.—His Excellency the Governor-General of India is pleased to confer the Volunteer Officers' Decoration upon the undermentioned officers :—

Upper Burma Volunteer Rifles.

Captain Henry Millard Lutter.

Poona Volunteer Rifles

Captain Alexander George Norman.

CANTONMENTS.**REGULATIONS.**

No. III.—In exercise of the powers conferred by section 26 of the Cantonments Act 1889 (XIII of 1889), and in modification of the notification of the Government of India in the Military Department, No. 664, dated the 16th June 1899, as subsequently amended, the Governor-General in Council is pleased to direct that the following amendments shall be made to the Cantonment Code, namely —

In section 29, sub-section (1), clause (b) (ii), after the words "Commander-in Chief in India" the words "with the concurrence of the Governor-General in Council" shall be inserted.

JUDICIAL.**INDIAN ARTICLES OF WAR.**

No. III2—In pursuance of Article 1, sub-article (3) of the Indian Articles of War (Act V of 1869), as amended by the Indian Articles of War Amendment Act, 1894 (XII of 1894), the Governor-General in Council is pleased to direct that the following additions be made to the forms of attestation published in the Gazette of India, Army Department Notification No. 241, dated the 12th March 1909, namely —

(a) *Soldiers and reservists*—To the "Conditions of Service" the following shall be added as paragraph 7 : —

"7. You will be liable to be vaccinated or re-vaccinated whenever this may be deemed necessary," and in the declarations (A) and (B), "7" shall be added to the figures after the word "conditions"

(b) *Non-combatants*.—To the "Conditions of Service" the following shall be added as paragraph 5 —

"5 You will be liable to be vaccinated or re-vaccinated whenever this may be deemed necessary," and in the declaration, "3 and 5" shall be substituted for "and 3."

R. I. SCALLON, *Major-General,*
Secretary to the Government of India.

MARINE DEPARTMENT.

Fort William, the 4th February 1910.

LEAVE.

No. 8.—The undermentioned officer has been granted an extension of leave by the Right Hon'ble the Secretary of State for India —

Lieutenant W. R. B. Douglas, Royal Indian Marine, up to 9th January 1910 (m.c.).

PROMOTIONS.

No. 9.—The following promotion is made in the Royal Indian Marine, with effect from the 17th January 1910 —

To be Lieutenant.

Sub-Lieutenant Reginald Courteney Bickley.

R. I. SCALLON, *Major-General,*
Secretary to the Government of India.

RAILWAY DEPARTMENT.

(RAILWAY BOARD.)

NOTIFICATIONS

Calcutta, the 31st January 1910

No. 21—Mr F. R. B. August, Assistant Traffic Superintendent (on probation), North-Western Railway, in class III, grade 4, of the Superior Revenue Establishments of State Railways, is confirmed in his appointment and promoted to class III, grade 3 of that establishment, with effect from the 23rd June 1909.

The 3rd February 1910.

No. 24—With reference to Railway Board Notifications Nos. 251 and 252 of the 19th August 1909, Mr F. B. Thomas, officiating District Locomotive Superintendent, Eastern Bengal State Railway, in class II, grade 4, temporary rank, of the Superior Revenue Establishment of State Railways, reverted to his substantive appointment of Assistant Locomotive Superintendent, in class III, grade 1, of that establishment, with effect from the 9th December 1909.

No. 25.—It is hereby notified for general information that the Railway Board have sanctioned the survey of a line of railway on the 5' 6" gauge being undertaken by the Agency of the Oudh and Rohilkhand Railway from Bechupur (Moghal Serai), a station on the Oudh and Rohilkhand Railway, to the Ramgarh-Bokharo Coalfield, a distance of about 200 miles.

2. The survey will be known as the Bechupur-Ramgarh Bokharo Coalfield Reconnaissance Survey

The 4th February 1910.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 25th October 1909.

From the 13th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 6th November all notifications and other matter intended for publication in the *Gazette* should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.

No. 185 of 1909.—Thomas Claude Durham, gentleman, of 111 Fifth Avenue, New York city, New York. *Improvements in razors.* (Specification filed 19 January 1910.)

No. 191 of 1909.—Gustave Augustus Henry Muller, gentleman, resident of 166a Mansfield street, in the city of Montreal in the province of Quebec, dominion of Canada. *Improvements in means of exterminating insects and other vermin.* (Specification filed 19 January 1910.)

- No. 212 of 1909.—John Alfonso Wesener, chemist, of 103 State street, Chicago, United States of America. *Apparatus for diluting and applying flour bleach* (Specification filed 19 January 1910.)
- No. 290 of 1909.—Mono Service Vessels, Limited, manufacturers, of 58 Coleman street, London, England. *Improvements in and connected with apparatus for the manufacture of paper vessels applicable for use in the delivery of milk or cream to customers and for other like purposes* (Specification filed 19 January 1910.)
- No. 664 of 1909.—Carl Neff, banker, of 19 Georgstrasse, Hanover, in the German Empire, and August Brandes, mechanic, of 811 Hildesheimerstrasse, in the same city. *Apparatus for treating feed-water for steam boilers* (Specification filed 20 January 1910.)
- No. 665 of 1909.—Peter Sharp, spinner, of 5 Cortlandt street, in the city of New York (borough of Manhattan), county and state of New York, United States of America. *Improvements in rove stops for textile machinery* (Specification filed 20 January 1910.)
- No. 666 of 1909.—George Albert Lyon, mechanical engineer, of 2642 North Ninth street, Philadelphia, state of Pennsylvania, United States of America, and Alexander Wilson, Junior, banker, of Lansdowne, state of Delaware, United States of America. *Improvements in non-skidding attachments for vehicle wheels*. (Specification filed 20 January 1910.)
- No. 667 of 1909.—William Edward Bandfield, engineer, of 70 Tottenhall road, Wolverhampton, in the county of Stafford, England. *Improvements in the attachment of telegraph and similar line wires to insulators* (Specification filed 20 January 1910.)
- No. 1124 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—
- No. 373 of 1896.—William James Orsman. *Improvements in the manufacture of explosives applicable for use in coal or other fiery mines*. (From 26 February 1910 to 26 February 1911.)
- No. 286 of 1898.—Monotype Machine (Colonial Patents) Syndicate, Limited. *Improvements in type casting and composing machines*. (From 21 February 1910 to 21 February 1911.)
- No. 287 of 1898.—Monotype Machine (Colonial Patents) Syndicate, Limited. *Machine for preparing the perforated record strips of type forming machines* (From 21 February 1910 to 21 February 1911.)
- No. 227 of 1899.—William Samuel Laycock. *Improvements in and relating to the central couplings of railway vehicles*. (From 8 February 1910 to 8 February 1911.)
- No. 249 of 1899.—John James Marsland. *An improved water closet for the use of natives of India*. (From 12 February 1910 to 12 February 1911.)
- No. 54 of 1900.—Gilbert Wright and Christian Aalborg. *Improvements in automatic circuit breakers* (From 15 March 1910 to 15 March 1911.)
- No. 381 of 1900.—The British Westinghouse Electric and Manufacturing Company, Limited. *Improvements in means for protecting electrical apparatus from abrupt changes in static potential* (From 10 May 1910 to 10 May 1911.)
- No. 30 of 1901.—Frank Clarence Newell. *Improvements in electric brakes*. (From 23 April 1910 to 23 April 1911.)
- No. 96 of 1901.—George Henry Oatway and John Henry Gartside. *Improvements in automatic fire alarms*. (From 2 October 1910 to 2 October 1911.)
- No. 246 of 1902.—H. A. L. Hepper. *A special double lock for key locking traps and cross over roads*. (From 21 January 1910 to 21 January 1911.)
- No. 361 of 1902.—Arthur Charles Cavendish Liardet. *Improvements relating to bottles and similar liquid containing vessels* (From 25 October 1909 to 25 October 1910.)
- No. 380 of 1902.—John Taylor. *Improvements in humidifiers* (From 18 February 1910 to 18 February 1911.)
- No. 235 of 1903.—Arthur Boyd Price. *An improved centring or mould for making or constructing circular elliptical segmental or other shaped tubes drains pillars and the like* (From 6 February 1910 to 6 February 1911.)

- No 381 of 1903.—George Westinghouse. *Improvements in steam turbines.* (From 28 April 1910 to 28 April 1911)
- No. 452 of 1903.—George Westinghouse and Louis Minturn Aspinwall. *Improvements in controlling systems for electric motors.* (From 24 May 1910 to 24 May 1911.)
- No 453 of 1903 — George Westinghouse. *Improvements in controlling systems for electric motors* (From 24 May 1910 to 24 May 1911)
- No. 28 of 1904.—Hugh Marshall and Joseph Maton *Improvements in lamps and apparatus for burning carburetted air* (From 26 February 1910 to 26 February 1911)
- No. 172 of 1904 —Theobald Alexander Martin *Martin's tabular borer & sludger.* (From 14 December 1909 to 14 December 1910.)
- No. 33 of 1905 —Budd John Jones *Improvements in apparatus for supporting overhead conductors for electrically propelled vehicles.* (From 17 May 1910 to 17 May 1911)
- No. 34 of 1905.—Budd John Jones. *Improvements in apparatus for supplying current to electrically propelled vehicles.* (From 17 May 1910 to 17 May 1911)
- No. 200 of 1905.—George Henry Oatway and Charles Edward May. *Improvements in fire alarms.* (From 16 January 1911 to 16 January 1912.)
- No. 529 of 1905.—Albert Lincoln Johnson. *Corrugated bars.* (From 27 February 1910 to 27 February 1911.)

No. 1125 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling and using the said inventions in British India, and of authorizing others so to do, has ceased:—

- No. 420 of 1905 — Frederick William Brittan and Louis Hepburn Cross. *Improvements in devices for securing or locking nuts.* (Specification filed 24 October 1905)
- No. 424 of 1905 —Archibald Davidson Long *A combined shade and stopcock for railway carriage gas lamps and the like* (Specification filed 25 October 1905)

Fee in respect of the continuance of an exclusive privilege—

- 4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

* Agents for sale of the Legislative Department publications.

NOTICE.—Books and Acts required for private use only can be purchased. Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through the Local Government to whom the applicant is subordinate.

Application for Government publications which are no longer in print should be made to the Agent to the particular Government under whose orders they were originally issued.

[The amounts within parentheses are for packing and postage.]

J M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th February 1910.—

No 3 OF 1910

A Bill to provide for the better control of the Press

WHEREAS it is necessary to provide for the better control of the Press, It is hereby enacted as follows :—

1. This Act may be called the Indian Press
Short title. Act, 1910

2. In this Act, unless there is anything
Definitions. repugnant in the subject or context,—

"book" includes every volume, part or division of a volume, and pamphlet, in any language, and every sheet of music, map, chart or plan separately printed

"document" includes also any painting, drawing or photograph

"Magistrate" means a District Magistrate or Chief Presidency Magistrate :

"newspaper" means any periodical work containing public news or comments on public news : and

"printing-press" includes all engines, machinery, types, lithographic stones, implements, utensils and other plant or materials used for the purpose of printing.

3 (1) Every person keeping a printing-press who is required to make a declaration under section 4 of the Press and Registration of Books Act, 1867, shall, at the time of making the same, deposit with the Magistrate before whom the declaration is made security to such an amount, not being less than five hundred or more than five thousand rupees, as the Magistrate may in each case think fit to require

Provided that the Magistrate may, if he thinks fit, for special reasons to be recorded by him, dispense with the deposit of any security or may from time to time cancel or vary any order under this sub-section.

(2) Whenever it appears to the Local Government that any printing-press kept in any place in the territories under its administration, in respect of which a declaration was made prior to the commencement of this Act under section 4 of the Press and Registration of Books Act, 1867, is used for any of the purposes described in section 4, sub-section (1), the Local Government may, by notice in writing, require the keeper of such press to deposit with the Magistrate within whose jurisdiction the press is situated security to such an amount, not being less than five hundred or more than five thousand rupees, as the Local Government may think fit to require.

4. (1) Whenever it appears to the Local Government that any printing-press in respect of which any security has been deposited as required by section 3 is used for the purpose of printing or publishing any newspaper, book or other document containing any words, signs or visible representations which are likely or may have a tendency, directly or indirectly, whether by inference, suggestion, allusion, metaphor or innuendo—

Power to declare security forfeited in certain cases

8.

(a) to incite to murder or to any offence under the Explosive Substances Act, 1908, or to any act of violence, or

(b) to seduce any officer, soldier or sailor in the Army or Navy of His Majesty from his allegiance or his duty, or

(c) to bring into hatred or contempt His Majesty or the Government established by law in British India or any lawful authority or any Native Prince or Chief under the suzerainty of His Majesty, or to excite disaffection towards His Majesty or the said Government or any such Prince or Chief, or antipathy between members of different races, castes, classes, religions or sects, or

(d) to put any person in fear or to cause annoyance to him and thereby induce him to deliver to any person any property or valuable security, or to do any act which he is not legally bound to do, or to omit to do any act which he is legally entitled to do, or

(e) to encourage or incite any person to interfere with the administration of the law or with the maintenance of law and order, or

(f) to convey any threat of injury to a public servant, or to any person in whom that public servant is believed to be interested with a view to inducing that public servant to do any act or to forbear or delay to do any act connected with the exercise of his public functions,

the Local Government may, by notice in writing to the keeper of such printing-press, stating or describing the words, signs or visible representations which in its opinion are of the nature described above, declare the security deposited in respect of such press and all copies of such newspaper, book or other document wherever found to be forfeited to His Majesty

(2) Where a notice has been issued under sub-section (1), the declaration made in respect of such press under section 4 of the Press and Registration of Books Act, 1867, shall be deemed to be annulled

Explanation I—In clause (c) the expression "disaffection" includes disloyalty and all feelings of enmity.

Explanation II—Comments expressing disapproval of the measures of the Government or of any such Native Prince or Chief as aforesaid with a view to obtain their alteration by lawful means, or of the administrative or other action of the Government or of any such Native Prince or Chief or of any lawful authority without exciting or attempting to excite hatred, contempt or disaffection do not come within the scope of clause (c).

5 Where the security given in respect of any press has been declared forfeited under section 4, every person making a fresh declaration in respect of such press under section 4 of the Press and Registration of Books Act, 1867, shall deposit with the Magistrate before whom such declaration is made security to such amount, not being less than one thousand or more than ten thousand rupees, as the Magistrate may think fit to require.

6 If after such further security has been deposited the printing-press is again used for the purpose of printing or publishing any newspaper, book or other document containing any words, signs or visible representations which in the opinion of the Government are of the nature described in section 4, sub-section (1), the Local Government may, by notice in writing to the keeper of such printing-press stating or describing such words, signs or visible representations, declare—

(a) the further security so deposited,

(b) the printing-press used for the purpose of printing or publishing such newspaper, book or other document or found in or upon the premises where such newspaper, book or other document is, or at the time of printing the matter complained of was, printed, and

(c) all copies of such newspaper, book or other document wherever found,

to be forfeited to His Majesty.

7. (1) Where any printing-press or any copies of any newspaper, book or other document are declared forfeited to His Majesty under this Act, the Local Government may direct any Magistrate to issue a warrant empowering any police-officer, not below the rank of a Sub-Inspector, to seize and detain any property ordered to be forfeited and to enter upon and search for such property in any premises—

(i) where any such property may be or may be reasonably suspected to be, or

- (ii) where any copy of such newspaper, book or other document is kept for sale, distribution, publication or public exhibition or reasonably suspected to be so kept.

(2) Every warrant issued under this section shall, so far as relates to a search, be executed in manner provided for the execution of search-warrants under the Code of Criminal Procedure, 1898.

8 (1) Every publisher of a newspaper who is required to make a declaration under section 5 of the Press and Registration of Books Act, 1867, shall, at the time of making the same, deposit with the Magistrate before whom the declaration is made security to such an amount, not being less than five hundred or more than five thousand rupees, as the Magistrate may in each case think fit to require.

Provided that the Magistrate may, if he thinks fit, for special reasons to be recorded by him, dispense with the deposit of any security or may from time to time cancel or vary any order under this sub-section.

(2) Whenever it appears to the Local Government that any newspaper published within its territories, in respect of which a declaration was made by the publisher thereof prior to the commencement of this Act under section 5 of the Press and Registration of Books Act, 1867, contains any words, signs or visible representations of the nature described in section 4, sub-section (1), the Local Government may, by notice in writing, require the publisher to deposit with the Magistrate, within whose jurisdiction the newspaper is published, security to such an amount, not being more than the amount above specified, as the Magistrate may think fit to require.

9. (1) If any newspaper in respect of which Power to declare any security has been forfeited in deposited as required by certain cases section 8 contains any words, signs or visible representations which in the opinion of the Local Government are of the nature described in section 4, sub-section (1), the Local Government may, by notice in writing to the publisher of such newspaper, stating or describing such words, signs or visible representations, declare such security and all copies of such newspaper, wherever found, to be forfeited to His Majesty.

(2) Where a notice has been issued under sub-section (1), the declaration made by the publisher of such newspaper under section 5 of the Press and Registration of Books Act, 1867, shall be deemed to be annulled.

10. Where the security given in respect of any newspaper is declared forfeited, any person making a fresh declaration under section 5 of the Press and Registration of Books

Act, 1867, as publisher of such newspaper, or any other newspaper which is the same in substance as the said newspaper, shall deposit with the Magistrate before whom the declaration is made security to such amount, not being less than one thousand or more than ten thousand rupees, as the Magistrate may think fit to require.

11. If after such further security has been deposited the newspaper again contains any words, signs or visible representations which in the opinion of the Local Government are of the nature described in section 4, sub-section (1), the Local Government may, by notice in writing to the publisher of such newspaper, stating or describing such words, signs or visible representations, declare—

- (a) the further security so deposited, and
- (b) all copies of such newspaper wherever found,

to be forfeited to His Majesty.

12. (1) Where any newspaper, book or other document wherever printed appears to the Local Government to contain any words, signs or visible representations of the nature described in section 4,

sub-section (1), the Local Government may, by notification in the local official Gazette, stating the grounds of its opinion, declare such newspaper, book or other document to be forfeited to His Majesty, and thereupon any police-officer may seize the same wherever found, and any Magistrate may by warrant authorise any police-officer not below the rank of Sub-Inspector to enter upon and search for the same in any premises where the newspaper, book or other document may be or may be reasonably suspected to be.

(2) Every warrant issued under this section shall, so far as relates to a search, be executed in manner provided for the execution of search-warrants under the Code of Criminal Procedure, 1898.

13. The Chief Customs-official or other officer authorized by the Local Government in this behalf may detain any package brought, whether by land or sea, into British India which he suspects to contain any newspapers, books or other documents of the nature described in section 4, sub-section (1), and shall forthwith forward copies of any newspapers, books or other documents found therein to such officer as the Local Government may appoint in this behalf for the orders of the Local Government.

14. No newspaper shall be transmitted by post unless the printer and publisher have made a declaration under section 5 of the Press and Registration of Books Act, 1867, and the publisher has deposited security when required under this Act.

15 Any officer in charge of a post-office or authorised by the Post-Master General in this behalf may open or unfasten any article in course of transmission by post, which he suspects to contain—

(a) any newspaper, book or other document containing words, signs or visible representations of the nature described in section 4, sub-section (1), or

(b) any newspaper in respect of which the declaration required by section 5 of the Press and Registration of Books Act, 1867, has not been made, or the security required by this Act has not been deposited by the publisher thereof,

and shall deliver all copies of the same which may be found to such officer as the Local Government may appoint in this behalf for the orders of the Local Government

16. (1) The printer of every newspaper in British India shall deliver at such place and to such officer as the Local Government may, by notification in the local official Gazette, direct, and free of expense to the Government, two copies of each issue of such newspaper as soon as it is published.

(2) If any printer of any such newspaper neglects to deliver copies of the same in compliance with sub-section (1), he shall for every default forfeit to the Government such sum, not exceeding fifty rupees, as a Magistrate having jurisdiction in the place where the newspaper was printed may, on the application of the officer to whom the copies should have been delivered or of any person authorised by that officer in this behalf, determine.

17 Any person against whom an order of Application to High Court for forfeiture has been made under section 4, 6, 9, 11 or order of forfeiture.

12 may, within two months from the date of such order, apply to the High Court to set aside such order on the ground that the newspaper, book or other document in respect of which the order was made did not contain any words, signs or visible representations of the nature described in section 4, sub-section

(1)

18 (1) Every such application shall be heard and determined by a Special Bench of the High Court composed of three Judges, or, where the High Court consists of less than three Judges, of all the Judges

(2) Where there is a difference of opinion among the Judges forming the Special Bench, the decision shall be in accordance with the opinion of the majority of those Judges

19. If it appears to the High Court that Order of High Court setting aside representations contained in the newspaper, book or other document in respect of which the order in question was made were not of the nature described in section 4, sub-section (1), the High Court shall set aside the order of forfeiture.

20 On the hearing of any such application Evidence to prove with reference to any nature or tendency of newspaper, any copy of newspapers such newspaper published before the order of forfeiture and after the commencement of this Act may be given in evidence in aid of the proof of the nature or tendency of the words, signs or visible representations contained in such newspaper which are alleged to be of the nature described in section 4, sub-section (1).

21 Every High Court shall, as soon as conveniently may be, frame rules to regulate the procedure in the case of such applications, the amount of the costs thereof or the execution of orders passed thereon, and, until such rules are framed, the practice of such Court in proceedings other than suits and appeals shall apply, so far as may be practicable, to such applications

22. Every declaration of forfeiture purporting to be made under this Act shall, as against all persons, be conclusive evidence that the forfeiture therein referred to has taken place, and no proceeding purporting to be taken under this Act shall be called in question by any Court, except the High Court on such application as aforesaid, and no civil or criminal proceeding, except as provided by this Act, shall be instituted against any person for anything done or in good faith intended to be done under this Act.

23. (1) Whoever keeps in his possession a press for the printing of books or papers without making a deposit under section 3 or section 5, when required so to do, shall on conviction by a Magistrate be liable to the penalty to which he would be liable if he had failed to make the declaration prescribed by section 4 of the Press and Registration of Books Act, 1867.

(2) Whoever publishes any newspaper without making a deposit under section 8 or section 10, when required so to do, or publishes such newspaper knowing that such security has not been deposited, shall, on conviction by a Magistrate, be liable to the penalty to which he would be liable if he had failed to make the declaration prescribed by section 5 of the Press and Registration of Books Act, 1867.

24. Where any person has deposited any security under this Act and security in certain cases. ceases to keep the press in respect of which such security was deposited, or, being a publisher, makes a declaration under section 8 of the Press and Registration of Books Act, 1867, he may apply to the Magistrate within whose jurisdiction such press is situate for the return of the said security, and thereupon such security shall, upon proof to the satisfaction of the Magistrate and subject to the provisions hereinbefore contained, be returned to such person.

25. Every notice under this Act shall be sent to a Magistrate, who shall cause it to be served in the manner provided for the service of summonses under the Code of Criminal Procedure, 1898.

26. Nothing herein contained shall be deemed to prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence against this Act.

STATEMENT OF OBJECTS AND REASONS.

THE continued recurrence of murderous outrages has shown that the measures which have hitherto been taken to deal with anarchy and sedition require strengthening and that the real source of the evil has not as yet been touched. Since 1907, the policy of the Government has been directed to the steady enforcement of the ordinary law against sedition. Prosecutions have invariably proved successful but have produced no permanent improvement in the tone of the Press, a certain section of which has continued, both by openly seditious writing and by suggestion and veiled incitement, to inculcate hostility to British rule. There is no lack of evidence that the series of crimes which preceded and have followed the passing of Act VII of 1908 is directly traceable to these influences, to which the authors of the outrages—young men of the educated middle class—are peculiarly susceptible. This propaganda has been carried on not only by means of newspapers but by leaflets, pamphlets and the like, rendering it necessary to assume control over printing-presses as well as newspapers.

2. The main divisions of the Bill which has been prepared with this object are—

(I) Control over presses and means of publication, (II) control over publishers; (III) control over the importation into British India and the transmission by the post of objectionable matter, (IV) the suppression of seditious or objectionable newspapers, books or other documents wherever found.

3. I The first of these objects it is sought to attain as follows —

(1) all proprietors of printing-presses making a declaration for the first time under section 4 of the Press and Registration of Books Act, 1867, will be required to give security, which may, however, be dispensed with by the Magistrate at his discretion. The proprietors of existing presses will be required to give security only if and when they are guilty of printing objectionable matter of the description to which the Act applies,

(2) Local Governments may declare such security forfeit where it appears to them that the press has been used for printing or publishing objectionable matter. The Bill defines such matter as that calculated—

- (a) to incite to murder, to anarchical outrage by means of explosives, or to acts of violence,
- (b) to tamper with the loyalty of the Army or Navy,
- (c) to excite racial, class or religious animosities, or hatred or contempt of the Government of British India or of any Native State or Prince,
- (d) to incite to criminal intimidation,
- (e) to incite to interference with the administration of the law or with the maintenance of law and order;
- (f) to intimidate public servants by threat of injury to them or to those in whom they are interested

The declaration of forfeiture operates to annul the declaration made under the Press and Registration of Books Act, 1867.

When the initial security so deposited has thus been forfeited, the deposit of further security in a larger sum is required before a fresh declaration can be made under section 4 of the Press and Registration of Books Act of 1867, and if thereafter the press is again used for printing or publishing objectionable matter the further security deposited and the press itself may be declared forfeit.

II. Control over publishers of newspapers, the second main object of the Bill, is provided for in a similar manner. The keeping of a printing-press and the publishing of a newspaper without depositing security when required are punishable with the penalties prescribed for failure to make the declarations required by sections 4 and 5 of the Press and Registration of Books Act, 1867.

III. The more efficient control over the importation and transmission by post of objectionable matter of the kind described in the Bill is given by empowering the customs and post office authorities to detain and examine packages suspected of containing such matter, and to submit them for the orders of the Local Government. The Bill further prohibits the transmission by post of any newspaper in respect of which a declaration has not been made under the Press and Registration of Books Act, 1867, and security deposited as required under this Bill, and empowers postal officials to open and deliver to the proper authorities articles in the course of transmission which are suspected of containing such newspapers.

IV. The fourth object of the Bill is attained by authorizing the Local Government to declare forfeit any newspaper, book or other document which appears to it to contain matter of the prohibited description, and upon such a declaration the Bill empowers the police to seize such articles and to search for the same.

In each case the Local Government is the authority authorized to declare forfeiture, but a check is imposed upon the exercise of this power in that the Bill provides for an application, within two months of the date of such declaration, to a special bench of three Judges of the High Court, on the question of fact whether the matter objected to is or is not of the description defined in the Bill. If the High Court finds that it is not of that description, it must cancel the order of forfeiture.

All other legal proceedings for action taken under the Bill are barred.

Subsidiary matters provided for in the Bill are the search for and seizure under special warrant of the Magistrate of property declared forfeit under the Bill, for the submission by the printer of every newspaper to such officer as the Local Government may direct of two copies of each issue of his paper on pain of a penalty of Rs. 50 for each default; the return of security deposited by a printer or a publisher, when such person ceases to keep a printing-press or, being a publisher, makes a declaration under section 8 of the Press and Registration of Books Act of 1867, and lastly the saving of prosecutions under any other law.

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA,
ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS
UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS,
1861 TO 1909 (24 & 25 VICT., C. 67, 55 & 56 VICT., C. 14,
AND 9 EDW. VII, C. 4).

The Council met at Government House on Friday, the 28th January 1910.

PRESENT:

His Excellency THE EARL OF MINTO, P.C., G.C.M.G., G.M.S.I., G.M.I.E., Viceroy
and Governor General of India, *presiding*,
and 55 Members, of whom 50 were Additional Members.

OATH OF OFFICE.

The following Additional Member, before taking his seat, made the prescribed oath of his allegiance to the Crown :—

The Hon'ble Mr. F. Rawson, C.M.G.

RULES FOR THE CONDUCT OF LEGISLATIVE BUSINESS.

The Hon'ble MR. S. P. SINHA moved that in rule 2 of the Rules for the conduct of the Legislative Business of the Council of the Governor General, in the definition of "President", for the words "the senior Ordinary Member of

Council present and presiding" the words and figures "the Vice-President appointed by the Governor General under section 4 of the Indian Councils Act, 1909", be substituted. He said:—

"My Lord, Hon'ble Members are aware that in the Government of India Act, 1833, and the Indian Councils Act of 1861, there are sections enacting that during the temporary absence of the Governor General from the Council the senior Member should preside both in the Executive Council and in the Legislative Council; and there are provisions also for the temporary holding of the office of the Governor General. The Indian Councils Act of 1909 has, by section 4, modified those provisions inasmuch as it requires the Governor General to appoint a Member of his Council to be Vice-President thereof for the purpose of temporarily holding and executing the office of Governor General and of presiding at meetings of the Legislative Council. It is therefore necessary to include the Vice-President appointed under the provisions of section 4 in the definition of the word 'President' in the rules as they stood, that is the sole object of the amendment which I propose."

The motion was put and agreed to.

The Hon'ble MR. S. P. SINHA moved that rule 4 of the said Rules be omitted. He said:—"Hon'ble Members will observe that rule 4 of the existing rules is this—'The quorum shall be seven, including the President'. Under the Indian Councils Act of 1909 the Governor General in Council is required to make regulations fixing the quorum for the new Council, and in pursuance of that, Regulation XIII of the Regulations which were published on the 15th of November has fixed the quorum at 15 excluding the President. Rule 4 therefore is superseded by the Regulation, and is no longer necessary."

The motion was put and agreed to.

The Hon'ble MR. S. P. SINHA moved that for rule 5 of the said Rules the following rule be substituted, namely:—

"5. The Members shall sit in such order as the President may direct"

He said:—"As Hon'ble Members have seen in the Statement of Objects and Reasons of this amendment, it is stated that the present rule 5 is not suitable for the enlarged Council in which there will be no seniority among the Additional Members. Formerly the seniority depended on the date of nomination. It is therefore proposed that Members should in future sit according as the President may direct."

The motion was put and agreed to.

The Hon'ble MR. S. P. SINHA moved that for rule 7 of the said Rules the following rule be substituted, namely:—

"7. The President shall preserve order, and all points of order shall be decided by him.

"No discussion on any point of order shall be allowed unless the President shall think fit to take the opinion of the Council thereon

"Any Member may at any time submit a point of order to the decision of the President.

"The President shall have all powers necessary for the purpose of enforcing his decisions."

He said:—"As stated in the Statement of Objects and Reasons, this amendment also arises by reason of the enlargement of the Council. As points of order will more frequently arise now than they did before, it is proposed to amplify the present rule 7 on the basis of the corresponding changes in the rules for the discussion of the Financial Statement and of resolutions on matters of public and general interest."

The motion was put and agreed to.

The Hon'ble MR. S. P. SINHA moved that in rule 8 of the said Rules, for the last nine words the words "shall speak from his place, shall rise when he speaks and shall address the President" be substituted. He said:—"The reason for the amendment is the same as for the other amendments, namely, that the rule which requires a member to sit while he speaks is unsuitable for the present Council with regard to its enlarged number."

The motion was put and agreed to.

The Hon'ble MR. S. P. SINHA moved that to the said rule 8 the following be added, namely:—

"At any time, if the President rises, any Member speaking shall immediately resume his seat."

He said:—"This is absolutely necessary for preserving the order of discussion in the Council."

The motion was put and agreed to.

The Hon'ble MR. S. P. SINHA moved that in rule 9 of the said Rules, for the first two sentences the following shall be substituted, namely:—

"After the Member who makes a motion has spoken, other Members may speak to it in such order as the President may direct,"

and in the third sentence the words "in turn" be omitted

He said:—"Hon'ble Members will notice that in the rule as it exists now it is provided that each Member consecutively, beginning with the Member on the left of the President, may make such observations as he thinks proper. There being more Members than before, it will be a question of catching the President's eye, and I have no doubt the President will direct each Member to speak according as it may be consistent with the orderliness of debate."

The motion was put and agreed to.

The Hon'ble MR. S. P. SINHA moved that in rule 12 of the said Rules, for the second and third sentences the following be substituted, namely:—

"Votes may be taken by voices or by division, and shall be taken by division if any Member so desires

"The President shall determine the method of taking votes by division."

He said:—"As stated in the Objects and Reasons, Hon'ble Members will see that the present rule requires revision for the same reason—the enlargement of the number of the Members of Council, and it is proposed, following the rules for the discussion of the Budget and matters of general public interest, to leave it to the President to determine the method of taking votes on a division."

The motion was put and agreed to.

The Hon'ble MR. S. P. SINHA moved that in rule 16 of the said Rules, for the second sentence the following be substituted, namely:—

"If such motion be carried, a copy of the Bill with a full Statement of Objects and Reasons shall be sent by the Member to the Secretary"

He said:—"The former practice was that the Secretary used to draft Bills—private Bills—which additional Members desired to introduce. Having regard to the fact that the number has increased to such an extent now, it would be obviously impossible for the Secretary to carry out any duty of that description, and it is therefore desired to leave the Members to draft their own Bills."

The motion was put and agreed to.

The Hon'ble MR. S. P. SINHA moved that in rule 40 of the said Rules, for the second sentence the following be substituted, namely:—

“Application for order of admission is to be made through a Member to the Secretary at least two days before the meeting, and the order, if made, shall be sent to such Member.”

He said —“It is more than probable that there will be more applications for admission to our Council Chamber than there have been in the past, and it is also desirable that Members should introduce only such persons as they think desirable, and we rely upon Members introducing persons whom they can vouch for.”

The motion was put and agreed to.

ELECTRICITY BILL.

The Hon'ble MR. MILLER said:—“My Lord, as the Council has been entirely re-constituted since the Electricity Bill was introduced, it may be convenient that in moving for its reference to a Select Committee, I should explain, very briefly, the steps by which the proposed legislation has reached its present stage and the objects we have in view

“The existing law on the subject is contained in an Act of 1903. This was the first comprehensive enactment dealing with the subject in this country, and, as was to be expected, in its application and administration some difficulties came to the front, and the legal opinions which we received showed that in some respects amendment was necessary. Accordingly in 1907 a strong Committee was appointed to consider the revision of the Act and to suggest the lines upon which any amendments should proceed. They submitted a very complete and valuable report with a draft Bill. After a reference to Local Governments a Bill that was largely based on that proposed by the Committee, was introduced at Simla last year, the object being to have it circulated and to obtain opinions so that it could be referred at as early a date as possible to a Select Committee in the Calcutta session. We have now received a very complete expression of opinion from all those interested in electrical enterprise in different parts of the country. I should like to acknowledge here the value of the criticisms and suggestions made, which show that many amendments in the Bill will be necessary, and which will be fully considered in the Select Committee. What we all aim at in proposing this legislation is to give every reasonable and proper encouragement to the application of capital to electrical enterprise, with due regard to all the other interests concerned, for this Bill touches very many interests. There are the commercial interests,—the capitalist who considers that he does not get sufficiently liberal terms in the provisions of the existing law regarding the compulsory acquisition at some distant date of his property. There are the suppliers, who also think that they are inadequately protected by some of the provisions of the present Act and who wish for something more drastic. In addition to this, there are the consumers, the general public, the local authorities, all of whom have to be considered.

“I am afraid that it is impossible that an Act dealing with such a very technical subject and affecting so many interests should be a simple one, and although the Bill which has now been drafted does not propose any very fundamental changes in the existing law, still I think that the Select Committee will have no easy task in dealing with all the questions on points of local and technical detail that will come before them. It has been thought advisable to appoint a large and strong Select Committee so as to facilitate the placing before it of the views of representatives of the different interests concerned. I have no doubt that with their assistance we shall be able to place before the Council a Bill which will give every reasonable encouragement to electrical enterprise, and which will generally be regarded with satisfaction. I beg to move, my Lord, that the Bill to amend the law relating to the supply and use of electrical energy be referred to a Select Committee consisting of the Hon'ble Mr. S. P. Sinha, the Hon'ble Sir T. R. Wynne, the Hon'ble Mr. Jacob, the Hon'ble Mr.

Kesteven, the Hon'ble Sir Vithaldas Thackersey, the Hon'ble Maung Bah Too, the Hon'ble Mr. Dadabhoy, the Hon'ble Mr. Graham, the Hon'ble Mr. Rawson and myself."

The motion was put and agreed to.

DOURINE BILL.

The Hon'ble MR MILLER said:—"The Bill with which I have now to deal is in the same stage as the Electricity Bill. It was introduced in the former Council at Simla, and it is now proposed to refer it to a Select Committee. It is a short Bill to give the Government power to deal with dourine, a disease which affects equine stock. I am glad to say that the spread of this disease has given rise to serious concern only in Upper India as yet, and that such administrative measures as it has been found possible to take without any definite legal provisions have been very successful in checking its spread. It is so serious, however, that it has been thought necessary to draft a permissive measure to allow of Local Governments taking the steps necessary to check this disease. It is proposed therefore to give them certain powers for this purpose, and at the same time to provide for the grant of compensation where private loss is caused by the measures which are adopted. The Bill has been circulated and a number of criticisms and suggestions have been received that will be considered in Select Committee. I beg to move that the Bill to provide for the prevention of the spread of dourine be referred to a Select Committee consisting of the Hon'ble Mr. S. P. Sinha, the Hon'ble Mr. Carlyle, the Hon'ble Mr. Holms, the Hon'ble Mr. Graham, the Hon'ble Malik Umar Hyat Khan, and myself."

The motion was put and agreed to.

INDIAN PAPER CURRENCY BILL.

The Hon'ble SIR GUY FLEETWOOD WILSON said:—"The motion which I have to put before the Council is of a formal character. The Bill for amending the Paper Currency Act has been referred to Provincial Governments and to the financial, commercial and industrial communities for their opinions, and the great body of opinion throughout the country is wholly in favour of the principles which the Bill embodies.

"I introduced the Bill at Simla, but we considered it right to take the Bill through its latter stages in Calcutta so as to meet the convenience of non-official Members of Council. Accordingly, I now beg to move that the Bill to consolidate and amend the law relating to the Government Paper Currency be referred to a Select Committee consisting of the Hon'ble Mr. S. P. Sinha, the Hon'ble Mr. Meston, the Hon'ble Nawab Saiyid Mahammad Sahib Bahadur, the Hon'ble Mr. Gokhale, the Hon'ble Sir Vithaldas Thackersey, the Hon'ble Babu Bhupendra Nath Basu, the Hon'ble Mr. Graham, the Hon'ble Mr. Armstrong, and myself."

The motion was put and agreed to.

INDIAN PENAL CODE (AMENDMENT) BILL

The Hon'ble SIR HERBERT RISLEY said:—"My Lord, I have the honour to move for leave to introduce a Bill to amend the Indian Penal Code by enlarging the scope of section 75 which deals with certain classes of habitual offenders. The Bill consists of a single section and its purpose is concisely stated in the summary of Objects and Reasons which is in the hands of Hon'ble Members. I need not therefore enter upon a lengthy further explanation. It will be sufficient to say that the present state of the law has caused serious practical difficulties in the Central Provinces and Berar, and I shall refer only to those territories, and not to the other areas within Native States which are covered by Berar. Although Berar is for administrative purposes an integral part of the Central

Provinces and is under the same police and judicial system, it is, according to the better opinion, not British India. I am aware that the Hon'ble Mr. Mudholkar holds a different opinion on this rather abstruse question of legal metaphysics, but he has consented not to raise it on the present occasion and he will have ample opportunities of bringing his views before the Government of India. From the present state of the law there follows the anomalous and inconvenient consequence that a man who has been convicted over and over again in Berar ~~for~~ theft and other grave offences against property cannot, if he is subsequently convicted in the Central Provinces, be punished according to his deserts. His previous convictions cannot be proved against him; on one side of an administrative line he is a habitual criminal, on the other side the law as it now stands enables him to pose successfully as a first offender. The same applies to a Central Provinces habitual who transfers his mischievous activities to Berar; he gets so to speak a fresh start, his *Karma*, to use a familiar metaphor, does not pursue him. That is a typical case, and owing to the constant communication between Berar and the adjacent districts of British India, such cases are frequent enough to call for an amendment of the law. Berar is a rich country and large numbers of labourers from the rice and rabi districts of the Central Provinces visit Berar every year to seek temporary employment in the cotton harvest and in the numerous ginning and pressing mills, and in this moving population there is a certain sprinkling of habitual criminals. In a matter of this kind it is not easy to procure complete statistics, but I may mention that a partial examination of the records of the last few years discloses that 260 persons convicted in 146 cases had been previously convicted in the adjoining province. The problem of dealing with habitual criminals is a formidable one and the development of railways has added to its difficulties, but one of the conditions of success is that they should not be encouraged, by defects in the law, to think that they can ply their trade with impunity by simply changing their venue.

"I trust, my Lord, that I have said enough to justify to this Council the measure which I ask for leave to introduce."

The motion was put and agreed to.

The Hon'ble SIR HERBERT RISLEY introduced the Bill

The Hon'ble SIR HERBERT RISLEY moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

INDIAN CENSUS BILL.

The Hon'ble SIR HERBERT RISLEY said :—"My Lord, I have the honour to move for leave to introduce a Bill to provide for the taking of a Census of India early in March 1911. The Bill is in the hands of Hon'ble Members; it is identical in terms with the Act of 1900; and I might reasonably follow the example of Sir Charles Rivaz who was in charge of that measure and treat the Bill as a matter of administrative routine requiring no special explanation. But I am unwilling to adopt that course on the present occasion. It is due to the Council that they should be fully acquainted with the purpose and point of view of the Bill and I may perhaps be permitted to add that I myself, having been Census Commissioner for India ten years ago, take a keen personal interest in the subject and am anxious not to miss this opportunity of drawing the attention of my Hon'ble Colleagues to its importance both for the purposes of administration and—a point which has not been noticed before—in its international aspects.

"Now as regards administrations our object is essentially practical. The costly and laborious operations of an Indian census are amply justified by their direct bearing on the everyday government of the country. The census presents a series of pictures of the national history of the past ten years, it sums

up the effects of the vicissitudes of the seasons, of religious and social movements, of educational effort, of commercial and industrial progress. It enables the Government of India, the Local Governments and the Ruling Chiefs to take stock of their position and to see how things have fared with the peoples entrusted to their charge. For the current decade it fixes the statistical data on which all administrative action must be based. It tells the rulers what manner of men they have to deal with ; how many will suffer from a failure of the rains or will benefit by a well-conceived scheme of irrigation ; what are the prospects of a new line of railway ; what proportion of the population will be reached by a reduction of taxation ; how many children ought to be at school ; what is the real measure of the ravages of various forms of disease. For these and numberless other purposes an accurate census is an indispensable preliminary to administrative action.

"The international aspect of the subject, although not of primary importance, cannot be left entirely out of view. Decennial censuses, taken so far as may be at the same time, are now a recognised necessity in all civilised countries. By taking part in this concerted scheme of operations India enters into the comity of nations, and I think I may say that she has won for herself there a distinguished place. To use a sporting phrase, India holds the world's record both for the magnitude of her operations and for the speed with which the results are published. In 1891 my predecessor as Census Commissioner, Sir Athelstane Baines, produced the first totals of the census then taken about five weeks after the actual enumeration. Ten years later, in 1901, we went a little better. Nearly three hundred millions of people were counted between 7 P.M. and midnight on the 1st of March ; the preliminary results were published on the 15th March, exactly a fortnight later ; and these figures differed from those arrived at in the final compilation by only 94,355 or '03 per cent. So far as I am aware, no other country, not even the United States, which has always taken the lead in census organization, has produced any figures at all in less than six months. To whom is the credit due for the success attained ten years ago which may not improbably be surpassed next year ? I say without hesitation—and I welcome the opportunity for saying it here—to the people themselves, to all sorts and conditions of men from one end of the Empire to another, who gave their unpaid services for a great public object. An Indian census is pre-eminently the work of the Indian people. If they held aloof or even demanded the most trifling remuneration for their trouble, the whole undertaking would be financially impracticable. As it is, the greater part of the enumeration is done for nothing by an army of private individuals, numbering on the last occasion more than a million and a quarter, who bring to their troublesome task a spirit of painstaking accuracy which I believe to be unequalled anywhere in the world. Their exertions have at times a humorous side. I remember for example how the zeal of a volunteer enumerator in the United Provinces impelled him to turn into verse the census instructions and to suggest that the weaker brethren should be required to learn his production by heart. They have also their serious side. Perhaps the most remarkable instance of voluntary exertion in the public interest occurred in the City of Bombay, where the teaching staff and the senior students of the Elphinstone High School came forward spontaneously to conduct the entire operations of the census for the quarter in which the school was situated. There was plague in Bombay at the time, the census enumerators, going from house to house and from room to room, were specially exposed to infection ; and several of them fell victims to the disease. I point to that as a fine illustration, in a humble sphere, of that 'fellow service' which His Excellency the Viceroy held up the other day as the ideal to be aimed at in the future. I have no doubt that equally ungrudging assistance will be rendered in the next census, and that India will maintain the pre-eminent place that she now occupies on the international record of census successes.

"Now the main object of a Census Act is to give legal authority and sanction to the host of non-official agents who are appointed to carry out the enumeration. It confers upon them the status of public servants, empowers them to ask certain authorised questions, and requires the public to answer

such questions to the best of their knowledge and belief. It places co-operation in the census on the footing of a public obligation, and imposes a penalty of Rs. 50 on certain acts and omissions which would impede the enumeration or would vitiate its results. But such is the spirit in which the operations are regarded by the people that prosecutions are exceedingly rare, and I doubt whether any province could show as many as a dozen cases. Here and there an instance of perversity occurs such as that of the *faqir* who expressed disapproval of the census and retired to the middle of a tank until the enumeration was over. But even he was not prosecuted, he was duly entered in the appropriate schedule, and the tank, being at the time inhabited, was put down as a house. This illustrates the temper in which things are done and the reluctance to have recourse to the penalties provided by the law.

"In conclusion there is one clause, clause 14, which calls for a word of explanation. This clause empowers the Local Government to direct that expense incurred under the Act may be charged to a municipal, local or village fund. It was inserted at my instance in the Act of 1900, and was explained in rather general terms by Sir Charles Rivaz. The real point of it is this, that in every census certain petty charges are incurred for painting numbers on houses, for pens and ink to write up the schedules, and for country paper used in practising enumeration and making rough drafts. If these things are provided locally, they cost next to nothing—one anna per 50 houses is an average figure for numbering, but if they are supplied from headquarters or elaborate bills are sent in to the District Magistrate, the expenditure is likely to mount up. In any case the power is discretionary and it will rest with the Local Government to exercise it or not.

"My Lord, I now ask for leave to introduce the Bill."

The motion was put and agreed to.

The Hon'ble SIR HERBERT RISLEY introduced the Bill.

The Hon'ble SIR HERBERT RISLEY moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

The Council adjourned to Friday, the 4th February 1910.

J. M. MACPHERSON,
Secretary to the Government of India,
Legislative Department.

CALCUTTA

The 28th January 1910.

SUPPLEMENT TO
The Gazette of India

No. 6. } CALCUTTA, SATURDAY, FEBRUARY 5, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 3rd February 1910, based on the Indian Daily Weather Reports of the period.

In the extreme south of India conditions were slightly unsettled and rain fell locally on two days, but over the rest of the country weather was dry throughout the week and there were no large departures from normal in temperature.

Burma.—Skies were generally free from cloud and temperature was normal, apart from a slight excess in the minimum on several days.

Northeast India, including Orissa.—Dibrugarh had a light fall of rain. Clear skies generally prevailed throughout the week and maximum temperature was normal, but the minimum was in defect in the greater part of Bengal on most days.

The United Provinces, Central India and the Central Provinces.—Skies were clear or lightly clouded. Day temperature was somewhat higher than usual at the close of the week in Central India and the Central Provinces, while night temperature was below normal during part of the week throughout almost the whole of the division.

Northwest India.—Skies were clear or lightly clouded. Weather was warmer than usual in the day time during the latter half of the week, but at night, temperature was normal.

The Peninsula.—Rainfall was fairly widespread in the extreme south, and skies were generally moderately clouded there, but elsewhere they were clear or lightly clouded.

Maximum temperature was in excess on the Konkan coast, but with this exception temperature conditions were approximately normal.

The following summarises the chief rainfall amounts as reported at 8 hrs. each day :—

January 30th. Ootacamund 1·84", Kodaikanal 1·02" and Pamban 0·71".

The absence of rainfall over the whole of northern India has still further reduced the excess of rainfall for the period from 3rd December in the United Provinces, the Punjab, Kashmir, the North-West Frontier Province and Baluchistan, and in the east of the United Provinces and in Baluchistan the rainfall for the period is now normal.

DIVISION.	RAINFALL DATA FOR WEEK ENDING ON 3RD FEBRUARY 1910.			RAINFALL DATA FROM 3RD DECEMBER 1909 TO 3RD FEBRUARY 1910.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 29th January 1910.

Burma — Slight showers fell in Akyab and Mergui during the week. Harvesting of winter rice is practically finished and the cultivation of spring rice is advancing. Harvesting of millets, *gram*, ground-nuts, winter sesamum and cotton is in progress and other agricultural operations are proceeding normally. Standing crops in Upper Burma are doing well.

Eastern Bengal and Assam — The weather was fine without rain which is needed for tea and spring crops. Harvesting of winter rice is finished, while that of mustard and sugarcane continues. Transplantation of spring rice is progressing. Preliminary cultivation of the soil for jute and other autumn crops has commenced. Prospects of tea, wheat, tobacco and sugarcane are good and those of mustard and pulses fair. The average price of common rice has fallen about 3 per cent. Cattle disease prevails in Darrang and Sibsagar.

Bengal — There was no rain during the week. Threshing of winter rice continues in some districts. Harvesting of early oilseeds and pulses is going on in Nadia, Murshidabad, Darjeeling and Angul. Pressing of sugarcane and preparation of lands for the next season's crops are in progress. The standing spring crops are doing well. Some damage has been done to gram by insect pests in parts of Darbhanga. The price of common rice has risen in Burdwan, Balasore, Hazaribagh and Ranchi, and has fallen in Midnapore, Howrah, the 24-Parganas, Nadia, Murshidabad, Patna, Gaya, Champaran, Monghyr, Cuttack, Angul and Manbhum. Cattle disease is reported from 9 districts. The fodder and water-supply is sufficient throughout the Province.

United Provinces — No rain fell during the week. Pressing of sugarcane and irrigation of spring crops continue. Fields are being prepared for sugarcane and extra crops. Standing crops are flourishing. Cattle are generally in good condition, but disease is reported in fourteen districts. Fodder is sufficient. Markets are well stocked. Prices are practically stationary.

Punjab — Rainfall nil. Pressing of sugarcane continues in some districts, and the outturn is good to average. Standing crops are generally in good condition. Rats are damaging crops in Rohtak. Prices of food grains are generally unchanged but show a slight downward tendency in some districts. Cattle are generally in good condition. Fodder is generally sufficient.

North-West Frontier Province. — No rain fell during the week. The condition of standing crops is generally good throughout the Province. Pressing of sugarcane still continues in the Peshawar and Bannu districts. Planting of sugarcane is in progress in the Bannu district. The water supply is sufficient. The Paharpur canal in the Dera Ismail Khan district is still closed. Fodder is procurable throughout the Province except that it is scarce in the Shigga circle of the Marwat tahsil of the Bannu district. The condition of cattle is generally good except in one village of the Peshawar tahsil and in two villages of the Nowshera tahsil. The public health is generally good. Prices of food-grains are nearly stationary. Prices — Wheat 11 to 14; gram 16½ to 22, maize 15 to 22½; bajra 16½ to 18 and barley 19½ seers per rupee.

Jammu — Rain nil. Prices are stationary. Wheat sells from 11 to 17 and maize from 17 to 26 seers per rupee. The condition of standing crops is fair. Fodder is sufficient.

Kashmir — Slight snow fell during the week on the surrounding hills and the cold was severe. The condition of spring crops is average. There is no disease among cattle. Fodder is insufficient in flooded villages. Prices are unchanged.

Rajputana — Spring crops are progressing. Blight has caused slight damage to gram in Partabgarh. Cattle are satisfactory. The condition of fodder is sufficient. Prices are rising in Sirohi, the Mewar Hill Tracts, Dungarpur and Jhalawar and are steady or falling elsewhere.

Central India.—Rainfall *nil*. Threshing of autumn and irrigation of spring crops continue. Crops have been damaged slightly in Malwa and Bhopawar. Agricultural stock are in good condition except for some disease in Baghelkhand, Bundelkhand and Bhopawar. Prices are fluctuating in Bhopal and are high and steady elsewhere. Watering and weeding of poppy continue.

Central Provinces.—The weather has been clear and cool. Harvesting of autumn crops is over except in Nagpur and Chanda where *juar* and *tur* are still being cut. Picking of cotton and threshing and winnowing of autumn crops continue in several districts. Reaping of linseed has commenced in parts of Wardha, Chanda, Bhandara and Yeotmal and of pulses in Narsinghpur, Nimar, Chanda, Raipur, Bilaspur and Berar except Akola. Prospects of linseed and gram in Bhandara are somewhat marred by rain, and spring crops in the Mehkar tahsil of the Buldana district have suffered considerably from the ravages of rats. Prospects are generally favourable all over the Province. The supply of fodder and water is adequate everywhere. Cattle are doing well. Prices:—The price of rice remained stationary in 16 districts, wheat in 17, *juar* in 18 and gram in 19 districts. Rice in Balaghat and Bilaspur rose by 2½ and 1½ seers per rupee respectively. *Juar* sells cheaper by 2 seers in Buldana and Yeotmal. Rice in Drug and gram in Damoh fell by 1 seer. Variations are unimportant elsewhere.

Feudatory States.—Threshing and winnowing of autumn crops are still in progress. Some damage to the wheat crop has been done by rats in Khairagarh. Otherwise the condition of spring crops is generally good. Fodder and water are sufficient. Prices:—Wheat and rice in Nandgaon, *Kodon* in Khairagarh, gram in Korea and rice in Raigarh became dearer by 1 to 4 seers per rupee. Prices were steady elsewhere.

Bombay.—Standing crops are suffering from insufficient moisture in parts of Poona and Sholapur. They have been damaged slightly by insects in parts of Karachi; by cloudy weather and rats in West Khandesh; by frost in Karachi, Hyderabad and the Upper Sind Frontier, and are generally good elsewhere. Threshing of autumn crops continues in parts of the Upper Sind Frontier, the Konkan, the Deccan and Palanpur. Spring sowings are progressing in parts of Karachi, Kanara, Nasik and Mahi Kantha. Harvesting is in progress in parts of Kaira, Broach, Surat, the Deccan, the Karnatak Baroda, Kutch, Rewa Kantha and Kolhapur. Cotton picking is progressing in Gujarat, East Khandesh, Belgaum, Baroda and Kutch. The fodder supply is generally adequate. Agricultural stock are sufficient, except in parts of the Deccan and are generally in good condition. Drinking water is generally sufficient in parts of Nasik and Poona. Grain stocks are sufficient. Prices have risen in Larkana, the Upper Sind Frontier, Sholapur, Satara and Bijapur and are stationary elsewhere. The quantity purchasable per rupee is in Sind 25 to 41; in Gujarat 3 to 23; in the Konkan 2 to 40; in the Deccan 7 to 32 and in the Karnatak 17 to 32 per cent less than the normal.

Hyderabad.—No rain fell during the week. The autumn harvest is over except for picking of cotton which is going on in a few tracts of the Marathwara. The spring harvest is in progress, and the crop is generally fair to good except in parts of Telingana, especially in the Nalgonda, Warangal and Karimnagar districts, where it is poor. Some damage is still being done by rats in parts of the Khuldabad taluka of the Aurangabad district. Harvesting of the castor seed crop is nearing completion, and its outturn is estimated at 8 or below 8 annas. The early rice harvest is almost over. Late rice sowings still continue, and weeding is in progress, but the area is limited owing to the inadequacy of the water supply in tanks. Cattle disease is reported in seven talukas and fodder scarcity in twelve. Water scarcity is reported in parts in the Linsugur taluka of the Raichur district, Janwada of the Bidar district and Sultanabad of the Karimnagar district. The water supply is decreasing in Asthi of the Bir district, Palam in the Parbhani district, Udgir in the Bidar district, Paloncha in the Warangal district and in the Jagtial, Karimnagar and Mahadeopur talukas of the Karimnagar district. Prices—Wheat 7, coarse rice 7 and *juar* 14½ seers per rupee. White and yellow *juar* are selling in Hyderabad city at 13 and 15 seers per rupee respectively. The highest price in districts is 8 seers in Chinnur of the Adilabad district and the lowest 24 seers in the Rajura taluka of the Bidar district.

Mysore.—Prices of food grains have fallen slightly in Hassan and Chitaldrug and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Paddy and other crops are being harvested. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Picking of coffee and harvesting of rice continue. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was light to fair in Trichinopoly, Tanjore and the Nilgiris and *nil* elsewhere. Irrigation supplies are sufficient in Ganjam, Vizagapatam, North-Arcot,

Malabar and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair, but some in parts of Guntur, the Deccan, the Carnatic, Central and South, have withered or are withering or require more rain. Harvests continue with outturn fair to normal and bumper. Pasture is sufficient except in parts of the Circars, the Deccan, Nellore, Coimbatore and South Canara. Fodder is scanty in parts of Guntur, Nellore and Chingleput. The condition of cattle is generally good. The price of rice is stationary in nine districts; has fallen in nine and has risen in five. The prices of millets have fluctuated as follows:—*Ragi* is stationary in nine districts, has fallen in six and has risen in six. *Cholam* is stationary in four districts, has fallen in seven and has risen in three. *Cumbu* is stationary in six districts, has fallen in five and has risen in four. The public health is generally good. Prospects are generally fair, though more rain is required in Nellore, South-Arcot and Salem. The condition of the labouring classes is satisfactory everywhere, and employment is readily available. Grain stocks are generally sufficient.

Nepal — Report for the quarter ending 15th January 1910:—

November —Spring sowings were commenced in the Nepal Valley and in the Terai. Rice was harvested and yielded a bumper crop. Oranges began to ripen. Cattle disease was reported to be dying out in the Nepal Valley.

December.—The orange crop was plucked in the Valley as also in the hills, and the outturn was very good. Sowing of winter vegetables was in progress. The first crop of potatoes was dug, but did not come up to expectations, nor was it as good as that of last year.

January —Fields are being prepared for the sowing of the second potato crop. Sugarcane is ready to be cut in the hills, but operations have not commenced yet. Vegetables continue to be sown.

The rainfall in the Valley for the period was 1 inch as compared with 0·29 for the corresponding period of last year. It is quite sufficient for the standing crops which are doing well. There was slight frost during the months of December and January, but it is not to be compared to that experienced in former years, and no damage has been done. The health of the live stock has not been very good. Cattle disease has died out in the Valley, but is still prevalent in the Terai. An epidemic has broken out amongst elephants in the Terai, the Nepal Durbar alone having lost about 37 animals up to date.

Prices are very favourable and much below the average. Rice is selling at 11 seers per rupee.

R. W. CARLYLE,

Secretary to the Government of India.

EXTRAORDINARY.

PUBLISHED BY AUTHORITY.

CALCUTTA, THURSDAY, FEBRUARY 10, 1910.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 9th February 1910, and is hereby promulgated for general information:—

ACT NO. I OF 1910.

An Act to provide for the better control of the Press.

WHEREAS it is necessary to provide for the better control of the Press; It is hereby enacted as follows:—

1. (1) This Act may be called the Indian Press Short title and ex- Act, 1910.
tent.

(2) It extends to the whole of British India inclusive of British Baluchistan, the Santhal Parganas and the Pargana of Spiti.

2. In this Act, unless there is anything repugnant in the subject or context,—
Definitions.

(a) "book" includes every volume, part or division of a volume, and pamphlet, in any language, and every sheet of music, map, chart or plan separately printed or lithographed:

(b) "document" includes also any painting, drawing or photograph or other visible representation:

(c) "High Court" means the highest Civil Court of Appeal for any local area except in the case of the provinces of Ajmer-Merwara and Coorg where it means the High Court of Judicature for the North-Western Provinces and the High Court of Judicature at Madras respectively:

(d) "Magistrate" means a District Magistrate or Chief Presidency Magistrate:

(e) "newspaper" means any periodical work containing public news or comments on public news: and

(f) "printing-press" includes all engines, machinery, types, lithographic stones, implements, utensils and other plant or materials used for the purpose of printing.

3. (1) Every person keeping a printing-press who is required to make a declaration under section 4 of the Press and Registration of Books Act, 1867, shall, at the time of making the same, deposit with the Magistrate before whom the declaration is made security to such an amount, not being less than five hundred or more than two thousand rupees, as the Magistrate may in each case think fit to require, in money or the equivalent thereof in securities of the Government of India.

Provided that the Magistrate may, if he thinks fit, for special reasons to be recorded by him, dispense with the deposit of any security or may from time to time cancel or vary any order under this sub-section.

(2) Whenever it appears to the Local Government that any printing-press kept in any place in the territories under its administration, in respect of which a declaration was made prior to the commencement of this Act under section 4 of the Press and Registration of Books Act, 1867, is used for any of the purposes described in section 4, sub-section (1), the Local Government may, by notice in writing, require the keeper of such press to deposit with the Magistrate within whose jurisdiction the press is situated security to such an amount, not being less than five hundred or more than five thousand rupees, as the Local Government may think fit to require in money or the equivalent thereof in securities, of the Government of India.

4. (1) Whenever it appears to the Local Government that any printing-press in respect of which any security has been deposited as required by section 3 is used for the purpose of printing or publishing any newspaper, book or other document containing any words, signs or visible representations which are likely or may have a tendency, directly or indirectly, whether by inference, suggestion, allusion, metaphor, implication or otherwise—

(a) to incite to murder or to any offence under the Explosive Substances Act, 1908, or to any act of violence, or

(b) to seduce any officer, soldier or sailor in the Army or Navy of His Majesty from his allegiance or his duty, or

(c) to bring into hatred or contempt His Majesty or the Government established by law in British India or the administration of justice in British India or any Native Prince or Chief under the suzerainty of His Majesty, or any class or section of His Majesty's subjects in British India, or to excite disaffection towards His Majesty or the said Government or any such Prince or Chief, or

(d) to put any person in fear or to cause annoyance to him and thereby induce him to deliver to any person any property or valuable security, or to do any act which he is not legally bound to do, or to omit to do any act which he is legally entitled to do, or

(e) to encourage or incite any person to interfere with the administration of the law or with the maintenance of law and order, or

(f) to convey any threat of injury to a public servant, or to any person in whom that public servant is believed to be interested with a view to inducing that public servant to do any act or to forbear or delay to do any act connected with the exercise of his public functions,

the Local Government may, by notice in writing to the keeper of such printing press, stating or describing the words, signs or visible representations which in its opinion are of the nature described above, declare the security deposited in respect of such press and all copies of such newspaper book or other document wherever found to be forfeited to His Majesty.

Explanation I—In clause (c) the expression "disaffection" includes disloyalty and all feelings of enmity.

Explanation II.—Comments expressing disapproval of the measures of the Government or of any such Native Prince or Chief as aforesaid with a view to obtain their alteration by lawful means, or of the administrative or other action of the Government or of any such Native Prince or Chief or of the administration of justice in British India without exciting or attempting to excite hatred, contempt or disaffection do not come within the scope of clause (c).

(2) After the expiry of ten days from the date of the issue of a notice under sub-section (1), the declaration made in respect of such press under section 4 of the Press and Registration of Books Act, 1867, shall be deemed to be annulled

5. Where the security given in respect of any press has been declared forfeited under section 4, every person making a fresh declaration in respect of such press under section 4 of the Press and Registration of Books Act, 1867, shall deposit with the Magistrate before whom such declaration is made security to such amount, not being less than one thousand or more than ten thousand rupees, as the Magistrate may think fit to require, in money or the equivalent thereof in securities of the Government of India.

6. If after such further security has been deposited the printing-press is again used for the purpose of printing or publishing any newspaper, book or other document containing any words, signs or visible representations which in the opinion of the Local Government are of the nature described in section 4, sub-section (1), the Local Government may, by notice in writing to the keeper of such printing-press, stating or describing such words, signs or visible representations, declare—

(a) the further security so deposited,

(b) the printing-press used for the purpose of printing or publishing such newspaper, book or other document or

found in or upon the premises where such newspaper, book or other document is, or at the time of printing the matter complained of was, printed, and

(c) all copies of such newspaper, book or other document wherever found, to be forfeited to His Majesty.

7. (r) Where any printing-press is or any copies of any newspaper, book or other document are declared forfeited to His Majesty under this Act, the Local Government may direct any Magistrate to issue a warrant empowering any police-officer, not below the rank of a Sub-Inspector, to seize and detain any property ordered to be forfeited and to enter upon and search for such property in any premises—

(i) where any such property may be or may be reasonably suspected to be, or

(ii) where any copy of such newspaper, book or other document is kept for sale, distribution, publication or public exhibition or reasonably suspected to be so kept.

(2) Every warrant issued under this section shall, so far as relates to a search, be executed in manner provided for the execution of search-warrants under the Code of Criminal Procedure, 1898.

8. (r) Every publisher of a newspaper who is required to make a declaration under section 5 of the Press and Registration of Books Act, 1867, shall, at the time of making the same, deposit with the Magistrate before whom the declaration is made security to such an amount, not being less than five hundred or more than two thousand rupees, as the Magistrate may in each case think fit to require, in money or the equivalent thereof in securities of the Government of India:

Provided that if the person registered under the said Act as printer of the newspaper is also registered as the keeper of the press where the newspaper is printed, the publisher shall not be required to deposit security so long as such registration is in force:

Provided further that the Magistrate may, if he thinks fit, for special reasons to be recorded by him, dispense with the deposit of any security or may from time to time cancel or vary any order under this sub-section.

(2) Whenever it appears to the Local Government that any newspaper published within its territories, in respect of which a declaration was made by the publisher thereof prior to the commencement of this Act under section 5 of the Press and Registration of Books Act, 1867, contains any words, signs or visible representations of the nature described in section 4, sub-section (r), the Local Government may, by notice in writing, require the publisher to deposit with the Magistrate, within whose jurisdiction the newspaper is published, security

to such an amount, not being less than five hundred or more than five thousand rupees, as the Local Government may think fit to require, in money or the equivalent thereof in securities of the Government of India.

9. (r) If any newspaper in respect of which Power to declare any security has been security forfeited in deposited as required by certain cases. section 8 contains any words, signs or visible representations which in the opinion of the Local Government are of the nature described in section 4, sub-section (r), the Local Government may, by notice in writing to the publisher of such newspaper, stating or describing such words, signs or visible representations, declare such security and all copies of such newspaper, wherever found, to be forfeited to His Majesty.

(2) After the expiry of ten days from the date of the issue of a notice under sub-section (r), the declaration made by the publisher of such newspaper under section 5 of the Press and Registration of Books Act, 1867, shall be deemed to be annulled.

10. Where the security given in respect of any newspaper is declared forfeited, any person making a fresh declaration under section 5 of the Press and Registration of Books Act, 1867, as publisher of such newspaper, or any other newspaper which is the same in substance as the said newspaper, shall deposit with the Magistrate before whom the declaration is made security to such amount, not being less than one thousand or more than ten thousand rupees, as the Magistrate may think fit to require, in money or the equivalent thereof in securities of the Government of India.

11. If after such further security has been Power to declare deposited the newspaper further security and again contains any words, newspapers forfeited. signs or visible representations which in the opinion of the Local Government are of the nature described in section 4, sub-section (r), the Local Government may, by notice in writing to the publisher of such newspaper, stating or describing such words, signs or visible representations, declare—

(a) the further security so deposited, and
(b) all copies of such newspaper wherever found,

to be forfeited to His Majesty.

12. (r) Where any newspaper, book or other document wherever printed appears to the Local Government to contain any words, signs or visible representations of the nature described in section 4, sub-section (r), the Local Government may, by notification in the local official Gazette, stating the grounds of its opinion, declare such newspaper, book or other document to be forfeited to His Majesty, and thereupon any police-officer may seize the same wherever found, and any Magistrate may by warrant authorise any

police-officer not below the rank of Sub-Inspector to enter upon and search for the same in any premises where the newspaper, book or other document may be or may be reasonably suspected to be.

(2) Every warrant issued under this section shall, so far as relates to a search, be executed in manner provided for the execution of search-warrants under the Code of Criminal Procedure, 1898.

13. The Chief Customs-officer or other officer authorized by the Local Government in this behalf may detain any package brought, whether by land or sea, into British India which he suspects to contain any newspapers, books or other documents of the nature described in section 4, sub-section (1), and shall forthwith forward copies of any newspapers, books or other documents found therein to such officer as the Local Government may appoint in this behalf to be disposed of in such manner as the Local Government may direct.

14. No newspaper printed and published in British India shall be transmitted by post unless the printer and publisher have made a declaration under section 5 of the Press and Registration of Books Act, 1867, and the publisher has deposited security when so required under this Act.

15. Any officer in charge of a post-office or authorised by the Post-Master General in this behalf may detain any article other than a letter or parcel in course of transmission by post, which he suspects to contain—

(a) any newspaper, book or other document containing words, signs or visible representations of the nature described in section 4, sub-section (1), or

(b) any newspaper in respect of which the declaration required by section 5 of the Press and Registration of Books Act, 1867, has not been made, or the security required by this Act has not been deposited by the publisher thereof,

and shall deliver all such articles to such officer as the Local Government may appoint in this behalf to be disposed of in such manner as the Local Government may direct.

16. (1) The printer of every newspaper in British India shall deliver at such place and to such officer as the Local Government may, by notification in the local official Gazette, direct, and free of expense to the Government, two copies of each issue of such newspaper as soon as it is published.

(2) If any printer of any such newspaper neglects to deliver copies of the same in compliance with sub-section (1), he shall, on the complaint of the officer to whom the copies should have been delivered or of any person authorised by that officer in this behalf, be punishable on conviction by a Magistrate having jurisdiction in the place where the newspaper was printed with fine which may extend to fifty rupees for every default.

17. Any person having an interest in any property in respect of which an order of forfeiture has been made under section 4, 6, 9, 11 or 12 may, within two months from the date of such order, apply to the High Court to set aside such order on the ground that the newspaper, book or other document in respect of which the order was made did not contain any words, signs or visible representations of the nature described in section 4, sub-section (1).

18. Every such application shall be heard and determined by a Special Bench of the High Court composed of three Judges, or, where the High Court consists of less than three Judges, of all the Judges.

19. (1) If it appears to the Special Bench that the words, signs or visible representations contained in the newspaper, book or other document in respect of which the order in question was made were not of the nature described in section 4, sub-section (1), the Special Bench shall set aside the order of forfeiture.

(2) Where there is a difference of opinion among the Judges forming the Special Bench, the decision shall be in accordance with the opinion of the majority (if any) of those Judges.

(3) Where there is no such majority which concurs in setting aside the order in question, such order shall stand.

20. On the hearing of any such application Evidence to prove with reference to any nature or tendency of newspaper, any copy of newspapers such newspaper published after the commencement of this Act may be given in evidence in aid of the proof of the nature or tendency of the words, signs or visible representations contained in such newspaper which are alleged to be of the nature described in section 4, sub-section (1).

21. Every High Court shall, as soon as conveniently may be, frame rules to regulate the procedure in the case of such applications, the amount of the costs thereof and the execution of orders passed thereon, and, until such rules are framed, the practice of such Court in proceedings other than suits and appeals shall apply, so far as may be practicable, to such applications.

22. Every declaration of forfeiture purporting to be made under this Act shall, as against all persons, be conclusive evidence that the forfeiture therein referred to has taken place, and no proceeding purporting to be taken under this Act shall be called in question by any Court, except the High Court, on such application as aforesaid, and no civil or criminal proceeding, except as provided by this Act, shall be instituted against any person for anything done or in good faith intended to be done under this Act.

23. (1) Whoever keeps in his possession a press for the printing of books or papers without making a deposit under section 3 or section 5, when required so to do, shall on conviction by a Magistrate be liable to the penalty to which he would be liable if he had failed to make the declaration prescribed by section 4 of the Press and Registration of Books Act, 1867.

(2) Whoever publishes any newspaper without making a deposit under section 8 or section 10, when required so to do, or publishes such newspaper knowing that such security has not been deposited, shall, on conviction by a Magistrate, be liable to the penalty to which he would be liable if he had failed to make the declaration prescribed by section 5

of the Press and Registration of Books Act, 1867.

24. Where any person has deposited any security under this Act and in certain cases ceases to keep the press in respect of which such security was deposited, or, being a publisher, makes a declaration under section 8 of the Press and Registration of Books Act, 1867, he may apply to the Magistrate within whose jurisdiction such press is situate for the return of the said security; and thereupon such security shall, upon proof to the satisfaction of the Magistrate and subject to the provisions hereinbefore contained, be returned to such person.

25. Every notice under this Act shall be sent to a Magistrate, who shall cause it to be served in the manner provided for the service of summonses under the Code of Criminal Procedure, 1898.

26. Nothing herein contained shall be deemed to prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence against this Act.

PUBLIC WORKS DEPARTMENT.

NOTIFICATION.

Calcutta, the 11th February 1910.

No. 9.—The following is published for general information.

No 154-73 E.

Calcutta, the 11th February 1910.

RESOLUTION—By the Government of India, Public Works Department.

By the resolution of this department Nos. 675-694-E., dated the 24th April 1908, the pay of civil engineers, Imperial and Provincial, of the executive and assistant classes was revised, a yearly incremental scale being substituted, with effect from the 8th March 1908, for the graded scale which up to then had been in force; and in paragraph 10 of the resolution it was stated that orders would issue separately in regard to the pay to be drawn in future by Royal Engineer officers in the executive and assistant classes. The Governor General in Council has decided that a yearly incremental scale of pay shall be introduced for Royal Engineers also and, with the approval of His Majesty's Secretary of State for India, is now pleased to rule that all officers of the Corps admitted permanently to the department between the 8th of March 1908 and the date of this resolution, shall draw pay, with effect from date of appointment, in accordance with the following scale, and that officers who entered the department before the 8th of March 1908 shall have the option of electing, within a period of six

months from the date of these orders, to draw pay in accordance with this scale, the election taking effect from the 8th of March 1908 :—

					Maximum pay.
					Rs.
Assistant Engineer, 1st year of service	460
" 2nd	"	.	.	.	500
" 3rd	"	.	.	.	540
" 4th	"	.	.	.	580
" 5th	"	.	.	.	620
" 6th	"	.	.	.	660
" 7th	"	.	.	.	700
" 8th	"	.	.	.	750
Executive Engineer, 9th year of service	800
" 10th	"	.	.	.	850
" 11th	"	.	.	.	900
" 12th	"	.	.	.	950
" 13th	"	.	.	.	1,000
" 14th	"	.	.	.	1,050
" 15th	"	.	.	.	1,100
" 16th	"	.	.	.	1,150
" 17th	"	.	.	.	1,200
" 18th	"	.	.	.	1,250
				and following years	

2. For the purpose of calculating the pay to which an officer is entitled under this scale the first year of service will be reckoned to commence two and a half years from the date of first Commission. But the rate of pay so arrived at will not give an officer any claim to change the position he at present occupies in the seniority list of Executive and Assistant Engineers on which he is borne; nor is an officer, whose position on first appointment was especially fixed, or whose promotion has been retarded in the past, entitled, by reason of length of service, to claim a higher rate of pay under the new scale than that admitted to the Royal Engineer officer immediately above him on the seniority list. If the officer immediately above him is a civil engineer, the Royal Engineer may draw on the proposed new scale the pay for length of service corresponding to the pay drawn by the civil engineer on his own scale.

3. Officers who elect for the new scale, but are actually in receipt of salary and exchange compensation allowance which exceeds their pay under that scale, may continue to draw the difference as a personal allowance until such time as it is absorbed in the increments on the time scale, after which pay will be regulated wholly by that scale. And, as in the case of civil engineers, officers who were promoted to Executive Engineer, 1st grade, on or before the 8th March 1908, may continue to draw exchange compensation allowance in addition to the new scale of pay.

4. The orders in the resolution of the 24th April 1908, in so far as they apply to civil engineers of the Imperial service, will also apply to Royal Engineers, except in regard to the scale of pay to be drawn. Further, the pay above which an officer will not be eligible to rise, unless he holds a divisional charge, or a charge which in the opinion of the Local Government or Administration is of equal importance, will be Rs. 900 a month instead of Rs. 800, the limit fixed for civil engineers of the Imperial service.

5. Orders as to the pay to be allowed to Royal Engineers who enter the department subsequent to the date of this resolution will be issued later.

ORDERED that this resolution be forwarded to the Local Governments, Administrations and officers noted in the margin for information and guidance, and that it be published in the *Gazette of India* for general information.

The Governments of Madras, Bombay, Bengal, the United Provinces of Agra and Oudh, the Punjab, Burma, and Eastern Bengal and Assam, Public Works Department.

The Honourable the Chief Commissioner of the Central Provinces

The Chief Commissioner of Coorg.

The Honourable the Resident at Hyderabad.

The Honourable the Agents to the Governor General for Central India, Rajputana and Baluchistan.

The Honourable the Agent to the Governor General and Chief Commissioner, North-West Frontier Province.

The Accountant General, Public Works Department.

ORDERED also that this resolution be communicated to the Home, Finance, Revenue and Agriculture, Railway and Army Departments of the Government of India.

L. M. JACOB,
Secretary to the Government of India.

TELEGRAPHS.

The 7th February 1910.

No. 1038-10—In exercise of the powers conferred by section 7 of the Indian Telegraph Act, 1885 (XIII of 1885), the Governor General in Council is pleased to direct that the following amendments shall be made in the rules published with the Notification of the Government of India in the Department of Commerce and Industry, No 6975—137 (Telegraphs), dated the 16th September 1909 —

In Rule 42, after the sentence "The words 'Clear line' should be written before the address" the following shall be added:—

"and will be transmitted free".

For Clause (c) of Rule 53, the following shall be substituted, namely:—

"Every isolated character, letter or figure as well as every sign of punctuation, apostrophe or hyphen transmitted at the request of the sender"

In Rule 58, in the examples of counting the abbreviations "I.C.S." and "R.A.", the following shall be substituted:—

"I. C. S."	(For Indian Civil Service) in address or text	3
ICS	In address	3
	In text	1
Ics	In address	3
	In text	1
R. A.	(For Royal Artillery) in address or text	2
RA	In address	2
	In text	1
Ra	In address	2
	In text	1

For Rules 334 to 338 the following shall be substituted, namely:—

Foreign Press telegrams at reduced rates

"334. Telegrams, the text of which contain only information and news relative to politics, commerce, etc., intended for publication in newspapers, are admitted as Press

telegrams to or from the places in respect of which reduced rates have been arranged and published in the *Telegraph Guide*.

(2) Press telegrams will be accepted in India during the working hours of Telegraph Offices as notified in the *Telegraph Guide*.

(3) Telegrams at the reduced rate shall not be allowed to interfere with the transmission of telegrams at full rates, and in order to ensure this, the transmission of such news telegrams may be deferred, suspended or interrupted until any State or Private telegram, or any Press telegram at full rates which may be on hand, shall have been transmitted and completed. On the lines of the Indian Telegraph Department such telegrams shall take precedence with Ordinary Inland telegrams.

(4) Press telegrams will only be accepted from the authorised correspondent of a newspaper, periodical publication or news agency. Each authorised correspondent will be furnished with a card of authority by the Director-General of Telegraphs.

(5) When Press telegrams are signed, the signature must be that of the correspondent whose name appears on the card.

(6) The permission to newspapers, periodical publications and news agencies to receive Press telegrams at reduced rates is subject to the submission of a written declaration by the manager of the newspaper, publication or agency, undertaking to conform to all the conditions fixed by these rules. A list of the newspapers, periodical publications and news agencies in India authorised to receive Press telegrams at reduced rates is published in the *Telegraph Guide*.

(7) Press telegrams must be addressed to newspapers, periodical publications or news agencies, and solely to the name of the newspaper, publication or agency, which appears on the card, and not to the name of a person connected in any capacity whatever with the management of the newspaper, publication or agency.

Proved irregularities may cause the withdrawal of Press Cards.

The use of abbreviated and registered addresses is authorized if mention is made of these addresses on the Card. For the receipt of telegrams at Press rates only, each authorized newspaper, periodical publication or news agency may have an abbreviated address registered free of charge.

(8) Press telegrams must be written in the English language, or in one of the languages of the country of origin or of destination authorized for International Telegraphic correspondence in plain language, or in the language in which the receiving newspaper is printed, provided that this language is admitted for International Telegraphic correspondence.

Press telegrams must not contain any passage, advertisement or communication having the character of private correspondence, nor any advertisement or communication the insertion of which is made in consideration of payment.

Exchange and market quotations, with or without explanatory text, are admitted in Press telegrams at reduced rates. Offices of origin must, in cases of doubt, assure themselves by communicating with the sender, who is bound to give proof whether the groups of figures appearing in the telegrams really represent Exchange quotations.

335 Telegrams presented as Press telegrams which do not fulfil the conditions indicated in Clause 8 of the preceding rule are charged for according to the ordinary tariff.

The normal tariff for private correspondence is also applicable to every Press telegram of which use is made for some other purpose than that of insertion in the columns of the newspaper to which it is addressed, namely:—

(1) To telegrams which are not published by the receiving newspapers (failing a satisfactory explanation) or which the latter has communicated before publication, either to private individuals, or to establishments, such as, Clubs, Cafes, Hotels, Exchanges, etc.

(2) To telegrams which the receiving newspaper shall have sold, distributed or communicated before publishing them itself, to other newspapers for publication in their columns;

(3) To telegrams addressed to agencies which are not published in a newspaper (failing a satisfactory explanation) or which are communicated to third persons before being published by the Press.

In the cases provided for in the three preceding clauses the balance of the charge is collected from the addressee and is retained by the Administration of destination.

336 Press telegrams bear only a single supplementary instruction—that relating to Multiple address telegrams. The charge to be collected for the copies to be made by the office of destination is the same as that for ordinary private telegrams.

337 All Press telegrams at reduced rates shall be prepaid, except under special arrangements made by an authorized newspaper for a specially nominated correspondent.

338. Press telegrams must be marked *Press* by the senders, and the benefit of Press rates must be claimed by them at the time the telegrams are tendered for despatch."

CANTONMENTS.

REGULATIONS.

No. 131.—In exercise of the powers conferred by section 26 of the Cantonments Act, 1889 (XIII of 1889), as applied to the territories administered by the Agent to the Governor-General in Baluchistan as such Agent, the Governor-General in Council is pleased to direct that the following shall be substituted for sections 167 and 168 of the Cantonment Code, 1899, as declared in force in the Cantonments of Quetta and Loralai by Notification of the Government of India in the Foreign Department, No. 2603-I.A., dated the 15th June 1900.

Trades, Callings and Occupations.

167. No person of any of the following classes, namely —

- (a) butchers and sellers of poultry, game or fish ;
- (b) persons keeping pigs for profit, and dealers in the flesh of pigs which have been slaughtered in India ;
- (c) persons keeping milch cattle or milch goats for profit ;
- (d) persons keeping for profit any animals other than pigs, milch cattle or milch goats ;
- (e) dairymen and buttermen and makers or sellers of ghi ;
- (f) makers of bread, biscuits or cake, and sellers of bread, biscuits or cake made in India ;
- (g) sellers of fruit or vegetables ;
- (h) manufacturers of aerated or other potable waters, or ice, and sellers of the same ;
- (j) sellers of any medicines, drugs or articles of food or drink for human consumption (other than the flesh of pigs, milk, butter, bread, biscuits, cake, fruit, vegetables, aerated or other potable waters, or ice) which are of a perishable nature ;
- (k) sellers of water to be used for drinking purposes ;
- (l) washermen ;
- (m) dealers in hay, straw, wood, charcoal or other inflammable material ;
- (n) dealers in fireworks, kerosine oil, petroleum or any other inflammable oil or spirit ;
- (o) tanners and dyers ;
- (p) persons carrying on any trade or occupation from which offensive or unwholesome smells arise ;
- (q) sellers of wheat, rice and other grains, or flour used as human food ,
- (r) makers or sellers of sugar or sweetmeats , and
- (s) hawkers and pedlars ;

shall carry on his trade, calling or occupation in any part of the cantonment unless he has applied for, and obtained a license, renewable annually from the cantonment authority

Provided, firstly, that a license shall not be withheld if the applicant is willing to comply with such conditions as the cantonment authority may think fit to impose under section 168 :

Provided, secondly, that no person who is, at the commencement of this Code, carrying on his trade, calling or occupation in any part of the cantonment shall be bound to apply for a license for carrying on such trade, calling or occupation in that part until he has received from the cantonment authority not less than three months' notice in writing of his obligation to do so, and that, if the cantonment authority refuses to grant him a license, it shall pay him reasonable compensation for any loss incurred by reason of such refusal :

Provided, thirdly, that in cantonments to which the Indian Petroleum Act, 1899 (VIII of 1899), extends, no person shall be required to obtain a license for the sale or storage of petroleum in any case in which a license is required by the said Act to be taken out, save in accordance with the provisions of the said Act, and of the rules framed thereunder.

168. A license granted to any person under section 167 shall specify the part of the cantonment in which the licensee may carry on his trade, calling or occupation and may regulate the hours and manner of transport within the cantonment of any specified articles intended for human consumption and may contain any conditions which the cantonment authority may think fit to impose with respect to the following matters, namely :—

- (a) in the case of butchers, and sellers of poultry, game or fish,—
 - (i) the apparatus and coverings to be used in the operations of their trade ;
 - (ii) the places at which, and the manner in which, meat, poultry, game or fish may be exposed for sale ; and
 - (iii) the disposal of meat, poultry, game or fish when found to be unfit for human consumption
- (b) in the case of persons keeping pigs for profit, and dealers in the flesh of pigs which have been slaughtered in India,—
 - (i) the places at which pigs may be kept ;
 - (ii) the number of pigs which may be kept at any one place ,
 - (iii) the season and the places at which pigs may be slaughtered and the flesh offered for sale ,
 - (iv) the manner in which pigs shall be inspected prior to slaughter , and
 - (v) the manner in which the flesh thereof shall be inspected and marked prior to sale, and disposed of when found to be unfit for human consumption .
- (c) in the case of persons keeping milch cattle or milch goats for profit,—
 - (i) the places at which such animals may be kept ;
 - (ii) the number of such animals which may be kept at any one place ;
 - (iii) the sources from which such animals shall be watered ;
 - (iv) the segregation of any sick or diseased animals ; and
 - (v) the taking of any other measures which the cantonment authority may think necessary for maintaining the premises in a clean and sanitary state
- (d) in the case of persons keeping for profit any animals other than pigs, milch cattle or milch goats,—
 - (i) the places at which such animals may be kept ,
 - (ii) the number of such animals which may be kept at any one place , and
 - (iii) the manner of keeping the animals so as to prevent their becoming a public nuisance or injurious to the public health
- (e) in the case of dairymen and buttermen and sellers of ghi,—
 - (i) the vessels and other apparatus to be used in the operations of their trade ;
 - (ii) the places at which and the manner in which milk or butter may be prepared and kept for sale , and
 - (iii) the taking of any other measures which the cantonment authority may consider necessary for keeping the premises and all vessels and apparatus in a clean and sanitary state
- (f) in the case of makers of bread, biscuits, cake or sweetmeats, and sellers of bread, biscuits or cakes made in India or sweetmeats,—
 - (i) the apparatus and the water, flour and other ingredients which may be used in the operations of their trade ,
 - (ii) the places at which bread, biscuits, cake or sweetmeats may be prepared and kept for sale ;
 - (iii) the inspection to be exercised over the making of such articles ; and
 - (iv) the disposal of any such articles which may be found to be unwholesome ;
- (g) in the case of sellers of fruit or vegetables,—
 - (i) the places and seasons at which fruit or vegetables, or any specified kinds of fruit or vegetables, may be sold , and
 - (ii) the disposal of any fruit or vegetables which may be found to be unwholesome, or of which the sale has been prohibited under clause (g), sub-clause (i)
- (h) in the case of manufacturers of aerated or other potable waters, or ice, and sellers of the same,—
 - (i) the sources from which water used in such manufacture shall be taken ;
 - (ii) the machinery, chemicals and ingredients which may be used in such manufacture ,
 - (iii) the measures to be taken in order to ensure the proper filtering of the water used and the cleanliness of all apparatus and receptacles used ; and

- (iv) the attachment of labels or the adoption of other means for the purpose of identifying the factory at which each article was made ;
- (v) in the case of sellers of any medicines, drugs or articles of food or drink for human consumption (other than the flesh of pigs, milk, butter, bread, biscuits, cake, fruit, vegetables, aerated or other potable waters, or ice) which are of a perishable nature, the disposal of any articles which may be found to be unwholesome :
- (k) in the case of sellers of water to be used for drinking purposes,—
- (i) the sources from which such water shall be taken ; and
- (ii) the taking of measures to ensure the cleanliness of massaks or any other vessels or utensils used for carrying such water :
- (l) in the case of washermen, the places at which clothes may be washed, dried or kept :
- (m) in the case of dealers in hay, straw, wood, charcoal or other inflammable material,—
- (i) the places at which such materials may be kept :
- (ii) the quantity which may be stored at any one place, and the manner of storing ; and
- (iii) the precautions against fire to be taken by the dealer or the person in charge of the business :
- (n) in the case of dealers in fireworks, petroleum (in case in which a license is required under this Code), kerosine oil or any other inflammable oil or spirit,—
- (i) the places at which, and the quantities in which, any such article may be stored or kept for sale , and
- (ii) the taking of any measures which the cantonment authority may consider necessary for the prevention of danger to life or property :
- (o) in the case of tanners and dyers, the taking of measures for regulating the discharge of refuse matter from their premises and for abating any nuisance arising from such premises and
- (p) in the case of persons carrying on any trade or occupation from which offensive or unwholesome smells arise, the taking of any measures which the cantonment authority may consider necessary for the abatement of any nuisance arising from the premises

Explanation—For the purposes of clause (a), sub-clause (iii), meat which has been subjected to the process of blowing, shall be presumed to be unfit for human consumption.

No. 132.—In exercise of the powers conferred by section 6 of the Provident Funds Act, 1897 (IX of 1897), the Governor General in Council is pleased to extend the provisions of the said Act to all provident funds established by cantonment authorities for the benefit of their employees.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, FEBRUARY 12, 1901

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

- Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE

The 25th October 1900.

From the 13th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 6th November all notifications and other matter intended for publication in the *Gazette* should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901.—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 9th February 1910, and is hereby promulgated for general information :—

ACT NO. I OF 1910.

An Act to provide for the better control of the Press.

WHEREAS it is necessary to provide for the better control of the Press, It is hereby enacted as follows :—

1 (1) This Act may be called the Indian Press Short title and extent. Act, 1910.

(2) It extends to the whole of British India inclusive of British Baluchistan, the Santhal Parganas and the Pargana of Spiti.

2. In this Act, unless there is anything repugnant in the subject or context,—
Definitions.

(a) "book" includes every volume, part or division of a volume, and pamphlet, in any language, and every sheet of music, map, chart or plan separately printed or lithographed :

(b) "document" includes also any painting, drawing or photograph or other visible representation :

(c) "High Court" means the highest Civil Court of Appeal for any local area except in the case of the provinces of Ajmer-Merwara, and Coorg where it means the High Court of Judicature for the North-Western Provinces and the High Court of Judicature at Madras respectively

(d) "Magistrate" means a District Magistrate or Chief Presidency Magistrate :

(e) "newspaper" means any periodical work containing public news or comments on public news, and

(f) "printing-press" includes all engines, machinery, types, lithographic stones, implements, utensils and other plant or materials used for the purpose of printing

3. (1) Every person keeping a printing-press who is required to make a declaration under section 4 of the Press and Registration of Books Act, 1867, 18

shall, at the time of making the same, deposit with the Magistrate before whom the declaration is made security to such an amount, not being less than five hundred or more than two thousand rupees, as the Magistrate may in each case think fit to require, in money or the equivalent thereof in securities of the Government of India.

Provided that the Magistrate may, if he thinks fit, for special reasons to be recorded by him, dispense with the deposit of any security or may from time to time cancel or vary any order under this sub-section.

(2) Whenever it appears to the Local Government that any printing-press kept in any place in the territories under its administration, in respect of which a declaration was made prior to the commencement of this Act under section 4 of the Press and Registration of Books Act, 1867, is used for any of the purposes described in section 4, sub-section (1), the Local Government may, by notice in writing, require the keeper of such press to deposit with the Magistrate within whose jurisdiction the press is situated security to such an amount, not being less than five hundred or more than five thousand rupees, as the Local Government may think fit to require, in money or the equivalent thereof in securities of the Government of India.

4 (1) Whenever it appears to the Local Government that any printing-press in respect of which any security has been deposited as required by section 3 is used for the purpose of printing or publishing any newspaper, book or other document containing any words, signs or visible representations which are likely or may have a tendency, directly or indirectly, whether by inference, suggestion, allusion, metaphor, implication or otherwise—

(a) to incite to murder or to any offence under the Explosive Substances Act, 1908, or to any act of violence, or

(b) to seduce any officer, soldier or sailor in the Army or Navy of His Majesty from his allegiance or his duty, or

(c) to bring into hatred or contempt His Majesty or the Government established by law in British India or the administration of justice in British India or any Native Prince or Chief under the suzerainty of His Majesty, or any class or section of His Majesty's subjects in British India, or to excite disaffection towards His Majesty or the said Government or any such Prince or Chief, or

(d) to put any person in fear or to cause annoyance to him and thereby induce him to deliver to any person any property or valuable security, or to do any act which he is not legally bound to do, or to omit to do any act which he is legally entitled to do, or

(e) to encourage or incite any person to interfere with the administration of the law or with the maintenance of law and order, or

(f) to convey any threat of injury to a public servant, or to any person in whom that public servant is believed to be interested with a view to inducing that public servant to do any act or to forbear or delay to do any act connected with the exercise of his public functions,

the Local Government may, by notice in writing to the keeper of such printing press, stating or describing the words, signs or visible representations which in its opinion are of the nature described above, declare the security deposited in respect of such press and all copies of such newspaper, book or other document wherever found to be forfeited to His Majesty

Explanation I—In clause (c) the expression "disaffection" includes disloyalty and all feelings of enmity.

Explanation II.—Comments expressing disapproval of the measures of the Government, or of any such Native Prince or Chief as aforesaid with a view to obtain their alteration by lawful means, or of the administrative or other action of the Government or of any such Native Prince or Chief or of the administration of justice in British India without exciting or attempting to excite hatred, contempt or disaffection do not come within the scope of clause (c).

(2) After the expiry of ten days from the date of the issue of a notice under sub-section (1), the declaration made in respect of such press under section 4 of the Press and Registration of Books Act, 1867, shall be deemed to be annulled

5 Where the security given in respect of any press has been declared forfeited under section 4, every person making a fresh declaration in respect of such press under section 4 of the Press and Registration of Books Act, 1867, shall deposit with the Magistrate before whom such declaration is made security to such amount, not being less than one thousand or more than ten thousand rupees, as the Magistrate may think fit to require, in money or the equivalent thereof in securities of the Government of India

6 If after such further security has been deposited the printing-press is again used for the purpose of printing or publishing any newspaper, book or other document containing any words, signs or visible representations which in the opinion of the Local Government are of the nature described in section 4, sub-section (1), the Local Government may, by notice in writing to the keeper of such printing-press, stating or describing such words, signs or visible representations, declare—

(a) the further security so deposited,

(b) the printing-press used for the purpose of printing or publishing such newspaper, book or other document or

found in or upon the premises where such newspaper, book or other document is, or at the time of printing the matter complained of was, printed, and

(c) all copies of such newspaper, book or other document wherever found, to be forfeited to His Majesty.

7. (1) Where any printing-press is or any copies of any newspaper, book or other document are

declared forfeited to His Majesty under this Act, the Local Government may direct any Magistrate to issue a warrant empowering any police-officer, not below the rank of a Sub-Inspector, to seize and detain any property ordered to be forfeited and to enter upon and search for such property in any premises—

(i) where any such property may be or may be reasonably suspected to be, or

(ii) where any copy of such newspaper, book or other document is kept for sale, distribution, publication or public exhibition or reasonably suspected to be so kept.

(2) Every warrant issued under this section shall, so far as relates to a search, be executed in manner provided for the execution of search-warrants under the Code of Criminal Procedure, 1898.

8. (1) Every publisher of a newspaper who is required to make a declaration under section 5 of the Press and Registration of Books Act, 1867, shall, at the time of making the same, deposit with the Magistrate before whom the declaration is made security to such an amount, not being less than five hundred or more than two thousand rupees, as the Magistrate may in each case think fit to require, in money or the equivalent thereof in securities of the Government of India :

Provided that if the person registered under the said Act as printer of the newspaper is also registered as the keeper of the press where the newspaper is printed, the publisher shall not be required to deposit security so long as such registration is in force :

Provided further that the Magistrate may, if he thinks fit, for special reasons to be recorded by him, dispense with the deposit of any security or may from time to time cancel or vary any order under this sub-section.

(2) Whenever it appears to the Local Government that any newspaper published within its territories, in respect of which a declaration was made by the publisher thereof prior to the commencement of this Act under section 5 of the Press and Registration of Books Act, 1867, contains any words, signs or visible representations of the nature described in section 4, sub-section (1), the Local Government may, by notice in writing, require the publisher to deposit with the Magistrate, within whose jurisdiction the newspaper is published, security

to such an amount, not being less than five hundred or more than five thousand rupees, as the Local Government may think fit to require, in money or the equivalent thereof in securities of the Government of India.

9. (1) If any newspaper in respect of which Power to declare any security has been security forfeited in deposited as required by certain cases section 8 contains any words, signs or visible representations which in the opinion of the Local Government are of the nature described in section 4, sub-section (1), the Local Government may, by notice in writing to the publisher of such newspaper, stating or describing such words, signs or visible representations, declare such security and all copies of such newspaper, wherever found, to be forfeited to His Majesty.

(2) After the expiry of ten days from the date of the issue of a notice under sub-section (1), the declaration made by the publisher of such newspaper under section 5 of the Press and Registration of Books Act, 1867, shall be deemed to be annulled. XX 1857

10. Where the security given in respect of any newspaper is declared forfeited, any person making a fresh declaration under section 5 of the Press and Registration of Books Act, 1867, as publisher of such newspaper, or any other newspaper which is the same in substance as the said newspaper, shall deposit with the Magistrate before whom the declaration is made security to such amount, not being less than one thousand or more than ten thousand rupees, as the Magistrate may think fit to require, in money or the equivalent thereof in securities of the Government of India.

11. If after such further security has been deposited the newspaper again contains any words, signs or visible representations which in the opinion of the Local Government are of the nature described in section 4, sub-section (1), the Local Government may, by notice in writing to the publisher of such newspaper, stating or describing such words, signs or visible representations, declare—

- (a) the further security so deposited, and
- (b) all copies of such newspaper wherever found,

to be forfeited to His Majesty.

12. (1) Where any newspaper, book or other document wherever printed

appears to the Local Government to contain any words, signs or visible representations of the nature described in section 4, sub-section (1), the Local Government may, by notification in the local official Gazette, stating the grounds of its opinion, declare such newspaper, book or other document to be forfeited to His Majesty, and thereupon any police-officer may seize the same wherever found, and any Magistrate may by warrant authorise any

police-officer not below the rank of Sub-Inspector to enter upon and search for the same in any premises where the newspaper, book or other document may be or may be reasonably suspected to be.

(2) Every warrant issued under this section shall, so far as relates to a search, be executed in manner provided for the execution of search-warrants under the Code of Criminal Procedure, 1898.

13. The Chief Customs-officer or other officer authorized by the Local Government in this behalf may detain any package brought, whether by land or sea, into British India which he suspects to contain any newspapers, books or other documents of the nature described in section 4, sub-section (1), and shall forthwith forward copies of any newspapers, books or other documents found therein to such officer as the Local Government may appoint in this behalf to be disposed of in such manner as the Local Government may direct.

14. No newspaper printed and published in British India shall be transmitted by post unless the printer and publisher have made a declaration under section 5 of the Press and Registration of Books Act, 1867, and the publisher has deposited security when so required under this Act.

15. Any officer in charge of a post-office or authorised by the Post-Master General in this behalf may detain any article other than a letter or parcel in course of transmission by post, which he suspects to contain—

(a) any newspaper, book or other document containing words, signs or visible representations of the nature described in section 4, sub-section (1), or

(b) any newspaper in respect of which the declaration required by section 5 of the Press and Registration of Books Act, 1867, has not been made, or the security required by this Act has not been deposited by the publisher thereof,

and shall deliver all such articles to such officer as the Local Government may appoint in this behalf to be disposed of in such manner as the Local Government may direct.

16. (1) The printer of every newspaper in British India shall deliver at such place and to such officer as the Local Government may, by notification in the local official Gazette, direct, and free of expense to the Government, two copies of each issue of such newspaper as soon as it is published.

(2) If any printer of any such newspaper neglects to deliver copies of the same in compliance with sub-section (1), he shall, on the complaint of the officer to whom the copies should have been delivered or of any person authorised by that officer in this behalf, be punishable on conviction by a Magistrate having jurisdiction in the place where the newspaper was printed with fine which may extend to fifty rupees for every default.

17. Any person having an interest in any property in respect of which an order of forfeiture has been made under section 4, 6, 11 or 12 may, within 11 months from the date of such order, apply to the High Court to set aside such order on the ground that the newspaper, book or other document in respect of which the order was made did not contain any words, signs or visible representations of the nature described in section 4, sub-section (1).

18. Every such application shall be heard and determined by a Special Bench of the High Court composed of three Judges, or, where the High Court consists of less than three Judges, of all the Judges.

19. (1) If it appears to the Special Bench that the words, signs or visible representations contained in the newspaper, book or other document in respect of which the order in question was made were not of the nature described in section 4, sub-section (1), the Special Bench shall set aside the order of forfeiture.

(2) Where there is a difference of opinion among the Judges forming the Special Bench, the decision shall be in accordance with the opinion of the majority (if any) of those Judges.

(3) Where there is no such majority which concurs in setting aside the order in question, such order shall stand.

20. On the hearing of any such application with reference to any newspaper, any copy of such newspaper published after the commencement of this Act may be given in evidence in aid of the proof of the nature or tendency of the words, signs or visible representations contained in such newspaper which are alleged to be of the nature described in section 4, sub-section (1).

21. Every High Court shall, as soon as conveniently may be, frame rules to regulate the procedure in the case of such applications, the amount of the costs thereof and the execution of orders passed thereon, and, until such rules are framed, the practice of such Court in proceedings other than suits and appeals shall apply, so far as may be practicable, to such applications.

22. Every declaration of forfeiture purporting to be made under this Act shall, as against all persons, be conclusive evidence that the forfeiture therein referred to has taken place, and no proceeding purporting to be taken under this Act shall be called in question by any Court, except the High Court, on such application as aforesaid, and no civil or criminal proceeding, not as provided by this Act, shall be instituted against any person for anything done or in good faith intended to be done under this Act.

23. (1) Whoever keeps in his possession a press for the printing of books or papers without making a deposit under section 3 or section 5, when required so to do, shall on conviction by a Magistrate be liable to the penalty to which he would be liable if he had failed to make the declaration prescribed by section 4 of the Press and Registration of Books Act, 1867.

(2) Whoever publishes any newspaper without making a deposit under section 8 or section 10, when required so to do, or publishes such newspaper knowing that such security has not been deposited, shall, on conviction by a Magistrate, be liable to the penalty to which he would be liable if he had failed to make the declaration prescribed by section 5

of the Press and Registration of Books Act, 1867.

24. Where any person has deposited any security under this Act and in certain cases ceases to keep the press in respect of which such security was deposited, or, being a publisher, makes a declaration under section 8 of the Press and Registration of Books Act, 1867, he may apply to the Magistrate within whose jurisdiction such press is situate for the return of the said security; and thereupon such security shall, upon proof to the satisfaction of the Magistrate and subject to the provisions hereinbefore contained, be returned to such person.

25. Every notice under this Act shall be sent to a Magistrate, who shall cause it to be served in the manner provided for the service of summonses under the Code of Criminal Procedure, 1898.

26. Nothing herein contained shall be deemed to prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence against this Act.

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 28.

GOVERNMENT OF INDIA. LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to provide for the better control of the Press, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 8th February, 1910 —

We, the undersigned, Members of the Select Committee to which the Bill to provide for the better control of the Press was referred, have considered the Bill, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

2. *Clause 2.*—We have considered it necessary to insert a special definition of "High Court" as the definition in section 3 (24) of the General Clauses Act, 1897, is not suitable for the provinces of Coorg and Ajmer-Merwara where the Chief Commissioner who is the Local Government is also the High Court. We have therefore provided that in the case of these two provinces the "High Court" shall mean the High Court at Madras and the High Court for the North-Western Provinces, respectively

3. *Clauses 3 (1) and 8 (1).*—In the case of a keeper of a press or a publisher starting business after the commencement of this Act we have reduced the maximum amount of the security from Rs. 5,000 to Rs. 2,000 as we think that the larger amount might prove excessive in the case of well-intentioned printers and publishers of small means.

4. *Clause 4 (1).*—In sub-clause (c) we have substituted the words "the administration of justice in British India" for the words "any lawful authority" and we have struck out from this sub-clause the words "or antipathy between members of different races, castes, classes, religions or sects" and inserted in it words to make it include the bringing into hatred or contempt of any class or section of His Majesty's subjects in British India, as we are disposed to think that the clause as thus altered will be sufficient to carry out the purpose in view.

5. *Clauses 3, 5, 8 and 10.*—We have expressly provided that the deposit required under the Act may be made either in money or the equivalent thereof in securities of the Government of India.

6. *Clause 14* —We have slightly modified this clause so as to make it clear that it applies only to newspapers printed and published in British India.

7. *Clause 15* —This clause as introduced proposed to empower postal officers to open any article in course of transit by post. We do not consider it necessary that postal officers should have this power. Nor do we think that they should have power to detain letters or parcels. We have therefore modified this clause by providing that such officers should have power only to detain articles other than letters or parcels and deliver them to such officer as the Local Government may appoint in this behalf to be disposed of in such manner as the Local Government may direct.

8. *Clauses 18 and 19.*—We have considered it necessary to provide for cases where the Special Bench may consist of two Judges who may be divided in opinion, we have provided that in such cases the order of forfeiture made by the Local Government shall stand.

9. The other alterations which we have made in the Bill are of a formal nature and call for no special remarks.

10. The Bill was published in the Gazette of India in English on the 5th February, 1910.

11. We think that the measure has not been so altered as to require re-publication and we recommend that it be passed as now amended.

* Signed subject to minute of dissent appended.

We sign the Report subject to the following minute of dissent.

We think that the existing law is sufficient to punish actual sedition as also to deal effectively with incitements to violence. But in view of the exceptional situation in several parts of the country, we are constrained to admit the necessity of strengthening the hands of the Executive in preventing the spread of seditious teachings. And we assent, though not without great reluctance, to the principle of providing a certain amount of executive control at initial stages over printing-presses and newspapers to prevent serious abuses of the liberty of the Press. We cannot shut our eyes to the risks which must accompany such a provision. But it is a choice between two evils, and we accept what we consider to be the lesser evil of the two. We, however, think that such exceptional legislation should not form part of the permanent Statute-book of the country, and we strongly urge that the measure should remain in force for a limited period only, say, three years. Moreover, even conceding the principle mentioned above for preventive purposes, we consider that some of the provisions of the proposed Bill are far too drastic and go beyond the requirement of the situation. In particular we urge that two provisions should be modified. The Bill lays down that the keeper of every new printing-press and the publisher of every new newspaper shall, at the time of making a declaration under the Press and Registration of Books Act of 1867, ordinarily deposit a security, the Magistrate being empowered to dispense in exceptional cases with the deposit of such security. We think that this should be reversed—that ordinarily no security should be required, but the Magistrate should be empowered to demand the deposit of a security in cases in which in his opinion there are reasonable grounds to believe that the press or the newspaper is intended or is likely to be used for any of the purposes described in section 4, sub-section (1). This will prevent an unnecessary financial burden (which in the case of small concerns might prove a serious burden) being imposed on well-intentioned printers and publishers and will at the same time meet the case of old offenders reappearing under new names or new garbs. We also think that where a Local Government has issued a notice of forfeiture of security, the annulment of the declaration should not take place till after the application to the High Court, if made, has been decided.

G K. GOKHALE

R. N. MUDHOLKAR.

Note.

I REGRET I cannot join with the majority of my colleagues in the recommendation that the Bill as amended should be passed. In my humble opinion the important nature of the legislation proposed demands that both the members of this Council and the public should have more time to consider the Bill and to express their opinions regarding it. The object of the Bill is to prevent printing presses and newspapers being used to promote seditious or other criminal purposes. Section 108 of the Code of Criminal Procedure (Act V of 1898) empowers a Chief Presidency or a District Magistrate with the previous sanction of the Governor General in Council or the Local Government to require any editor, printer, proprietor or publisher of any publication registered under or printed or published in conformity with the rules laid down in the Press and Registration of Books Acts, 1867, who disseminates or attempts to disseminate, or in any way abets the dissemination of any seditious matter, that is to say any matter, the publication of which is punishable under section 124A of the Indian Penal Code or any matter, the publication of which is punishable under section 153A of the Indian Penal Code, or any matter concerning a Judge which amounts to criminal intimidation or defamation under the Indian Penal Code, to show cause why he should not be ordered to execute a bond with or without sureties for his good behaviour. Act VII of 1908 has made stronger provision for the prevention of incitements to murder and to other offences in newspapers, which include an attachment and forfeiture of the press at which the offending matter may be published. If notwithstanding these enactments, deplorable circumstances have come to exist in some parts of the country and it has become necessary that the existing provisions of the law relating to printing presses and newspapers should be strengthened to enable the Government to more effectively prevent them from being used to promote sedition or other crime, it is our duty to support, and I am fully prepared to support the provisions of the Bill which relate to the demand of security, provided it is asked for from printers or publishers, who have offended against the law relating to the State, and in view of the present state of the country even from persons in whose case the Magistrate may have reasonable grounds for believing that they are likely to use the press or the newspaper which they wish to start for the wicked purpose of fostering sedition or other crime. This object could to my mind be gained by amending the Criminal Procedure Code. But so far as the Bill seeks to do this, I am prepared to support it. But I regret I do not see any justification for the important departure which the Bill seeks to make in laying down that the order demanding security, or forfeiting it, or forfeiting the printing press, etc., of an offending printer or publisher, shall be made, not as heretofore, both under section 108 of the Criminal Procedure Code, and under the Newspapers (Incitements to Offences) Act by the Magistrate after giving an opportunity to the person against whom the order is to be made, but by the Local Government, upon a mere perusal of the matter which he may have published. I think that when a Local Government is of opinion that a security should be demanded from the keeper of a press or the publisher of a newspaper, it should direct the Magistrate within whose jurisdiction the press is situated or the paper is published, to call on such keeper or publisher to show cause why he should not be ordered to deposit such security within the limits prescribed by the Bill, as the Magistrate may think fit to fix and it should be left to the said Magistrate upon good cause not being shown to order the security to be deposited. The power to declare a security forfeited should similarly be left to the Magistrate.

The order of the Magistrate will in either case be a judicial order, and an appeal should be permitted to the High Court as provided under Act VII of 1908. But even if section 17 of the Bill is allowed to stand as it is providing for an application to the High Court to revise an order passed for forfeiture of security,—a similar provision for revision should be made in regard to an order for deposit of security also,—it will preserve what exists at present of an entirely reasonable separation between Judicial and Executive functions, and will give a greater assurance to the general public of a fair consideration of the merits of the order, when it is the order of a Magistrate which is brought before a High Court for revision, than when it is an order passed by a Local Government. The principle involved in the departure which the Bill makes from the laws enacted by the Government of India for over half a century, is of great importance. It raises a political question, to quote the weighty words of Mr. Gladstone, uttered in the House of Commons in connection with the Vernacular Press Act of 1878, “of the utmost delicacy, namely, whether it is wise for the Government to take into its own hands, and out of the hands of the established legal jurisdiction, the power of determining what writing is seditious, and what is not.” If the amendment I have suggested is accepted, this departure will be avoided, and the powers which the Bill gives to the Government for exercising a more effective control over the Press will not in the least be diminished.

I think that the provisions of the Bill are in some other respects also wider and more drastic than they need be, but they are covered by the amendments I propose to put forward, and I need not therefore note them in detail here.

I fear that if the Bill is passed as it stands at present it is likely to affect injuriously the perfectly legitimate liberty of expression of the unexceptionable section of the Press also, and if this should appear, it will be a misfortune both for the people and the Government. The Bill is an exceptional measure, and its operation should, at any rate, not be extended to all parts of the country at once but should be confined to those parts where a necessity for it may be found to exist. Its duration also should be confined to a period of three years.

MADAN MOHAN MALAVIYA.

The 7th February 1910.

[The portions printed in italics denote the alterations proposed by the Select Committee.]

No. 11.

A Bill to provide for the better control of the Press

WHEREAS it is necessary to provide for the better control of the Press, it is hereby enacted as follows —

1. (1) This Act may be called the Indian Short title and ex Press Act, 1910 tent.

(2) *It extends to the whole of British India inclusive of British Baluchistan, the Santhal Parganas and the Pargana of Spiti.*

2 In this Act, unless there is anything repugnant in the subject or Definitions context,—

(a) "book" includes every volume, part or division of a volume, and pamphlet, in any language, and every sheet of music, map, chart or plan separately printed or lithographed

(b) "document" includes also any painting, drawing or photograph or other visible representation.

(c) "*High Court*" means the highest Civil Court of Appeal for any local area except in the case of the provinces of Ajmer-Merwara and Coorg where it means the High Court of Judicature for the North-Western Provinces and the High Court of Judicature of Madras respectively.

(d) "Magistrate" means a District Magistrate or Chief Presidency Magistrate

(e) "newspaper" means any periodical work containing public news or comments on public news and

(f) printing "press" includes all engines, machinery, types, lithographic stones, implements, utensils and other plant or materials used for the purpose of printing

3 (1) Every person keeping a printing-press who is required to make a declaration under section 4 of the Press and Registration of Books Act, 1867, shall, at the time of making the same, deposit with the Magistrate before whom the declaration is made security to such an amount, not being less than five hundred or more than two thousand rupees, as the Magistrate may in each case think fit to require, *in money or the equivalent thereof in securities of the Government of India*

Provided that the Magistrate may, if he thinks fit, for special reasons to be recorded by him, dispense with the deposit of any security or may from time to time cancel or vary any order under this sub-section.

(2) Whenever it appears to the Local Government that any printing-press kept in any place in the territories under its administration, in respect of which a declaration was made prior to the commencement of this Act under section 4 of the Press and Registration Books Act, 1867, is used for any of the purposes described in section 4, sub-section (1), the Local Government may, by notice in writing, require the keeper of such press to deposit with the Magistrate within whose jurisdiction the press is situated security to such an amount, not being less than five hundred or more than five thousand rupees, as the Local Government may think fit to require, *in money or the equivalent thereof in securities of the Government of India.*

4 (1) Whenever it appears to the Local Government that any printing-press in respect of which any security has been deposited as required by section 3 is used for the purpose of printing or publishing any newspaper, book or other document containing any words, signs or visible representations which are likely or may have a tendency, directly or indirectly, whether by inference, suggestion, allusion, metaphor, implication or otherwise—

(a) to incite to murder or to any offence under the Explosive Substances Act, 1908, or to any act of violence, or

(b) to seduce any officer, soldier or sailor in the Army or Navy of His Majesty from his allegiance or his duty, or

(c) to bring into hatred or contempt His Majesty or the Government established by law in British India or the administration of justice in British India or any Native Prince or Chief under the suzerainty of His Majesty, or any class or section of His Majesty's subjects in British India, or to excite disaffection towards His Majesty or the said Government or any such Prince or Chief, or

(d) to put any person in fear or to cause annoyance to him and thereby induce him to deliver to any person any property or valuable security, or to do any act which he is not legally bound to do, or to omit to do any act which he is legally entitled to do, or

(e) to encourage or incite any person to interfere with the administration of the law or with the maintenance of law and order, or

- (f) to convey any threat of injury to a public servant, or to any person in whom that public servant is believed to be interested with a view to inducing that public servant to do any act or to forbear or delay to do any act connected with the exercise of his public functions,

the Local Government may, by notice in writing to the keeper of such printing press, stating or describing the words, signs or visible representations which in its opinion are of the nature described above, declare the security deposited in respect of such press and all copies of such newspaper, book or other documents wherever found to be forfeited to His Majesty.

Explanation I.—In clause (c) the expression "disaffection" includes disloyalty and all feelings of enmity.

Explanation II.—Comments expressing disapproval of the measures of the Government or of any such Native Prince or Chief as aforesaid with a view to obtain their alteration by lawful means, or of the administrative or other action of the Government or of any such Native Prince or Chief or of the administration of justice in British India without exciting or attempting to excite hatred, contempt or disaffection do not come within the scope of clause (c).

(2) Where a notice has been issued under sub-section (1), the declaration made in respect of such press under section 4 of the Press and Registration of Books Act, 1867, shall be deemed to be annulled

5. Where the security given in respect of any press has been declared forfeited under section 4, every person making a fresh declaration in respect of such press under section 4 of the Press and Registration of Books Act, 1867, shall deposit with the Magistrate before whom such declaration is made security to such amount, not being less than one thousand or more than ten thousand rupees, as the Magistrate may think fit to require, in money or the equivalent thereof in securities of the Government of India.

6. If after such further security has been deposited the printing-press is again used for the purpose of printing or publishing any newspaper, book or other document containing any words, signs or visible representations which in the opinion of the Local Government are of the nature described in section 4, sub-section (1), the Local Government may, by notice in writing to the keeper of such printing-press, stating or describing such words, signs or visible representations, declare —

- (a) the further security so deposited,

- (b) the printing-press used for the purpose of printing or publishing such newspaper, book or other document or found in or upon the premises where such newspaper, book or other document is, or at the time of printing the matter complained of was, printed, and

(c) all copies of such newspaper, book or other document wherever found, to be forfeited to His Majesty.

7. (1) Where any printing-press is or any copies of any newspaper, book or other document are declared forfeited to His Majesty under this Act, the Local Government may direct any Magistrate to issue a warrant empowering any police officer, not below the rank of a Sub-Inspector, to seize and detain any property ordered to be forfeited and to enter upon and search for such property in any premises —

- (i) where any such property may be or may be reasonably suspected to be, or
(ii) where any copy of such newspaper, book or other document is kept for sale, distribution, publication or public exhibition or reasonably suspected to be so kept.

(2) Every warrant issued under the section shall, so far as relates to a search, be executed in manner provided for the execution of search warrants under the Code of Criminal Procedure, 1898.

8. (1) Every publisher of a newspaper who is required to make a declaration under section 5 of the Press and Registration of Books Act, 1867, shall, at the time of making the same, deposit with the Magistrate before whom the declaration is made security to such an amount, not being less than five hundred or more than two thousand rupees, as the Magistrate may in each case think fit to require, in money or the equivalent thereof in securities of the Government of India.

Provided that the Magistrate may, if he thinks fit, for special reasons to be recorded by him, dispense with the deposit of any security or may from time to time cancel or vary any order under this sub-section.

(2) Whenever it appears to the Local Government that any newspaper published within its territories, in respect of which a declaration was made by the publisher thereof prior to the commencement of this Act under section 5 of the Press and Registration of Books Act, 1867, contains any words, signs or visible representations of the nature described in section 4, sub-section (1), the Local Government may, by notice in writing, require the publisher to deposit with the Magistrate, within whose jurisdiction the newspaper is published, security to such an amount, not being less than five hundred or more than five thousand rupees, as the

Magistrate may think fit to require, *in money or the equivalent thereof in securities of the Government of India.*

9. (1) If any newspaper in respect of which Power to declare any security has been security forfeited in deposited as required by certain cases. section 8 contains any words, signs or visible representations which in the opinion of the Local Government are of the nature described in section 4, sub-section (1), the Local Government may, by notice in writing to the publisher of such newspaper, stating or describing such words, signs or visible representations, declare such security and all copies of such newspaper, wherever found, to be forfeited to His Majesty.

(2) Where a notice has been issued under sub-section (1), the declaration made by the publisher of such newspaper under section 5 of the Press and Registration of Books Act, 1867, shall be deemed to be annulled.

10. Where the security given in respect of any newspaper is declared Deposit of further security. forfeited, any person making a fresh declaration under section 5 of the Press and Registration of Books Act, 1867, as publisher of such newspaper, or any other newspaper which is the same in substance as the said newspaper, shall deposit with the Magistrate before whom the declaration is made security to such amount, not being less than one thousand or more than ten thousand rupees, as the Magistrate may think fit to require, *in money or the equivalent thereof in securities of the Government of India.*

11. If after such further security has been deposited the newspaper further security and again contains any words, newspapers forfeited signs or visible representations which in the opinion of the Local Government are of the nature described in section 4, sub-section (1), the Local Government may, by notice in writing to the publisher of such newspaper, stating or describing such words, signs or visible representations, declare—

(a) the further security so deposited, and

(b) all copies of such newspaper wherever found,

to be forfeited to His Majesty.

12. (1) Where any newspaper, book or other document wherever printed appears to the Local Government to contain any words, signs or visible representations of the nature described in section 4, sub-section (1), the Local Government may, by notification in the local official Gazette, stating the grounds of its opinion, declare such newspaper, book or other document to be forfeited to His Majesty, and thereupon any police-officer may seize the same wherever found, and any Magistrate may by warrant authorise any

Power to declare certain publications forfeited and to issue search-warrants for same.

police-officer not below the rank of Sub-Inspector to enter upon and search for the same in any premises where the newspaper, book or other document may be or may be reasonably suspected to be.

(2) Every warrant issued under this section shall, so far as relates to a search, be executed in manner provided for the execution of search-warrants under the Code of Criminal Procedure, V 1898.

13. The Chief Customs-official or other officer authorized by the Local Government in this behalf may detain any package brought, whether by land or sea, into British India which he suspects to contain any newspapers, books or other documents of the nature described in section 4, sub-section (1), and shall forthwith forward copies of any newspapers, books or other documents found therein to such officer as the Local Government may appoint in this behalf *to be disposed of in such manner as the Local Government may direct.*

14. No newspaper printed and published in British India shall be Prohibition of transmission by post of certain newspapers unless the printer and publisher have made a declaration under section 5 of the Press and Registration of Books Act, 1867, and the publisher has deposited security when so required under this Act.

15. Any officer in charge of a post-office or authorised by the Post-Master General in this behalf may detain any article other than a letter or parcel in course of transmission by post, which he suspects to contain—

(a) any newspaper, book or other document containing words, signs or visible representations of the nature described in section 4, sub-section (1), or

(b) any newspaper in respect of which the declaration required by section 5 of the Press and Registration of Books Act, 1867, has not been made, or the security required by this Act has not been deposited by the publisher thereof,

and shall deliver *all such articles* to such officer as the Local Government may appoint in this behalf *to be disposed of in such manner as the Local Government may direct.*

16. (1) The printer of every newspaper in British India shall deliver at such place and to such officer as the Local Government may, by notification in the local official Gazette, direct, and free of expense to the Government, two copies of each issue of such newspaper as soon as it is published.

Copies of newspapers printed in British India to be delivered gratis to Government.

(2) If any printer of any such newspaper neglects to deliver copies of the same in compliance with sub-section (1), he shall, on the complaint of the officer to whom the copies should have been delivered or of any person authorised by that officer in this behalf, be punishable on conviction by a Magistrate having jurisdiction in the place where the newspaper was printed with fine which may extend to fifty rupees for every default.

17. Any person having an interest in any property in respect of which an order of forfeiture has been made under sections 4, 6, 9, 11 or 12 may, within two months from the date of such order, apply to the Court to set aside such order on the ground that the newspaper, book or other document in respect of which the order was made did not contain any words, signs or visible representations of the nature described in section 4, sub-section (1).

18. Every such application shall be heard and determined by a Special Bench of the High Court composed of three Judges, or, where the High Court consists of less than three Judges, of all the Judges.

19. (1) If it appears to the Special Bench that the words, signs or visible representations contained in the newspaper, book or other document in respect of which the order in question was made were not of the nature described in section 4, sub-section (1), the Special Bench shall set aside the order of forfeiture.

(2) Where there is a difference of opinion among the Judges forming the Special Bench, the decision shall be in accordance with the opinion of the majority (if any) of those Judges.

(3) Where there is no such majority which concurs in setting aside the order in question, such order shall stand.

20. On the hearing of any such application with reference to any newspaper, any copy of such newspaper published after the commencement of this Act may be given in evidence in aid of the proof of the nature or tendency of the words, signs or visible representations contained in such newspaper which are alleged to be of the nature described in section 4, sub-section (1).

21. Every High Court shall, as soon as conveniently may be, frame rules to regulate the procedure in the case of such applications, the amount of the costs thereof and the execution of orders passed thereon, and, until such rules are framed, the practice of such Court in proceedings other than suits and appeals shall apply, so far as may be practicable, to such applications.

22. Every declaration of forfeiture purporting to be made under this Act shall, as against all persons, be conclusive evidence that the forfeiture therein referred to has taken place, and no proceeding purporting to be taken under this Act shall be called in question by any Court, except the High Court on such application as aforesaid and no civil or criminal proceeding, except as provided by this Act, shall be instituted against any person for anything done or in good faith intended to be done under this Act.

23. (1) Whoever keeps in his possession, a press for the printing of books or papers without making a deposit under section 3 or section 5, when required so to do, shall on conviction by a Magistrate be liable to the penalty to which he would be liable if he had failed to make the declaration prescribed by section 4 of the Press and Registration of Books Act, 1867.

(2) Whoever publishes any newspaper without making a deposit under section 8 or section 10, when required so to do, or publishes such newspaper knowing that such security has not been deposited, shall, on conviction by a Magistrate, be liable to the penalty to which he would be liable if he had failed to make the declaration prescribed by section 5 of the Press and Registration of Books Act, 1867.

24. Where any person has deposited any security under this Act and ceases to keep the press in respect of which such security was deposited, or, being a publisher, makes a declaration under section 8 of the Press and Registration of Books Act, 1867, he may apply to the Magistrate within whose jurisdiction such press is situate for the return of the said security; and thereupon such security shall, upon proof to the satisfaction of the Magistrate and subject to the provisions hereinbefore contained, be returned to such person.

25. Every notice under this Act shall be sent to a Magistrate, who shall cause it to be served in the manner provided for the service of summonses under the Code of Criminal Procedure, 1898.

26. Nothing herein contained shall be deemed to prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence against this Act.

J. M. MACPHERSON,
Secretary to the Government of India.

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA,
ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS;
UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS,
1861 TO 1909 (24 & 25 VICT., C. 67, 55 & 56 VICT., C. 14,
AND 9 EDW. VII, C. 4).

The Council met at Government House on Friday, the 4th February 1910.

PRESENT:

His Excellency THE EARL OF MINTO, P.C., G.C.M.G., G.M.S.I., G.M.I.E., Viceroy
and Governor General of India, *presiding*,
and 55 Members, of whom 50 were Additional Members.

OATH OF OFFICE.

The following Additional Member, before taking his seat, made the prescribed oath of his allegiance to the Crown:—

The Hon'ble Lieutenant-General Sir Douglas Haig, K.C.V.O., C.B.

QUESTIONS AND ANSWERS.

The Hon'ble MR. DADABHOY asked:—

“Is it a fact that the coaching tariffs of the Great Indian Peninsula Railway and the Bombay, Baroda and Central India Railway have of late been

increased about 50 per cent.? Will Government be pleased to state the reasons for this general and phenomenal increase in fares after years of stationary rates? Is it true that the number of higher class passengers have already fallen off in consequence? Has the total volume of passenger traffic been affected?"

The Hon'ble SIR T WYNNE replied :—

"The Great Indian Peninsula and Bombay, Baroda and Central India Railway Administrations have, with effect from 1st January 1910, raised their 1st and 2nd class passenger fares as under :

First class	{ For first 300 miles to 18 pies per mile. For additional distances to 12 pies per mile.
Second class	{ For first 300 miles to 9 pies per mile. For additional distances to 6 pies per mile.

"These increased fares are within the maximum fares which the Companies are authorised to charge under their contracts with the Secretary of State, and are not in excess of the fares that are at present, and have been in force, on the East Indian Railway and some other Railways for many years.

"There is no information at present as to the effect which the imposition of higher fares is exercising on passenger traffic."

The Hon'ble MR. DADABHOY asked :—

"In reply to my question last year on the subject of the proposed separation of judicial and executive functions in India on the lines laid down by the Hon'ble Home Member in March 1908, and the introduction of the reform tentatively into the two Bengals, Government were pleased to promise to make a reference to the Secretary of State after the replies of the Lieutenant-Governors of Bengal and Eastern Bengal and Assam and the High Court of Calcutta to the Government of India's 'proposals for introducing into selected districts of Bengal and Eastern Bengal and Assam, by way of experiment, a scheme for the separation of judicial and executive duties' had been received and the scheme had been further examined. Will Government be pleased to state if the replies have now been received, if the scheme has been further examined, and if any reference has been made to the Secretary of State? Will the replies be published?"

The Hon'ble SIR HERBERT RISLEY replied —

"The replies have been received and are now being considered. A reference has not yet been made to the Secretary of State. Government are unable to say at present whether the letters of the Government of Bengal and Eastern Bengal and Assam will be published or not."

The Hon'ble MR. DADABHOY asked :—

"Have the reports of Local Governments on Free Primary Education, which were under consideration last year, been finally considered by this Government? If so, when can a definite pronouncement on the subject by Government be expected?"

The Hon'ble SIR HERBERT RISLEY replied :—

"The replies of the Local Governments have been considered by the Government of India, but no further action can be taken at present owing to want of funds. The remission of fees is primarily a measure of relief analogous to the reduction of taxation. It has not itself the effect of increasing the number of schools, and for this and other reasons it has met with a good deal of criticism. The measure, however, is well worthy of further consideration when the state of the finances is more favourable. The decision must of course depend upon the circumstances existing at that time and it would be premature to make any definite statement of policy now."

INDIAN COMPANIES (AMENDMENT) BILL.

The Hon'ble Mr. MAXWELL said —“ My Lord, on behalf of the Hon'ble Mr. Harvey, I beg to move that the Bill to amend the Indian Companies Act be referred to a Select Committee. It was hoped that this measure might be enacted at the meeting of Council held on the 22nd October in Simla. Certain criticisms on points of substance have, however, been received, of which the most important came from the Bengal Chamber of Commerce. As the Hon'ble Mr. Harvey explained when he moved the introduction of the Bill, this measure fully follows the precedent of the English Act: and it was not anticipated that any criticisms would be raised in respect of it. As some have, however, been received, we have thought it advisable to refer the Bill to a Select Committee with a view to adequate consideration being given to them.

“ I therefore move that the Bill be referred to a Select Committee consisting of the Hon'ble Mr. W. L. Harvey, the Hon'ble Mr. S. P. Sinha, the Hon'ble Mr. Quin, the Hon'ble Mr. Slacke, the Hon'ble Babu Bhupendra Nath Basu, the Hon'ble Mr. Dadabhoy, the Hon'ble Mr. Graham, the Hon'ble Sir Sassoon David, and myself.”

The motion was put and agreed to.

INDIAN PAPER CURRENCY BILL.

The Hon'ble SIR GUY FLEETWOOD WILSON presented the Report of the Select Committee on the Bill to consolidate and amend the law relating to the Government Paper Currency, and gave notice that he would move that the Bill be considered at the next meeting of the Council.

PRESS BILL.

The Hon'ble SIR HERBERT RISLEY said —“ My Lord, I have the honour to move for leave to introduce a Bill to provide for the better control of the Indian Press, or in other words to confine the Press—the whole of the Press, European or Indian, English or vernacular—within the limits of legitimate discussion. The subject is a large one and I have considered carefully how it should be presented to this Council, so that the essential issues may be clearly brought out and may not be obscured by history that has ceased to be relevant and principles which no longer apply. In the first place let me state as simply as possible what the Bill proposes to do

“ It will be convenient if I first describe the kind of matter which may not be published. This is set out in clause 4 of the Bill under six separate heads.

“ The first of these relates to incitements to murder or to any offence under the Explosive Substances Act or to any actual violence. Incitements of this nature are already covered by the Newspapers (Incitements to Offences) Act, 1908, but we think it advisable to include them in this Bill in order that we may, if necessary, take action of a less severe kind than that prescribed by the Act of 1908.

“ The next kind of writing which is forbidden is that which is likely to seduce any officer, soldier or sailor from his allegiance or his duty. That calls for no comment. It is obvious that such writings must be dangerous to the public welfare.

“ Then under head (c) we come to writings which are likely to bring into hatred or contempt His Majesty, or the Government, or any lawful authority, or any Native Prince or Chief under the suzerainty of His Majesty, or which are likely to excite disaffection against His Majesty, or the Government, or such Princes or Chiefs, or to excite antipathy between members of different races, castes, classes, religions or sects. The greater part of this head is covered by the terms of sections 124A and 153A of the Indian Penal Code, but we have made two additions of some importance. In the first place, we have included what I may describe as the preaching of sedition against the Princes or Chiefs of our Native States. We have had not a few instances of newspapers published in British India containing seditious matter of that kind. The Government of India cannot tolerate this, they cannot allow their terri-

tories to be used as a safe asylum from which attacks can be launched upon Indian Princes. The other direction in which this heading goes beyond the terms of the two sections I have quoted is that it includes the bringing of any lawful authority into hatred or contempt. There have been many venomous attacks upon Magistrates and Judges, even upon Judges of the High Courts, and this must be prevented.

"The fourth heading relates to intimidation and blackmailing. It will cover the case of the blackmailing of Indian Princes against which the corresponding clause of Lord Lytton's Act of 1878 was directed.

"The fifth heading prohibits matter which is likely to encourage or incite any person to interfere with the administration of the law or with the maintenance of law and order. Under the Indian Criminal Law Amendment Act of 1908, the Government have power to declare that an association which has these objects is an unlawful association, and a newspaper should not be allowed to do what an association may not do.

"The last sub-clause deals with the intimidation of public servants and is taken *verbatim* from the Act of 1878. The protection which this sub-clause will give is certainly more necessary now than it was thirty years ago.

"I will now show how we propose to prevent the publication of matter of the kind I have described. Hon'ble Members are no doubt aware that under the Press and Registration of Books Act of 1867 every person who wishes to keep a press for the printing of books or papers must make a declaration to that effect before a Magistrate. Another provision of that Act requires that every printer and publisher of a newspaper must make a similar declaration. These declarations are registered and are available for the information of anyone who wishes to take proceedings against the press or the newspaper. Clause 3 of our Bill provides that every person who makes a declaration hereafter as the keeper of a press must deposit security for an amount to be fixed in each case by the Magistrate, but not being less than Rs. 500 or more than Rs. 5,000. Clause 8 contains a similar provision in respect of the publisher of a newspaper. The printer of a newspaper is not required to deposit security as his case is already covered by the provision requiring security from the person who keeps the press. These provisions, as I have said, apply only to future registrations. In the case of existing presses and existing newspapers no security can be demanded until the press or paper offends by printing or publishing matter of the prohibited kind. But when a press or newspaper has printed or published such matter, the Local Government may at once call upon the person registered as the keeper of the press or the publisher of the newspaper to deposit security to an amount to be fixed by the Local Government subject to the same limits as are prescribed for fresh registrations.

"The next stage in the procedure provided by the Bill is that the Local Government can order the forfeiture of the security deposited if it appears that the press has printed or the newspaper has published any matter of the prohibited kind. If the keeper of the press or the publisher of the newspaper wishes to continue his business after such an order has been passed, he is at liberty to do so, but he must make a fresh declaration under the Press and Registration of Books Act and the Magistrate may then demand enhanced security up to a maximum of Rs. 10,000. Should the keeper of a press or the publisher of a newspaper again publish prohibited matter after enhanced security has been taken, the Local Government may order the forfeiture of the enhanced security in the case of the newspaper, and of both security and press in the case of the printing-press. I wish to make it quite clear to Hon'ble Members that no keeper of a press who is registered at the time of the passing of this Bill will be affected by its provisions unless and until he offends by printing prohibited matter; but if he does that, he may be called upon to deposit security. If he again offends, his security may be forfeited, while for a third offence both security and press may be forfeited. For persons who are now registered as publishers of newspapers the procedure is the same. That is to say, no interference at all until one offence is committed; then a demand for security which may be forfeited for the second offence, next the taking of enhanced security; and the forfeiture of this enhanced security for the third offence. In the case of new registrations security is

demanded from the beginning. This is necessary to provide against an evasion of the law by new registrations which are new only in name.

"It will be readily admitted that if we take security at all we must take it from the keepers of printing presses, for the law, to be effective, must cover not only newspapers, but also books, pamphlets, leaflets and every other kind of document by which seditious matter can be disseminated. But it may be asked, why take security from the publisher of a newspaper in addition to taking it from the keepers of presses? The answer is that we cannot always be certain of getting at the newspaper through its press, for difficulties have arisen in ascertaining at what press a newspaper is printed. Many of the small newspapers, which are notorious offenders, have no presses of their own, but are printed at a job press which may be changed from month to month, and it is by no means easy to learn with certainty at which particular press an offending issue of the newspaper was published. Moreover, if security were not demanded from the publisher of a newspaper, he might continue to offend with no greater penalty than the demanding of security from each of the different presses at which successive issues of his journal were printed.

"We have fixed a minimum as well as a maximum for the security to be demanded in order to give an indication which will guide officers in all ordinary cases. But to meet the exceptional cases of the petty press which publishes only trade circulars, bill headings and the like, and the case of the school or college magazine and other similar publications which are not newspapers in the ordinary sense of the term, though they cannot be excluded from the definition—in order to meet these cases we have given the Magistrate power to take reduced security or to dispense with security altogether.

"The provisions which I have described so far relate to the cases of newspapers and of matter which is printed at presses that are known. But we have also to deal with books and pamphlets, especially the latter, which are printed out of India or secretly in India. To meet these cases power is taken for the Local Government to declare by notification that such publications are forfeited and to issue search-warrants for their discovery. In aid of this provision power is also given to customs officials to detain suspected packages pending examination of their contents by the Local Government, and to post office officials to open and detain with a like object any suspected packet which has been transmitted by post. We have also prohibited the transmission by post of any newspaper in respect of which the necessary declaration and deposit of security, when required, have not been made.

"Finally we have laid an obligation upon the printer of a newspaper to deliver to Government at the time of publication two copies of every issue. This has been rendered necessary by the failure of certain newspaper proprietors to send punctually the copies for which the Government subscribe, while in one case a subscription equal to ten times the ordinary subscription was demanded from the Government.

"So far I have dealt only with the powers which are given by the Act. I will now turn to the check which we have provided. This consists of an appeal to a special tribunal of three Judges of the High Court against any order of forfeiture passed by the Government. If it appears to the High Court that the matter in respect of which the order was passed does not come within the terms of section 4 of this Bill, then the High Court will set aside the order of forfeiture. I think it will be admitted that that is a very complete check upon any hasty or improper action by a Local Government. We have, therefore, barred all other legal remedies.

"There are two other clauses that I must mention. One provides that the penalty for keeping a press or publishing a newspaper without making the deposit of security shall be the same as that imposed upon a person who keeps a press or publishes a newspaper without making the declaration required by the Press and Registration of Books Act. The other is a provision which saves the operation of other laws.

"I have explained the scope of the Bill, what it proposes to do. I will now mention its limitations, what it does not propose to do. In the first place, it does not create a Censorship. It imposes no antecedent restraint on the Press; a man may publish what he pleases; he has the widest range for every form of intellectual activity within the limits laid down by the law. Secondly, it is not like the Press Act of 1878, a purely executive measure. The initiative, indeed, rests with the Executive Government, but ample security against hasty or arbitrary action is provided in the form of what is virtually an appeal to a highly competent judicial authority. Thirdly, it is not a measure of universal licensing with power to the Government to withdraw or refuse a license at discretion. The liberty of unlicensed printing for which Milton pleaded three centuries and a half ago, and at the time pleaded in vain, is untouched by this Bill. Security is demanded only from papers established after the passing of the Act. That is necessary to guard against the Protean changes of identity of which we have had illustrations in Bengal. But security is one thing and a system of licensing is another. Security may rightly be required in the interests of the community in order to guarantee that those who undertake for the first time the important task of instructing the people regarding public affairs shall at any rate be fully aware of the responsibility they incur.

"I do not set much store by precedents and parallels drawn from foreign sources. As Lord Morley has pointed out, no political principle whatever is capable of application in every sort of circumstances without reference to conditions in every place and at every time. Each country has its own problems and must solve them in its own way. India has hers, of which this is one of the gravest. We too must travel on our own road with such guidance as our necessities give us, we cannot walk by borrowed light. But if there is any European country upon whose experience we might draw upon and whose example we might follow, it would be Austria, where there exists much the same kind of medley of nationalities, classes, languages and religions as we find in India, and where (as Bismarck pointed out long ago) a certain section of the Press has exercised an influence of evil tendency. Yet what a contrast there is between this Bill and the regular practice in Austria. In that country not only can the business of printing not be carried out without a license, but every number of a periodical must be submitted to the police before publication so that it may be confiscated if it contains anything contrary to the law. All periodicals, whether they have offended or not, must deposit money, on pain of suppression, as a guarantee for the payment of fines. The police frequently order a newspaper to leave out of its columns an article which they deem offensive and give notice to the daily Press that some particular subject had better not be touched upon for the present. Finally, whatever constitutional rights newspapers may possess may be suspended at a moment's notice by the Ministry declaring a state of siege. This is the practice in a country where the Press is subject to the wholesome check of public opinion. Each political party has its organs, and the Government have theirs. Statements made by one side are promptly rebutted by the other, and no editor can be wholly irresponsible. In India none of these restraints exist to any extent worth mentioning. Yet the Bill does not propose to confer any powers on the police. They will be absolutely outside it and will have nothing whatever to do with its administration.

"I have explained, my Lord, what our proposals are and also what they are not. It is my present duty to justify them and for this purpose I must review as concisely as possible the history of the subject and must answer the question, why is any special law necessary, why cannot the Government be content to rely upon the ordinary criminal law? To do this I must go back to the beginnings of the present evils. The Press in India has been free (except during two periods) for the last 75 years, in fact ever since Sir Charles Metcalfe repealed the Licensing Act which was in force up to 1835. The two periods which I have referred to were, first the period of the Mutiny when the entire Press was under absolute control for one year and no more and the second was from 1878 to 1881 when a portion of the Press was subject to the virtually nominal control imposed by the Vernacular Press Act of 1878. I will not touch upon the earlier years, but I will begin about the middle of the

period which I have marked off and I will endeavour to show what use the Press has made in comparatively recent times of Lord Mercialfe's famous concession. Thirty-three years ago, I was present, as Under Secretary to the Government of Bengal, at a notable Durbar held by Sir Ashley Eden at Belvedere on the 12th August 1877. In addressing that Durbar the Lieutenant-Governor denounced in strong terms the disloyalty and sedition which were frequently published in the Native Press of Bengal. Even then rank treason was preached and a war of independence was talked of, and Sir Ashley Eden thought it necessary to warn those whom he addressed that the character of the Vernacular Press was creating an unfavourable impression in many quarters of the loyalty of the Bengalis. The warning was not heeded, and in the following year the tone and tendencies of the Press led to the passing of the Act of 1878, the object of which, like the object of the present Bill, was to prevent, not to punish, sedition. As everyone knows, the Act was in force for only three years during which time recourse was only once had to its provisions. Its defects, from our present point of view, are palpable. It applied only to the Vernacular Press and left untouched journals published in English, whether owned by Indians or by Europeans; its machinery was purely executive, judicial intervention being expressly excluded, and it contained an impracticable provision for censorship which was soon repealed. The whole Act was repealed in 1881, and from that time till now the Press has been left to the operation of the ordinary law. Up to the year 1907 the policy of the Government was one of extreme forbearance and prosecutions were of rare occurrence. Indeed, during the 37 years from 1870 to 1907 the law was put in motion only sixteen times. Among these cases there is not a single case of acquittal. On two occasions the jury disagreed but the offenders would have been tried again if Government had not thought fit to accept their apologies. I have described our forbearance as extreme; many people may think it excessive. But the ingrained instincts of all Englishmen are averse to interference with the Press, even by way of prosecution, and we continued to hope that time and education would bring wisdom. Our hope was vain, the Press did not mend its ways; it went continually from bad to worse, and at length it produced its inevitable results in the cruel and oppressive methods of the boycott. It was clear, moreover, that matters were not going to stop there and that worse things were in store for us. As every one knows, we had not long to wait. Accordingly on the 3rd June 1907, after careful and anxious consideration, the Government of India issued the following resolution

'Certain circumstances attending the recent outbreaks of lawlessness in the Punjab and Eastern Bengal have forced upon the attention of the Government of India the deliberate efforts made by a number of newspapers, both English and Vernacular, to inflame the minds of the people, to encourage ill-will between classes, to promote active hostility to the Government, and to disturb the public tranquillity in many different ways. The Governor General has no desire whatever to restrict the legitimate liberty of the Press to criticise the action of the Government, and he would be most reluctant to curtail the freedom of the many well-conducted papers because of the misbehaviour of a few disloyal journals. But he is responsible for the maintenance of law and order among a vast and heterogeneous population, and he is unable to tolerate the publication of writings which tend to arouse the disorderly elements of society and to incite them to concerted action against the Government. On these grounds he has determined that the dissemination of sedition and the promotion of ill-will between classes must be repressed by firm and sustained action under the penal law. Accordingly, in supersession of previous orders on the subject, His Excellency in Council empowers Local Governments to institute prosecutions in consultation with their legal advisers in all cases where the law has been wilfully infringed. He hopes that the warning now given may, in great measure, avert the necessity for numerous prosecutions, but if this hope should unhappily not be realised, he relies upon the local authorities to deal with the evil effectively.

"Up to the end of last year 47 prosecutions had been undertaken under these orders. Not one of these cases has failed, although in some instances the editor, manager or proprietor has escaped, and only the registered printer or proprietor has been convicted, while in others the Government have accepted an apology and withdrawn the prosecutions. Nevertheless we have to acknowledge defeat. We have succeeded in the minor object of punishing a certain number

of offenders ; we have failed in the major, the vital, the all-important object of curing a grave evil. We have proved that the law as it stands is sufficient to enable convictions for sedition to be obtained ; but we have also proved that it is not sufficient to restrain the Press within the limits of legitimate discussion. In spite of our successful prosecutions we see the most influential and most widely read portion of the Indian Press incessantly occupied in rendering the Government by law established odious in the sight of the Indian people. The Government is foreign, and therefore selfish and tyrannical. It drains the country of its wealth, it has impoverished the people, and brought about famine on a scale and with a frequency unknown before, its public works, roads, railways and canals have generated malaria, it has introduced plague, by poisoning wells, in order to reduce the population that has to be held in subjection, it has deprived the Indian peasant of his land, the Indian artisan of his industry, and the Indian merchant of his trade ; it has destroyed religion by its godless system of education ; it seeks to destroy caste by polluting, maliciously and of set purpose, the salt and sugar that men eat and the cloth that they wear ; it allows Indians to be ill-treated in British Colonies ; it levies heavy taxes and spends them on the army ; it pays high salaries to Englishmen, and employs Indians only in the worst paid posts ;—in short it has enslaved a whole people, who are now struggling to be free.

“ My enumeration may not be exhaustive, but these are some of the statements that are now being implanted as axioms in the minds of the rising generation of educated youths, the source from which we recruit the great body of civil officials who administer India. If nothing more were said, if the Press were content to

‘ let the lie
Have time on its own wings to fly,’

things would be bad enough. But very much more is said. Every day the Press proclaims, openly or by suggestion or allusion, that the only cure for the ills of India is independence from foreign rule, independence to be won by heroic deeds, self-sacrifice, martyrdom on the part of the young, in any case by some form of violence. Hindu mythology, ancient and modern history, and more especially the European literature of revolution, are ransacked to furnish examples that justify revolt and proclaim its inevitable success. The methods of guerilla warfare as practised in Circassia, Spain and South Africa ; Mazzini's gospel of political assassination, Kossuth's most violent doctrines ; the doings of Russian Nihilists, the murder of the Marquis Ito, the dialogue between Arjuna and Krishna in the *Gita*, a book that is to Hindus what the *Imitation of Christ* is to emotional Christians—all these are pressed into the service of inflaming impressionable minds. The last instance is perhaps the worst. I can imagine no more wicked desecration than that the sacrilegious hand of the anarchist should be laid upon the Indian Song of Songs and that a masterpiece of transcendental philosophy and religious ecstasy should be perverted to the base uses of preaching political murder. The poison, however, is widely diffused by a variety of methods, and antidote there is none. The side of Government is represented in the Indian Press by a few papers of small circulation which never reach the persons whose minds are prejudiced by the attack. Sedition has the monopoly of its audience, and that audience is large and is increasing daily. No means are left untried to swell its numbers and to infect the masses of the people. The peaceful life of the village has been invaded by youthful enthusiasts who read out to an illiterate audience, attracted by natural curiosity, articles preaching the doctrines which I have described. Emissaries disguised as religious devotees travel about the country and spread the gospel of anarchy among simple folk who believe that whatever is printed must be true. Worst of all, attempts are being made to enlist the women of India on the side of rebellion by disseminating in the zenana libels upon the Government—among them that infamous story about the introduction of plague. Was there ever such sacrilege as this—that the renaissance of Indian womanhood, their awakening to a new intellectual life, should be threatened at its outset by influences such as these ? In all ages—from the time of your own Epics and the old Roman legend of the Sabine

girls—women have been the peace-makers of the world. Their mission has been to heal race-enmity, not to foster it. Is the Sakuntala of the future to grow up in an atmosphere of treason, plotting murder and designing bombs? If she does, she will certainly not be the Sakuntala of the Indian poet.

"The consequences of this ever-flowing stream of slander and incitement to outrage are now upon us. What was dimly foreseen a few years ago has actually come to pass. We are at the present moment confronted with a murderous conspiracy, whose aim it is to subvert the Government of the country and to make British rule impossible by establishing general terrorism. Their organisation is effective and far-reaching; their numbers are believed to be considerable; the leaders work in secret and are blindly obeyed by their youthful followers. The method they favour at present is political assassination: the method of Mazzini in his worst moods. Already they have a long score of murders or attempted murders to their account. There were two attempts to blow up Sir Andrew Fraser's train and one, of the type with which we are now unhappily familiar, to shoot him on a public occasion. Two attempts were made to murder Mr. Kingsford, one of which caused the death of two English ladies. Inspector Nanda Lal Banerji, Babu Ashutosh Biswas, the Public Prosecutor at Alipore, Sir William Curzon-Wyllie, Mr. Jackson, and only the other day Deputy Superintendent Shams-ul Alam, have been shot in the most deliberate and cold-blooded fashion. Of three informers two have been killed, and on the third vengeance has been taken by the murder of his brother in the sight of his mother and sisters. Mr. Allen, the Magistrate of Dacca, was shot through the lungs and narrowly escaped with his life. Two picric acid bombs were thrown at His Excellency the Viceroy at Ahmedabad and only failed to explode by reason of their faulty construction. Not long afterwards an attempt was made with a bomb on the Deputy Commissioner of Umballa.

"These things are the natural and necessary consequence of the teachings of certain journals. They have prepared the soil in which anarchy flourishes; they have sown the seed and they are answerable for the crop. This is no more general statement; the chain of causation is clear. Not only does the campaign of violence date from the change in the tone of the Press; but specific outbursts of incitement have been followed by specific outrages.

"And now, Sir, I appeal to the Council in the name of all objects that patriotic Indians have at heart to give their cordial approval to this Bill. It is called for in the interests of the State, of our officers both Indian and European, and most of all in the interests of the rising generation of young men. In this matter, indeed, the interests of the State and the interests of the people are one and the same. If it is good for India that British rule should continue, it is equally essential that the relations between Government and the educated community should be cordial and intimate, and that cannot long be the case if the organs of that community lay themselves out to embitter those relations in every sort of way and to create a permanent atmosphere of latent and often open hostility. In the long run people will believe what they are told, if they are told it often enough, and if they hear nothing on the other side. There is plenty of work in India waiting to be done, but it never will be done if the energies of the educated classes are wasted in incessant abuse and suspicion of Government.

"As regards the officers of Government, the case is clear. At all costs they must be protected from intimidation and worse. And it is our Indian officials who stand in most need of protection, for they are most exposed to the danger. The detailed work of investigation and detection necessarily falls upon them, and they are specially vulnerable through their families. They have done most admirable work during the troubles of the last few years and have displayed under most trying conditions courage and loyalty that are beyond all praise. We are bound in honour to protect them from threats of murder and outrage which sooner or later bring about their own fulfilment.

"To my mind, Sir, the worst feature of the present situation is the terrible influence that the Press exercises upon the student class. I was talking about this about a month ago with a distinguished Indian who is in close touch with schools and colleges in Bengal. He took a most gloomy view of

the present state of things and the prospects of the immediate future.- According to him the younger generation had got entirely out of hand, and many of them had become criminal fanatics uncontrollable by their parents or their masters. As an illustration of the spirit that is abroad he told me that one of the examiners for the last Matriculation of the University had received a threatening message that if he reported to the authorities a particularly gross case of cheating 'a Browning pistol was ready for him.' I may set by the side of this, as a companion picture, the following passage in Sir Lawrence Jenkins' judgment in the Alipore Appeal. Speaking of the *Fugantar* his Lordship says :—

'Perhaps no more striking illustration of its pernicious and insidious influence can be found than in the postcard, Exhibit 1079, addressed to Abinash and found in the course of the search at 4, Raja's Lane. It runs as follows :—

"Bande Mataram,
Mirasi, 7th September 1907.

"Sir,

From your advertisement, articles, and your bold writings, I understand that he alone, who has the subversion of the Firingee (British) Government at heart, should by all means read the *Fugantar*. I, a schoolboy, living in a hilly country, don't feel any oppression of the Firingees, and I give way before people for want of information. I am, therefore, in need of *Fugantar*. For it acquaints us to a great extent with the devices of driving away the Firingees and also make us alive to wrongs. I am extremely in straitened circumstances, hardly able to procure one meal a day; nevertheless my desire for newspaper reading is extremely strong. Hence I approach you as a beggar. Ah! do not disappoint such an eager hope of mine. Please grant my prayer. I shall pay the price when I shall have the means. Please ever oblige me by sending a sample copy with an expression of your intention. I hope you will favour me by enlisting me as a subscriber. Further, please don't fail to send a sample copy.

Submitted by

Sree Debendra Chandra Bhattacharjee,
P.O. Muchikandi, Mirasi,
Sylhet."

"It is very dreadful, but it is also rather pathetic, and it throws a great light on the enthusiastic, impressionable and at times rather hysterical temperament of the Indian student. We must do what we can to save these boys. We cannot look on passively at the progressive demoralization of the youth of India. I believe, Sir, that this Bill will prove to be a wholesome and beneficial measure of national education, that it will in course of time prevent a number of young men from drifting into evil courses and ruining their prospects in life, and that in passing it this Council will earn the lasting gratitude of many thousands of Indian parents."

The motion was put and agreed to.

The Hon'ble Sir HERBERT RISLEY introduced the Bill.

The Hon'ble Sir HERBERT RISLEY moved that the Rules of Business be suspended.

THE PRESIDENT declared the Rules suspended.

The Hon'ble SIR HERBERT RISLEY moved that the Bill be referred to a Select Committee consisting of the Hon'ble Mr. S. P. Sinha, the Hon'ble Sir Harold Stuart, the Hon'ble Mr. Kenrick, the Hon'ble Mr. Quin, the Hon'ble Mr. Lyon, the Hon'ble Mr. Gokhale, the Hon'ble Maharaja of Burdwan, the Hon'ble Zulfikar Ali Khan, the Hon'ble Mr. Mudholkar, the Hon'ble Mr. Graham, the Hon'ble Pandit Madan Mohan Malaviya and the mover, with instructions to report on Tuesday, the 8th instant.

The motion was put and agreed to.

The Council adjourned to Tuesday, the 8th February 1910.

J. M. MACPHERSON,
Secretary to the Government of India,
Legislative Department.

SUPPLEMENT TO
The Gazette of India

No. 7.]

CALCUTTA, SATURDAY, FEBRUARY 12, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such (1) official Reports and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 10th February 1910, based on the Indian Daily Weather Reports of the period.

In Kashmir weather was slightly disturbed on several days and light falls of snow occurred; there was also local rainfall in the upper Brahmaputra valley, but over the rest of the country dry weather prevailed throughout the week. Maximum temperature was in moderate to large excess in northwest India and from the 4th to the 6th in the United Provinces and Central India.

Burma.—Skies were generally clear and temperature normal.

Northeast India, including Orissa.—Rain fell locally in the upper Brahmaputra valley on the 6th. Skies were cloudy in the north of Eastern Bengal and Assam on the 5th and 6th and were clear elsewhere throughout the week. Temperature did not differ much from the normal.

The United Provinces, Central India and the Central Provinces.—Skies were clear or lightly clouded. At night, temperature was generally normal, but during the day time, it was in excess from the 4th to the 6th except in Berar and the east of the Central Provinces.

Northwest India.—Light falls of snow were reported from most of the observatories in Kashmir. Skies were overcast in Kashmir on several days and were clear or only lightly clouded elsewhere. Weather was much warmer than usual during the day time.

throughout the week and at night also in Rajputana, Gujarat, the southwest Punjab, Sind and Baluchistan for part of the period.

The Peninsula—Skies were clear or lightly clouded and temperature was generally normal except on the Konkan coast where the maximum was in excess up to the 9th.

The only important rainfall amounts were reported on the 7th and were 0·78" at Dibrugarh and 0·49" at Sibsagar.

The rainfall for the period from the 3rd December 1909 to date is now in defect in Baluchistan and the east of the United Provinces, but it is still over 20 per cent. in excess in the Punjab, the North-West Frontier Province, Sind and Rajputana.

DIVISION.	RAINFALL DATA FOR WEEK ENDING ON 10TH FEBRUARY 1910.			RAINFALL DATA FROM 3RD DECEMBER 1909 TO 10TH FEBRUARY 1910.			SEASONAL PERCENTAGE DEPARTURE FROM NORMAL.

J PATTERSON,
for Director-General of Observatories
R. W. CARLYLE,
Secretary to the Government of India

GOVERNMENT OF INDIA
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 5th February 1910.

Burma—The week was rainless. Transplanting of spring rice and cultivation of miscellaneous crops on islands are proceeding. Harvesting of cotton, groundnut, millet and *juar* is in progress. Standing crops are reported to be in good condition.

Eastern Bengal and Assam—The weather was seasonable. There was no rain during the week except light showers in parts of the Assam Valley. Transplanting of spring rice, gathering of mustard and pressing of sugarcane are in progress. Ploughing for jute and other autumn crops is going on. Prospects of wheat, tobacco, sugarcane, tea and mustard are good. The average price of common rice has fallen by about one per cent. Cattle disease prevails in Dacca, Darrang and Sibsagar.

Bengal.—There was no rain during the week. Harvesting and threshing of winter paddy are approaching completion. Pressing of sugarcane and preparation of lands for the next season's crops continue. Standing spring crops are doing well. Prospects are good. The price of common rice has risen in Burdwan, Murshidabad, Khulna, Gaya, Saran, Darbhanga, Monghyr, Angul, Ranchi and Manbhum, has fallen in Howrah, the 24-Parganas, Nadia, Jessore, Chumpan and Cooch Behar and is stationary in the remaining districts. Cattle disease is reported from 11 districts. The fodder and water supply is sufficient throughout the Province.

United Provinces—No rain fell during the week but it is needed in three districts. Pressing of sugarcane and irrigation of spring crops continue. Fields are being prepared for sugarcane and extra crops. Standing crops are generally good but seven districts report damage from insects or rats. Cattle are in good condition though sixteen districts report disease. Fodder and supplies are sufficient. Prices are generally stationary.

Punjab—Rainfall *nil*. Pressing of sugarcane continues in some districts and the outturn is good to average. *Toria* is still being harvested in Shahpur. Standing crops are generally in good to average condition. Rats are damaging the crops in Rohtak and Ambala. Prices of food grains are generally unchanged. A slight rise in prices is reported from four and a slight fall from two districts. Cattle are generally in good condition. Fodder is generally sufficient.

North-West Frontier Province—Rainfall *nil*. Standing crops are generally in good condition throughout the Province. Sugarcane pressing still continues in the Peshawar and Bannu districts. Planting of sugarcane is in progress in the Bannu district. Sowings of extra spring crops have commenced in the Dera Ismail Khan district. Land is also being prepared for extra spring sowings in the Mirwar tahsil of the Bannu district. Irrigation from the Paharpur canal in the Dera Ismail Khan district is still stopped. The water supply and fodder are sufficient except in the Shigga circle of the Marwat tahsil of the Bannu district. Cattle are generally in good condition except in three villages of the Nowshera tahsil of the Peshawar district. The public health is generally good. Prices, except those of maize, are stationary. Prices—Wheat 11 to 14, gram 16½ to 22, maize 15 to 23, bajra 16½ to 18 and barley 19½ seers per rupee.

Jammu—Rain *nil*. Prices—Wheat sells from 11 to 20 and maize from 17½ to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Basohli, Kathua and Ramban tahsils of the Province. Fodder is sufficient.

Kashmir—The weather during the week was cloudy except for two days when it was clear. Spring crops are in good condition. There is no disease among cattle. Fodder is average except in flooded villages. Prices are unchanged.

Rajputana—Spring crops are progressing. Slight damage to crops by blight is reported in parts of Mewar and Partabgarh. Cattle disease prevails in one village of Merwara. Fodder is sufficient. Prices are rising in Sirohi, Tonk and Merwara and are falling or are steady elsewhere.

Central India.—Rainfall *nil*. Threshing of autumn and irrigation of spring crops continue. Crops have been damaged slightly in Indore, Bundelkhand, Malwa and Bhopawar. Agricultural stock are good except for some disease in Indore, Baghelkhand, Bundelkhand and Bhopawar. Prices are fluctuating in Indore and Bhopal and are high and steady elsewhere. Watering and weeding of poppy continue.

Central Provinces—The weather continues to be clear and occasionally cloudy. Reaping of autumn crops is almost over but threshing and winnowing still continue in a few districts, also picking of cotton in Nimar, Nagpur and Buldana. Harvesting of pulses, linseed and wheat continues in places. Slight damage to standing crops by rats, frost or disease occurred in parts of Saugor; to pulses and linseed in the low lands of the Hatta tahsil of Damoh; to wheat and gram in the Sohagpur tahsil of Hoshangabad and to wheat in Wardha. The condition of standing crops is generally good everywhere. Fodder and water are sufficient and agricultural stock are in good condition. Prices.—Wheat in Hoshangabad and *juar* in Nimar fell by $1\frac{1}{2}$ seers per rupee respectively. *Juar* rose in Wardha by 1 seer and in Yeotmal by 2 seers. Gram sells cheaper by 1 seer in Saugor and by 2 seers in Mandla. Elsewhere prices of staple food grains remained steady.

Peudatory States—Threshing and winnowing of autumn crops continue. Cloudy weather has slightly damaged gram in Khairagarh. Prospects are excellent in Chhui-khadan and generally good elsewhere. The supply of fodder and water is adequate. Prices.—Wheat in Kawardha, Nandgaon and Korea, rice in Raigadh and gram in Korea became cheaper by 1 to 5 seers per rupee.

Bombay.—Standing crops are suffering from insufficient moisture in parts of Poona and Sholapur, they have been damaged slightly by insects in parts of Karachi, by rats in West Khandesh, by frost in Karachi, Hyderabad and the Upper Sind Frontier and are generally in good condition elsewhere. Threshing of autumn crops continues in parts of the Upper Sind Frontier, the Konkan, Khandesh, Poona and Palanpur. Harvesting of spring crops is in progress in parts of Kaira, Broach, Surat, Kanara, the Deccan, the Karnatak, Baroda, Cutch, Rewa Kantha and Kolhapur. Cotton picking is progressing in Gujarat, Belgaum, Kathiawar, Baroda and Cutch. The fodder supply is generally adequate. Agricultural stock are sufficient except in parts of the Deccan and are generally in good condition. Drinking water is generally sufficient. Irrigation water is deficient in parts of Poona. Grain stocks are sufficient. Prices have fallen in Karachi and Larkana, have risen in Ahmednagar, Poona, Bijapur and Belgaum and are stationary elsewhere. The quantity purchasable per rupee is in Sind 20 to 41, in Gujarat 3 to 23, in the Konkan 2 to 40; in the Deccan 7 to 32 and in the Karnatak 20 to 32 per cent less than the normal.

Hyderabad—No rain fell during the week. The autumn harvest is over except for picking of cotton in a few tracts of the Marathwara country. The early rice harvest is almost over. The spring harvest still continues and the crop is generally good except in parts of Telingana especially in the Nalgonda, Warangal and Karimnagar districts where it is reported to be poor. Some damage is still being done to crops by rats in parts of the Khuldabad taluka of the Aurangabad district. Harvesting of the castor seed crop is nearing completion and its outturn is estimated at or below eight annas. Late rice sowings are still in progress and weeding has also begun but the area is bound to be limited owing to insufficiency of water in tanks. Cattle disease prevails in six talukas and fodder scarcity in twelve. Water scarcity is reported in parts of Lingugur of the Raichur district, Janwada of the Bidar district and Sultanabad of the Karimnagar district. The water supply is decreasing in the Ashti taluka of the Bir district, Palam in the Parbhani district, Udgir in the Bidar district, Paloncha in the Warangal district, Alampur, Gangawati, Kushtagi and Manvi in the Raichur district and Jagtial, Karimnagar, and Mahadeopur in the Karimnagar district. Prices:—Wheat 7, coarse rice 7 and *juar* $14\frac{1}{2}$ seers per rupee. White and yellow *juar* is selling in Hyderabad City at 13 and 15 seers per rupee respectively. The highest price in districts is 8 seers in Chinnur of the Adilabad district and the lowest 24 seers in Nilanga in the Bidar district.

Mysore.—Prices of food grains have fallen slightly in Bangalore, Tumkur and Kadu and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Cattle are generally healthy. Water and fodder are available.

Coorg.—Picking of coffee and harvesting of rice continue. Prices of food grains have fallen slightly. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was good in the Nilgiris, light to fair in the Carnatic, Central and South, and *nil* elsewhere. Irrigation supplies are sufficient in Ganjam, Vizagapatam, North Arcot, Malabar and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Guntur, Cuddapah, the Carnatic, Central and South, have

withered or are withering or require more rain. Harvests continue with outturn poor to normal and bumper. Pasture is sufficient except in parts of the Circars, the Deccan, Nellore, Coimbatore and South Canara. Fodder is scanty in parts of Guntur and Nellore. The condition of cattle is generally good. The price of rice is stationary in twelve districts, has fallen in ten and has risen in one. The prices of millets have fluctuated as follows — *Ragi* is stationary in eleven districts, has fallen in seven and has risen in three. *Cholam* is stationary in five districts, has fallen in five and has risen in four. *Cumbu* is stationary in four districts, has fallen in six and has risen in five. The public health is generally good. Prospects are generally fair though more rain is required in Nellore, South Arcot and Salem. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are generally sufficient.

R. W. CARLYLE,

Secretary to the Government of India.

No 157—8-1.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

(FAMINE)

Calcutta, the 8th February 1910.

**Sixth Report of the Board of Management of the Indian
People's Famine Trust covering the
Calendar year 1909.**

1. Four meetings of the Board were held during the year 1909,—three at Calcutta and one at Simla.

2. The Report and the Annual Accounts of 1908 were passed at a meeting of the Board on 29th January 1909 and it was decided at that meeting that in future the Report and the Accounts should be circulated among the members before the annual meeting. A copy of the Report on the Administration of the Trust during 1908 together with that of the accounts was forwarded to the Government of India in the Department of Revenue and Agriculture in accordance with rule 16 of the Rules for the Administration of the Trust.

3. An application from the Maharaja of Darbhanga for a grant for relief of distress in Darbhanga came under the consideration of the Board in March 1909, but having regard to the smallness of the resources of the Fund at that time, the Board decided to wait further development of the position in that district.

4. At a meeting held at Simla on 20th May 1909, the Board again considered the Maharaja's application, supported by an application from the Government of Bengal for a grant of Rs 1 lakh for the purpose referred to, but in view of the fact that only one district was concerned and as there was some uncertainty regarding the season, a grant of Rs 25,000 only was sanctioned.

5. At that meeting the Board also considered an enquiry from the Government of the United Provinces as to whether any funds would be available for the distressed districts in those Provinces. It was decided, and that Government was informed, that very little money was available in 1909 and that in any case no grant could, under the rules, be given from the Trust funds until the existence of general and severe privation over a considerable area was first notified by the Governor General in Council.

6. The general agricultural condition of the country, however, improved in the mean time. The Indian Famine Charitable Relief Fund, inaugurated in March 1908, was closed early in 1909, and the Trust was subsequently credited with Rs 1,97,933-2-2 by transfer of the unspent balances of the Famine Relief Fund in the hands of the Central and the Provincial Executive Committees and of certain belated collections of subscription.

7. On 6th December 1909 it was decided at a meeting of the Board to invest Rs 3,20,000 out of the accumulated cash balance of the Trust in the 3½

per cent. Government Securities. Accordingly Government Promissory Notes of the aggregate face value of ₹3,37,300 of the 3½ per cent. loan of 1900-01 were purchased at a net cost of ₹3,19,981-1-0. These Securities stand in the joint names of the Comptroller General and the Accountant General, Bengal, and do not form part of the Endowment Fund.

8. During the year, the Hon'ble Sir Francis Maclean, Kt., K.C.I.E., resigned the Chairmanship of the Board of Management of the Trust, and the Hon'ble Sir Lawrence Hugh Jenkins, Kt., K.C.I.E., succeeded him. The appointment of the Hon'ble Mr. J. M. Holms, C.S.I., as a member representing the Government of the United Provinces of Agra and Oudh on the Board was formally notified, and His Highness Maharaja Sir Madho Rao Sindhia Bahadur, Maharaja of Gwalior, G.C.S.I., G.C.V.O., was appointed by the Hon'ble the Agent to the Governor-General in Central India as a member of the Board *vice* Khan Bahadur Yar Muhammad Khan, deceased. In November 1909, the Hon'ble Sir William Meyer, K.C.I.E., resigned his membership of the Board as a nominee of the Hon'ble the Agent to the Governor-General in Rajputana. No one has yet been appointed in his place. In December 1909, Mr. F. C. Harrison, C.S.I., resigned the office of Honorary Secretary to the Board on his leaving India, and the office was offered to, and accepted by, Mr. O. T. Barrow, C.S.I.

9. A statement of the assets of the Trust and an abstract of the accounts will be found in Schedules I and II, annexed.

10. The Miscellaneous Receipts shown in Schedule II annexed represent the annual subscription of ₹500 by the Raja of Athgarh for the year 1905-06.

11. The Endowment figure has remained unchanged, *vis.* :—₹28,10,000.

O. T. BARROW,

*Hony. Secy, Board of Management of the
Indian People's Famine Trust.*

PART I.

Government of India Notifications, Appointments, Promotions, etc.

LEGISLATIVE DEPARTMENT

NOTIFICATION.

Calcutta, the 16th February, 1910

No. 16—In exercise of the power conferred by section 4 of the Indian Councils Act, 1909 (9 Edw. VII, c. 4), the Governor General is pleased to appoint the Hon'ble Sir Harvey Adamson, K.C.S.I., being a member of his Council, to be Vice-President thereof in place of Sir Herbert H. Risley, K.C.I.E., C.S.I., who has vacated that office

J M MACPHERSON,
Secretary to the Government of India.

HOME DEPARTMENT.

NOTIFICATIONS.

ESTABLISHMENTS.

Calcutta, the 14th February 1910.

No 172—The Hon'ble Sir Harvey Adamson, Kt, K.C.S.I., an Ordinary Member of the Council of the Governor General of India, reported his return to India on the 11th February 1910 from the leave of absence granted to him in the Home Department Notification No. 847, dated the 22nd July 1909, and resumed charge of his office on the same date.

No 173—The Hon'ble Sir Herbert Hope Risley, K.C.I.E., C.S.I., is permitted to resign His Majesty's Indian Civil Service, with effect from the 11th February 1910.

MEDICAL.

The 12th February 1910.

No 137—His Excellency the Viceroy and Governor General has been pleased to appoint Assistant Surgeon Rai Munna Lal Bahadur, of the United Provinces establishment, to be an Honorary Assistant Surgeon on His Excellency's personal staff, *vice* Assistant Surgeon Rai Mahendra Nath Ohdedar Bahadur, retired.

The 15th February 1910.

No 149.—The services of Captain J Husband, M.B., I.M.S., are placed temporarily at the disposal of the Government of Burma.

SANITARY—PLAGUE.

The 15th February 1910.

No. 344—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Kalahasti in the North Arcot District of the Madras Presidency, if persons from the Mysore State are permitted to assemble at that place on the occasion of the ensuing Mahasivaratri Festival

In exercise of the power conferred by section 2, sub-section (1) of the Epidemic Diseases Act, 1897 (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Pudi, Mamanduru, Tirupati East, Tirupati West, Renigunta, Yerpedu, Kalahasti, Yellakuru, Venkatagiri and Vendodu on the Madras and Southern Mahratta Railway, shall be sold from the 27th February to the 17th March 1910 (both days inclusive) within the Mysore State to any person intending or believed to be intending to proceed to the Mahasivaratri Festival at Kalahasti.

SANITARY.

The 15th February 1910.

No 349—Lieutenant-Colonel F C Clarkson, I.M.S., Sanitary Commissioner, Bengal is granted privilege leave for three months with furlough for one year and nine months in continuation, with effect from the 28th February 1910.

No 350.—Major W. W. Clemesha, M.D., I.M.S., Deputy Sanitary Commissioner Bengal and Orissa Circle, is appointed to officiate as Sanitary Commissioner, Bengal during the absence on leave of Lieutenant-Colonel F. C. Clarkson, I.M.S., or until further orders.

PORT BLAIR.

The 17th February 1910.

No. 151.—Consequent on the absence on leave of Mr. H. G. Tayler, Deputy Superintendent, and Mr. A. Brown, 2nd Assistant Superintendent, Port Blair, Khan Bahadu

Mahomed Ashik Ali Khan, 3rd Assistant Superintendent, is appointed on his return to duty to officiate as 1st Assistant Superintendent, with effect from the 26th January 1910 and until further orders

No. 152—Consequent on the return to duty of Khan Bahadur Mahomed Ashik Ali Khan, 3rd Assistant Superintendent, the following reversions in the Port Blair Commission will take effect from the 26th January 1910 —

Mr R. F. Lewis, 4th (officiating 1st) Assistant Superintendent, to officiate as 2nd Assistant Superintendent

PAPER CURRENCY.

Calcutta, the 18th February 1910.

No. 880-A.—In exercise of the powers conferred by sections 5 and 18 of the Indian Paper Currency Act, 1910 (II of 1910), and in supersession of the Notification of the Government of India in the Finance Department No 2152, dated the 5th August 1881, the Governor General in Council is pleased to establish the following Circles of Issue in the Madras and Bombay Presidencies, respectively —

In the Madras Presidency.

The Madras Circle of Issue to consist of all the districts in the said Presidency.

In the Bombay Presidency.

The Bombay Circle of Issue to consist of all the districts of the Bombay Presidency Proper, the Central Provinces and Berar.

The Karachi Circle to consist of the Province of Sind.

And to appoint the town of Madras to be the place of issue in the Madras Circle; the town of Bombay to be the place of issue in the Bombay Circle, and the town of Karachi to be the place of issue in the Karachi Circle.

And to establish an office of issue in each of the said towns of Madras, Bombay and Karachi.

And to direct that all currency notes issued from Calcutt shall for the purposes of sections 5 and 16 of the Act be deemed to have been issued from Madras

This notification shall come into effect on the 18th day of February 1910

No. 881-A.—In exercise of the powers conferred by section 29, sub-section 2, clauses (a) and (c), of the Indian Paper Currency Act, 1910 (II of 1910), the Governor General in Council is pleased to make the following rules, namely:—

- (1) These rules shall come into force on the 18th day of February 1910
- (2) Currency notes shall be issued by the Department of Paper Currency for the following values, namely:—

Five Government Rupees

Ten Government Rupees

Fifty Government Rupees.

One hundred Government Rupees.

Five hundred Government Rupees

One thousand Government Rupees

Ten thousand Government Rupees.

(3) Currency notes of the values above noted shall be issued at all Offices of Issue established under the said Act.

(4) Notification No 4035, dated the 31st December 1873, is hereby rescinded.

No. 882-A.—It is hereby notified for general information that the Governor General in Council has been pleased to revoke the Notification in this Department No 1843, dated the 12th March 1872, which is reproduced below:—

"With reference to Section 15 of Act III of 1871, the Governor General in Council is pleased to notify for general information that the provisions of Notification by the Government of India, Financial Department, No. 4284, dated 23rd October 1869, are still in force

"2. The Notification is published below —

"The Governor General in Council directs that it be notified for general information that the payment of any sum of money which any one has to make to Government in any Department can be made in Government notes of any issue, irrespective of Presidency or Circle, and that all officers of Revenue, Customs, Tax Office, Railway, etc., are hereby authorised to receive payment in notes of any issue irrespective of Presidency or Circle"

No. 883-A.—In pursuance of section 6, sub-section (2), of the Indian Paper Currency Act, 1910 (II of 1910), the Governor General in Council is pleased to make the following appointments, namely:—

The Accountant General of the United Provinces for the time being to be the Commissioner of Paper Currency in charge of the Cawnpore Circle of Issue,

The Accountant General of the Punjab for the time being to be the Commissioner of Paper Currency in charge of the Lahore Circle of Issue, and

The Accountant General of Bombay for the time being to be the Commissioner of Paper Currency in charge of the Karachi Circle of Issue.

GAZETTE OF INDIA.

NOTICE

The 25th October 1909.

From the 13th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 6th November all notifications and other matter intended for publication in the *Gazette* should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,
Secretary to the Government of India

R. O. LEES,
Director, Traffic Branch.

THE HONOURABLE THE AGENT TO THE GOVERNOR GENERAL IN BALUCHISTAN.

NOTIFICATION.

Sibi, the 11th February 1910.

No. 318-S—Under Section 38 of the Punjab Land Revenue Act (XVII of 1887), as applied to the Tahsil of Quetta by the Notification of the Government of India in the Foreign Department, No. 977-E., dated the 17th May 1895, the Hon'ble the Agent to the Governor General in Baluchistan is pleased to direct that the following scale of fees shall be levied in the Quetta Tahsil for every entry relating to the acquisition of any right in an estate made in an annual record under sub-section (5) of section 34 of the said Act, or relating to the acquisition of any interest in land other than that of a tenant-at-will holding on an annual lease made in the said record under section 35, *vis* :—

- (a) When the entry is made in consequence of the acquisition of a right or interest transferred by a registered deed or by a decree or order of a Court or by an order of a Revenue Officer making or affirming a partition under Chapter IX of the Land Revenue Act, a fee of one anna only shall be charged.

In other cases :—

- (b) When the entry is made in consequence of the acquisition of a right or interest by inheritance, a fee reckoned at the rate of R1-4 per cent. on the revenue assessed, provided that the minimum charge shall not be less than 4 annas.

- (c) When the entry is made in consequence of the acquisition of a right or interest otherwise than by inheritance, a fee reckoned at R2-8 per cent. on the revenue assessed, provided that the minimum charge shall not be less than 8 annas.

The whole of the fee charged under (a) and 1/4th of the fee charged under (b) and (c) shall be paid to the Patwari making the entry in the said record, the balance in the latter case being credited to Government.

When more than the minimum fee under (b) or (c) is charged fractions of an anna shall be reckoned as a full anna.

In any case in which the fee payable under the foregoing provisions is found to be excessive in amount with reference to the value of the interests transferred or for any other reasons, the Revenue Commissioner may either remit such fee or reduce it to such amount as he may consider reasonable.

By Order,
A. L. JACOB, Major,
First Assistant.

ORDERS BY THE HONOURABLE THE CHIEF COMMISSIONER OF AJMER-MERWARA.

THE SCHEDULE.—ENACTMENTS REPEALED,

*The Indian Paper Currency Act, 1910.**(The Department of Paper Currency. Supply and Issue of Currency Notes)**An Act to consolidate and amend the law relating to the Government Paper Currency*

WHEREAS it is expedient to consolidate and amend the law relating to the Government Paper Currency, It is hereby enacted as follows —

Preliminary

1. (1) This Act may be called the Indian Paper Currency Act, 1910, and
Short title and extent

(2) It extends to the whole of British India, inclusive of British Baluchistan, the Santhal Parganas and the Pargana of Spiti

2. In this Act, "universal currency note" means—

- (a) a note of the denominational value of five rupees, ten rupees or fifty rupees, or
- (b) a note of any other denominational value which the Governor General in Council may, by notification in the Gazette of India, specify in this behalf.

The Department of Paper Currency.

3 There shall continue to be a Department of Paper Currency for issue of currency notes of the public service, to be called the Department of Paper Currency, whose function shall be the issue of promissory notes of the Government of India, to be called currency notes, payable to bearer on demand, and of such denominational values, not being less than five rupees, as the Governor General in Council may direct

4 ~~At the head of~~ the Department there shall be an officer to be called the Head Commissioner of Paper Currency.

5 The Governor General in Council may, by notification in the Gazette of India —
Power to establish circles of issue offices of issue and currency agencies

- (a) establish districts, to be called circles of issue, seven of which circles shall include the towns of Calcutta, Madras, Bombay, Rangoon, Lahore, Cawnpore and Karachi, respectively,
- (b) appoint in each circle some one town to be the place of issue of currency notes, as hereinafter provided,
- (c) establish in each such town an office or offices of issue, and
- (d) establish in any town situate in any circle an office, to be called a currency agency.

6. (1) The Head Commissioner of Paper Currency shall be the officer in charge of the circle of issue which includes the Town of Calcutta.

(2) For each other circle of issue there shall be an officer in charge to be called the Commissioner of Paper Currency, and for each Currency Agency an officer to be called the Currency Agent

7 For the purposes of Subordination of officers of this Act,—

(a) Commissioners of Paper Currency shall be subordinate to the Head Commissioner of Paper Currency; and

(b) the Currency Agent at any town shall be subordinate to the Head Commissioner or Commissioner, as the case may be, of Paper Currency for the circle of issue in which that town is situate.

8 All officers under this Act shall be appointed by the Governor General in Council

Supply and Issue of Currency Notes.

9. (1) The Head Commissioner shall provide currency notes of the denominational values prescribed under this Act, and shall supply the Commissioners and the Currency Agents subordinate to him with such notes as they need for the purposes of this Act.

(2) The Commissioners shall supply the Currency Agents subordinate to them, respectively, with such notes as those Agents need for the purposes of this Act

(3) Every such note, other than a universal currency note, shall bear upon it the name of the town from which it is issued.

10 The name of the Head Commissioner, of one of the Commissioners, or of some other person authorized by the Head Commissioner, or by one of the Commissioners, to sign currency notes, shall be subscribed to every such note, and may be impressed thereon by machinery, and when so impressed shall be deemed to be a valid signature.

11. The officers in charge of circles of issue of currency notes for silver or gold coins by officers in charge of circles shall, in their respective circles, on the demand of any person, issue, from the office or offices of issue established in their respective circles, currency notes of the denominational values prescribed under this Act, in exchange for the amount thereof—

The Indian Paper Currency Act, 1910.

(Supply and Issue of Currency Notes. Currency Notes where legal tender and where payable.)

106. (a) in rupees or half rupees or in gold coin which is legal tender under the Indian Coinage Act, 1906, or

176. (b) in rupees made and declared to be a legal tender under the provisions of the Native Coinage Act, 1876.

12. Any Currency Agent to whom currency notes have been supplied under section 9 may, if he thinks fit, on the demand of any person, issue from his agency any such notes in exchange for the amount thereof in any coin specified in section 11.

Issue of currency notes for silver or gold coin by Currency Agents
13. The officers in charge of circles of issue shall, on the requisition of the Comptroller General, issue to any Government Treasury currency notes in exchange for gold coin which is not legal tender under the Indian Coinage Act, 1906, or for gold bullion at the rate of one rupee for 7 53344 grains troy of fine gold.

Issue of currency notes for certain gold coin or gold or silver bullion or securities held by Secretary of State.
14. If the Secretary of State for India in Council consents to hold in gold coin or bullion, or in silver bullion or in securities of the kinds mentioned in section 22, the equivalent in value to notes issued in India as a reserve to secure the payment of such notes, the Governor General in Council may from time to time direct that currency notes shall be issued to an amount equal to the value of the coin, bullion and securities so held by the Secretary of State for India in Council.

Currency Notes where legal tender and where payable.

15. A universal currency note shall be a legal tender at any place in British India, and

any other currency note shall be a legal tender at any place within the circle from which the note was issued,

for the amount expressed in the note in payment or on account of—

(a) any revenue or other claim, to the amount of five rupees or upwards, due to the Government of India, and

(b) any sum of five rupees or upwards, due by the Government of India, or by any body corporate or person in British India.

Provided that no currency note shall be deemed to be a legal tender by the Government of India at any office of issue

16. A currency note shall be payable at the following offices of issue, namely:—

(a) a universal currency note at any office of issue,

(b) a currency note other than a universal currency note at any office of issue in the town from which it was issued.

Provided that any such note issued before the commencement of this Act shall also be payable,—

(i) in the case of a note issued from the office at Cawnpore or Lahore, at any office of issue in Calcutta, and

(ii) in the case of a note issued from the office at Karachi, at any office of issue in Bombay.

17. For the purposes of sections 15 and 16, currency notes issued from any currency agency shall be deemed to have been issued from the town appointed under section 5 to be the place of issue in the circle of issue in which that agency is established.

18. Where an office of issue is closed, the Governor General in Council shall, by notification in the Gazette of India, direct that, with effect from the date of the closing of such office, all currency notes issued therefrom shall, for the purposes of sections 15 and 16, be deemed to have been issued from such other office as may be specified in such notification.

Reserve.

19. The whole amount of currency notes at any time in circulation shall not exceed the total amount represented by the sovereigns, half sovereigns, rupees, half rupees and gold bullion, and the sum expended in the purchase of the silver bullion and securities, which are for the time being held by the Secretary of State for India in Council as a reserve to provide for the satisfaction and discharge of the said notes, and the said notes shall be deemed to have been issued on the credit of the Government of India as well as on the security of the said coin, bullion and securities.

Provided that, for the purposes of this section, currency notes which have not been presented for payment, in the case of notes of any denominational value not exceeding one hundred rupees within forty years, and in the case of notes of any denominational value exceeding one hundred rupees within one hundred years, from the first day of April following the date of their issue, shall be deemed not to be in circulation.

Provided further that all notes which are declared under the first proviso to this section not to be in circulation shall be deemed to have been issued on the credit of the Government of India and shall, if subsequently presented for payment, be paid from the revenues of the Government of India.

*The Indian Paper Currency Act, 1910.**(Reserve) (Private Bills payable to Bearer on Demand. Supplementary Provisions.)*

20. Subject to the provisions of section 19, the Governor General in Council may at any time, if he thinks it expedient, convert any of the coin or bullion for the time being held by him as a part of the reserve into coin of any of the kinds mentioned in section 11 or into gold or silver bullion

21. If any coin or bullion held by the Secretary of State for India in Council or by the Governor General in Council as part of the reserve is transmitted by the Secretary of State for India in Council to the Governor General in Council or by the Governor General in Council to the Secretary of State for India in Council, it shall be deemed during the period of transmission to remain part of the reserve referred to in section 19

22. The securities mentioned in section 19 shall be securities of the United Kingdom of Great Britain and Ireland or of the Government of India, or securities issued by the Secretary of State for India in Council under the authority of Act of Parliament and charged on the revenues of India, and the value of them at the price at which they are purchased shall not exceed one hundred and twenty millions of rupees.

Provided that the value at such price as aforesaid of such of the said securities as are not securities of the Government of India shall at no time exceed twenty millions of rupees

23. The securities purchased by the Governor General in Council shall be securities of the Government of India, and shall be held by the Head Commissioner and the Master of the Mint at Calcutta or of such other Mint as the Governor General in Council may direct in this behalf, in trust for the Secretary of State for India in Council.

24. (1) The Head Commissioner may, at any time, when ordered so to do by the Governor General in Council, sell and dispose of any of the securities held under section 23.

(2) For the purpose of effecting such sales, the Master of the Mint at Calcutta or of such other Mint as aforesaid shall, on a request in writing from the Head Commissioner, at all times sign and endorse the securities, and the Head Commissioner, if so directed by the Governor General in Council, may purchase securities of the Government of India to replace such sales.

25. An account showing the amount of the interest accruing on the securities held as part of the reserve under this Act

and the expenses and charges incidental thereto, shall be rendered annually by the Head Commissioner to the Governor General in Council, and published annually in the Gazette of India.

Private Bills payable to Bearer on Demand.

26. No person in British India shall draw, accept, make or issue any bill of exchange, hundi, promissory note or engagement for the payment of money payable to bearer on demand, or borrow, owe or take up any sum or sums of money on the bills, hundis or notes payable to bearer on demand, of any such person

Provided that cheques or drafts, payable to bearer on demand or otherwise, may be drawn on bankers, shroffs or agents by their customers or constituents, in respect of deposits of money in the hands of those bankers, shroffs or agents and held by them at the credit and disposal of the persons drawing such cheques or drafts

27. (1) Any person contravening the provisions of section 26 shall, on conviction by a Presidency Magistrate or a Magistrate of the first class, be punishable with a fine equal to the amount of the bill, hundi, note or engagement in respect whereof the offence is committed.

(2) Every prosecution under this section shall be instituted by the officer in charge of the circle of issue in which the bill, hundi, note or engagement is drawn, accepted, made or issued

Supplementary Provisions.

28. An abstract of the accounts of the Department of Paper Currency, showing—

- (a) the whole amount of currency notes in circulation,
- (b) the amount of coin and bullion reserved, distinguishing gold from silver, and showing separately the amount of coin or bullion held by the Secretary of State for India in Council, or in transit from or to India, or in the custody of the Mint Master during coinage, and
- (c) the nominal value of, and the price paid for, the securities held as part of the reserve, showing separately those held by the Secretary of State for India in Council and those held in India under section 23,

shall be made up four times in, each month by the Head Commissioner, and published, as soon as may be, in the Gazette of India.

*The Indian Paper Currency Act, 1910.**(Supplementary Provisions. The Schedule.)*

29. (1) The Governor General in Council may make rules to carry out the purposes and objects of this Act.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may—

(a) fix the denominational values (not being less than five rupees) for which currency notes shall be issued,

(b) provide for the alteration of the limits of any of the circles of issue,

(c) declare the places at which currency notes shall be issued, and

(d) fix and notify the conditions upon which lost or mutilated currency notes may be paid at offices of issue.

(3) Every such rule shall be published in the Gazette of India, and on such publication shall have effect as if enacted in this Act.

30. The enactments mentioned in the Schedule are hereby repealed to the extent specified in the last column thereof:

Provided that all securities purchased and notes issued under the Indian Paper Currency Act, 1905, or any Act thereby repealed shall, if undisposed of or in circulation at the commence-

ment of this Act, be deemed to have been respectively purchased and issued under this Act:

Provided also that all currency notes, which under section 29 of the Indian Paper Currency Act, 1905, are to be deemed to have been issued from the office of issue in the town of Cawnpore, shall still be deemed to have been issued from that office.

THE SCHEDULE.
ENACTMENTS REPEALED.

(See section 30.)

Year.	No.	Short title.	Extent of repeal.
1905	III	The Indian Paper Currency Act, 1905.	So much as has not been repealed.
1909	II	The Indian Paper Currency (Amendment) Act, 1909	The whole.

J. M. MACPHERSON,
Secretary to the Government of India.

**GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.**

The following Act of the Governor General of India in Council received the assent of the Governor General on the 18th February, 1910, and is hereby promulgated for general information:—

**ACT NO III OF 1910.
*An Act further to amend the Indian Penal Code.***

WHEREAS it is expedient further to amend the Indian Penal Code, It is hereby enacted as follows:—

1 This Act may be called the Indian Penal Code Amendment Act, 1910.
Short title. Code Amendment Act, 1910.

2. For section 75 of the Indian Penal Code the following shall be substituted, namely:—
Substitution of new section for section 75, Indian Penal Code.

“75. Whoever, having been convicted,—

(a) by a Court in British India, of an offence punishable under Chapter XII or

Chapter XVII of this Code with imprisonment of either description for a term of three years or upwards, or

(b) by a Court or tribunal in the territories of any Native Prince or State in India acting under the general or special authority of the Governor General in Council or of any Local Government, of an offence which would, if committed in British India, have been punishable under those Chapters of this Code with like imprisonment for the like term,

shall be guilty of any offence punishable under either of those Chapters with like imprisonment for the like term, shall be subject for every such subsequent offence to transportation for life, or to imprisonment of either description for a term which may extend to ten years.”

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 28.

GOVERNMENT OF INDIA. LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill further to amend the Indian Companies Act, 1882, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 18th February, 1910:—

WE, the undersigned, Members of the Select Committee to which the Bill further to

amend the Indian Companies Act, 1882, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Chief Commissioner, Coorg, No. 157, dated 19th August 1909; No. 1681, dated 7th September 1909; from High Court, Calcutta, No. 3111, dated 23rd August 1909; from Chief Commissioner, British Baluchistan, No. 4402, dated 17th September 1900 [Papers No. 1].
From Chief Commissioner, North-West Frontier Province, No. 1353-N., dated 25th September 1909 [Paper No. 2].
From Chief Commissioner, Ajmer-Merwara, No. 1417, dated 25th September 1909 [Paper No. 3].
From Government, United Provinces, No. 977, dated 28th September 1909, and enclosure [Papers No. 4].
From Government, Bombay, No. 9485, dated 30th September 1909, and enclosures [Papers No. 5].
From Government, Burma, No. 418-5-C-10, dated 12nd September 1909 [Paper No. 6].
From Government, Madras, No. 1281, dated 24th September 1909, and enclosures [Papers No. 7].
From Government, Eastern Bengal and Assam, No. 3619-1, dated 30th September 1909, and enclosure [Papers No. 8].
From Government, Punjab, No. 2829-S., dated 9th October 1909, and enclosure [Papers No. 9].
From Chief Commissioner, Central Provinces, No. C-73, dated 12th October 1909, and enclosure [Papers No. 10].
From Government, Bombay, No. 10003, dated 15th October 1909, and enclosure [Papers No. 11].
Telegram from Government, Bengal, dated 20th October 1909 [Paper No. 12].
From Government, Bengal, No. 2444-T. G., dated 3rd November 1909, and enclosures [Papers No. 13].

2. We have no alterations to suggest in the provisions of the Bill as introduced which, as explained in the Statement of Objects and Reasons, simply reproduce with the necessary modifications sections 91 and 104 of the Companies (Consolidation) Act, 1908

(8 Edw. 7, c. 69). Various amendments of those provisions have been suggested in the papers, but we are of opinion that for the present the wiser course is to re-enact the English law exactly as it stands, postponing any changes in its provisions until some experience of their operation in India has been gained. We understand that Government contemplate the enactment at an early date of a new Indian Companies Act modelled on the recent English Statute in which the provisions of the present Bill will be incorporated, and an opportunity will then occur, if any of those provisions are found to be defective, for removing those defects.

3. We would express our obligations to the Hon'ble Mr. Kesteven, who, though not a member of the Committee, was good enough to attend the Committee Meeting and give us the benefit of his practical knowledge of Company law

The 16th February 1910.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to provide for the prevention of the spread of Dourine was presented to the Council of the Governor General of India for the purpose of Making Laws and Regulations on the 18th February 1910:—

WE, the undersigned, Members of the Select Committee to which the Bill to provide for

From Agent to Governor General and Chief Commissioner Baluchistan, No. 4319, dated 14th September 1909, from Chief Commissioner, Coorg, No. 1762, dated 24th September 1909; from Agent to Governor General and Chief Commissioner, North-West Frontier Province, No. 128-Ag., dated 12th October 1909 [Papers No. 1]

From Chief Commissioner, Central Provinces, No. 492—XIII-10-20, dated 25th October 1909, from Government, Bombay, No. 10279, dated 25th October 1909, and enclosure; from Chief Commissioner, Ajmere-Merwara, No. 410-C., dated 23rd October 1909 [Papers No. 2]

From Government, Bombay, No. 10858, dated 8th November 1909, and enclosure; from Government, Eastern Bengal and Assam, No. 2898-E, dated 30th October 1909, and enclosure; from Government, Burma, No. 1501-M.—I-V.-26, dated 21st October 1909, from Government, Punjab, No. 711 (Rev.), dated 1st November 1909, and enclosure; from Government, United Provinces, No. 1729—XVIII, dated 16th November 1909 [Papers No. 3].

From High Court, Calcutta, No. 4261, dated 6th December 1909, from Government, Bengal, No. 3496, dated 15th December 1909 [Papers No. 4]

From Government, Madras, No. 3213, dated 23rd November 1909, and enclosures [Papers No. 5]

the prevention of the spread of Dourine was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

2. *Clause 2 (2).*—It has been represented that a case has not been made out for the extension of the Act *proprio vigore* to asses. We have accordingly altered the sub-clause so as to provide for such extension only in cases in which it appears to the Local Government to be necessary.

3. *Clause 5.*—We have inserted a rule-making power to control the action taken by inspectors under this clause.

4. *Clause 8.*—Objection has been taken to the form of this clause as originally drafted. We have brought it into accord with section 8 of the Glanders and Farcy Act, 1899, and have inserted in clause 14 a rule-making power to control the action taken under it.

5. *Clause 10.*—It has been represented that some security is required against excessive awards of compensation. We have altered the clause so as to make suitable provision for this.

6. *Clause 12.*—We have altered the period allowed for appeal from three months to two. It is important that there shall be no undue delay in the presentation of appeals.

7. We have transferred the provisions of clause 13 as originally drafted to a rule-making power in clause 14, and have inserted, as clauses 13 and 16, provisions corresponding to those of sections 12 and 16 of the Glanders and Farcy Act, 1899.

8. The publication ordered by the Council has been made as follows.—

[The portions printed in italics denote the alterations proposed by the Select Committee]

NO. II.

A Bill to provide for the prevention of the spread of Dourine.

WHEREAS it is expedient to provide for the prevention of the spread of dourine, It is hereby enacted as follows:—

1. (1) This Act may be called the Dourine Act, 1910
Short title and extent.

XI (2) This section extends to the whole of British India. the rest of this Act extends only to such areas as the Local Government may, by notification in the local official Gazette, direct.

2 (1) In this Act, the expressions "inspector" and "veterinary practitioner" mean, respectively, the officers appointed as such under this Act, acting within the local limits for which they are so appointed.
Definitions

(2) The provisions of this Act in so far as they relate to entire horses shall, if the Local Government, by notification as aforesaid, so directs, apply also to entire asses used for mule-breeding purposes.

3. The Local Government may, by notification as aforesaid, make such orders as it thinks fit directing and regulating the registration of entire horses maintained for breeding purposes.
Registration of horses

4 (1) The Local Government may, by notification as aforesaid appoint any persons it thinks fit to be inspectors, and any qualified veterinary surgeons to be veterinary practitioners, under this Act, and to exercise and perform, within any area prescribed by the notification, the powers conferred and duties imposed by this Act upon such officers respectively.
Appointment of inspectors and veterinary practitioners.

160. (2) Every person so appointed shall be deemed to be a public servant within the meaning of the Indian Penal Code.

5. An inspector may, subject to such rules as the Local Government may make in this behalf,—
Powers of inspector.

(a) enter and search any building, field or other place for the purpose of ascertaining whether there is therein any horse which is affected with dourine, and

(b) prohibit, by order in writing, the owner or keeper of any horse, which in his opinion is affected with dourine, from using such horse for breeding purposes, pending examination by the veterinary practitioner.

6. An inspector issuing an order under section 5, clause (b), shall forthwith forward a copy of such order to the veterinary practitioner.
Duties of inspector.

7. A veterinary practitioner receiving a copy of an order forwarded under section 6 shall, as soon as possible after receipt of such copy, examine the horse mentioned therein, and may for such purpose enter any building, field or other place.

8. A veterinary practitioner may—
Powers of veterinary practitioner.

(a) cancel any order issued under section 5, clause (b); or,

(b) if on microscopical examination he finds that any horse is affected with dourine,—

(i) in the case of an entire horse, cause it to be castrated,

(ii) in the case of a mare, cause it to be branded in such manner as he may direct, or with the previous sanction of the Commissioner or such other officer as the Local Government may appoint in this behalf, cause it to be destroyed.

9. When any horse is castrated or destroyed under section 8, the market-value of such horse immediately before it became affected with dourine shall be ascertained, and the Local Government shall pay as compensation to the owner thereof—
Compensation for horse destroyed, etc.

(a) in the case of a mare which has been destroyed, or of an entire horse which has died in consequence of castration, such market-value, and,

(b) in the case of an entire horse which survives castration, half the amount by which such value has been diminished owing to infection with dourine and castration.

10 (1) A veterinary practitioner may award, as compensation to be paid under section 9 in respect of each horse castrated or destroyed under section 8, a sum not exceeding two hundred and fifty rupees.
Settlement of compensation.

(2) If in the opinion of a veterinary practitioner the amount which should be paid as such compensation exceeds two hundred and fifty rupees, he shall report accordingly to the Collector, who shall decide the amount to be so paid.

11. (1) The Local Government shall, by rules published in the local official Gazette, make provision for the constitution of a committee or committees for the hearing of appeals from decisions under section 10.
Committees for hearing appeals.

(2) Such rules shall provide that not less than one member of any committee constituted thereunder shall be a person not in the employ of Government or of a local authority.

12 Any owner may, within two months from the date of a decision under section 10, appeal against such decision to the committee constituted in that behalf by rules made under section 11, and the decision of such committee shall be final.
Appeals

13 (1) Whoever, being an inspector appointed under this Act, vexatiously and unnecessarily enters or searches any field, building or other place, shall be punishable with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both

(2) No prosecution under this section shall be instituted after the expiry of three months from the date on which the offence has been committed

14 (1) The Local Government may make Rules for the purpose of carrying into effect the provisions of this Act.

(2) In particular, and without prejudice to the generality of the foregoing power, such rules as aforesaid may—

- (a) regulate entries, searches and orders by inspectors under section 5,
- (b) regulate the action to be taken by veterinary practitioners under section 8, and
- (c) make provision for the payment of compensation to the owner of any mare branded under section 8.

(3) All such rules shall be published in the local official Gazette, and, on such publication, shall have effect as if enacted in this Act.

(4) In making any rule under this section, the Local Government may direct that a breach of it shall be punishable with fine which may extend to fifty rupees

15. Whoever uses or permits to be used for breeding purposes—

Penalties.

- (a) any horse which has not been registered in accordance with the requirements of a notification under section 3 or
- (b) any horse in respect of which an order under section 5, clause (b), is in force, or
- (c) any mare which has been branded in pursuance of section 8, clause (b), shall be punishable with fine which may amount in the case of a first conviction to fifty rupees or in the case of a second or subsequent conviction to one hundred rupees.

16 No suit, prosecution or other legal proceeding shall lie against any person for anything which is, in good faith, done or intended to be done under this Act.

J. A. MACPHERSON,
Secretary to the Government of India

SUPPLEMENT TO
The Gazette of India

No. 8 } CALCUTTA, SATURDAY, FEBRUARY 19, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees 112 per annum if delivered in Calcutta or Rupees 116 if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on ^{Tuesday} Thursday,
the 17th February 1910, based on the Indian Daily Weather
Reports of the period.**

A well marked depression entered northwest India from the west on the 11th, but it followed a more northerly course than usual, and in consequence it was only in the west Himalayas and submontane districts that any precipitation of importance occurred. In these areas the precipitation was general and in places moderately heavy, a few thunder-showers also occurred in east Rajputana. A warm wave preceded the depression and travelled right across northern India giving much warmer weather than usual, but with its disappearance temperature fell and at the close of the week was generally normal. Conditions were slightly unsettled in south Burma and a moderate amount of rain fell in south Tenasserim.

Burma.—Rain fell in south Tenasserim on several days and a light fall was reported from Toungoo on the 16th. Skies were cloudy in the southern half of Burma during the period of disturbed weather and were generally clear on other days. Night temperature was normal or in excess during the latter half of the week, but day temperature was normal throughout the period.

Northeast India, including Orissa—There was some rain in the upper Brahmaputra valley on the 15th. Skies were clear or lightly clouded. Maximum temperature was higher than usual on most days and the minimum was generally normal.

The United Provinces, Central India and the Central Provinces.—Moderately heavy snowfall occurred in the hills, and light rainfall in the plains in the northwest of the United Provinces; light rain fell in the Sutna district of Central India. Skies were overcast in the northwest of the United Provinces on the 13th and 14th and were clear or lightly clouded in the rest of the division. Weather was much warmer than usual during the day time in the United Provinces and Central India up to the 14th and at night also on several days.

Northwest India.—Precipitation was moderately heavy and general in the west Himalayas and submontane districts. Skies were overcast in the area of precipitation during the first half of the week and were clear or lightly clouded elsewhere. Maximum temperature was in moderate to large excess up to the 13th and normal for the rest of the week while minimum temperature was normal or in excess.

The Peninsula—Skies were generally clear and temperature normal.

The following summarises the chief rainfall amounts as reported at 8 hrs. each day:—

February 13th	Sialkot 0.81", Rawalpindi 1.47", Murree 0.72" and Cherat 1.15".
" 14th	Dehra Dun 0.75", Muktesar 1.05", Chakrata 2.03", Simla 1.06", Sonemarg 0.92", Srinagar 0.97", Rawalpindi 1.17", Sialkot 0.51", Ambala 0.80" and Delhi 0.50"
" 15th	Mergui 1.76"
" 16th	Mergui 0.71"

The rainfall for the week was in excess in Lower Burma, the east and north Punjab and Kashmir, and in defect elsewhere. The total rainfall for the period from the 3rd December 1909 is more than 20 per cent. below normal in Assam, Bihar, the east of the United Provinces, Baluchistan, the east of Central India and almost the whole of the Peninsula.

DIVISION.	RAINFALL DATA FOR WEEK ENDING ON 17TH FEBRUARY 1910.			RAINFALL DATA FROM 3RD DECEMBER 1909 TO 17TH FEBRUARY 1910

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 12th February 1910.

Burma—Some rain fell in Mergui only. Threshing and winnowing of winter rice is approaching completion. Sowing and transplanting of spring rice are in progress. Clearing of hill sides for miscellaneous cultivation has commenced. Agricultural operations for miscellaneous spring crops are proceeding normally. Standing crops are doing well.

Eastern Bengal and Assam—The weather is dry. Rain is needed for standing crops. Transplantation of spring rice is going on with good prospects. Pruning and hoeing of tea, pressing of sugarcane and harvesting of mustard are in progress. Preparatory cultivation for jute and other autumn crops continues. Prospects of linseed, wheat, tea, tobacco, sugarcane and mustard are good. The average price of common rice has fallen by one per cent in Dacca, Mymensingh, Sylhet, Darrang and Sibsagar.

Bengal—There was no rain during the week. Harvesting of oilseeds and pulses continues. Sugarcane pressing is in progress. Preparation of lands for the next season's crops is going on. Threshing of winter paddy is approaching completion. The standing spring crops are doing well. Prospects are good. Insects have done some damage to *rahar* and oilseeds in parts of Monghyr, and *rahar* and gram are reported to be suffering from want of moisture in parts of Ranchi. The price of common rice has risen in Burdwan, Howrah, Champaran, the Sonthal Parganas, Angul and in the districts of the Presidency division, excepting the 24-Parganas, and has fallen in Gaya, Saran and Purnea. Cattle disease is reported from eight districts. The fodder and water supply is sufficient throughout the Province.

United Provinces.—Three districts report rain varying from 7 to 30 cents. Standing crops are excellent. Poppy is doing well. Fields are being prepared for sugarcane and extra crops. Wheat and barley are in ear. Harvesting of peas is in progress. Slight damage to mustard from insects is reported. The condition of agricultural stock is generally good but disease continues in parts of ten districts. Fodder and supplies are sufficient everywhere. Prices are generally stationary but falling in five districts.

Punjab—Good to moderate rain has fallen in Gurgaon, Amritsar and parts of Rohtak, Ambala, Jullundur, Ferozepore, Sialkot and Rawalpindi which has benefited the standing crops. Pressing of sugarcane continues in some districts and the outturn is good to average. Standing crops are generally in good condition and average in Multan only. Sowings of extra spring crops are in progress in Delhi. Hail stones fell in Rohtak and Ferozepore but damage to the vegetable crops is reported from the latter district only. Rats are damaging the standing crops in Rohtak. Prices are generally unchanged. A slight rise in prices of certain articles is reported from three and a slight fall from four districts. Cattle are generally in good condition. Fodder is scarce in Jullundur and in parts of Shahpur and Mianwali, but sufficient elsewhere.

North-West Frontier Province—Rain averaging from 5 cents in Bannu and 93 cents in Hazara fell all over the Province, except in Dera Ismail Khan. The rain was beneficial especially to unirrigated crops. The condition of standing crops is generally good throughout the Province. Pressing of sugarcane still continues in some parts of the Peshawar and Bannu districts. Planting of sugarcane is in progress in the Bannu district. Sowings of extra spring crops are in progress in the Dera Ismail Khan district. Lands are being prepared for extra spring sowings in the Peshawar and Bannu districts. Irrigation from the Paharpur Canal in the Dera Ismail Khan district is still stopped. The water supply and fodder are sufficient except in the Shigga Circle of the Marwat tahsil of the Bannu district. The condition of cattle is generally good except in two villages of the Nowshera tahsil of the Peshawar district. The public health is generally good. Prices, except those of maize, are stationary. Prices.—Wheat 11 to 14; gram 16½ to 22, maize 17 to 22½; bajra 16½ to 18 and barley 19½ seers per rupee.

Jammu.—The rain was generally good. Prices are fluctuating. Wheat sells from 11½ to 20 and maize from 16 to 26 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Kathua and Basohli tahsils of the Province. Fodder is sufficient.

Kashmir.—Snow and rain fell once during the week which did good to spring crops. The condition of spring crops is good. Ploughing for autumn crops has commenced. There is no disease among cattle. Fodder is average except in flooded villages. Prices are unchanged.

Rajputana.—Spring crops are progressing. Slight damage is reported to the gram crop in Partabgarh. Cattle are in good condition. Fodder is sufficient. Prices are rising in Bikaner, Jaisalmer, Bundi, Kotah, Jhalawar, Jaipur and Karauli and are steady or falling elsewhere.

Central India.—Rainfall *nil*. Threshing of autumn and irrigation of spring crops continue. Crops have been damaged slightly in Gwalior, Indore, Bundelkhand, Malwa and Bhopal. Agricultural stock are good except for some disease in Indore, Baghelkhand, Bundelkhand and Bhopal. Prices are fluctuating in Indore and Bhopal; have risen slightly in Malwa and are high and steady elsewhere. Watering and weeding of poppy continue.

Central Provinces.—The weather has been clear and the nights and mornings cool but the days are becoming warm. Threshing and winnowing of autumn crops are still in progress in five districts. Cutting of spring crops continues. Prospects are generally favourable all over the Provinces. Preparation of land for sowing of the ensuing season's crops began in Nimar and Berar. The supply of fodder and water is adequate and cattle are doing well. Prices.—The price of *juar* remained stationary in seven districts, wheat in 18 and rice and gram in 19 districts. *Juar* in Nimar and Buldana became dearer and in Nagpur and Bhandara cheaper by 1 to 2½ seers per rupee. The price of gram fell in Damoh and Raipur by 1 seer. Prices elsewhere are steady.

Feudatory States.—Harvesting of pulses and linseed has been started in 5 States. The condition of standing crops is generally good everywhere. Fodder and water are sufficient. Prices.—Rice fell in Kawardha and rose in Sarangarh by 1 seer per rupee.

Bombay.—Standing crops are suffering from insufficient moisture in parts of Poona and Solapur, they have been damaged slightly by insects in parts of Karachi and Hyderabad, by rats in West Khandesh, by frost in Karachi and the Upper Sind Frontier and are generally good elsewhere. Threshing of autumn crops continues in parts of the Konkan, Khandesh Poona and Palanpur. Harvesting of spring crops is in progress in parts of Hyderabad, Gujarat, Kanara, the Deccan, the Karnatak, Baroda, Cutch and Kolhapur. Cotton picking is progressing in parts of Gujarat, Bijapur, Belgaum, Kathiawar, Baroda and Cutch. The fodder supply is generally adequate. Agricultural stock are sufficient except in parts of the Deccan and generally in good condition. Drinking water is generally sufficient. Irrigation water is deficient in parts of Nasik, Poona and Belgaum. Grain stocks are sufficient. Prices have fallen in Colaba, have risen in Larkana, the Panch Mahals and Poona and are stationary elsewhere. The quantity purchasable per rupee is in Sind 20 to 41, in Gujarat 3 to 29, in the Konkan 2 to 38, in the Deccan 10 to 32 and in the Karnatak 20 to 32 per cent. less than the normal.

Hyderabad.—No rain fell during the week. Harvesting of spring crops continues and the crop is generally fair to good except in parts of the Warangal, Nalgonda and Karimnagar districts where it is poor. Some damage is still being done to crops by rats in parts of the Khuldabad taluka of the Aurangabad district. Harvesting of the castor seed crop is almost finished and its outturn is estimated at eight or below eight annas. Late rice sowings still continue in a very few parts. The crop is being weeded in places and is generally fair but the area is limited as tanks have not filled. Water scarcity is reported in parts of Lingsugur in the Raichur district, Janwada in the Bidar district, and Sultanabad in the Karimnagar district. The water supply is decreasing in the Ashti taluka of the Bir district, Palam in the Parbhani district, Udgir in the Bidar district, Paloncha in the Warangal district, Chinnur in the Adilabad district, Alampur, Gangawati, Kushtagi and Manvi in the Raichur district and Jagtial, Karimnagar and Mahadeopur in the Karimnagar district. Cattle disease is reported in five talukas and fodder scarcity in fourteen. Prices.—Wheat 7, coarse rice 7 and *juar* 14½ seers per rupee. White and yellow *juar* are selling in Hyderabad City at 13 and 15 seers per rupee respectively. The highest price in districts is 9 seers in Chinnur of the Adilabad district and the lowest 23 seers in Ahmadpur in the Rajura taluka of the Bidar district.

Mysore.—Prices of food grains have fallen slightly in Shimoga and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Cattle are generally healthy. Water and fodder are available.

Coorg.—Picking of coffee and harvesting of rice continue. Prices of food grains have fallen slightly. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—No rain fell during the week. Irrigation supplies are sufficient in Ganjam, Vizagapatam, North Arcot, Malabar and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Guntur, Cuddapah, the Carnatic, Central and South have withered or are withering or require more rain. Harvests continue with outturn poor to normal and bumper. Pasture is sufficient except in parts of the Circars, the Deccan, Nellore, Coimbatore, Tinnevely and South Canara. Fodder is scanty in parts of Guntur and Nellore. The condition of cattle is generally good. The price of rice is stationary in eleven districts; has fallen in seven and has risen in five. The prices of millets have fluctuated as follows.—*Ragi* is stationary in ten districts; has fallen in six and has risen in five. *Cholam* is stationary in six districts, has fallen in seven and has risen in one. *Cumbu* is stationary in eight districts; has fallen in three and has risen in four. The public health is generally good except in Tanjore. Prospects are generally fair though more rain is required in Nellore, Chingleput, South Arcot and Salem. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are generally sufficient.

**SPEECH OF THE HONOURABLE FINANCE MEMBER
INTRODUCING THE FINANCIAL STATEMENT
FOR 1910-1911.**

**FINANCIAL STATEMENT OF THE GOVERNMENT
OF INDIA, FEBRUARY 1910.**

SPEECH OF THE HONOURABLE FINANCE MEMBER INTRODUCING
THE FINANCIAL STATEMENT FOR 1910-1911.

Introductory.

On this occasion, when the first Financial Statement under the new rules is presented to our greatly enlarged Council, I may be permitted to indulge in a brief retrospect. In February, 1860, just fifty years ago, my predecessor and namesake, the Right Honourable James Wilson, in an elaborate speech, laid the earliest of India's annual financial statements before the Legislative Council of those days. His speech, as I have said, was elaborate, it covered the whole ground of the financial and economic position of India. But the accounts which it introduced were set forth in a single short table, printed on a sheet no bigger than the proverbial sheet of note paper. To this were appended a few statistics of debt, trade and cash balances, the whole thing barely occupied ten octavo pages. There was of course no discussion. The revenues for the coming year were estimated at £38 millions and the expenditure at £42 millions. The total external trade, imports and exports combined, was valued at only £60 millions (it is now over £200 millions) and the total debt of India was £98 millions (it is now over £250 millions). We have gone a long way in these fifty years, and our conditions are widely different from what they were in 1860; but there is a curious parallelism between parts of Mr Wilson's speech and some of the things which I shall have to say to-day. He had to deal with a deficit; he had to convey a grave warning (which was long unheeded) of the precarious nature of our opium revenue; and he had—as alas! is my fate also—to suggest additional taxation.

2 It is not, however, the matter, but rather the form and the treatment, of our financial statements that I set out to review. The full expository speeches and the brief figured tables were continued by Mr. Wilson's successors for thirteen years; though about 1866 we find the abstract of revenue and expenditure developed and classified into major heads—a far shorter list than we now have, but numbered and arranged much in the present style. In 1873 and for the three following years, there were no Budget meetings, the old law of 1861 did not permit the Council to meet for other than legislative business, and the finances of those years involved no legislation. The statement in those circumstances took the shape of a formal minute published in the *Gazette*. In 1877, however, with a great famine overshadowing the finances, a Budget meeting had again to be convoked, and the statement was presented by Sir John Strachey in a speech of portentous length. It occupied 40 pages of printed foolscap, and was supplemented by another 34 pages of a minute in which the Finance Member examined the figures in fresh detail. In 1881, Major Baring (now Lord Cromer) restored comparative brevity; but in 1882 he reverted to a speech which occupies 52 printed pages, explaining that there was no other means of describing the figures with accuracy, and that his attempt at condensation in the previous year had been misunderstood. After that, came a series of annual minutes, with a wealth of detail, but a decided tendency to technicality. During this period the form in which our figured statements are now shown was worked out under Lord Cromer's orders; and in 1890, Sir David Barbour split up the explanatory speech or minute into two parts. His intention evidently was that the first part should be mainly a discussion of policy and the second an examination of results. It was some time before this ideal was reached and Part I in the course of years got more and more overloaded with figures technical and difficult. But in 1900, Sir Clinton Dawkins got back to the original idea. Part II, prepared by the Financial Secretary, became a detailed exposition of the figures, adapted to the student or the specialist; while Part I was the speech used by the Finance Member for a broader review of the position and for his declarations of financial policy.

3 Of the nature of the discussions on the past Financial Statements I need say little, as they were described in a picturesque passage of the speech with which Sir Edward Baker summed up the Budget debate of two years ago. Prior to 1892 no discussion at all was permissible. In the following year the rules under the Indian Councils Act, 1892, had come into force, and members were at liberty to offer any observations they might wish on the Statement, but not to put any motion or divide the Council. The observations allowed by the rules became in time lengthy and

comprehensive non-official members ranged over the whole field of Indian administration, and official members were drawn into the defence of the acts and policy of their departments. There was no other recognised occasion during the legislative session, either for the former to criticize or for the latter to expound.

4 So much for the old order which is now passing. Let me turn to the new. What I submit to the Council to-day is the result of direct evolution from the system that has been worked out during the last fifty years. The Financial Statement which the new rules prescribe will be found in the set of tabulated figures displaying, in their logical and time-honoured classification, the closed accounts of last year, our latest estimates of revenue and expenditure for the current year, and our preliminary forecast for the ensuing year. The explanatory memorandum which the rules require is the old Part II of previous years. It is prepared, however, in greater detail than before, yet with less repetition, and an attempt is made in it to explain succinctly the movements of the figures under each important head of account, as well as to give a conspectus of our Ways and Means operations. But, in order to summarise the lessons of the figures and to review the general position, I propose to retain, in the remarks which I shall now offer to the Council, our old Part I in a slightly different and less technical garb.

5 As regards the discussion, a still greater change will mark the new procedure. To-day the rules do not permit discussion. It would in any case be manifestly unreasonable to expect members to speak, almost on the spur of the moment, upon the large and complicated questions which emerge from the Financial Statement. But on a later date, which I believe Your Lordship intends to fix for next Friday, the Council will proceed to what roughly corresponds with the Committee stage of the estimates in the House of Commons. We shall take up first the consideration of our proposals for fresh taxation, for a new loan, and for additional grants to Local Governments. Then, after a short interval, the Council will again assemble in what I may term Committee of the whole House; and each "major head" in the accounts which is open to discussion will be explained in turn by an official member who has special knowledge of the branch of the administration concerned. At both of these stages it will be open to any member by way of resolution after due notice given, and subject to a few reservations, to call attention to any matter which is directly relevant to the figures under consideration, to criticise the necessity for any entry, or to ask for further information regarding it. All such resolutions, if in order, may be duly debated. In this way ample opportunity will be afforded for a genuine scrutiny of the estimates by the Council, and for a criticism which is based on precise facts. We believe that the result will be helpful to the Government, and will foster the growth of an informed public opinion upon the vital problems of our public finance. Having, during a public service which covers a period not far removed from half a century, attended nearly every financial debate in the Mother of Parliaments, I hope that Members of Council that it is rather presumptuous if I venture, in passing, to impress upon

items of expenditure than by the framing of abstract resolutions on organic changes in financial policy that economy can best be attained. Also that advantageous services can be more readily provided for by means of savings effected, than by appeals for additional funds which the finances of India cannot produce without casting additional burdens upon her people.

6. Towards the end of March—the 23rd being the date fixed for this year—I shall present the Budget in its final form, after embodying in it all corrections that may result from the detailed discussions and any other changes which the passage of time may necessitate. On that occasion there will be no further debate. At an adjourned meeting, however—fixed for the 29th March—members will be at liberty to make observations on the Budget, without moving resolutions or asking the Council to divide. In addition to the new and more intimate discussion on the detailed figures, we thus retain the old liberty of general criticism. But I trust that the closing debate will be materially shortened after the comprehensive examination to which the estimates will have been subjected at their earlier stages. I may also venture on a hope that questions of wide general policy will not, so far as possible, be tacked on to these proceedings. Other opportunities are now given for raising debates on matters of general interest, and it will be more convenient to us all, and more economical of time, if these opportunities are taken, instead of loading the Budget with disquisitions on side issues. There are, it is true, very few aspects of our administration which are not reflected in our Budget: but after all the Budget is primarily a provision for the public services of the coming year. It is a business document, and it will be to our credit as a Council if we handle it in a business-like manner.

Revised Estimate of 1909-1910.

7 When I introduced the Budget for the current year, I entered a plea for caution and economy. On almost every side there were auguries of better harvests and reviving trade. But recovery was likely to be slower than it had been in times of the country's convalescence from previous famines, because the trade conditions of the world remained dull and unsettled. A year ago, prices were still high; the country was still feeling the effects of over-speculation and a glut of imports, and the loss of our opium revenue was a standing menace. That caution has been justified; but we have also been justified in our resolution to face the difficulties of the year without extra taxation, and we now believe that the year will close with a surplus remarkably close to, and slightly in excess of, the small margin of revenue for which we budgeted.

8 From the agricultural point of view, the year has been a good one, and the country may be said to have shaken off the effects of the drought of 1907. At the beginning of last April, it is true, there were still over 100,000 persons in receipt of State relief, but distress during the hot weather was nowhere very severe. It was confined for the most part to limited areas in Bihar and the United Provinces, and by July all relief operations were closed. Except in Bengal and parts of the United Provinces, which suffered from a shortage in the winter rains, the outturn of the spring harvest was not unsatisfactory. Later, the improvement became more definitely marked, for the monsoon broke early and the rainfall was unusually abundant and well distributed in nearly every part of the country. Famine and scarcity were at last at an end. The autumn and winter harvests were everywhere good, and in many places excellent. Bumper rice crops have been reaped in Bengal and Eastern Bengal, while the autumn harvest in the Punjab is estimated to be 21 per cent in excess of the average for the previous five years. The only complaints we have heard — and they are not serious — come from some of the Madras districts which are suffering from the failure of the north-east monsoon in October. In them however the excellent rainfall of the previous months replenished the various sources of irrigation, and no serious anxiety is felt, though the yield of the cold weather crops cannot be a full one. In all other parts of the country the accounts of the spring crops are very satisfactory though more rain would be useful in some places. If no untoward event occurs in the next month, an excellent harvest should usher in the ensuing year.

9. It was natural therefore and proper that, when the end of the regular monsoon showed the agricultural position to be assured, a general air of hopefulness should pervade the country. I am afraid however that it did not penetrate the Finance Department, where the state of the public exchequer was felt to be by no means free of anxiety. On making our usual preliminary revision of the estimates in November, we found falling prices, easy money, and a tangible rise in the purchasing power of the people. Trade however was still slack, and the recovery seemed likely to be slow, irregular and hesitating. The land revenue, including large amounts of famine arrears, had been coming in well, but in nearly every other important respect our receipts were below expectations. The most disappointing section was our Railway earnings, which reflected the slowness of the general improvement being almost a crore short of what we had counted on realizing by the end of October. Backward Customs returns, particularly from piece-goods and silver, indicated how seriously the import markets had been glutted, and a marked shortage in the Post Office receipts bore testimony to the dullness of general business. Our revenue from Forests, from Salt, from Excise, was also behindhand, while on the other side of the account, our budgeted expenditure seemed likely to be fully required. We were therefore compelled in ordinary prudence to explain the situation to our big spending Departments and to Local Governments, and to call upon them to exercise all possible economy in view of our diminished resources. The appeal was loyally responded to, and the savings in expenditure which were thus secured have played a considerable part in the improvement of the financial position that has taken place since November.

10. To that change there have been other contributory factors — the good harvest of cotton and oilseeds, with their effect both on railway traffic and on the spending power of the peasantry; the increasing activity of the import market, and the big rice movements which are beginning in Burma with the accompanying rise in export duties. But the most dramatic feature in the situation has been the sudden and unexpected development of our Opium revenue. I must diverge for a moment to explain this movement and the events which led up to it.

11. As I mentioned last March, we intended to sell 42,300 chests of Bengal opium during the current financial year, and in view of the fluctuating mood of the China market, we based our estimate of receipts on the cautious average of Rs 1,350 a chest.

In Malwa we had apparently reached a curious *impasse*. The Bombay godowns were full, and duty had been paid in advance upon a very large quantity of opium which still lay in Malwa and which the recently imposed restrictions would not allow to be shipped until 1910. In the circumstances, though it was impossible to foresee how the trade might move, we assumed that further payments of duty against the 1911 shipments might be expected, and we budgeted cautiously for the receipt of duty upon something between 8,000 and 9,000 chests. Up to October, our moderation seemed justified. The China market was dull, with a slightly rising tendency. The prices fetched by our Bengal opium varied between Rs. 1,150 and Rs. 1,450, and the clearances from Malwa were not more than would ordinarily be required for home consumption. In October however a sharp rise in the China prices took place. I need not discuss the complicated factors in the remarkable speculative movement which was thus established, and over which, so far as the China market is concerned, we had of course absolutely no control. The first result of the movement was another rush to pay duty in advance. The trade had got wind of our proposal—to which I shall allude hereafter—to give Malwa a larger share of the 1910 exports, and although we had guaranteed no priority of shipment after 1910, the exporters were prepared to take their chance and, so to speak, to register their claims. During the first half of November, duty was paid on 17,000 chests, when the Indore authorities very properly stopped the rush and refused to receive any more payments. We were at the time in correspondence with the Secretary of State regarding the distribution, as between Bombay and Calcutta, of our reduced exports; and as soon as that matter was settled, we decided how to deal with our unexpected windfall of revenue. The decision was to retain the duty paid in respect of chests which under our revised programme could be shipped in 1911; to grant priority of shipment to those chests in the order in which duty had been received; and to refund all payments that had been made in respect of chests which could not be either used for home consumption or exported to China in 1911, thus leaving us a free hand regarding the 1912 exports. This closed the episode for the time being, so far as concerns the Malwa revenue. But the excitement in the China market had an immediate and startling effect upon our Calcutta prices also. From Rs. 1,439 a chest in October, the selling price suddenly bounded up to Rs. 1,800 in November, and even this price, unprecedented for nearly half a century, was outstripped in January, when the average ran up to Rs. 2,044, only to be again and still more strikingly exceeded by the figure of Rs. 2,397 which was obtained at the sale in the current month.

12. The net result of this great appreciation in the value of Indian opium in China is that our revenues in the current year, after deducting the refunds to which I referred above, will gain about £1,000,000 beyond what we budgeted for. So far as possible, the windfall has been utilized on the sound principle of meeting non-recurring liabilities which would otherwise have hampered our finances in future years. We have in this way been enabled to restore the depleted balances of Bengal, Eastern Bengal and Assam and the Central Provinces, to complete our promised grant to the Rangoon river training scheme, and in various other directions to fulfil obligations which will lighten the burden on the general revenues hereafter.

Such being the main features in this eventful and difficult year, I proceed to show how far our original estimates of revenue and expenditure have been supported or modified by the results as we can now forecast them with the actual figures of ten months in our possession. I shall do so in round figures and on general lines, neglecting minor variations,

Revenue

13. The total revenue which we expected, when our Budget for the year was framed, was £73,750,900. The revenue we now hope to realize is £74,303,700, being an improvement of £552,800. The Provincial section will be better by £798,700, the bulk of which comes from the improvement in land revenue and from the additional grants that we are making to three Local Governments. The Imperial section, on the other hand, shows a deterioration of £245,900 and it is to the explanation of this figure that I invite the Council's attention.

14. Land Revenue is the first head under which our estimate has been materially varied. The fine harvests have enabled the current revenue to be collected promptly, as well as an unexpectedly large slice of the arrears which lay over since the late famine. The total increase over our Budget figure will be £393,000. The Imperial portion of this would be roughly one-half but instead of sharing in the increase, the Imperial Government is actually credited with an amount of Land Revenue which is worse than our original estimate by £494,000. The apparent anomaly has already been explained, for it is by transferring the necessary amounts from our own share of the receipts under this head to the Local Governments concerned that we give effect to the

grants made to the two Bengals and the Central Provinces in aid of their diminished balances. Apart from this, all the other gains and losses to the Imperial revenues are true gains and losses, and not mere transfers to Provincial exchequers. The largest of the gains is the £1,106,000 (gross) by which we benefit from Opium and the heaviest of the losses is £644,000 by which our total net Railway earnings are expected to fall short of our Budget Estimate. Of the latter, about £73,000 is due to small excesses in the working expenses on certain railways where the charges for repairs, renewals and coal had been under-estimated. The balance represents a shortage in the traffic returns, due to the slow recovery in business, the tardy movement of crops, and the depression in the coal trade. Lines serving the Gangetic plain and its adjoining country are most prominent among the losers: the Great Indian Peninsula Railway, with its big cotton connection, and the lines which traverse Southern India have done very much better; but the losses outweigh the gains.

15. I would now ask the Council for a moment to balance these three divergencies from our original figures. On the one hand we have the windfall of £1,106,000 from Opium. This is a departure from our estimates which is due to the vagaries of a market influenced by wholly abnormal causes and entirely outside our control. Upon the other hand we have, first, the reduction of £494,000 in the Imperial receipts from Land Revenue. As I have explained, this is more than accounted for by the grants made out of our opium receipts to Local Governments and to local bodies in order to fulfil obligations that we should otherwise have had to defer. Secondly, we have the drop of £644,000 in our net Railway receipts. You see how closely these three variations balance; and now, if you exclude them, you will find that the aggregate discrepancy between the Budget estimate and that which I now present, taking all our other sources of Imperial revenue, is the comparatively small shortage of £213,000. In this total there are no individual fluctuations of any importance, and I venture to say that the result is not an unsatisfactory proof of the care with which our original estimates were framed, and that it reflects very great credit on the officers of the Finance Department.

16. The most prominent of the minor differences appear under Customs Excise and Interest. The Customs revenue will probably fall about £157,000 below our Budget figure. The imports of petroleum, metals and manufactured articles generally have been dull, and the lateness of this year's rice exports has helped to pull down our estimate, in spite of the higher yield from silver and from Java sugar. Excise will yield us about £246,000 less than we had budgeted, and half of this loss will fall on Imperial revenues. The steady progress of reform (including the curtailment of outstill areas) and the continuous rise in our excise duties have gone far to check the rapid expansion of the revenue from intoxicants which took place during the recent cycle of prosperity, and in some parts of India these influences appear to have been supplemented by very welcome movements in favour of temperance. The variation under Interest is in the opposite direction from those I have just mentioned. It shows an improvement of £159,000 over the Budget figure, due partly to increased receipts from interest on overdrafts of railway capital by companies in India, and partly to the successful employment by the Secretary of State of his spare balances in short loans to the London money-market.

Expenditure

17. I turn now to the expenditure of the year which is coming to its close. We had budgeted to spend £73,720,500; our latest figures indicate that we shall need only £73,350,700, and that the Imperial share of the saving will be £284,600. To this very satisfactory result the chief contributor has been the Army. The total reduction on our budgeted provision for Military Services will be about £391,000, effected partly in generous response to our call for economy last November, and partly by shorter purchases of ordnance and other stores in England. I shall return to this subject in more detail a little later. The other chief economies occur under the salaries and contingencies of the various Civil Departments, where we expect a saving of £122,000, and under the charges on account of Civil Works, which will be £113,000 less than we provided in the Budget. We have thus been able, not without some real sacrifices, to secure a genuine curtailment of expenditure amounting, under these few prominent heads, to no less than £626,000, and there are a number of minor reductions which I do not stop to specify. Against these, there are outstanding excesses over the Budget grants under three heads, but it is gratifying to observe that in two of these cases there has been only a nominal, and not a real, increase of expenditure. The first of these is Refunds, where we shall require an addition of £128,000 to our original figure; this being almost wholly due to our decision, as I have already explained, to return the duty paid on Malwa opium which cannot be sent to China.

before 1912. The second case of nominal over-spending appears under the Famine Relief and Insurance grant. By the peculiar constitution of that grant, any lapse in the budget allotments either for famine expenditure (whether Imperial or Provincial) or for protective works, in a year when the total grant does not exceed the prescribed million, is not added to our revenue surplus but goes automatically to swell that portion of the grant which is used for the reduction or avoidance of debt. In other words, it is cast into our general balances with a view to capital expenditure, and must thus be debited against revenue. The result in the current year is that the Imperial share of the Famine grant will be raised by £91,000, being the amount by which the grants taken by Local Governments for the cost of direct famine relief have happily proved to be unnecessary. The third chief excess over budget provision appears in our Interest charges, which we expect to be £126,000 higher than the original estimate. This is partly due to a smaller share in the total having been charged to the Railway and Irrigation accounts, partly to a change in the average rate, which is recalculated on the latest data every year, and partly to the higher discount which the Secretary of State had to pay on his India bills in England.

18 I may now briefly summarize the finances of the year, so far as the Imperial section of the accounts is concerned. We budgeted for a surplus of £230,900: we now hope to realize a surplus of £269,500. Our revenue has declined by £245,900 but our charges have been reduced by £284,500, the balance of £38,600 representing the improvement in our surplus. Considering the difficulties of the year, I regard this result as distinctly satisfactory. It is possible that some further changes may be necessary before we finally dispose of these estimates at the end of March, for the Council will fully realize that the present statement is—technically at least—a preliminary draft but I do not anticipate any substantial alterations.

Budget Estimate for 1910-1911.

19 It is with some reluctance that I leave the narrative of a chequered but not unsuccessful year, to take up a less agreeable task. The new financial year which will begin five weeks hence, gives promise of opening under favourable auspices, with good harvests, active markets, expanding trade. The heavy remittances of capital from abroad, both in gold and in Council drafts, testify to the prosperity which is expected in the private finances of the country. Do we anticipate an equal buoyancy in its public finances? In many respects I do. We believe that, if the monsoon rains are adequate, the land revenue will be punctually collected, that our customs receipts will rise, our railways do well, and most of our other heads of revenue show an improvement. But unfortunately I cannot expect a surplus, without the help of additional taxation, which accordingly it will be my unenviable duty to propose. For this state of affairs there are two plain and adequate reasons. In the first place, the reduction of our exports of opium to China will cause a serious fall in our opium revenue. In the second place, we are obliged to abandon to Eastern Bengal and Assam a much larger share of its land revenue than it has hitherto retained, for the present resources of the Local Government have proved quite insufficient for the needs of the new province. These two factors dominate the position for 1910-11. Apart from them we should have been able to meet the normal growth of our expenditure from our growing revenues. Though I view with grave anxiety the steady growth of our expenditure, yet I realise that, without a general re-casting of our scale of public charges, we cannot extend indefinitely those retrenchments of a temporary and emergency character which have been forced upon us in the last two years. I should have been prepared therefore to budget for a moderate addition to the current year's charges and to look to the natural improvement of our resources to cover that addition without asking for any extra taxation. But the loss under Opium and the needs of Eastern Bengal have made equilibrium impossible, and a permanent strengthening of our resources is inevitable. The best way in which I can explain the situation will be to take the Council through the allotments which we wish to make for expenditure in 1910-11, to examine how far our revenue, in normal conditions and with the existing scale of taxation, would have been sufficient for our charges, to show where, and by how much, it will fall short, and finally to describe the special measures which we consider necessary to equate our resources with our requirements.

Expenditure.

20. The total expenditure which we have to provide for in 1910-11 is £75,652,500. This is £2,301,800 in excess of our total estimated expenditure in the current

year; but £1,101,000 of the difference is due to increased charges which will be met from Provincial resources, so that the Imperial increase which I have to justify is roughly £1,200,000. The Council may take it that out of this sum, £500,000 is required by the commercial departments of Government, and £700,000 by those ordinary administrative services from which we receive no direct monetary return. A further analysis indicates that it will be sufficient to consider the excess as falling under five groups of heads—Interest, Posts and Telegraphs, Salaries and Expenses of Civil departments, ordinary Civil Works, and Military services. The five groups of services which I have just named are going to cost us almost exactly £1,200,000 more than they have done in 1909-10, the minor variations may safely be neglected.

21. The Interest charges, which form the first of my five groups, are shown under various heads, but in the aggregate they come to nearly £408,000 more than in the current year. The interest on ordinary debt, as I will explain immediately, will hardly be raised at all in India, but there will be an increase of about £270,000 in England. On the small loan which we propose to take in India, our total discount charges (apart from all question of the rate) should be easier than they were this year; and we ought not to have interest to pay on advances to our treasury from the silver branch of the Gold Standard Reserve, as was the case for a few months in 1909-1910, so that on the whole our next rupee loan should not cause a net addition to our interest liabilities in the coming year. But in England the case is different. A full year's interest has to be paid on the Sterling loan of 7½ millions which the Secretary of State raised last month and increased payments have to be made to the sinking funds which are now established for meeting the discount on our English loans. I still have to explain £138,000 of the total increased expenditure under Interest. By far the greater part of this is a consequence of the fresh capital which certain of the Companies working State lines will raise and deposit at the India Office until they require it. About half of the balance represents debits against us in India in certain complicated transactions with the Bengal-Nagpur Railway Company, which I need not describe in detail; the remainder stands for our increasing interest liabilities on savings bank deposits, on the new general provident fund, and the like. Practically the whole of the increased charges which I have been describing under this head are a compulsory and inevitable result of the extension of our Capital expenditure on productive works.

22. The second category of increased expenditure is our Post Office and Telegraph charges, where we expect a growth of about £81,000. In the case of the Post Office the growth is small (£24,000) and of normal character and it is more than covered by increased receipts. The third and fourth categories comprise the additional provision in next year's estimates for ordinary Public Works (roads, buildings, etc.) and for the salaries and expenses of what are known as the Civil Departments. The great bulk of this outlay is met by Local Governments from their own provincial resources but certain charges, both in England and in India, are exclusively Imperial, and show an increase of about £155,000. For that part of the decennial census operations which will take place next year, we have provided five lakhs, which is £32,000 more than in the current year. The other individual variations are of comparatively small importance, and the total excess allotted under Civil Departments is £97,000. On ordinary Public Works the increased expenditure will be £58,000; this much being considered necessary in order to allow of the progress of a number of works which had to be postponed in the current year. The fifth category is the Military charges, to which I shall return later and in more detail. The expenditure here is taken at £536,000 more than in the current year. Out of this excess £128,000 goes in the combined naval and military operations which have had to be undertaken to check gun-running in the Persian Gulf, and £408,000 are for the general purposes of military efficiency. As I have said, I shall take up this subject again but I wish to emphasize that what we are providing for military expenditure next year is in reality (apart from the Persian Gulf expenditure) considerably less than we provided in the current year's budget. His Excellency the Commander-in-Chief, however, gave me his cordial co-operation—for which I take this opportunity of thanking him—in reducing expenditure at a time when the outlook was causing us serious anxiety the result being, as I have said above, a very welcome reduction in the 1909-1910 allotments. To compare next year's grants with what has actually been spent in the current year is thus deceptive, the temporary curtailment of expenditure now in force could not be a permanent reduction.

Revenue

23. I next proceed to consider our probable income, and its adequacy to meet our budget of expenditure. Our Imperial requirements for 1910-1911, as I have briefly

described them, demand a provision of £50,257,800. During the year which is now closing, we expect our Imperial revenue to be £49,326,500. To maintain bare equilibrium therefore, we must be able to count on improving the revenue by close on a million sterling while we shall have to get considerably more if we are to budget for a reasonable surplus or working balance, such as every prudent Government must insist on. In order to see whether this is practicable, I will now ask the Council to go very briefly through the chief heads of revenue with me and ascertain what increases they will yield. In this examination, we had better leave Land Revenue and Opium to the end, as they will require somewhat careful examination.

24 From Railways, at the outset, it is apparent that we cannot expect much assistance. The gross receipts of State lines show a remarkable improvement of nearly £1,130,000 but the increase in current expenses is almost equally great. The Railway Board, who are the responsible advisers of the Government in the matter, urge that the economies which we are now enforcing must, in the interest of our railway development, be at least temporarily relaxed, and that advantage should be taken of our increased earnings to push on the more essential renewals and repairs which on several lines have recently been deferred. I have been obliged to accept that view, and I have budgeted for a net improvement of only £38,000 from our railway revenues as a whole. Most of our other main heads however promise better. From Customs, on the existing tariff, we should expect an improvement of £183,000. There is a steady upward movement in imports, which ought to continue, and give us a moderate increase, particularly from liquors, petroleum, piece-goods, metals and manufactured articles, generally; while in view of the big crops in Burma and Bengal, the rice export may reasonably be taken at a figure somewhat higher than was realised in the last good year, 1905-1906. A substantial increase in Excise seems equally certain even if there were no further enhancement in duties. There is invariably a rise after a year of good harvests, and illicit practices are being steadily worn down by the strengthening of the preventive forces in the different provinces. We estimate therefore that our share of the revenue from this source will be, on the present rates of duty, some £109,000 better than in the current year. The Posts and Telegraphs, under the stimulus of the revival in trade, should give an increase of £96,000. A group of other heads, which are all more or less sensitive to the general condition of the people,—Salt, Stamps, Income-tax and Mint—will yield, as we estimate, an improvement of about £165,000. Irrigation receipts will be diminished by the plentiful rainfall, and Interest is taken at a reduced figure as the Secretary of State's loanable balances may not be so high as in the current year. But against these we are able to set a number of minor increases under Forests and a variety of other heads which I need not enumerate. The chief of these is the military receipts, from which we hope for an improvement of £63,000, owing to the new arrangements for clothing, larger sales of dairy produce, and other causes.

us 25 The net result for all the heads with which I have thus briefly dealt is an anticipated increase of £638,000 in next year's receipts. I come now to our Land Revenue estimate, which is affected by the absence of famine arrears and works out to about 23 lakhs below what we count upon realizing in 1909-1910. The Imperial share of this decrease would, in natural course, be about £105,000, but *per contra* we should have to set the large improvement that has its origin in the peculiar circumstances of the current year. I refer to the subsidies which our recent Opium receipts have enabled us to make to certain provinces and local bodies, and which aggregate about £633,000. These grants being non-recurring their absence from next year's accounts would have absorbed the decrease in arrear collections and raised the Imperial share of the Land Revenue by £528,000 *net*. Add this to the increase of £638,000 under the other improving heads of revenue, and it is apparent that we should have almost fully covered the increase of £1,200,000 in expenditure. At the risk then of some repetition, I trust I have made it abundantly clear that we have not allowed any increase of expenditure which could not have been met from the normal and moderate expansion of our ordinary revenues.

26 We thus return to the special causes which interfere with that expansion. The first is the necessity for a revision of the provincial settlement with Eastern Bengal and Assam. How the necessity arose, I will discuss later: for the present all I need mention is the result, *viz*, that we have agreed, with the Secretary of State's approval, to increase the Local Government's share of the revenues which it collects by £255,000, involving an equivalent recurring loss to Imperial finances. The second and by far the greater of our difficulties is the loss in Opium revenue, which we estimate (net, after certain adjustments) at £872,000 as compared with the present year.

27. When the agreement into which His Majesty's Government entered with China on our behalf was announced, it was at once apparent how seriously the Indian revenues

were bound to be affected. The effects of the curtailment of our opium exports have hitherto been somewhat obscured by the events which I have already described both a year ago and to-day. But they are now coming into operation, and their operation is all the more vigorous because it has been deferred. In the calendar year 1910 we shall, as required by the agreement, export 5,100 chests less than in the calendar year 1909. Translating this arrangement into terms of the financial year, we can sell only 37,560 chests of Bengal opium in 1910-1911 against the 42,300 chests sanctioned in 1909-1910. In the current year we take the average selling price at ₹1,610 a chest: for next year, owing to the continued high prices in China, we believe that ₹1,750 a chest is a reasonably safe assumption. The result is that, on Bengal opium by itself, we hope to restrict our loss to ₹160,000. But for Malwa opium, a comparison of the actual exports of the two years affords no guide to the financial position. As I have explained before, the whole of the duty payable to us on the exports permissible up to the end of December 1911 has already passed into our treasury, and for this good and sufficient reason we do not budget for receiving any further dues on Malwa opium during the financial year 1910-1911. The consequence is that, as compared with the receipts during the current year, we must prepare for a loss of ₹718,000.

28. I have now explained our requirements. I have given an estimate of what our revenues would be under normal conditions. I have shown where the conditions are other than normal, and I have described the gap that actually intervenes between our requirements and our resources,—a gap which may roughly be measured by the shortage of ₹1,127,000 due to opium and the new settlement with Eastern Bengal and Assam. To fill that gap, the Government of India are compelled to impose extra taxation which is estimated to yield ₹1,133,000.

Fresh Taxation.

29. The taxation which we propose falls under three main heads. The bulk of what we require will be raised by increasing the existing Customs duties on liquors, on tobaccos, on silver and on petroleum. In this way we hope to obtain an additional revenue of ₹967,000. Certain consequential alterations in the excise duties upon beer and so called "foreign" liquor made in India will bring in a further ₹33,000. The balance, or ₹133,000, we propose to take by enhancing the Stamp duties on certain instruments which I shall enumerate later. The Government of India have not come to this decision without the most anxious consideration. There was no avoiding the deficit there was no temporary palliative for it. The profits from our railways will no doubt improve, and the elasticity of most of our other heads of revenue is happily assured. But we cannot in prudence treat the decline in our Opium receipts as other than permanent, and in the present uncertainty as to China's achievements, we must keep in view the possibility of its being continuous. Nor can we, apart altogether from the Opium question, shut our eyes to the heavy demands upon the Indian exchequer which lie ahead of us, in the cause of education, to name only one pressing requirement. It has become our clear duty to strengthen the basis of our revenues, and we have endeavoured to do so in the way which will be least burdensome to the country. A variety of other schemes for increased taxation, several of which will readily occur to the minds of my honourable friends, were fully considered, but the balance of advantage seemed to rest with the combination which I have described, and this has the full approval of the Secretary of State.

30. So far as our Customs proposals are concerned, we have held fast by the general principle that our tariff is a revenue, and not a protective, tariff. But substantial duties on wine, beer, spirits and tobacco are in no way inconsistent with that principle, while they constitute one of the most legitimate forms of taxation in every civilized country. Our proposals regarding liquors are intended to simplify the existing rates, and to raise them by from 30 to 50 per cent. Upon tobacco the present taxation—5 per cent. *ad valorem* on manufactured, and nothing at all on unmanufactured tobacco—is ludicrously inadequate. In 1907-1908 over 6 million pounds of tobacco were imported into India, and all that it paid to Government was ₹25,000, in England it would have paid forty times as much. What we now propose is a set of rates which, in the case of cigarettes, is represented by ₹2 a lb. They may diminish import for a time, but incidentally they may check the rapid growth of the cigarette habit, which is not without its danger to the rising generation in India. On petroleum we simply propose to raise the present rate from 1 anna to 1½ annas per gallon. On silver we intend to take a fixed duty of 4 annas an ounce instead of the 5 per cent. *ad valorem* which it now pays. The enormous import of those two commodities marks them out as fitting objects for an increased contribution

to the exchequer, and we prefer to take the extra taxation which we require by substantial duties upon a few articles of comparative luxury rather than by interfering with the all-round uniform rate upon a variety of less important articles, many of which may be described as necessities.

I hope I shall not be charged with framing a swadeshi budget. In the sense which may be seen indicated on Bryant and May's match-boxes ("Support Home Industries") I think swadeshi is good, and if the outcome of the changes I have laid before Council result in some encouragement of Indian industries, I for one shall not regret it, but I would emphasise the fact that the enhanced customs duties are attributable solely to the imperative necessity of raising additional revenue. There is not the slightest inclination towards a protective customs tariff. Even in free-trade England we have always imposed considerable customs dues, not to protect industries but to raise revenue. That is all we are doing in India, and I cannot but think that in countries which depend mainly on agriculture, where the population is poor and there are no large and profitable manufactures, it will be long before you can dispense with customs receipts as a part of the revenue essential for the administration of the country.

31. The increase which we propose in Stamp duties will touch only a limited class of documents. We do not interfere with the charges on bonds, conveyances, leases, mortgages, cheques or receipts. But we intend to raise the duty on bills of exchange, on the issue and transfers of shares and debentures, and on agreements for the sale of those securities. Full details of the new rates are given in the Bills which will be presented to the Council to-day to give effect to the changes.

32. With the aid of these new taxes, we hope to secure an Imperial revenue of £50,503,700 in the ensuing year. I have already stated our expenditure requirements at £50,257,800 so that we budget for a surplus of £245,900. It is a very, very small margin for a year in which many surprises may await us, and any shortage in the monsoon would sweep it clean away. But our estimates throughout are studiously cautious, we were anxious to avoid the levy of a single superfluous rupee of extra taxation, and with reasonable good fortune I trust that a modest surplus will carry us through, as it has done in the current year. I invite the Council to contrast our situation with the present difficulties which beset the Chancellor of the Exchequer in England, or the £8,000,000 of extra taxation in France, or the loan of £4,600,000 with which Prussia hopes to cover its deficit next year, or the still heavier loans that have been forced upon Germany for the current needs of its administration in these two years.

Military Expenditure.

33. I deal now in more detail than was possible in the foregoing remarks with some of the bigger Departments. I begin with the Military services, the expenditure upon which under their various heads for five years is as follows —

	GROSS					NAT.
	Army	Marine	Military Works	Special Defences	Total	All Military heads.
	£	£	£	£	£	£
1906-1907	19,657,845	662,368	1,127,515	138,358	21,586,086	20,169,343
1907-1908	18,647,533	485,024	1,166,943	116,287	20,415,787	19,248,354
1908-1909	19,177,266	476,957	907,362	20,044	20,650,629	19,602,988
1909-1910 (Budget)	19,350,900	473,800	855,600	27,900	20,708,200	19,653,000
1909-1910 (Revised)	18,948,000	479,100	853,800	36,700	20,317,600	19,233,100
1910-1911 (Budget)	19,488,500	484,300	879,600	1,500	20,853,900	19,706,500

I mentioned last year that it had been decided to abolish the grant for special expenditure and to revert to the system which was in force prior to 1904-05. Provision is now made for this purpose to the extent warranted by the state of our finances. During the five years ending with 1903-04 a sum of about £6 millions in all was allotted. Then followed Lord Kitchener's reorganisation and re-distribution schemes. In prosecuting these schemes and carrying on the work already begun and meeting ordinary new requirements which presented themselves from time to time we spent about £7 millions between the years 1904-05 and 1908-09.

34. In March last entirely new conditions presented themselves. The general financial position was not satisfactory and, as regards military expenditure, we were faced

with the obligation to provide for nearly £ $\frac{1}{2}$ million for the increased payments to the War Office on account of the British Army in India and for the pay concessions to the Indian Army. The rates for food supplies too were still rising. To meet these new charges, all of them practically unavoidable without throwing an additional burden upon general revenues we had to economise in many directions, and as our political relations had improved it was decided to proceed more deliberately with schemes of reorganisation. After restricting the provision to the lowest limit the Budget figure for 1909-10 was placed at about £85,000 less than that of the previous year.

35. Considering the extent to which this year's Budget had to be cut down and the extraordinary demands which I have alluded to above, our latest estimates of the probable actuals of the year disclose a very satisfactory state of affairs. The net military expenditure for 1909-10 is expected to be £370,000 less than that of 1908-09, the reduction being due in the main to a substantial decrease in food charges in India and in expenditure on stores in England. The position has enabled us to take in hand at once the improvement of the accommodation for the Indian Army, a measure of importance and urgency to which the Commander-in-Chief called our attention soon after his arrival. It has become obvious that, with the persistent rise in prices and wages, comfortable and durable buildings can no longer be constructed at the cost which was previously regarded as sufficient. In the lines which are now being built we are adopting a sound type of construction and are entrusting the operations to the Military Works Services instead of to regimental agency.

36. The other principal measures involving special expenditure which we have undertaken are referred to in the Memorandum explaining the Financial Statement. I will merely mention that we have established in the current year a Cavalry School of instruction, the organisation of the new artillery ammunition columns has been practically completed, progress has been made with the provision of accommodation for additional troops at Quetta, Jubbulpore, Ahmednagar and Nowshera, and there has been an advance in the output of quick-firing guns and short rifles from the Gun and Rifle Factories. We have also improved the arrangements for financial control by extending to all British troops and the Supply and Transport Corps the new system under which accounting and audit duties are undertaken in separate offices and by moving out two more Audit Offices to Divisional Head Quarters. Finally we have had to provide for the expenditure on the arms traffic operations in the Persian Gulf. Of the total sum which we have allotted for this purpose, *viz*, £218,000, a sum of £45,000 will fall into the accounts of the present year.

37. For the coming year, apart from the special provision for the arms traffic operations in the Persian Gulf, we propose to allot £120,000 less than the amount provided in the current year's Budget. We have been able to provide for a somewhat larger expenditure on special measures than in this year and to restore some of the temporary reductions made in March last. Among the more important measures with which we propose to proceed in 1910-11 are the improvement of accommodation for the Indian Army, and the building operations referred to above; the organisation of military companies for maintaining communications in the field, a requirement which is now universally recognised as essential; the purchase of horses to commence the reconstitution of an artillery reserve, and the supply of intrenching tools to the field army and of a uniform pattern of rifle carrying equipment to the Indian Cavalry.

We anticipate a further increase in the output of guns and rifles from our factories, but it is necessary to supplement the local production of rifles by purchase from Home, and we have accordingly provided funds for this purpose. The Royal Garrison Artillery in India is being reorganised, and we expect a considerable saving from this measure. We are also remodelling the system of Ordnance Factory accounts on the advice of the Home experts.

For the expenditure in 1910-11 on the arms traffic operations we have provided £173,000. On the other hand we have been able to maintain a large part of the reduction in our store demands which has been effected during the current year; we anticipate a further substantial improvement in regard to the food charges, and we hope to obtain a considerable saving by using the R.I.M.S. *Dufferin* in the Home trooping service for two voyages and dispensing to that extent with the employment of hired transports.

38. We have also been able to provide for a possible increase in the railway rates for military traffic, consequent on the desire of the Railway Companies to modify the tentative arrangements made two years ago for the adoption of a vehicle mileage rate for military traffic, which, though administratively advantageous, is thought to involve an undue loss to the railways.

Railways.

39. It has become customary to bring together in this part of the Financial Statement the figures of capital expenditure on railways during the last five years and the similar estimate for 1910-1911. I accordingly present the table as usual, it includes all capital outlay, whether incurred by the State or through the agency of guaranteed or assisted companies.

	1905-1906	1906-1907	1907-1908	1908-1909	1909-1910 (Revised).	1910-1911 (Budget).
	£	£	£	£	£	£
Open lines including rolling stock	5,121,300	5,948,067	7,328,000	8,532,740	7,738,730	7,875,800
Lines under construction—						
(a) Started in previous years	3,663,073	3,526,666	3,006,800	1,366,200	1,203,470	2,424,200
(b) Started in current year	215,057	176,667		146,130	400,130	566,670
	8,999,430	9,650,800	10,334,800	10,045,070	9,342,330	10,866,670

40. On the 31st March 1909, the total length of open lines was 30,808 71 miles, classified according to gauge as follows —

5' 6" gauge	16,001 95
Metre	13,083 49
Special gauges (2' 6" and 2')	1,723 27
				TOTAL	30,808 71

During the current year we have added to these approximately the following mileage —

5' 6" gauge	456 90
Metre	317 43
Special gauges (2' 6" and 2')	77 63
				TOTAL	851 96

During the ensuing year it is intended to increase this length by 520·55 miles.

41. In the current year the return on the capital at charge amounts to 4·48 per cent., as compared with 3·69 in 1908-1909, 4·75 per cent in 1907-1908 and 5·38 per cent. in 1906-1907. The rate of interest which we have taken for the year on the debt chargeable to railways is 3·384 per cent.

The position has greatly improved since last year, although the traffic returns have not come up to expectations. The improvement is largely due to the acceptance by the railway administrations of the reasonable and indeed inevitable limitations imposed by budget provision. The grants for working expenses, etc., are unlikely to be exceeded by more than the comparatively unimportant sum of £85,000, and this excess may be taken as due to unprecedented floods on the North-Western Railway and the cyclone which worked serious havoc on the Eastern Bengal State Railway. If we take the railway revenue account as a whole, and set the interest charges, the annuities and sinking fund payments, and the minor debits (cost of land, etc.), against the net earnings, we find a surplus of £828,500 which accrues to general revenues. Last year there was a net loss to the State, for the first time since 1898-99.

42. Our anticipated results for the ensuing year have already been alluded to. The gross earnings are expected to respond to the trade revival, but the larger grants which we have been advised to provide for improvements in the permanent-way, rolling stock, and general equipment, as well as the increasing charges on railway debt, will depress the net surplus. It is estimated at only £486,200. We should have been glad of a greater measure of assistance from our railways in a year of considerable difficulty, but we accept the situation in the confident hope that our sacrifices now will result in a substantial and permanent increase of our net railway profits in the future.

Irrigation.

43 The financial position of our great Irrigation undertakings may be gathered at a glance from the following table, which carries on and brings up to date the information that it has been customary to give in previous Financial Statements.

	1906-1907	1907-1908.*	1908-1909	1909-1910, Revised.	1910-1911, Budget.
<i>Productive Works.</i>	£	£	£	£	£
Capital outlay to end of year	25,745,780	26,978,016	28,002,898	29,081,500	30,225,800
Direct receipts	2,307,959	2,160,389	2,213,044	2,251,400	2,190,300
Land Revenue due to Irrigation	999,989	1,035,088	1,084,773	1,120,700	1,122,300
TOTAL	3,307,948	3,195,477	3,298,417	3,372,100	3,312,300
Working Expenses	426,310	981,804	1,011,140	1,061,600	1,062,700
Interest	870,962	905,887	930,708	965,900	1,002,400
TOTAL	1,797,272	1,887,691	1,941,848	2,027,500	2,065,100
NET PROFIT	1,510,676	1,307,786	1,356,569	1,344,600	1,247,200
<i>Protective Works.</i>					
Outlay on construction to end of year	2,019,081	2,382,055	2,736,094	3,176,600	3,612,200
Direct receipts	34,272	47,625	33,980	53,000	64,300
Land Revenue due to Irrigation	6,992	5,445	6,271	7,400	7,500
TOTAL	41,264	53,070	40,251	60,400	71,800
Working Expenses	18,322	22,205	25,449	27,100	30,300
Interest	64,269	75,025	86,619	100,000	114,900
TOTAL	82,591	97,230	112,068	127,100	145,200
NET LOSS	41,327	44,160	71,817	66,700	73,400
<i>Minor Works and Navigation</i>					
Direct receipts	183,705	232,045	219,334	231,400	220,200
Expenditure	856,898	838,728	879,339	906,900	915,100
NET LOSS	673,193	606,683	660,005	675,500	694,900

* The figures for 1907-1908 include the capital outlay to the end of 1906-1907 on the following Minor Works transferred to the productive class from 1st April 1907 —

		₹	₹
United Provinces	Dun Canals	10,40,873	69,400
	Bijnor "	2,48,476	16,570
North-West Frontier Province	Kabul River Canal	9,77,683	65,180
Madras	Shariatpore anicut system	4,07,014	27,130
	Tirukkoyilur anicut system	3,13,259	22,220
	Cheyeru anicut system	3,08,916	26,600
	Poiney anicut system	2,30,767	15,190
	Lower Coleroon anicut system	14,89,605	99,310
	TOTAL	51,26,593	341,800

44. At the end of 1908-1909, 55,140 miles of main and branch canals and distributaries had been constructed, commanding 47 million acres of culturable land, the area actually irrigated in the year was 22,187,430 acres. The productive works during that year yielded a net return of 8.17 per cent on the capital outlay of £28 millions, after paying all charges exclusive of interest. The net profit to the State was £1,356,000.

45. The revised estimate for 1909-1910 shows a net profit of £1,345,000 on productive works and a net return on capital outlay of 7.94 per cent. At the end of the current year we expect to have 55,601 miles of main and branch canals and distributaries constructed to command 47,396,402 acres of culturable land, and we hope actually to have irrigated about 21½ million acres during the year. In addition to the canals in operation, there are altogether 44 projects which are either under construction or awaiting sanction or being examined by the professional advisers of the Government, of these 14 are productive and 25 protective. They are designed to irrigate 3.24 million acres and 3.61 million acres, respectively, at a total capital cost of nearly £11½ millions and £19½ millions, respectively. The former are expected to yield a net return of 7.40 per cent on the outlay.

46. The most important works which received sanction during the year are the Tendula project in the Central Provinces and the Hathras Branch of the Upper Ganges canal in the United Provinces. A reference to the former project was made in paragraph 62 of the last year's Financial Statement. It is one of the most promising schemes of the class of protective irrigation works, as it will protect a large tract of country which has suffered severely from drought in recent years. The estimated return on its capital outlay is 3.9 per cent., and work will be started as soon as we are in

a position to allot funds from our current revenues. The Hathras Branch canal is designed to serve portions of the Aligarh, Etah and Agra districts of the United Provinces where it will irrigate an area of 109,500 acres annually. It is a work of the productive category, the return on the capital outlay being estimated at 14·31 per cent. Satisfactory progress continues to be made in the construction of the three canals comprised in the Triple canal project in the Punjab, but it is feared that the original estimate of cost will be largely exceeded. It has been decided to adopt a level crossing instead of a syphon to carry the water from the Upper Chenab across the Ravi river for the supply of the Lower Bari Doab canal.

The important Sind project for the construction of a barrage at Sukkur, and for the system of five canals to take out above it, has been under preparation, the design for the barrage is now under the consideration of the Government of India. The Sarda-Ganges-Jumna Feeder scheme has also been under investigation during the year. Mention was made of these projects in paragraphs 63 and 64 of my last Financial Statement.

Opium.

47. I fear the Council must be weary of my references to Opium but I must revert to the subject again for a few minutes. It is a question of grave importance to our revenues and to various interests both in British India and in Malwa, especially to many humble people for whom the poppy cultivation is their daily bread. As far as our arrangements with China are concerned, our position is the same as when I described it last year, though we shall probably continue our progressive reduction of exports into 1911 while we await unequivocal evidence as to the success or otherwise of China's efforts to put down cultivation and consumption. But in one important respect, we have made a change in our domestic arrangements. We have decided to alter the distribution of our exports, so as to allow the Malwa States a larger share in them during the next three years. The intention is in this way to allow the large stocks of Malwa Opium to be cleared, and the capital locked up in them to be released, and to afford the Durbars and cultivators more time to adapt themselves to the inevitable decline in poppy cultivation. We are enabled to make this change by the greater readiness of the Bengal growers to take to other crops. It may be convenient that I should take the opportunity of announcing the figures of export that will be permitted in the next three calendar years, on the assumption that the curtailment of our exports to China will continue. They are as follows —

YEAR	NUMBER OF CHESTS		
	Bengal	Malwa.	Total
1911	31,440	15,160	46,600
1912	26,520	14,980	41,500
1913	21,540	14,860	36,400

Meanwhile, the policy of reducing and concentrating cultivation in Bengal is being steadily pursued, and, subject to the Secretary of State's approval, an important step will be taken in that direction next year by the amalgamation of the two Agencies.

48. In my last Financial Statement, I made little more than a passing allusion to the International Opium Commission which met at Shanghai in February 1909. Its proceedings had not then reached us, and the bearing of its recommendations on India was uncertain. Since then, however, we have had an opportunity of examining the Commission's conclusions, and the Council will naturally expect some indication of the attitude of the Government of India towards the policy which the Commission advised. I cannot enter into any detail because we are still consulting the Local Governments concerned, and corresponding with the Secretary of State on a number of the questions involved. But the Commission was a thoroughly representative body, its conclusions were unanimous, and there is nothing in its findings to deter us from expressing our acceptance of the general principles which it laid down. We accept them all the more readily that the interests of India were amply and skilfully pressed on the

Commission by our representative, Mr. J. B. Brunyate. Aided by his knowledge of the subject, the Commission was enabled to appreciate the importance and complexity of the opium problem in this country.

49. Out of the nine Resolutions in which the Commission formulated its advice, only four have a direct bearing on India. Resolution No 2 recommends measures for the gradual suppression of opium-smoking. I need not remind the Council how near we are in India to the legal prohibition of this particular form of the opium habit. Absolute prohibition is virtually our ideal, and we are prepared to take every reasonable step towards enforcing it, as our action in the past has clearly shown. In Burma we have had to deal with special difficulties, and our experience warns us to tread warily but even in that province absolute prohibition for foreigners, as well as for Burmans, will be taken into serious consideration. The difficulties will be great but they may not prove insuperable, and we are ready to give the whole question our best attention. The Commission's third Resolution suggests that we should re-examine our regulations for the use of opium in the light of the experience gained by other countries. This we are prepared to do. We retain full liberty to protect the legitimate household and medicinal use of opium, but increasing stringency against its use as a luxury or an intoxicant, higher rates of duty and more vigorous preventive action command our entire approval. Resolution No 4 advises the adoption of reasonable measures for prohibiting the export of opium and its preparations to any country which forbids their entry. The exact mechanism for giving effect to this advice will require examination: but the principle involved is equitable and we fully accept it. The fifth Resolution—the last with which we are immediately concerned—urges on each Government the control in its own territories of the manufacture, sale and distribution of morphine or any similar opium derivative. We gladly welcome the recommendation. The morphia habit and the cocaine habit are becoming serious dangers in India, the enforcing of prohibition through the control of imports and of consumption is a matter of extreme difficulty: and it is only by the proper regulation of the supply of these drugs at its source that we can hope to hold them in check. It will thus be seen, I trust, that the Government of India are in full accord with the views expressed by the Commission and will take any practicable means of making them effective.

Provincial Finance

50. I must now say a word about the finance of the provinces—a subject which has recently caused no small embarrassment to the Government of India. For all the provinces taken together, we have the following results —

	Actuals, 1903-1909	Revised, 1909-1910	Budget, 1910-1911
	£	£	£
Revenue	24,171,904	24,977,200	24,760,900
Expenditure	24,839,247	24,293,700	25,394,700
Surplus	683,500	.
Deficit	667,343	.	633,800

The surplus in the current year is in reality fortuitous, being due partly to abnormally heavy collections of Land Revenue and partly to the special subsidies with which the Imperial Government helped three of the provinces in the peculiar circumstances which I have already described. The revenue collections exceeded those of the previous year by about £700,000 (Provincial share), the greater part of which may be regarded as famine arrears. The grants-in-aid of Provincial balances which we have paid through the current year's accounts come to a total of £496,000. On the other hand, the deficit for next year includes a special draft of £133,000 upon their balances by the Madras Government. Making these allowances, we are driven to the conclusion that the provinces in the aggregate are steadily over-spending their income by about half a million a year. The position is thus one which compels most serious reflection. It differs considerably in different provinces. Madras, for example, keeps well within its means and has a large credit balance for special or non-recurring expenditure. The United

Provinces, with its new settlement and a respite from famine, will no doubt be able to avoid deficits in normal conditions and to build up a strong balance against emergencies. Eastern Bengal and Assam enters next year upon its new settlement, which I shall shortly describe, and ought in future to be able to confine its expenditure within the limits of its resources. The Central Provinces finances have been severely tried by the recent famine, which was administered with a care for the interests of the general taxpayer which the Government of India cordially appreciate. The ordinary services of the province have suffered accordingly and until the leeway is made up, there may be some excess of expenditure over the normal revenue, though we hope it will be neither large nor prolonged.

51. In the other four large provinces, I am afraid that the situation is less assuring. Bombay, it is true, has substantial balances, but they are being somewhat rapidly diminished, and care will have to be exercised to prevent the scale of recurring expenditure from settling into permanent excess over the normal revenues. From Burma and the Punjab we have recently had special appeals for assistance. To accept these appeals would have been virtually to admit that the provincial settlements of these provinces are inadequate, and we cannot make any such admission. Burma has undoubtedly suffered from a set-back, which I hope may be merely temporary, in its Forest receipts, but we do not consider that in either province there is a case for revising and amplifying the standing arrangements. It will be the duty—disagreeable and unpopular, but inevitable—of the Local Governments to overhaul their expenditure and to adapt it to their normal resources. That duty has already been undertaken in Bengal by our colleague, the present Lieutenant Governor, and I am glad to have this opportunity of expressing my acknowledgment of the courage and thoroughness with which Sir Edward Baker has enforced economy in that province.

52. We have now framed a semi-permanent settlement with Eastern Bengal and Assam, the last province where the settlement was on a temporary and provisional basis. This closes our long list of re-settlements, and I can hold out no hope of any general revision of these arrangements. They were made, before I came to India, with scrupulous care, and were intended to foster provincial independence, economy and foresight. Nor do I see any near prospect of our being able to undertake a further share of the recurring expenditure of Local Governments. Our own necessities will not improbably force systematic retrenchment upon us, which will affect Imperial and Provincial services alike, and in the meantime Local Governments can best co-operate with us, and best mitigate future difficulties, by examining the causes of the insidious growth of expenditure, and by sharply checking them.

53. The special grants which we have given in the current year to the more impecunious provinces were meant partly to restore their normal scale of expenditure on civil works and partly to enable them to close 1910-1911 with the prescribed minimum balances*. For the next year the only additional grants which we intend to give are £255,000 to Eastern Bengal and Assam under its new settlement, £21,000 to Bengal for police reforms, and £21,000 distributed among five provinces, in aid of University and Collegiate education. The police grant is one of the last that is claimable for the reforms which were sanctioned on the advice of the Police Commission. The need for pressing on the reforms is most prominent in Bengal, and our general position puts it out of our power to accord similar treatment in 1910-1911 to the other provinces whose grants have not yet been paid in full. The University grants are a renewal and continuation of what we have been allotting since 1904.

54. As I have more than once referred to it, I shall describe very briefly the new settlement with Eastern Bengal and Assam. The existing settlement was made in 1906, and was to run for three years, in order to allow us to gain experience of the needs of the province. It was known that the Eastern Bengal districts required development, but the cost of the operation was largely guess-work. The temporary settlement, as we had believed probable, turned out inadequate; but at the end of its three-years' term, the Imperial provinces were not in a state to justify a revision which was clearly going to involve a large transfer of Imperial funds to the Local Government. The consequence was that the province had to continue working with a deficit, and getting deeper into debt to Imperial revenues. We have now, in consultation with the Lieutenant Governor and his officers, given our most careful consideration to the special difficulties of the province and arranged, with the Secretary of State's approval, to provide it with such a moderate addition to its resources as the efficiency of administration seems to demand. The result is that

* I do not allude to grants which are passed through Provincial accounts as subsidies to local authorities.

our fixed subsidy, to balance the standard figures of revenue and expenditure, has had to be raised by £255,000 a year. We have also, out of our high opium receipts in the current year, cancelled the province's overdraft and raised its balance to the prescribed minimum of 12 lakhs: this has cost us £246,000, which of course is non-recurring. I trust that with this liberal assistance the new province will now advance along the paths of financial stability.

55. I conclude this portion of my remarks by explaining certain contributions from Provincial to Imperial revenues which will appear as new recurring assignments in the estimates of the eight major provinces for 1910-1911. Our measures for obtaining extra taxation will mean, as we estimate, an increased revenue of £166,000 under Excise and Stamps; but, as these are "divided" heads and we require the whole of the extra revenue for Imperial purposes, we have appropriated the Provincial share of it, or £83,000, by taking contributions from the Local Governments concerned. The amount which we thus take from each province is based on a rough estimate of what the province is likely to collect on account of the higher duties.

Ways and Means.

56. Hitherto we have been considering almost exclusively the current revenue and expenditure of India. I must turn to the operations upon our cash balances, both in India and in the Secretary of State's custody in London. As the Government of India is its own banker, it is into our general cash balances that all our current revenue is paid, and from them that all our current expenditure is drawn. They are also the reservoir for the proceeds of all sterling and rupee loans, whether raised by Government or by railway companies which work our State lines, for the whole of our unfunded debt; and for all the miscellaneous deposits which are not earmarked for separate custody. All the provincial balances merge in them, and in them are absorbed all the repayments and interest of State loans or advances to local bodies and private individuals. Similarly, it is out of our cash balances that we take all our capital expenditure on railways and irrigation; all the advances which Government makes to local authorities and private persons; and all the money used in the discharge of our permanent, temporary or unfunded debt, or in the repayment of deposits. Finally, it is through our cash balances, owing to their being located partly in England and partly in India, that Council Bills are usually drawn and the greater part of Government's remittances between England and India effected. It is with our cash balances therefore that our estimate of Ways and Means are concerned.

57. For 1910-11 we count on opening with £12,503,227 in our balances in India, and £12,758,615 in England: the latter figure including £2,064,118 on account of the Gold Standard Reserve, and being further swelled by part of the proceeds of the £7½ million loan which the Secretary of State floated last month. Our chief requirements during the year will be our capital expenditure of £12,000,000 on railways and irrigation, and £946,300 for the discharge of permanent debt, to which may be added a net debit of £741,100 for transactions on account of the Gold Standard Reserve, the total of these liabilities coming to £13,687,400. To meet these, we shall have our revenue surplus of £245,900 and a further £500,000 from the Famine Grant. The Secretary of State has still to realize £1,637,600 out of his January loan; and certain Railway Companies are expected to raise fresh capital amounting to £2,597,500. Our unfunded debt receipts are estimated at £1,119,200 and the net result of our advance and remittance accounts, etc., will be a credit of £348,600. From the aggregate of these resources we shall thus obtain £6,448,800: and our high opening balances will be reduced during the course of the year by £6,238,600, thus bringing our available means up to £12,687,400. This leaves us still short by £1,000,000, and we intend to borrow that amount (1½ crores of rupees) in India. We estimate our closing balances on the 31st March 1910 at £12,404,127 in India and £6,619,115 in England, £1,323,018 of the latter being held on account of the Gold Standard Reserve.

58. Besides the transactions which I have thus described, the year will be marked by the purchase of the Indian Midland Railway. This liability will be met partly by taking over Debentures and partly from the proceeds of temporary loans which the Secretary of State will raise in England.

59. The announcement regarding borrowings is made subject to the usual reservation, and the Government of India retain full discretion to vary the programme, as now declared, in any way and to any extent that may be thought advisable.

60. The present intention of the Secretary of State is to draw bills on India for £16,500,000, but this also is subject to a similar reservation. The figure represents a

forecast of the Secretary of State's requirements; but additional bills will be sold, so far as may be, if needed to meet the demands of trade.

Exchange and Currency.

61. I propose now to pick up the narrative of our currency affairs and to continue it from the point up to which I was able to carry it in the Budget discussions last March. During the year 1908-09, the Government of India fought a strenuous campaign against the fall in exchange—the first that had been forced upon them since the adoption of the gold standard. When the year closed, the movements of trade were rapidly becoming more normal, and exchange was firm at 1s. 3½d. with a tendency to rise. But though the battle had gone in our favour, its losses remained with us in the attenuated condition of our gold resources. In spite of the marked recovery which began in September 1908, the gold holding, in securities and cash, of our gold standard reserve was under 8 millions on the 31st of last March, and the reserve in India was laden, besides its standing silver nucleus of 6 crores, with the large sum of 9.88 crores in rupees, which we had withdrawn from circulation in exchange for the issue of gold in London. The gold in our currency chest at the Bank of England had fallen to 1½ millions, and the amount of sovereigns in our hands in India was practically negligible—about £92,000. Our gold resources at the beginning of the current financial year were thus represented by a total figure of 9½ millions sterling. A year earlier, on the 1st April 1908, they had been as high as 21 millions, and before the American financial crisis of October 1907, they had reached the substantial figure of 24½ millions. It was with this contrast in my mind that I have considered it my duty to represent the urgency and importance of building up our gold resources again by every means in our power.

62. It is on the volume and direction of India's trade with the outside world that we must primarily depend for the strengthening of our gold position. We may husband our gold when we have it, we may cause it to fructify; we may even in emergency take exceptional means to supplement it. But it is the relation between our imports and our exports which, in the last resort, decides whether we are to keep our gold or to lose it. When I took stock of the position a year ago, our external trade, after the dislocation caused by the famine in Northern India and by the general depression in the world's markets, was beginning to resume its normal proportions. The very heavy imports of piece-goods, metals and silver which had helped to upset the balance in 1908 were at last easing off, the value of private merchandise and treasure which came into India by sea during the last three months of 1908-09 having been less by the enormous sum of 10½ crores than in the corresponding quarter of the previous year. Along with this there was a substantial quickening in the export trade; big shipments of opium left Bombay in January; a good average cotton crop began to move, and the market for yarns in China revived after some temporary dullness. There was thus a considerable demand for currency, emphasised by the sharp reduction which our 1908 operations had effected in the stock of rupees available for circulation. The Secretary of State was able to sell very heavy drafts during the two busiest months of the year, and before the end of March he had found it possible to restore to the gold standard reserve about two millions of the gold which it had parted with. Such was the state of affairs when we last discussed the subject in this Council.

63. When the current year began, the improvement in the outlook had become unmistakable. Northern India was safe with a fine spring harvest; and the foreign market for our yarns, cotton and oilseeds continued active, while the imports of bar-silver fell very substantially from the high figure they had reached in the previous year. In May began large exports of wheat, which were abnormally heavy while they lasted. They ceased abruptly in August, and brought to a close the first phase of the year's trade movement. During the five months from April to August the net exports on private account amounted to close on 20 crores, as against 16½ crores in the same period of 1906, 16½ crores in 1907 and an actual (though small) net excess of imports in the five corresponding months of the anxious year 1908. Up till August then everything was wholly favourable to the improvement of our position. In September there came a slight check. Wheat had worked itself out for the time being, and there was a sharp drop in cotton and seeds. Simultaneously with this, imports bounded up again; the new crop of Java sugar was coming into the market, and large consignments reached India of piece-goods and precious metals. On the month's account the net result was a balance of net imports to the extent of about 1 crore. In this, I need hardly say, there was nothing unseasonable, and I should not have referred to the point had it

not been for the immediate effect on exchange to which I shall allude below. Clearly, however, the reversal of the balance in September was a merely transitory incident. By October the autumn harvests were safe, and a bounteous monsoon offered the best of prospects for the following spring. Trade soon flowed back into its normal channels; and since then the balance has been steadily in our favour, thanks mainly to the heavy exports of cotton, tea and jute, both raw and manufactured. During the third quarter of the year (last October to December) the exports as a whole exceeded the imports by 2 crores in value, against $1\frac{1}{2}$ crores in 1908 and 2 crores in 1907; but the excess would have been very much greater if it had not been for the large arrivals of gold (about $5\frac{1}{2}$ crores) in December.

64. It is instructive to watch how closely the fluctuations in exchange followed the broad movements of trade which I have outlined above. Beginning April at $1s\ 3\frac{1}{2}d.$ the rate stiffened to $1s\ 4d.$ by the end of the month, thus returning to parity for the first time since Christmas 1907. It slipped back a point or two after the middle of May, but the Secretary of State met with no checks in his sale of bills until well into August. With the abrupt stoppage of the wheat exports, a shade of weakness came over the market. The reduced supply of export bills, combined with easy money (Bank rates of 3 per cent. in both Calcutta and Bombay), forced down the rate once more below gold point. I immediately put into force what may now be regarded as the regular and stereotyped procedure for checking a slump; and on the 2nd of September, and again on the 9th, the Comptroller General offered to sell bills on London at $1s\ 3\frac{1}{2}d.$ up to £500,000 worth in each week. The bills actually taken during the fortnight amounted only to £156,000; the Secretary of State at his end cut down his offers of remittances; and the market was almost immediately restored to confidence, exchange rising by rapid stages back to parity on the 23rd of September. From October onwards there has been no further sign of trouble; Council bills have been sold in very large quantities, at prices ranging from par to $\frac{1}{2}$ pds above, with $\frac{1}{2}$ pds for telegraphic transfers; and gold has begun once more to come freely into the country.

65. In currency affairs, effects sometimes follow causes with gratifying rapidity. As the result of the heavy demand for remittances to finance our revived export trade, the Secretary of State expects, in addition to satisfying all the requirements of his home treasury, to be able to raise the gold standard reserve by the end of March to over £14½ millions; that is, to repay to it the whole of the gold which had to be withdrawn in 1908 in support of exchange. Our currency reserve in London stands at $1\frac{1}{2}$ millions; but the sovereign is once more visible in India, the stock of gold held by us in this country having risen to over $5\frac{1}{2}$ millions at the end of January, when it was still rapidly increasing. Within two years after the first breaches had been made in our position, our walls have been rebuilt and we are engaged in the further strengthening and extension of our defences.

66. I should be lacking in candour if I allowed the Council to think that we are yet satisfied with the sufficiency of our defences. We have come successfully through one financial crisis and one famine. But there have been blacker times in the financial world than the crisis of October 1907, and there have been longer and more widespread famines in India than the one which is now happily at an end. My desire is to see our gold resources strong enough to carry us over not one, but two, years of short exports, and to keep exchange stable through at least twice the period during which we supported it in 1908. I do not say that even then we should regard our position as absolutely clear; but what I have indicated seems as much as we need aim at for the present. I should now like to add a caution on the other side. I wish to dissociate the Government from the notion that a reduction in our gold holdings is an evil *per se*, and I trust that nothing which I have said above will be taken as indicating sympathy with that idea. There would be nothing more fallacious than to conceive of our gold reserves as being something that we put away in safety and strive to protect at all hazards. They exist to be used; and they are efficient only in so far as they are capable of being freely used for the purpose for which they were created. To hoard our gold when there is a clear case for employing it, would be fatal to our currency policy, and it may, and usually will, be just as much our duty to disperse our reserves when the balance of trade is against India, as it is our duty to build them up when the balance is in our favour. The increasing delicacy of the exchange standard and the more frequent manifestations of nervousness in the market—I use the term in no offensive sense—may require us to open our gold reserves more often than has hitherto been necessary, but we shall not hesitate to do so whenever exchange clearly needs support.

67. It is therefore with genuine satisfaction that I am able to announce two recent decisions which ought to increase the efficiency of our gold reserves. The Council will

remember that, in August 1907, upon the advice of the Indian Railway Finance Committee, it was determined to employ one-half of the profits on our rupee coinage in capital expenditure upon railways. The sum of £1,123,604 was actually diverted in this manner. But for the future, as has now been decided, the whole of our coinage profits without reservation will be paid into the gold standard reserve until such time as the gold held by us, in that Reserve and in the Paper Currency department combined, reaches the figure of £25 millions sterling. The second important change concerns the form in which the gold standard reserve is held in England. For the future, instead of tying up the whole amount in investments, the Secretary of State has consented to keep 1 million sterling uninvested, letting out this sum in short loans or putting it into bank deposits. Of the balance, he will hold a considerable portion in high-class securities with a near date of redemption, and the remainder in Consols or other approved stock. When we are next obliged to sell sterling bills on London, the Secretary of State will thus be able to meet them in the first instance from cash which is virtually at call. When this is exhausted, he can draw on his short-dated securities, upon which cash can always be obtained by sale or loan if it is impossible to wait for their maturity. If the crisis still continues, it will become necessary to realize—and to realize gradually and carefully—the more permanent securities. It will be for the Secretary of State in Council to carry out this operation, and he accepts the responsibility for doing so if occasion arises. I trust that the Council, as well as the large and important community who are vitally interested in such matters, will find in these arrangements and in the actions of Government during the last two years, no uncertain proof of the determination of those who are responsible for the Government of India to uphold the gold value of the rupee.

Conclusion.

68. In introducing the Budget last year I used the perhaps infelicitous expression "a gamble in rain." So far the gamble has resulted in a win, but I think every one will agree that, although the monsoon must always remain a dominating factor in forcecasting the revenue and expenditure of India, it would be neither prudent nor right to approach the compilation of a budget from a gambling standpoint. Broadly speaking, it should be possible by the experience of past years, tempered by a careful review of possibly changed circumstances, to form a fairly close estimate of revenue and expenditure. The monsoon will, however, always be a factor in regard to which hope must of necessity take the place of calculation, and that in itself renders budgeting in this country a matter of abnormal difficulty. All we can do is to calculate upon a reasonably good harvest, and in the literal and best sense, put our trust in Providence.

69. To the best of my ability I have estimated our assets and liabilities for the ensuing year. The outcome necessitates some additional taxation. I can understand a certain malicious satisfaction in extracting revenue out of multi-millionaires. But this is not a rich country. A large proportion of its people are poor, an appreciable proportion are very poor. No right-minded man can impose additional taxation on India with a light heart. To me it is a very genuine sorrow to be obliged to do so. I did not sow the storm but I am reaping the whirlwind.

I am confident that I may count on your sympathy.

I believe I shall have your support.

GUY FLEETWOOD WILSON.

Comptroller General.

J. S. MESTON,
Secretary to the Government of India.

FORT WILLIAM,
FINANCE DEPARTMENT;
February 25, 1910.

MEMORANDUM EXPLAINING THE DETAILS OF THE ESTIMATES.

1. In this memorandum the variations between the Revised and the Budget estimates of the current year, and between the latter and the Budget estimates of next year, are explained in detail for the major heads of account. Under most of the heads details by provinces have been given, and it may be explained that the figures shown against "India General" represent the transactions of the Central Government, including all expenditure directly controlled by it, of the minor administrations of Ajmer-Merwara, Baluchistan and Coorg, and of the convict settlement in the Andamans. The Budget estimates of Provincial and "Divided" expenditure in 1910-1911 generally represent the allotments proposed by the several Governments and Administrations with whom regular provincial settlements have been concluded, and fuller details of the figures will no doubt be given in their Financial Statements by the Local Governments which have respective Legislative Councils. It will be understood that the estimates now presented are not final. Alterations in the figures may be necessitated in the interests of accuracy or by the recommendations of the Imperial and Provincial Legislative Councils, or in consequence of important factors which come to light in the course of the next three weeks. All such alterations will be embodied in the Budget which will be presented to the Council on the 23rd March.

Introductory

2. The broad totals of revenue and expenditure for the last year, the current year and the ensuing year are as follows —

General results

					Accounts, 1908-1909.
					£
Revenue	69,761,535
Expenditure charged to Revenue	73,499,245
Deficit					£3,737,710
					Revised, 1909-1910
					£
Revenue	74,303,700
Expenditure charged to Revenue	74,034,200
Surplus					£ 269,500
					Budget, 1910-1911.
					£
Revenue	75,264,600
Expenditure charged to Revenue	75,018,700
Surplus					£ 245,900

These figures exclude all capital, debt and remittance transactions.

Accounts of 1908-1909

3. The accounts of 1908-1909 are not discussed in this Memorandum, but it has in the past been usual to give a brief explanation of the divergences between the revised estimate of revenue and expenditure for last year, as submitted to the Council twelve months ago, and the actual accounts of the year, as closed, audited and compiled in the Comptroller and Auditor General's Annual Appropriation Report. The revised estimates of 1908-1909 published in March 1909 were based upon the approximate figures of eleven months plus a forecast of the figures for the twelfth month of the year. To the extent, therefore, to which the March actuals differed from that forecast; to which the audit detected errors or misclassification in the figures of the earlier months; to which book adjustments had to be made between last year and this year, or between one major head and another, up to the time when the accounts were finally closed in last December;—to that extent will the revenue and expenditure now before the Council differ from the estimate which they had to consider at the last Budget meeting. The differences as a rule are unimportant. They involve no question of principle, and their net effect is measured by something under 3 lakhs.

The total revenue has turned out about £133,000, and the total expenditure about £150,000, more than the revised estimate, with the result that the year's deficit was £17,000 larger than was anticipated. The figure is relatively small, though it is the outcome of wider fluctuations on both sides of the account. Railways yielded about £97,000 below the estimate, a heavy fall in the takings on the Great Indian Peninsula line and special activity in renewals and repairs on the North-Western line being mainly responsible. The Military figures were worse by about £72,000 net; chiefly as the result of heavier expenditure on food supplies, railway charges and pensionary charges. In the Mints, an unexpectedly large return of copper and bronze from circulation changed an expected coinage profit from that section of the currency into a loss, and led to a deterioration of £89,000 from the estimate. But on the other hand there were considerable savings under ordinary Public Works,—about £67,000, net; the Land Revenue receipts improved by about £63,000, particularly in Burma and Bombay; and the Salt returns rose by over £59,000, the issues in March having made a sudden spurt.

Authors of Memorandum

4. Pages 93 to 102 of this Memorandum have been communicated by Mr. J. B. Brunyate, C I E, Secretary to the Government of India in the Military Finance branch, and the rest of the Memorandum has been drafted by Mr. Bhupendra Nath Mitra, M.A., special Budget Officer in the Finance department

„ „ XXIX.—Irrigation	22,21,000	23,59,000	23,51,000

5. The Imperial expenditure shown against "Other Provinces" in the table at page 21 represents the cost of survey and record-of-right operations on a large scale in Bengal and Eastern Bengal and Assam undertaken more for administrative than for fiscal purposes. The expenditure is of a temporary and varying character and was accordingly not considered suitable for inclusion in the quasi-permanent financial settlements with the two provinces. Three-fourths of the charges are eventually recovered from landlords and tenants for the protection of whose rights the operations are primarily undertaken; and the recoveries are shown in the table as Imperial revenue against "Other Provinces."

REVENUE.

(a) Wholly Imperial.

6. The latest estimate for the current year is Rs 36 lakhs better than the Budget forecast, owing mainly to larger collection of famine arrears in Ajmer-Merwara, where an excellent *rabi* harvest has been gathered, and to the introduction of revised settlement rates in the Quetta *tahsil* in Baluchistan. The Budget Estimate for 1910-1911 is Rs 15 lakhs higher than the Revised for the current year—a reduction in the collections in the minor administrations owing to the absence of famine arrears being more than counterbalanced by larger recoveries of survey and settlement expenditure in Bengal and Eastern Bengal and Assam.

Revised, 1909-1910

Budget, 1910-1911

(b) Divided and wholly Provincial.

7. The total collections in 1909-1910 are expected to exceed the Budget estimate by Rs 65.06 lakhs. The largest increase takes place in Burma (22.42 lakhs) where a substantial improvement is likely to occur in the Ordinary revenue, owing to an extension of cultivation and an excellent rice crop, as well as in the Petroleum revenue in consequence of activity in the Yenang-yaung oil-fields. In Bengal, United Provinces and Bombay the excellent agricultural prospects of the year have permitted a higher collection of famine arrears than was provided for in the Budget. Part of the improvement in the Punjab is due to the same reason, but a greater portion of it has been caused by purchases of proprietary rights in the Chenab Canal colony which were not foreseen when the Budget was framed. In Madras also, higher realisation of arrears and the introduction of re-settlement rates in certain districts have contributed to a small improvement over the Budget Estimate. The improvement would have been greater but for the unfavourable character of the north-east monsoon which has necessitated larger season remissions. It is in the Central Provinces alone that any material decrease from the Budget Estimate is likely to take place, as it seems probable from the progress of collections that the provision made in the Budget for the recovery of arrears will prove over-sanguine.

Revised, 1909-1910

8. The total Budget for next year is Rs 26.91 lakhs less than the Revised Estimate for 1909-1910. In Bengal, the United Provinces, Punjab and Bombay any normal growth in the revenue is more than counterbalanced by the heavy receipts of famine arrears during the current year. In the Central Provinces and Eastern Bengal and Assam, the normal growth in the revenue next year is likely to somewhat exceed the decrease in the collection of arrears. But it is only in Burma and Madras, which were immune from the recent famine, that any material improvement over the current year's collections is expected in 1910-1911.

Budget, 1910-1911

(c) Adjustments between Imperial and Provincial.

9. The table at page 22 shows the amount of Land Revenue assigned for Provincial expenditure in the two years. The increase of Rs 57 lakhs in 1909-1910 over the Budget estimate in the recurring grants given under the terms of the settlements or for special purposes is mainly caused by an assignment of Rs 92 lakhs made to the United Provinces under the terms of its provincial settlement in connection with the reduction in certain irrigation rates.

The further increase of R44·38 lakhs in 1910-1911 is chiefly made up as follows : —

1. Increase in assignment to Eastern Bengal and Assam under the terms of its new provincial settlement	38·24 lakhs.
2. Payment to Bengal of the final instalment of its share of the Imperial grant-in-aid of police reforms with reference to the accepted recommendations of the Police Commission	3 17 "
3. Payment to Madras of a portion of the Imperial contribution promised in its provincial settlement in connection with the scheme for the reconstitution of districts	2·00 "
TOTAL	43 41 "

The remainder of the variations in the two years consist of miscellaneous adjustments in several provinces.

10 The reasons for the recovery of contributions aggregating R12½ lakhs from the several Provincial Governments in connection with the financial arrangements for 1910-1911 is that the increased taxation credited to "divided" heads has to be wholly appropriated to Imperial revenues. The distribution of the total sum is given below

	R
Central Provinces	14,000
Burma	1,35,000
Eastern Bengal and Assam	20,000
Bengal	3,89,000
United Provinces	1,22,000
Punjab	86,000
Madras	1,21,000
Bombay	3,63,000
TOTAL	12,50,000

11. The non-recurring grants given in the two years under the terms of the settlements represent the contributions required by the United Provinces and the Punjab to bring their net Irrigation revenue up to the amounts guaranteed in their provincial settlements. The Government of India have made subventions to the Central Provinces, Bengal and Eastern Bengal and Assam, partly to restore a normal scale of expenditure on civil works, and partly to raise their closing balances in 1910-11 to the prescribed minima. The distribution of the total sum of 74·41 lakhs is as follows :

Central Provinces	7·09 lakhs.
Eastern Bengal and Assam	36 90 "
Bengal	30·42 "
	74·41 "

12 The variation between the Revised and the Budget estimates of the current year under miscellaneous grants is mainly due to the following special assignments :

(1) Contribution towards the Rangoon river training scheme	15·00 lakhs.
(2) Contribution towards the improvement of the Chittagong port	5·50 "
(3) Grants to Provincial Governments in aid of University and collegiate education, against provision made for this purpose in the Imperial Budget under Education expenditure	3 15 "
(4) Grant to the United Provinces for tank restoration works out of the special provision made in the Imperial Budget under Minor Irrigation works for improvement of irrigation	2 00 "
	25·65

Item (2) is subject to the Secretary of State's sanction, which has not yet been obtained. The miscellaneous grants in 1910-1911 represent almost wholly the grants-in-aid of University and collegiate education which it is proposed to continue for three more years.

EXPENDITURE.

(a) *Wholly Imperial.*

13. The saving of Rs 50 lakhs in the Budget grant for 1909-1910 is chiefly due to lapses in the provision for survey and settlement expenditure in Bengal and Eastern Bengal and Assam. The increase of Rs 19 lakhs in the Budget Estimate for 1910-1911 over the Revised for the current year also occurs mainly in this item of expenditure and is partly counterbalanced by a decrease in Ajmer-Merwara where the recent survey and settlement operations have terminated.

(b) *Divided and Provincial.*

14. The total expenditure in 1909-1910 exceeds the Budget Estimate by Rs 9 lakh. In Madras and the Punjab, the Budget grants are likely to prove insufficient to meet the sanctioned expenditure, while in Burma an increase in the collection charges has followed the large improvement in the revenue. These excesses have, however, been almost wholly counterbalanced by lapses in grants in the other provinces.

15. The total Budget Estimate for next year is Rs 11.82 lakhs higher than the Revised Estimate for 1909-1910—the increase being distributed over all the provinces. The principal increases occur in Madras and in Bengal. Provision has been made in the former province for the constitution of additional districts and for an extended programme of survey and settlement operations, in the latter full provision has been made for the scheme for the improvement of the pay of ministerial officers recently sanctioned by the Secretary of State. The increase of Rs 08 lakh in the Central Provinces mainly represents provision for a scheme for the re-organisation of the Commission and for certain necessary reforms in connection with the subordinate Land Records establishments.

REVENUE.

(1) Bengal Opium

Revised, 1909-1910.

16 In the Budget estimates for the current year the average price to be obtained at the sales of Bengal opium was taken at R1,350 a chest. The year opened badly, the average price obtained at the April sales amounting to only R1,166, and though there was a sharp improvement to R1,366 in May, it was followed by a decline in the next two months. Since August, however, there has been a steady increase, and in the October sales the average price rose to R1,439. The course of prices since then has been unprecedented. Owing apparently to a depletion in the stocks of opium in China and the unquestionable evidence that India was seriously reducing its supply, there has been a marked rise in the price of the drug in China and this has resulted in an increased competition to secure the limited number of chests offered for sale in Calcutta. The average sale-price per chest jumped up to R1,800 in November, to R2,044 in January and nearly touched R2,400 in February. As a result, the revenue from this source is likely to exceed the Budget estimate by no less than R110½ lakhs.

Budget, 1910-1911

17 During 1910-1911 it is intended to sell 37,560 chests of Bengal opium, viz., 3,300 chests every month in the last three quarters of the current calendar year, reduced to 2,620 chests a month in the first quarter of 1911. Judging by the continuance of high prices in the China markets, we anticipate that it will be possible to obtain next year an average sale price of R1,750 per chest. The

figure is as usual speculative ; but it is reasonable to believe that considerable time must elapse before the demand can adjust itself to the reduced supply and in the meanwhile a high level of prices will, in all probability, be maintained.

(ii) *Malwa Opium.*

18. As regards Malwa Opium, the Budget estimate of the current year was framed on the assumption that, as soon as the year's crop had been gathered, the imports from Malwa would re-commence with a view to secure priority of export in 1910 and subsequent years; and credit was taken for duty on the full number of chests (*viz.*, 8,700) for which warehouse accommodation was likely to be available in Bombay. The duty actually received has amounted to Rs 107.76 lakhs. Against this, claims of refund to the extent of Rs 1.8 lakhs have, however, been already admitted, and it is possible that a further sum of Rs 15 lakhs will be eventually refunded as the Government of India do not at present give a guarantee that any opium on which duty has been already paid will be allowed priority of shipment after 1911. The necessary provision has been made under Refunds and Drawbacks (*vide* paragraph 53 below). *Revised, 1909-1910*

19. No provision has been made in the Budget estimates for 1910-1911 for any revenue from this source, as duty has already been received on all the opium which can be exported during the financial year. *Budget, 1910-1911*

(c) *Excise opium and other revenue.*

20. Under this head the Revised estimate for 1909-1910 does not materially differ from the Budget figure. The Budget estimate for 1910-1911 provides for the normal annual growth. *Revised, 1909-1910*
Budget, 1910-1911

EXPENDITURE.

21. The Revised estimate of expenditure in the current year is expected to exceed the Budget provision by Rs 1.9 lakhs—an excess of Rs 4.22 lakhs under "Payments to cultivators," caused by an improvement in the outturn of the crop of 1909, being partly counterbalanced by savings in the grants for the establishment and other charges of the opium agencies. *Revised, 1909-1910*

22. In 1910-1911 provision has been made for about the same scale of expenditure as in the current year. The outturn of the crop now in the ground is expected to be the same as that of last year, and it is doubtful, having regard to the large diminution in the stock of opium held in reserve, whether a substantial reduction in the cultivation will be possible next year. *Budget, 1910-1911*

(a) Chiefly excise on local manufacture.

(b) Chiefly duty on imported salt.

REVENUE.

Revised, 1909-1910

23. The consumption declined materially during the first half of the year, mainly in Northern India and Bombay. A recovery has, however, taken place in the last four months, and it is now expected that the total consumption during the year will be slightly in excess of that in 1908-1909, but 10·93 lakhs of maunds below the Budget forecast. With a duty of Re. 1 per maund, this would have resulted in a decrease of Rs 10·93 lakhs in the Budget estimate of revenue. The allowance made in the Budget for the postponement of revenue collections involved in the extension of the credit system of payment of duty to Bengal and other provinces has, however, proved too large, and the actual shortage in revenue is likely to amount to Rs 2·01 lakhs only.

Budget, 1910-1911

In 1910-1911 an increase of 8·39 lakhs of maunds in the consumption and of Rs 76 lakhs in the revenue (inclusive of the miscellaneous receipts) is anticipated.

EXPENDITURE.

Revised 1909-1910

24. Of the lapse of Rs 4·31 lakhs in the current year's Budget grant, Rs 2·5 lakhs occur under "Cost of Salt purchased by Government" in Madras and is caused by the season being unfavourable for salt manufacture. The balance represents savings in establishment charges arising mainly out of the non-utilisation of the provisions for steamers for Cuttack and Midnapur, for the acquisition of land for new salt works at Bhandup and for the revision of certain preventive and clerical establishments in Bombay. The Budget estimate for 1910-1911 provides for these items of expenditure as well as for the revision of the combined salt and excise establishments in Madras; a normal provision has also been made under "Cost of Salt purchased by Government."

Budget, 1910-1911

REVENUE.

(a) Wholly Imperial.

Revised, 1909-1910. 25. The decrease in the Revised estimates of the current year as compared with the Budget occurs mainly in Ajmer-Merwara and is attributed to diminished litigation. The Budget estimate for 1910-11 provides for a small normal growth in the revenue.

Budget, 1910-1911.

(b) Divided.

Revised, 1909-1910. 26 The Revised estimate for 1909-1910 exceeds the Budget by Rs 12.05 lakhs. Increased litigation and commercial activity, consequent on the return of prosperous agricultural conditions, have enhanced beyond expectation the receipts in all the provinces afflicted by the recent famine (*viz.*, the Central and the United Provinces, the Punjab and Bombay), the revenue in Bombay being also swelled to some extent by large receipts of probate duty. In Madras too, the allowance made in the Budget for growth in revenue has been somewhat exceeded. On the other hand, the continuance of famine conditions in the first half of the year in certain portions of the two Bengals seems to have interfered with the growth of revenue anticipated in the Budget, while in Burma the commercial depression which followed the collapse of the land boom appears to have continued during the year and has been responsible for a further decline in the stamp revenue.

Budget, 1910-1911 27. In 1909-1910 the revenue has been taken at Rs 30.2 lakhs higher than in the current year. Of this Rs 20 lakhs represent the proceeds of enhanced taxation which it has been decided to impose in order to avoid a deficit. The taxation takes the form of raising the present duties levied on (a) debentures, (b) stock warrants to bearer, (c) transfers of shares and debentures, (d) agreements or memoranda of agreements relating to the sale of shares and securities, (e) bills of exchange, and (f) probate. The estimate of the extra revenue to be realized in this manner from the Provinces is distributed as follows —

	R
Central Provinces	24 lakhs
Burma	1 78 "
Eastern Bengal and Assam	40 "
Bengal	7.26 "
United Provinces	1 00 "
Punjab68 "
Madras	1.62 "
Bombay	7.02 "
Total	20.00

Apart from this special increase, allowance has been made for a normal growth in revenue in all the provinces, with the exception of the United Provinces and Bombay where it is not considered safe to count on a repetition of the abnormally high revenue of the current year.

EXPENDITURE.

28 The fluctuations between the Revised and the Budget estimates for the current year, and between the latter and the Budget estimates for 1910-1911, are unimportant, both in the case of the wholly Imperial and the divided expenditure, and do not call for any remarks. The decrease in expenditure in England in 1910-1911 is due to a smaller supply of post-cards, the consumption of which has fallen off owing probably to a more extensive use of post-cards of private manufacture. It may be explained that the cost of all stamps and stamp paper supplied from England is charged under this head, and an adjustment is made in India transferring to Post office and Telegraph the cost of stamps used for postal and telegraph purposes. Similarly the cost of revenue stamps supplied to Local Governments and Administrations is debited to them in the Provincial section of the accounts by *per contra* credit in the Imperial section under this head.

REVENUE.

(a) Wholly Imperial.

29. The Revised estimate for the current year does not differ materially from the Budget. In 1910-1911 provision has been made for a normal growth in revenue; but this is counterbalanced to some extent by a decrease in the transit duty levied on opium brought into the North-West Frontier Province from Afghanistan, the imports of which are not expected to be as high in 1910-1911 as in the current year.

Revised, 1909-1910.
Budget, 1910-1911.

*(b) Divided.*Revised, 1909-1910.

30. The Budget of the current year provided for a substantial increase in the excise revenue in all the provinces as a result of the return of normal agricultural conditions, as well as of the measures taken, with reference to the accepted recommendations of the Excise Committee, towards improved control, the supply of a purer liquor and the continued substitution of licit for illicit consumption. The large advance anticipated has not, however, been realised in any province with the exception of Madras and the total Revised estimate is R36 79 lakhs below the Budget provision. It is probable that the continuance of high prices during a greater portion of the year has again kept down the excise revenue; while in some provinces the measures of reform introduced appear to have led to cautious bids for licenses for retail vend. In the Central Provinces and Bombay there has also been an active temperance propaganda at work, and in Burma, insufficient allowance was made in the Budget for the loss of revenue likely to arise from the restriction of issues of opium to the probable needs of consumers and their estimated means. In Madras alone does an improvement occur over the Budget estimate, the growth in revenue having again exceeded anticipation.

Budget, 1910-1911.

31. The estimate for next year is taken at R37 46 lakhs higher than the Revised estimate for 1909-1910. Credit has been taken for a moderate normal growth of R32 46 lakhs in the revenue, and an additional R5 lakhs are expected to be obtained from the enhancement in taxation which Local Governments will enforce as a corollary to the increased tariff rates on beer and spirits; the amount being distributed as shown below.—

	R
Central Provinces	04 lakhs.
Burma	92 „
Bengal	52 „
United Provinces	1 44 „
Punjab	1 04 „
Madras	80 „
Bombay	24 „

	5 00 „
	<hr/>

EXPENDITURE.

32. There is no material variation between the Revised and the Budget estimates for the current year in any province. The total grant for next year is R4 95 lakhs higher than the Revised estimate for 1909-1910, provision has been made in almost every province for re-organisation of establishments or other fresh expenditure necessitated by the measures of reform referred to in paragraph 30.

33. The Revised estimate for the current year is practically the same as the Budget. In 1910-11 allowance has been made for a falling-off in the cess levied in Indore on Malwa opium in transit to Bombay, as it is uncertain to what extent passes will be issued next year

(b) Provincial.

34. An improvement of Rs 19 lakhs has taken place in Bengal over the Budget of the current year, owing to the introduction of revaluation rates in the Santhal Parganas and the collection of arrears; otherwise there is no important variation between the Budget and the Revised estimates of the current year, or between the latter and the Budget estimate for 1910-11.

EXPENDITURE.

35. The figures show little variation and call for no remarks.

REVENUE.

36. The Revised estimate for the current year is taken at Rs 23.51 lakhs less than the Budget. No improvement in the total imports of merchandise is likely to take place during the year, and as a result, the import duty under most of the tariff heads will fall short of the Budget estimate. The only important exception is sugar, the imports of which from Java in the first nine months of the current year have been over 30 per cent in excess of those in the corresponding period of 1908-1909. Some improvement is also expected under drugs, medicines and tobacco, while the recovery which has recently taken place in the demand for imported piece-goods will secure the full revenue which was counted upon from this source. As regards silver, the imports have considerably exceeded expectation and the duty is now estimated at Rs 11.61 lakhs higher than the Budget. On the other hand, there will be a shortage of export duty as the diversion of Burma rice to Indian ports has continued to some extent, specially during the earlier months of the year, and an important decrease will also occur in the excise duty on cotton goods owing to the recent stagnation in the Bombay mills.

37. In 1910-1911 provision is made for an increased revenue of Rs 172.44 lakhs under this head. Of this, Rs 145 lakhs represent the yield of the following enhanced duties which it has been decided to levy in order to secure financial equilibrium, viz. —

Beer and wines	50 per cent additional.
Spirits (ordinary)	Rs 6-0 per proof gallon, with corresponding rates on liquors and perfumed spirits /
Tobacco, unmanufactured	Rs 1-8-0 per lb
" cigars	" 2-8-0 " "
" cigarettes	" 2-0-0 " " (roughly)
" other sorts	" 1-10-0 " "
Silver	4 annas per oz.
Petroleum	1½ " per gallon.

Due allowance has been made for a possible contraction in imports consequent on the enhancement of the duty. The contraction is likely to be greatest immediately after the enhancement is announced and it is for this reason that no benefit from the enhanced duties is expected in 1909-10. A moderate development should take place next year in the import trade in other commodities, chiefly in piece-goods, as well as an improvement in the position of the cotton mills in Bombay. An increase of Rs 18 lakhs is also assumed in the export duty on rice as, with the improvement in the agricultural prospects in the two Bengals, the demand for Burma rice in India is sure to be further reduced.

EXPENDITURE.

38 The lapse in the Budget estimate of the current year is caused by the non-utilisation of the provisions for the re-organisation of the appraising establishment and for the purchase of a steam launch in Bengal and by savings in ordinary grants in all the maritime provinces. In 1910-1911 provision has been made for the full scale of sanctioned expenditure and for the re-organisation of appraising and other establishments in Burma, Bengal and Bombay.

VIII AND 10.—ASSESSED TAXES.

39. The Imperial revenue shown against other provinces represents income-tax levied on surplus profits of railway companies in Bombay; while that shown against non-Civil Departments consists of the amounts deducted from the salaries, etc., of officers belonging to the Postal, Telegraph, Railway, Public Works and Military Services.

REVENUE.

(a) *Imperial.*

40. There is no material variation between the Budget and Revised estimates, nor between the latter and the Budget of 1910-1911.

(b) *Divided.*

41. The total revenue in the current year is less than the Budget by Revised, 1909-1910. Budget, 1910-1911. Rs 3.49 lakhs. The more important decreases occur in Bengal and Bombay—the trade depression in 1908 having adversely affected the profits of companies on which the assessments in the current year have been based. The Budget estimates for next year provide for a total improvement of Rs 8.04 lakhs. A substantial recovery is expected in Bengal with the return of normal trade conditions; in the other provinces allowance has been made for a normal growth in revenue.

EXPENDITURE

42. The figures show little variation and call for no remarks.

REVENUE.

(a) Imperial.

43. The Revised estimate for the current year is less than the Budget by Rs 1'32 lakhs. The revival in the export of Padouk timber from the Andamans has not answered expectations, while the improvement in revenue anticipated in the North-West Frontier Province will not be fully realised. In 1910-1911, a small increase in the receipts from the Andaman forests is almost wholly counter-balanced by a decrease in the Frontier Province, where the current year's revenue includes certain arrear receipts.

(b) Divided.

44. The total revenue in 1909-1910 falls short of the Budget by no less than Rs 10.02 lakhs. All the provinces except Burma, Madras and Bombay share in this decline. In the Central Provinces, the revenue has been affected by a poor market for grass, firewood and bamboos, by a smaller outturn of timber in certain forests and by the exemption of calves from grazing fees. In the two Bengals, as well as in the United Provinces and the Punjab, the general depression in the timber trade appears to have been mainly responsible for keeping down the receipts; though in the last-named province a portion of the decrease is caused by an adjustment by deduction from receipts of a payment made to the Frontier Province in respect of arrear revenue due to it. Important improvements over the Budget forecast occur in Burma owing to an extension of the purchase contract system, and in Bombay mainly in consequence of a keen competition at the timber sales in certain tracts. *Revised, 1909-1910.*

45. In 1910-1911, a moderate growth of Rs 7.32 lakhs is assumed in the total revenue. All the provinces expect to share in the development, except Bombay where the completion of the clearance of *malhi* teak in the Thana forest division will restrict the income. *Budget, 1910-1911.*

EXPENDITURE.

(a) Imperial.

46. The saving of Rs 17 lakhs in the Budget grant for 1909-1910 occurs chiefly in the working expenses of the Andaman and Hazara forests, and in the charges of the Dehra Forest Research Institute owing to vacancies in the appointments of certain Research officers. For next year, provision has been made for the full scale of sanctioned expenditure. *Revised, 1909-1910.*
Budget, 1910-1911.

(b) Divided.

47. The lapse of Rs 4.03 lakhs in the Budget provision for the current year is distributed over all the provinces with the exception of Madras and Bombay, where small excesses over the grants are likely to take place. The saving is largest in the Punjab and is mainly caused by the payment to the Frontier Province referred to in paragraph 44 having been adjusted not under the expenditure head but by deduction from receipts. Important savings are also expected in the working expenses of forests, and in the provision for establishment charges in the Central Provinces and Burma. *Revised, 1909-1910.*

48. The Budget Estimate for 1910-1911 is Rs 9.96 lakhs higher than the Revised of the current year. The largest increase occurs in Burma, where full provision has been made for sanctioned establishments and for the re-organisation schemes introduced during the current year, and in Madras where operations for the development of forests are contemplated on a large scale. In Bombay, a lump provision of Rs 2 lakhs has been made for the re-organisation of the subordinate forest establishments, but this is counterbalanced to some extent by smaller expenditure on conservancy and works and on temporary establishments. In the other provinces, provision has been generally made for the normal growth in working expenses and the full sanctioned scale of establishments. Special provision has been made in the Central Provinces for the re-organisation of the provincial forest service, some provision for re-organisation and other fresh expenditure also appears in the Budget of most other provinces. *Budget, 1910-1911.*

49. The figures of both revenue and expenditure for the two years show little variation and call for no remarks

Provincial.

Revenue, 1909-1910
and 1910-1911

50. The total revenue in 1909-1910 does not differ materially from the Budget estimate. There has been a considerable set-back in Bengal, owing probably to the commercial and agricultural depression in the earlier months. But the defects from the Budget estimate in this province, as well as in Eastern Bengal and Assam, Madras and Burma, are counterbalanced to some extent by improved receipts in the provinces recovering from the recent famine. In 1910-1911, a substantial recovery is anticipated in Bengal, while in the United Provinces the rush of litigation in 1909-1910 is not expected to continue; in the other provinces, provision has been made for a normal growth in revenue consequent on the expansion of the operations of the department.

Expenditure,
1909-1910 and
1910-1911.

51. The total expenditure in 1909-1910 is about the same as the Budget estimate. The grant of 1910-1911 includes provision in almost every province for the revision of registration establishments.

Equivalent in Sterling £	600,986	584,520	589,036	586,500	596,700	590,300

52 The revenue recorded under this head represents tribute received from the protected states, in several cases as a result of exchanges of territory and settlement of claims, and contributions made chiefly in lieu of former obligation to supply or maintain troops. The figures do not show any important fluctuations from year to year except for arrears and their recovery and the levy of fees on succession (*nazarana*) in some cases. Thus the increase of **Rs 153 lakhs** over the Budget Estimate of the current year is chiefly due to the recovery of the balance of *nazarana* from the Chief of Mandi, while the absence of this item mainly accounts for the difference between the Budget of 1910-1911 and the Revised of the current year.

(a) *Imperial.*

Revised, 1909-1910. 53. The wholly Imperial expenditure shown against "Other Provinces" represents refunds and drawbacks in respect of wholly Imperial revenue (e.g., Opium, Salt, Customs and Tributes). Of the increase of Rs 18 13 lakhs in 1909-10 over the Budget estimate, Rs 16 80 lakhs occur under Opium owing to the reasons explained in paragraph 18, and Rs 1 94 lakhs under Customs owing to a special refund in Madras of a deposit for the payment of duty and larger drawbacks in Bombay chiefly on account of arms, cotton manufactures and silver bullion. The absence of these special refunds accounts for the difference between the Revised Estimate of the current year and the Budget of next year.

Budget, 1910-1911.

(b) *Divided and Provincial.*

Revised, 1909-1910 54. The expenditure fluctuates considerably from year to year and is difficult to estimate. In 1909-10 the Budget will be exceeded by Rs 2 31 lakhs owing chiefly to special excise refunds in the Central Provinces and Madras. Budget, 1910-1911. For 1910-11 a normal expenditure has been assumed.

2.—ASSIGNMENTS AND COMPENSATIONS.

55 The wholly Imperial expenditure shown against "Other Provinces" represents Opium, Salt and Customs compensations paid to Native States and Foreign Governments, as well as Miscellaneous compensations (*i.e.*, those of a general character and not intended to indemnify against loss of a particular kind of revenue) in provinces other than Bombay. The main reason of the variations between the Budget and Revised estimates of the current year and between the latter and the Budget of next year is the payment in Bombay of certain arrears due to the Akalkot State and to the *Saranjandars* in the Ahmadnagar district.

(a) India—Imperial

Revised 1909-1910

56 In 1909-1910, the total Budget estimate is now expected to be exceeded by Rs 14.2 lakhs owing chiefly to a larger overdraft of capital by the Bengal Nagpur Railway Company, the recovery of interest (by debit to Capital account) on funds advanced to the Company in India for the construction of new extensions and the recovery of arrears of interest on the cost of rolling stock originally purchased from State funds but eventually transferred to the capital account of

the Indian Midland Railway. On the other hand, there will be some decrease in the interest receivable in respect of Imperial loans and advances, owing to smaller realisation of arrears from Native States in Bombay and to advance payments at the end of 1908-1909 by certain States in Central India and Rajputana. In 1910-1911 there will be some increase in the interest payable from the revenues of the Bengal Nagpur and Indian Midland Railways in respect of overdrafts of capital as well as in that payable from the capital account of the former railway in respect of advances for the construction of new extensions.

(b) *India—Provincial.*

57. There is no material difference between the total Revised and the total Budget estimate of the current year, a shortage in the recovery in Bengal, and to a small extent also in Madras being more than counterbalanced by increased realisations in Bombay and other provinces. In 1910-1911, a large increase is anticipated in Bengal owing to the recovery of arrears and small increases are also provided in Madras, Eastern Bengal and Assam and Burma. But there will be a considerable decrease in the United Provinces and decreases of smaller magnitude in the other provinces which are recovering from the recent famine; and the total receipts for all India will be Rs 22 lakhs less than the Revised estimate of 1909-1910.

(c) *England.*

58. The interest realised in 1909-1910 from the investment of the cash balances of the Home Treasury of the Government of India exceeds the Budget by £63,000 (Rs 45 lakhs) owing to the sums available for investment being larger and the rate of interest higher than was estimated. The more moderate Budget figure has, however, been repeated as the Budget estimate for 1910-1911.

INTEREST ON ORDINARY DEBT.

Interest on total
debt, 1909-1910.

59 The charges in 1909-1910 for Interest payable on the public debt as a whole are in excess of the Budget by £39,500 (Rs 92 lakhs). The principal variations are an increase of £29,200 in interest on India Bills, owing to the

rate of discount being higher than was contemplated; and a payment of £14,600 on account of interest on the temporary loan taken from the Gold Standard Reserve during the year (*vide* paragraph 235). In the Budget of 1910-1911 necessary provision has been made for a full year's interest on the sterling loan of £7½ millions and the rupee loan of 2½ crores raised in the current year; for a higher rate of interest on India Bills, for increased sinking fund payments, for the redemption of debt in excess of money raised in connection with the new sterling loan raised in 1909-1910, and for the service of the new rupee loan announced in paragraph 238.

1910-1911.

60. The amount of interest transferred to the Railway and Irrigation sections of the accounts depends, firstly, on the capital expenditure, and, secondly, on the rate at which interest is charged on that portion of the debt which has not been specifically raised for the construction of railways or irrigation works. Our practice is to adopt for this purpose the average rate of interest actually paid in respect of the whole of the non-specific debt in the latest year for which the final accounts are available. The result is that the rate adopted in calculating the Revised estimate for a year is generally different from that used for the Budget estimate; and this leads to a difference between the two estimates apart from that caused by a variation in the capital expenditure itself. The increase in the amount of interest to be transferred in 1910-1911 over the Revised estimate for 1909-1910 is wholly due to the progress of capital expenditure.

*Transfers to Rail-
way and Irriga-
tion Accounts.*

61. A portion of the Interest on Ordinary Debt appears in the Provincial section of the accounts. Provincial Governments are authorised to grant advances to cultivators (as well as to certain other people in special cases) under various Acts, to landholders and notabilities apart from the provisions of any law, and to municipalities and local bodies (other than Presidency Corporations), out of amounts annually placed at their disposal by the Government of India. The interest actually levied on such advances is credited as Provincial revenue. But interest at 3½ per cent a year is charged to the Local Governments on the mean between the outstanding balances of the Provincial Loan Accounts at the commencement of the year and at its close, and this is done by transferring the amount so calculated from the Imperial to the Provincial section under Interest on Ordinary Debt. The differences between the Budget and the Revised estimates of the amount to be so transferred in the current year, and between the latter and the Budget estimate of 1910-1911, are explained by the reductions in the outstanding balances of the Provincial Loan Account as shown in the table at page 44, which are chiefly due to heavy recovery of *takavi* advances in the provinces recovering from the recent famine.

*Transfers to
Provincial.*

INTEREST ON OTHER OBLIGATIONS

62. The increase of £16,700 (Rs. 2.5 lakhs) in 1909-1910 over the Budget estimate is mainly caused by the payment to the revenue account of the Burma Railway Company, under the terms of its contract, of interest on undrawn balances of capital deposited by it. In 1910-1911, the payments on this account will be smaller, but the decrease will be more than counterbalanced by an increase in the interest payable by the Post Office Savings Bank, the deposits in which are expected to grow with returning agricultural prosperity, as well as in that payable on the deposits in the new General Provident Fund for Government servants.

REVENUE.

Revised, 1909-1910

63. The Budget estimates for the current year assumed a large growth in the postal revenue, with the return of normal agricultural conditions and the revival in trade. The expectation has not been fully realised and the Revised estimate is now taken at R8 85 lakhs less than the Budget. Trade conditions have not proved quite so good as was anticipated, while insufficient allowance appears to have been made in the Budget for the effect of the reduction in postal rates introduced from the 1st October 1907. In the Budget of next year, provision has been made for a moderate growth of R10·89 lakhs.

Budget, 1910-1911.

EXPENDITURE.

Revised, 1909-1910.

64. The expenditure in 1909-1910 in India is likely to exceed the Budget grant by R1·51 lakhs. There will be an increase of R2·75 lakhs under grain compensation allowances to low-paid Government servants, but this will be counter-balanced to some extent by savings under stationery and printing charges. The Budget estimate for 1910-1911 provides for the sanctioned scale of expenditure as well as for the normal development of the operations of the department; allowance has been made for a saving in the cost of audit which is expected to accrue from certain reforms likely to be introduced next year.

Budget, 1910-1911.

(a) Indian.

65. In framing the Budget estimate of the current year, no allowance was made for the usual growth in revenue which had taken place in recent years, as the effect of the change in the inland tariff which was introduced from the 1st of January 1909 could not be properly gauged. It now appears that this cautious estimate is likely to prove too high by no less than Rs 9 lakhs. A greater portion of this loss arises from State messages, both the number and the average value of which appear to have decreased during the year, and is made up to Government by savings in the cost of official telegrams. As regards private messages, so far as can be estimated at present, it seems that their average value has somewhat increased after the introduction of the new tariff; and any loss that may take

place on them during the year will probably be due to a reduction in their number caused by the continuance of the trade depression in the earlier part of the year. For next year a moderate growth of Rs 9 lakhs in the revenue is assumed with reference to a possible improvement in trade conditions

(b) *Indo-European.*

Revised, 1909-1910 66. There is an improvement of Rs 1.65 lakhs in the current year over the
Budget, 1910-1911. Budget estimate, mainly in the message revenue. In 1910-1911 a further small normal growth has been allowed for.

EXPENDITURE.

Revised, 1909-1910. 67 A lapse of Rs 5.09 lakhs is expected in the total Budget grant of the
 -- current year, owing chiefly to smaller expenditure on buildings and on purchase of
Budget, 1910-1911 stores for the Indo-European Department. In 1910-1911, provision is made by the
 ----- Indo-European Department for the construction of a line through Arabistan and
 for increased expenditure on buildings; and by both Departments for larger purchases of stores in England.

REVENUE.

68. The Revised estimate for 1909-1910 is taken at R6.68 lakhs less than the Budget. The return from circulation of bronze coins issued during the last famine has continued during the year, and instead of the profit of 8 lakhs which we anticipated from this source there will be a loss of 4.5 lakhs. The profit on the circulation of nickel coins is also likely to be less than the Budget by a lakh. On the other hand, dollar coinage will yield an unexpected receipt of 2.52 lakhs. *Revised, 1909-1910.*

69. In 1910-1911 the Budget is taken at R5.95 lakhs higher than the Revised estimate for the current year. A revival in the demand for bronze coin is expected to yield a profit of 8.5 lakhs, but on the other hand there will be a decrease of a lakh in the profits on nickel coinage and of 1.52 lakhs in the fees charged for the coinage of dollars. *Budget, 1910-1911.*

EXPENDITURE.

70. The increase of R2.8 lakhs in the Revised estimate over the Budget of 1909-1910 has been caused by the loss on the circulation of bronze coins mentioned above, counterbalanced to some extent by savings in the establishment charges and in the grant for the purchase of stores. In 1910-1911 provision has been made for a normal scale of expenditure. *Revised, 1909-1910.* *Budget, 1910-1911.*

71. The cost of the Civil offices of Account and Audit is Imperial in all the provinces with the exception of the charges of the staff employed in auditing the accounts of municipalities and other local bodies; so is the expenditure of the Currency Department, as well as the payments made to the Presidency Banks for treasury work and for the management of the public debt.

(a) India—Imperial.

72. The total expenditure in 1909-10 falls short of the Budget grant by Rs 44 lakhs. There is a saving of Rs 2.21 lakhs in the provision made for the enlarged Legislative Council in consequence of too early a date having been assumed for the introduction of the Reform scheme; and of Rs 1.11 lakhs in the provision for the tour and other expenses of the Governor-General. On the other hand, there is an excess of Rs 68 lakh in the Secretariat charges, owing chiefly to the re-organisation of office establishments and the grant of family travelling allowance recently sanctioned by the Secretary of State; and some excess occurs in the grant for the Civil Account offices owing to the expenditure incurred in Bengal in connection with the removal of the office to the building lately occupied by the Military Accounts Department and the payment of leave allowances to officers in several provinces.

73. The Budget of next year is taken at Rs 2.15 lakhs higher than the Revised estimate for 1909-1910. Full provision has been made for the charges of the enlarged Legislative Council. The provision under the other heads is generally based on the sanctioned scale of expenditure, save that allowance has been made for the normal growth of the cost of audit and for additional establishment required at the Rangoon Currency office.

(b) India—Provincial.

74. The total expenditure in 1907-1910 does not materially differ from the Budget estimate. Savings are expected in Bombay, mainly owing to the non-utilisation of the provision for the grant of local and house-rent allowances to certain officers and establishments, in Burma, the United Provinces and the Punjab, in consequence of the transfer to other heads of charges, which provision was made in the Budget under this head, as well as of ordinary lapses in grants; and to a small extent in the Central Provinces. But these have been largely counterbalanced by excess expenditure in Madras and in the two Bengals.

75. The Budget of 1910-1911 exceeds the Revised of the current year by Rs 5.62 lakhs. Provision has been made for an additional expenditure of Rs 1.57 lakhs (net) in Bengal in connection with the contemplated constitution of an Executive Council, and of Rs 66 lakh in Madras, as well as in Bombay, on account of an additional Ordinary Member of the Executive Council. Other general causes of increase in the seven major provinces are full provision for the enlarged Legislative Council, re-organisation and strengthening of Secretariat establishments, and purchase of motor cars for high officials. In the Central Provinces, provision has been made for the sanctioned scale of expenditure, for the undrawn balance of the contract allowance of the Chief Commissioner, as well as for an increase in the salaries of Secretaries and Commissioners with reference to the proposed re-organisation of the Central Provinces and Berar Commissions.

(c) England.

76. The increase over the Budget estimate in 1909-1910 and the further increase in 1910-1911 occurs chiefly under stores for India, and is caused by the manufacture of new currency note forms in connection with the recent currency legislation.

Equivalent in Sterling £	271,423	264,087	280,117	275,700	290,200	285,800

EXPENDITURE.

(a) Imperial.

77. The small increase over the Budget grant in 1909-1910 is caused by the refund of an escheated property by the Administrator General, Bengal, whose charges are recorded in the Imperial section of the accounts, and an insufficient provision on account of salaries of Assistant Commissioners in the Frontier Province. In 1910-1911 provision has been made for the sanctioned scale of expenditure.

(b) Provincial.

78. The total Revised Estimate for the current year exceeds the Budget by R6 49 lakhs. There is a large increase of R3'84 lakhs in Bengal mainly in connection with the prosecution of anarchical crime; and of R2'26 lakhs in Madras owing to enhanced expenditure on grain compensation allowances, creation of temporary Civil and Sessions Courts to cope with increase of work and insufficient provision in the Budget to meet sanctioned charges of Criminal Courts. Smaller excesses occur in Burma owing chiefly to the prosecution of the Kheddah fraud cases, in Eastern Bengal and Assam owing to inadequate provision under several items in the Budget, and in Bombay, as a net result of a number of unimportant variations from the Budget allotments. On the other hand, some saving in the Budget grants is expected in the United Provinces, the Punjab and the Central Provinces.

79. The total Budget for 1910-1911 is R8 06 lakhs higher than the Revised Estimate for 1909-1910. The increase is shared by all the provinces except Bengal, where provision for normal growth of expenditure and for additional outlay in connection with the scheme for the improvement of the pay of ministerial officers will be more than counterbalanced by smaller payment of fees to prosecuting lawyers and of grain compensation allowances. The more important increases occur in the Punjab (2'25 lakhs), where provision has been made for the full cost of the scheme, recently introduced, for the re-organisation of the Judicial Department; in Madras (1'86 lakhs), where the Budget contains allotments for additional temporary Civil and Sessions Courts required to cope with the increase of work, as well as for a number of new schemes, *e.g.*, constitution of additional districts and revision of pay of certain clerical establishments, and in Burma (1'76 lakhs) and the United Provinces (1'21 lakhs) owing chiefly to provisions for additional courts and the re-organisation of certain Judicial establishments. The excess in the case of the Central Provinces is chiefly caused by provision for the scheme for the re-organisation of the Commission.

REVENUE.

(a) Imperial.

80. The figures do not show any important variations and call for no remarks.

(b) Provincial

81. There is an increase of R2 49 lakhs over the total Budget of the current year, chiefly under court-fees realised in cash in the United Provinces and under magisterial fines in several provinces. The Budget for 1910-1911 provides for normal receipts in all the provinces.

EXPENDITURE.

Imperial.

Revised, 1909-1910.

82. Nearly the whole of the saving in the Budget grant for 1909-1910 occurs in the convict charges at Port Blair, which constitute the bulk of the expenditure shown against "India General"; it has been caused by a fall in the

cost of dietary and by a too high provision in the Budget for the re-organization of the Military Police. The Budget for 1910-1911 allows for a normal scale of expenditure and includes provision for a contemplated revision of the warder establishment in the Frontier Province. Budget, 1910-1911.

Provincial.

83. The total Revised for 1909-1910 is Rs 2.55 lakhs higher than the Budget Estimate. The provision for dietary charges has proved inadequate in Bengal, the Punjab, Madras and to a small extent in the Central Provinces, in the first of these provinces considerable expenditure had also to be incurred in connection with the equipment of the new Presidency Jail. The saving in Eastern Bengal and Assam occurs in the purchase of raw materials for manufacturing purposes. Revised, 1909-1910.

84. The Estimates for 1910-1911 are generally based on the probable jail population, the cost of dietary and the requirements for raw materials. Provision for the revision of warder and other jail establishments has been made in several provinces (including the Central Provinces), and necessary allotments appear in Bengal for the new Presidency Jail and in Bombay for the new jail at Shikarpore. Budget, 1910-1911.

REVENUE.

(a) Imperial

85. The figures show little variation and call for no remarks.

(b) Provincial.

86. The decrease of Rs 2.74 lakhs in the Revised Estimate of the present year, as compared with the Budget, is chiefly due to smaller demands for jail manufactures in Bengal. In 1910-1911, some recovery is expected in this province; in the other provinces, provision has been generally made for normal receipts, save that in Burma a special increase has been allowed for, owing to the contemplated employment of convict labour in the Rangoon Jail Press. Revised, 1909-1910.
Budget, 1910-1911.

XVII AND 20.—POLICE.

EXPENDITURE.

(a) Imperial.

Revised, 1909-1910

87 The saving in the Budget grant for the current year of the Frontier province is caused by the non-utilisation of the provision for re-organisation of the police force and by lower expenditure on grain compensation allowances, the excess under India General occurs in the charges of the Central Criminal Investigation Department. In 1910-11, provision has been made for the full sanctioned

Budget, 1910-1911.

scale of the re-organised police in the Frontier Province and for the introduction of police reforms in Baluchistan, but the excess expenditure on this account is counterbalanced in part by savings under grain compensation allowance and higher recoveries from certain local funds in Hyderabad towards the cost of police supplied to them.

(b) *Provincial.*

88 The expenditure in the current year is likely to fall short of the Budget by Rs 35 lakhs. The grants for the introduction of police reforms are not likely to be fully worked up to in the two Bengals and in Madras, and the total savings in these three provinces will amount to Rs 21 lakhs. But, on the other hand, there will be considerable excesses over the Budget grant in Burma, where sufficient provision was not made for the sanctioned scale of expenditure in connection with the military police, in the Punjab and the Central Provinces, where the progress of police reforms has been more rapid than was anticipated, and in the United Provinces owing to special purchase of arms and accoutrements. In 1910-11, provision has been made in every province for the full cost of the reforms introduced during the current year, as well as for the introduction of further reform measures.

Revised, 1909-1911

Budget, 1910-1911

REVENUE.

89. The figures show little variation and call for no remarks.

EXPENDITURE.

Revised, 1909-10.Budget 1910-11.

90. The saving of Rs 174 lakhs in the Budget estimate of the current year is chiefly caused by ordinary lapses in grants in Burma and Bengal. The estimates for 1910-11 generally allow for a normal scale of expenditure, save in Bengal, where an increased outlay on stores is contemplated, and in Bombay where provision has been made for repairs to a Government steamer.

REVENUE.

Revised, 1909-10Budget, 1910-11.

91. The revenue in 1909-10 is now taken slightly higher than the Budget estimate in anticipation of increased pilotage receipts in Bengal. The Budget for 1910-11 is taken at about the same figure as the Revised for the current year.

EXPENDITURE.

(a) Imperial.

92. In the Budget estimate for the current year provision was made under this head in the India (General) Estimates for an Imperial Grant of Rs 15 lakhs in aid of university and collegiate education to be distributed among the several Provincial Governments. The amount actually assigned to each Government out of this sum has been placed at its disposal by increasing its share of Land Revenue, and there is thus a saving of the whole amount in the India Estimates under this head. The saving in the Frontier province is caused by lapses in ordinary grants. Revised, 1909-1910.

93. In 1910-1911, the Budget provides for the sanctioned scale of expenditure in all the minor administrations, as well as on account of the Imperial Director General of Education, special allowance has also been made for the further development of education in the Frontier province, Baluchistan and Bangalore. Budget, 1910-1911.

(b) *Provincial.*Revised, 1909-1910.

The total Revised estimate of the current year exceeds the Budget by only 4 lakh. Excesses over Budget grants occur in the Punjab, the Central Provinces and Eastern Bengal and Assam, partly owing to expenditure against the special Imperial grants mentioned above, and partly also to heavier payment of grants-in-aid in the first two provinces and to the provincialisation of the inspecting agency formerly paid by District Boards in the last-named province. In Bengal, the excess expenditure caused by the payment to the University of the Imperial grant of Rs 6 lakhs has been more than counterbalanced by lapses in ordinary grants and in some of the special provisions included in the Budget for the improvement of education. In Bombay also, lapses are expected in the ordinary and special provisions, while the greater portion of the special Imperial grant of Rs 55 lakh will not be spent in the current year and has been allotted for expenditure in 1910-1911. The large saving in Burma is caused by the non-utilisation of certain provisions for the development of education.

Budget, 1910-1911.

95. The estimates for 1910-1911 allow for a large advance of Rs 29.19 lakhs in educational expenditure—the increase being larger than that provided under any other head of Civil expenditure. Provision has been made in every province for further improvement and development, as well as for the full cost of the reforms introduced in the current year. Of the total increase, Rs 3.15 lakhs are met from the special Imperial grant to be given in 1910-1911 in aid of university and collegiate education and 45 lakh in Bombay from the unexpended balance of the similar grant made in the current year.

96. The largest increases occur in the United Provinces, Bombay and Bengal where the following sums have been provided for fresh expenditure with reference to the recommendations of the Finance Committees.—

	R
United Provinces	86,000
Bombay	2,96,000
Bengal	42,000

97. The more important special provisions made in the several provinces are enumerated below.—

- (1) *Central Provinces*—Opening of new schools of every description and payment of larger grants-in-aid to schools and colleges and to local bodies for educational purposes.
- (2) *Burma*—Strengthening of the subordinate inspecting agency, taking over by Government of certain municipal schools and raising of certain primary schools to the middle grade.
- (3) *Eastern Bengal and Assam*—Raising of the status of the Chittagong College to the first grade, and payment of larger grants to high schools and Mahomedan hostels.
- (4) *Bengal*—Appointment of an Inspector of Industries, revision of certain subordinate inspecting establishments, strengthening of the staff and other improvements in Government colleges and schools, and opening of new schools of various classes.
- (5) *United Provinces*.—Taking over by Government of District Boards' *zilla* schools, regrading of the Provincial service, strengthening of the inspecting agency, opening of new schools, development of technical and female education, payment of larger grants to aided colleges and schools.
- (6) *Punjab*.—Lump provision for building and miscellaneous grants.
- (7) *Madras*—Strengthening of the staff in Government colleges, expansion of elementary education and re-organisation of training schools.
- (8) *Bombay*—Strengthening of the subordinate inspecting agency, development of technical education and opening of new primary schools.

REVENUE.

Revised, 1909-1910.

98. The Imperial figures call for no remarks. Under Provincial, the total revenue in 1909-1910 will not materially differ from the Budget estimate—a decrease of Rs 1.78 lakhs in Bengal, caused mainly by the non-realisation of special contributions anticipated from District Boards, being very nearly counterbalanced by the recovery of arrear contributions (1.12 lakhs) from the Aitchison College in the Punjab and by small improvements in some of the other provinces. In 1910-1911, provision is made for normal receipts in all the provinces, the large increase in United Provinces being caused by the provincialisation of District Boards' schools.

Budget, 1910-1911.

23.—ECCLESIASTICAL.

EXPENDITURE.

(a) *Imperial.*

100. The saving in the Budget Estimate for the current year is caused by *Revised, 1909-1910.* the non-utilisation of certain provisions for fresh expenditure and by smaller expenditure on measures for the prevention of plague in the Frontier province. In 1910-1911, special provision has been made for the creation of an additional *Budget, 1910-1911.* civil surgeoncy in Baluchistan, as well as for the revision of certain clerical establishments and higher expenditure in connection with plague in the Frontier province.

(b) *Provincial.*

101. The total Revised Estimate for the current year is taken at *Revised, 1909-1910.* Rs 10.17 lakhs less than the Budget. The decrease is shared by every province with the exception of Madras, where a small excess is anticipated. In the Central Provinces, Burma and Bombay, it is caused by savings in ordinary allotments and in the grant for expenditure in connection with the plague, in Bengal by similar savings as well as by the non-utilisation of the special provisions for the improvement of the Sanitary Department and the prospects of civil medical assistants; and in Eastern Bengal and Assam, the United Provinces and the Punjab by heavy lapses in the special subventions made from Imperial revenues for the improvement of sanitation.

102. The Budget for next year exceeds the Revised for 1909-1910 by *Budget, 1910-1911.* Rs 17.97 lakhs, the increase being distributed over all the provinces. Provision has been made in every province for increased outlay on the improvement of sanitation; while several provinces contemplate a more vigorous programme for the prevention of plague. Special allotments have been made in almost every province for the improvement of the prospects of civil medical assistants; in Burma for improving the equipment of certain hospitals, in Bengal for improving the prospects of assistant surgeons; in the United Provinces for the taking over by Government of the Thomason Hospital at Agra, and in Bombay for the opening of new dispensaries and for the payment of grants to certain medical institutions.

REVENUE.

103. The figures do not show any important variations and call for no remarks.

104. The Imperial outlay shown against "Other Provinces" consists of the charges of the Political Residency at Aden, and certain other expenditure—mainly in connection with political refugees and State prisoners—in several provinces.

(a) *Imperial.*

Revised, 1909-1910.

105. The expenditure fluctuates considerably with the drawings of his subsidy by His Highness the Amir of Afghanistan. It is very difficult to forecast these with any degree of accuracy, and there is always an element of uncertainty in the estimates under this head. The Budget Estimate for the current year provided for a payment of Rs 29 lakhs on this account. It is now unlikely that more than 25 lakhs will be drawn, and allowing for a provision of this amount the Revised Estimate amounts to Rs 7.44 lakhs less than the Budget. Other important causes contributing to the decrease are non-utilisation of the provisions for the re-organisation of certain tribal levy services in Baluchistan and of frontier militia in the Frontier province; and recovery of arrear contributions towards the cost of certain political agencies in Central India.

Budget, 1910-1911.

106. In 1910-1911, the provision for the payment of subsidy to the Amir has been taken at 10 lakhs, but the saving under this item is counterbalanced in part by increases in other directions, and the total Budget is less than the Revised by only 1.92 lakhs. The principal causes of increase are the absence of the arrear contributions mentioned above, and the provision for the re-organisation of frontier militia in the Frontier province and of the political staff and certain other establishments in Aden.

(b) *Provincial.*

Revised, 1909-1910.

107. The Revised for the current year does not differ materially from the Budget. In the Budget of 1910-1911, a small growth of expenditure has been allowed for, mainly in connection with the re-organisation of the Bombay Political Department,

Budget, 1910-1911.

EXPENDITURE.

108. The figures shown against "Other Provinces" in the table at page 67 represent expenditure incurred in the several provinces in connection with ethnographical surveys, census operations, and the pay and allowances of officers borne on the cadre of the Imperial Civil Veterinary Department, as well as the cost of the Archæological Department in Burma.

(a) Imperial.

109. The Revised for 1909-1910 is less than the Budget by R2.72 lakhs. The principal savings occur in the charges of the Meteorological Department owing mainly to a reduced expenditure on telegrams caused by the revised tariff rates, and of the Survey of India, Geological Survey and Agricultural Departments in consequence of ordinary lapses in grants. In 1910-1911, a provision of 5 lakhs has been made to meet the cost of the impending census operations. Otherwise the grants of the various Departments have been generally fixed with reference to normal operations and the scale of establishments actually sanctioned. The large increase under Survey of India over the current year's expenditure is caused mainly by provision for the reorganisation of the Imperial Service recently sanctioned by the Secretary of State.

(b) Provincial.

110. The Revised Estimate shows a lapse of R1.76 lakhs in the total Budget provision for the current year. Considerable savings are expected in Bengal and in Bombay, owing mainly to the non-utilisation of grants for the development of the Agricultural Department in the former province, and for the

purchase of land for the Northcote Cattle Farm in the latter. Savings of smaller magnitude occur in Madras, Burma and the Central Provinces. But on the other hand, there are large excesses over Budget grants in the United Provinces and the Punjab. In both these provinces, special payments of contributions of 2 and 1 lakhs respectively have been made to the recent industrial exhibitions; but while in the former province it has been found possible to meet a portion of this expenditure out of savings in the Budget allotments, in the latter the Budget has proved inadequate to meet sanctioned outlay.

111. The total Budget grant for 1910-1911 is 6.28 lakhs higher than the Revised of the current year. The bulk of the increase occurs in Bengal, Madras and Bombay. Provision has been made in all three provinces for the further development of the agricultural and other departments whose charges are recorded under this head, and in Bengal, and also to a smaller extent in Madras for the purchase of a larger quantity of cinchona bark. Provisions for the development of the agricultural and veterinary departments have also been made in the Central Provinces, the United Provinces and the Punjab; but they have been obscured in the first named province by the saving caused by the completion of the work in connection with gazetteers; and in the last two provinces by the absence of the special payments made in the current year in aid of industrial exhibitions.

REVENUE.

112. The fluctuations in the Imperial figures are unimportant and call for no remarks.

113. As regards the Provincial figures, the decrease in 1909-1910 as compared with the Budget estimate is chiefly due to smaller receipts from the sale of quinine in Bengal and from the chrome tanning industry in Madras. In 1911 larger receipts are anticipated in Bengal from the sale of quinine, and almost all the provinces provide for a growth in departmental revenue.

27.—TERRITORIAL AND POLITICAL PENSIONS.

117. The figures of Imperial revenue shown against "Other Provinces" represent the receipts of certain abolished funds, the assets and liabilities of which were taken over by the Government, as well as the subscriptions paid by members of the Indian Civil Service for securing certain pensionary benefits for their families. The charges on account of such pensions as well as of the pensions of the abolished funds are recorded in the accounts as Imperial expenditure.

EXPENDITURE.

118. The expenditure in India in the current year is nearly the same as the Budget estimate; but in England there is an excess of £17,700 (2.65 lakhs). The estimates for next year provide for the normal growth of the retired list both in India and in England.

REVENUE.

119. The variations in the figures are unimportant and do not call for any remarks.

XXIII AND 30.—STATIONERY AND PRINTING.

EXPENDITURE.

(a) *Imperial—India and England.*

120. The grant for the purchase of stationery for the central stores in 1909-1910 was deliberately fixed at a lower figure than the actual expenditure in the two previous years, as measures were in contemplation for securing a reduction in the consumption of stationery in Government offices. Some steps in this direction have been taken during the present year, but the effect of these will not be fully felt for some time to come, and the grants for the purchase of stationery for central stores in India and in England in the current year have been exceeded by Rs 55 lakhs. A part of this, however, will be counterbalanced by an increase of Rs 203 lakhs in the value of supplies to Local Governments, etc. There will also be a large saving in the printing expenditure which also has come under more careful scrutiny during the year. The total Imperial expenditure under this head in the current year is Rs 116 lakhs in excess of the Budget grant, but it is satisfactory to notice that there is a reduction of Rs 67 lakhs as compared with last year. Revised, 1909-1910

121. The grant for the purchase of stationery for central stores in India and in England in 1910-1911 has been fixed at Rs 24 lakhs less than the Revised estimate for the current year, in the expectation that the measures referred to above and further measures in the same direction likely to be adopted next year will check any growth in the expenditure. On the other hand, a slightly larger decrease occurs in the supplies to Local Governments, etc., some of whom are also taking steps to secure economies, and provision has been made for a growth in the printing charges. The total Imperial Budget for next year in both India and England therefore exceeds the Revised of 1909-1910 by 14 lakhs. Budget, 1910-1911

(b) *Provincial.*

122. The total expenditure in 1909-1910 exceeds the Budget by Rs 357 lakhs. Of this Rs 63 lakhs occur in Eastern Bengal and Assam alone, where the requirements of the new Dacca jail press appear to have been inadequately foreseen. Some increase in the stationery expenditure has taken place in most of the provinces.

123. The increase of Rs 22 lakhs in the Budget of 1910-1911 over the Revised estimate of the current year occurs almost wholly in the printing expenditure.

REVENUE

124. The Imperial revenue shown against "Other Provinces" represents recoveries of the value of stationery supplied to Railways, Municipalities and other local bodies, etc.

125. The increase in 1909-1910 over the Budget estimate occurs mainly under India General and the Punjab and is caused by collection of bills outstanding at the end of the previous year. The absence of these special receipts accounts for the falling off in the receipts for 1910-1911 as compared with the Revised for 1909-1910.

XXIV AND 31.—EXCHANGE.

	Accounts, 1906-1907.	Accounts, 1907-1908.	Accounts, 1908-1909.	1909-1910		1910-1911, Budget.
				Budget.	Revised.	
R	28,50,328	14,17,664	3,93,000	...
Equivalent in Sterling £	190,022	94,511	26,200	...
Expenditure . . R	5,16,552
Equivalent in Sterling £	34,437

126 The accounts of the Government of India are now prepared on a sterling basis, the rupee transactions in India being converted into pounds at the rate of $\text{R}15 = \text{£}1$ and then added to the sterling transactions in England; and the comparatively small sums which have to be brought to account owing to the facts that the remittances to defray the net expenditure in England are not effected at exactly sixteen pence to the rupee, and that the Government is under obligations to carry out certain transactions with railway companies at fixed rates differing from the rate of sixteen pence to the rupee, are shown under this head.

127. In the current year the average rate to be obtained on the net remittance of funds from India to England is estimated at $\text{£}1 = \text{R}14.977$, and there is accordingly a gain of $\text{R}393$ lakhs under this head. In the Budget estimate for next year, it is usual to assume an average rate of $\text{£}1 = \text{R}15$, as it is not possible to forecast with any degree of certainty what the course of exchange will be in the next twelve months.

128.

8. Charges in connection with the remittance of Government treasure are Imperial in all provinces; so is the discount paid, or the premium levied, in connection with the sale of bills at treasuries and currency offices to facilitate trade remittances of funds. The only other important items of Imperial revenue and expenditure realised or incurred in the various provinces under this head are those of an extraordinary character exceeding Rs 10,000 in amount.

EXPENDITURE.

(a) India—Imperial.

Revised, 1909-1910.

Budget, 1910-1911.

129. Important savings in the Budget estimate for the current year occur under remittance charges and in the reserve provision for special commissions of enquiry. In 1910-1911, an increased allotment has been made on account of the former item in the anticipation of a further improvement in trade conditions; and a reserve provision has again been made under the latter, mainly in view of the contemplated enquiry into the rise of prices.

(b) India—Provincial.

Revised, 1909-1910

130. The total Revised estimate for the current year is Rs 621 lakhs less than the Budget estimate. A considerable lapse has taken place in the United Provinces in the provision for *takavi* remissions, and a similar lapse of a much smaller magnitude in the Central Provinces. Important decreases also occur in Eastern Bengal and Assam owing to a smaller payment of contributions to district boards, in consequence of the taking over by Government of certain expenditure formerly incurred by them, and to the record under other heads of account of certain charges for which provision was made in the budget under this head; and in Bengal owing to savings in the provision for the special enquiries in connection with fisheries and other matters. On the other hand, there are large excesses over the Budget estimate in Burma, owing to the record under this head of certain charges for which provision was made under other heads, and in the Punjab, owing to higher expenditure on petty establishments and on miscellaneous contributions to district boards.

Budget, 1910-1911.

131. The total Budget for 1910-1911 is less than the Revised of the current year by Rs 173 lakhs. Provision for increased expenditure has been made in the Central Provinces, in connection with *takavi* remissions, and in most of the other provinces, to allow for ordinary growth as well as for outlay of an unforeseen character. But they are more than counterbalanced by a decrease of Rs 41 lakhs in the United Provinces caused by smaller provisions for *takavi* remissions and for contributions to district boards in consequence of the taking over by Government of certain expenditure hitherto incurred by them, and by a smaller decrease in the Punjab, due to the absence of special contributions paid to certain district boards during the current year.

(c) England.

132. The bulk of the variations between the Budget and the Revised estimates of 1909-10 and between the latter and the Budget of next year is explained by heavy refunds to contractors in the current year of fines incurred by them in 1908-09 in connection with the supply of stores.

Revised, 1909-1910.

133. The Budget for 1909-1910 included a special provision of Rs 9 lakhs on account of the probable proceeds of the sale to the Calcutta Port Commissioners of certain lands belonging to the Government. The amount is not likely to be received during the current year and this explains the difference of Rs 9.09 lakhs between the Budget and the Revised estimates. In Bombay the Budget provided for a special extraordinary receipt of Rs 1.52 lakhs on account of the sale of the buildings and site of the St. Peter's School, Mazagaon. This has been omitted from the Revised as the property is not likely to be sold, but receipts of nearly the same amount are expected from profits on rents of Government lands vested in the City of Bombay Improvement Trust and from the sale of the Karachi Custom House building.

Budget, 1910-1911.

134. Provision has been made in the Budget for 1910-11, for the special receipt of 9 lakhs mentioned above, as well as for one of 1.11 lakhs in the United Provinces to be obtained from the sale of certain property in connection with a scheme for the amelioration of the position of the Benares branch of the ex-Royal

REVENUE.

(a) *Imperial.*

family of Delhi. But owing mainly to the absence of the special receipts obtained in Bombay in the current year and to smaller recoveries of departmental charges in connection with the supply of stores to Provincial Governments and local bodies the total Budget will be only 7·7 lakhs higher than the Revised of the current year.

(b) *Provincial.*

135. A sum of R4·72 lakhs was provided in the Budget estimates of the Central Provinces for 1909-1910 as probable receipts from the sale of cloth manufactured for Government by weavers in receipt of relief during the last famine; but R2·2 lakhs are now expected to be received from this source in the current year, a further 3 lakhs being realised next year. The decrease in revenue in 1909-1910 is, however, more than counterbalanced by increases in other provinces, the more important of these occur in Eastern Bengal and Assam owing mainly to higher receipts from unclaimed deposits in courts, etc., and in Bengal owing to special receipts from the sale of the Jorabagan thana and of the fishery trawler "Golden Crown." The former transaction is expected to bring in 2 lakhs of which 1·4 will be received in 1910-1911. Revised, 1909-1

136. The total Budget for 1910-1911 does not materially differ from the Revised for the current year, and the only important items of a special character are those in Central Provinces and Bengal mentioned in the preceding paragraph. Budget, 1910-1

137. There is a satisfactory saving of Rs 20.67 lakhs in the provision made in the Budget estimates of the current year for the actual relief of famine, owing to the earlier termination of relief operations in the afflicted districts in the two Bengals and in the United Provinces. A small lapse is also expected in the grant for the construction of Protective railways, owing to delay in the acquisition of land for the Dharmapuri-Hosur extension of the Morappur-Dharmapuri Railway. The amounts saved under both heads are added to the provision for the avoidance of debt, and the total grant under the group head remains unchanged.

138. In the Budget for 1910-1911, provision has been made as usual for a total grant of 150 lakhs under this group head. No portion of this will be required for actual famine relief expenditure; and the sum has been allotted in moieties for the construction of works which are likely to serve as a protection against famine, and for the avoidance of debt. It may be mentioned that half of the latter grant appears in the Provincial section of the estimates as a result of the arrangements explained in the Financial Statement for 1907-1908.

CONSTRUCTION OF PROTECTIVE WORKS.

139. The whole of the grant for Protective Railways in 1910-1911 will be spent, as in the current year, on the construction of certain famine feeder lines in the Madras Presidency.

The following table gives the distribution of the grant made in next year's Budget for the construction of protective irrigation works—

	1909-1910		1910-1911, Budget
	Budget.	Revised.	
1 Central Provinces	R	R	R
(i) Tank projects	13,60,000	15,11,000	15,52,000
(ii) Other projects, etc.	2,40,000	1,90,000	2,23,000
2 Burma	31,000	17,000	15,000
3 Eastern Bengal and Assam	6,000	6,000	2,000
4 Bengal			
(i) Tribeni Canal	6,89,000	8,99,000	8,10,000
(ii) Other projects, etc.	1,26,000	1,16,000	1,40,000
5 United Provinces			
(i) Betwa Canal	2,89,000	4,59,000	65,000
(ii) Ken	3,16,000	1,72,000	4,18,000
(iii) Damsan	8,32,000	7,44,000	6,21,000
(iv) Other projects, etc.	4,93,000	1,90,000	5,39,000
6 Punjab		1,000	...
7 Madras	1,36,000	62,000	1,01,000
8 Bombay			
(i) Godavari Canal	14,01,000	21,14,000	15,31,000
(ii) Chankapur Tank	2,77,000	2,72,000	40,000
(iii) Pravara river project	5,00,000	3,56,000	8,40,000
(iv) Other projects, etc.	1,82,000	71,000	2,89,000
9. Minor administrations	22,000	20,000	14,000
Reserve provision, allowance for possible lapses in grants, etc.	3,00,000	...	2,00,000
	72,00,000	72,00,000	70,00,000

140. The expenditure shown against "other projects, etc.," in some of the provinces, and the small amounts entered against the others, include expenditure on survey and investigation operations as well on the preparation and revision of famine relief programmes. As regards the more important projects, it will be seen that the whole of next year's grant has been allotted to works already undertaken. The Secretary of State has consented to larger allotments (up to a maximum of 100 lakhs) being made for Protective Irrigation works than the limits of the Famine grant allow, provided that the extra expenditure (which will be recorded under another head) does not have the effect of reducing the revenue surplus below one crore. Obviously it is impossible to take advantage of this arrangement in 1910-1911; and the initiation of such new schemes as the Tendula has had to be deferred until better times.

Guaranteed Railways—						
Miles open on April 1	904	905

With the purchase of the Madras Railway on the 1st January 1908 the old guaranteed Railways ceased to exist, and the figures shown under 1909-1910 and 1910-1911 under this head in the preceding table represent certain arrear adjustments. The Gross Receipts and Working Expenses of State Railways include the following figures on account of the Jorhat Railway in Assam which is the only line whose transactions are recorded in the Provincial section of the accounts:—

	Accounts, 1906-1907	Accounts, 1907-1908	Accounts, 1908-1909.	Budget, 1909-1910.	Revised, 1909-1910.	Budget, 1910-1911.
Gross Receipts . . .	86,196	98,874	99,592	1,00,000	1,02,000	1,05,000
Working Expenses . . .	89,102	90,157	80,960	99,000	99,000	85,000

NET TRAFFIC RECEIPTS.

142 The Budget estimates for the current year provided for a very considerable advance in the Gross Receipts of State Railways in the expectation that the seasons would be propitious and that there would be a revival in trade. The latter expectation has not been fully realised, and it is now apprehended that the receipts will fall short of the Budget by Rs 4 89 lakhs. The more important decreases occur in the earnings of the East Indian and Bengal-Nagpur Railways, which have suffered by the depression in the coal market, of the Eastern Bengal Railway, owing to a short jute crop, and on the Rajputana-Malwa and Oudh and Rohilkhand Railways owing to general depression in traffic. On the other hand, material improvements are expected in the earnings of the Great Indian Peninsula line and of the two other lines which traverse Southern India. The bumper wheat crop harvested in the Punjab last year has enabled the budget estimate for the North-Western Railway to be realized at the very high figure of 7

143 In spite of the defect in the estimates of gross revenue, the total Working Expenses in 1909-1910 exceed the Budget grant by Rs 11 03 lakhs. A considerable saving in the case of the East Indian Railway, caused by the fall in the traffic and larger debits to capital in connection with betterments, is almost wholly counterbalanced by an equally large increase under the North-Western Railway, a portion of which is due to unforeseen expenditure necessitated by flood damages and by the fire in the carriage shop at Lahore. Some saving in expenditure also occurs in the Oudh and Rohilkhand Railway, but in the case of none of the other lines is any decrease of expenditure expected to follow the decline in revenue. On the other hand, the Budget grants are likely to be exceeded on the Madras and Southern Marhatta line owing to increased receipts and necessary renewals of sleepers and repairs of flood damages, on the Burma line owing to re-laying of certain sections of the permanent-way and necessary improvements in station yards, on the Eastern Bengal line owing to outlay on the repairing of damages caused by the cyclone in October 1909, and on the Bombay, Baroda and Central India line owing to enhanced charges for coal and heavier repairs and renewals of rolling-stock.

144 Owing to the decline in the Net Receipts, important savings occur in the provision for the payment of surplus profits to the Bengal-Nagpur and East Indian lines, but these are more than counterbalanced by an increased payment of 12 lakhs to the Madras and Southern Marhatta Railway, the effect of the provisions of the new contract as well as of an improvement in the net revenue.

145 In the Budget of 1910-1911, provision has been made for a moderate increase of Rs 169 38 lakhs in the Gross Receipts on the assumption that the agricultural conditions will be normal and that there will be a further revival of trade. Out of this Rs 153 63 lakhs will, however, be required to meet increase in working expenses, and making some allowance for enhanced payment of surplus profits to Companies, etc., the improvement in Net Receipts will amount to Rs 77 lakhs only.

146 The very large increase in Working Expenses is a direct result of the increasing demand on the part of the public for more efficient working and for a better service both for goods and passenger traffic; and is a necessary complement of the enhanced capital expenditure which is now being incurred with reference to this demand on the improvement of open lines. Owing to the uncertainty about the railway receipts, the Budget grants for the current year were

fixed with a close regard to economy, and the provision allowed for betterments was restricted; but with the revival in trade the Railway Board advise that it is no longer possible to wholly postpone such expenditure without impairing the value of the railway service. Large allotments have accordingly been made in the estimates for next year of most of the important lines, for the renewal with heavier rail of considerable lengths of permanent way, for the strengthening of bridges and for renewals of rolling-stock.

INTEREST CHARGES.

147. The decrease in expenditure in 1909-1910, as compared with the Budget estimate, under Interest on Debt and under Interest charged against Companies on advances, is caused by lapses in capital grants and by the variation in the rate of interest charged on certain loan funds explained in paragraph 60. On the other hand, there is a larger increase in Interest on capital deposited by Companies, this is, however, caused not by any additional deposits of capital but by larger overdrafts of capital by certain Companies, and there is a corresponding increase under Interest receipts (*vide* paragraph 56).

148. The increase in the total interest charge in 1910-1911 is a result of the growth in the capital cost of the railways. •

OTHER RECEIPTS.

149. The receipts shown under this head represent recoveries from the Travancore Darbar of its share of the loss on the Travancore Branch of the South Indian Railway, the Government share of the surplus profits of the Rohilkhand-Kumaon, Southern Punjab and Amritsar-Patti Railways payable under the terms of their respective contracts; dividends on certain shares of the Ahmedabad-Dholka Railway allotted to the Government in re-payment of expenditure incurred by it on behalf of the Railway, and sale proceeds of land relinquished by Railway Companies. The decrease in 1910-1911 occurs mainly in the share of surplus profits of the Southern Punjab Railway.

OTHER CHARGES.

150. These consist of cost of land required by certain companies, the contracts with which provide for the free supply of all land wanted for the purposes of the railways undertaken by them, and of miscellaneous items such as surveys and controlling establishments (including the Railway Board). A share of the cost of control is charged to the working expenses of each railway company and the recoveries thus made are adjusted by deduction from the miscellaneous expenditure. The details are

		Accounts, 1908-1909.	1909-1910		1910-1911 Budget.

151 Taking India as a whole the net financial result of the working of the Major Irrigation works in 1909-1910 will be better than the Budget forecast by £49,100 (7.36 lakhs). There is an improvement of R7.12 lakhs in the Direct Receipts and of R7.42 lakhs in the share of Land Revenue, but R7.2 lakhs of this are required to meet increase in expenditure. A diminution of R11.1 lakhs in the net profit is likely to take place next year. Allowance has been made for a possible falling-off of R7.26 lakhs in the Gross Revenue, and though the provision for Working Expenses is taken at R3.89 lakhs less than the current year's expenditure, there is a large growth of R7.73 lakhs in the interest charges in consequence of the considerable outlay now being incurred on new projects in the Punjab and elsewhere, the benefits of which will not be realised for some time to come. The net result under Minor Irrigation works in 1909-1910 is slightly better than the Budget estimate owing to some improvement in revenue and a small saving in the expenditure, the estimate for next year is nearly the same as the Budget of the current year.

152. The figures for Land Revenue due to Irrigation have already been examined in paragraphs 5 to 8 along with those for Land Revenue proper. The details of the other heads are exhibited in the following tables.

The Imperial figures shown against the United Provinces represent the transactions of the Betwa, Ken and Dassan canals

DIRECT RECEIPTS.

Imperial.

153. The improvement over the Budget estimate in 1909-10 occurs mainly in Burma and is caused by the opening of new distributaries on the Mandalay canal

1911. and collection of arrears on the Shewbo canal. The total Budget for next year is at the same as the Revised for 1909-10; a decrease in the receipts in Burma, caused by the absence of the special arrears realized in the current year, and in the Frontier province, owing to an expected fall in the revenue of the Lower Swat canal is more than counterbalanced by increases in the United Provinces in consequence of an anticipated development of the Betwa and Ken canals, and in the Central Provinces where the large works now under construction are nearing completion.

Divided and Provincial.

1910 154 The total Revised for 1909-10 exceeds the Budget by Rs 4.21 lakhs, the increase being the net result of a number of variations in the several provinces. There is an improvement of Rs 2.72 lakhs in Bengal, mostly in the receipts of the Sone canal, due to an increase in the *rabi* area irrigated in 1908-1909, as well as in that brought under lease under enhanced rates. Smaller increases occur in the Punjab and Bombay owing to greater demand for water, recovery of arrears and other causes, but on the other hand there is a decrease in the United Provinces where the extremely favourable character of the last monsoon curtailed the demand for water for *kharif* millets.

155 The Budget for next year is Rs 7.83 lakhs lower than the Revised of the current year. A large falling-off of Rs 8.64 lakhs is anticipated in the Punjab owing chiefly to the probable disappearance of owner's rate in the Delhi Division; and variations of less importance occur in all the other provinces where provision has generally been made for normal receipts.

WORKING EXPENSES

156 For the North-Western Provinces and Federal Territory of India. Imperial. 1,34,45,911 | 1,35,17,000 | 1,27,000

For the North-Western Provinces and Federal Territory of India. Imperial. 1,34,45,911 | 1,35,17,000 | 1,27,000

156. The variations between the Budget and Revised estimates of the current year and between the latter and the Budget of 1910-1911 are mainly caused by the reserve provision entered under India General, which is allotted during the course of the year to meet necessary Imperial expenditure in excess of the Budget grant in the several provinces.

Divided and Provincial.

157 The total expenditure in the current year exceeds the Budget by Rs 8.94 lakhs. Almost the whole of the excess occurs in the Punjab (Rs 7.72 lakhs) and in the United Provinces (Rs 95 lakh) in both of which necessary repairs of flood damages and protective works had to be carried out which were not anticipated in the Budget. The total grant for next year is Rs 5.1 lakhs less than the Revised for 1909-1910. Provision has been made in the Punjab and in the United Provinces for a normal scale of expenditure, but a larger programme of extensions and improvements is contemplated in Bombay.

REVENUE.

158. The increase in the Revised over the Budget Estimate of the current year is caused mainly by an unexpected improvement in the receipts of the Punjab canals whose transactions are recorded in the Imperial section of the accounts. For next year, the revenue from these canals has been taken at a normal figure and this chiefly accounts for the reduction in the Budget of 1910-1911 as compared with the Revised of 1909-1910

EXPENDITURE.

(a) Wholly Imperial

159. The Budget Estimate of the current year included the usual grant of Rs 5 lakhs in aid of special expenditure entailed by the recommendations of the Irrigation Commission, and a reserve provision of Rs 1 lakh to meet unforeseen

requirements. A portion of the special grant is being spent on the Nar Nallah scheme in Baluchistan. But Rs 2 lakhs have been allotted to the Government of the United Provinces for tank restoration works and placed at its credit by an assignment of Land Revenue (*vide* paragraph 12); and Rs 1.8 lakhs out of both grants are being used to meet the Imperial share of expenditure in excess of Budget grant in Bombay where the charges (as well as the receipts) under the head are divided in moieties between Imperial and Provincial. These causes mainly account for the decrease of Rs 4.01 lakhs in the Revised Estimate of the current year, as compared with the Budget.

160 The Estimates for 1910-1911 exceed the Revised for the current year by Rs 5 lakhs. Allowance has been made for the special grant of Rs 5 lakhs and a Reserve of Rs 1.5 lakhs, but no provision exists for the Nar Nallah scheme, as an allotment will be made for it later in the year from the special grant.

(b) *Divided and Provincial.*

161 The excess of Rs 3.66 lakhs over the Budget grant of 1909-1910 occurs mainly in Bombay and is caused by large outlay on urgent river embankment works and special repairs rendered necessary by the severe erosion of the Indus on its right and left banks. In the United Provinces, the expenditure on tank restoration works out of the special Imperial assignment is counterbalanced to a great extent by savings in ordinary grants.

162 The total Budget for 1910-1911 is Rs 3.20 lakhs less than the Revised for the current year. Large decreases occur in Bombay and in the United Provinces owing to the absence of the special expenditure incurred in the current year. On the other hand, a more active programme is contemplated in the Central Provinces and in Burma.

164. The Imperial revenue and expenditure shown against "Other Provinces" represent the transactions in connection with the buildings of the various departments (e.g., Salt, Customs, etc.) whose receipts and charges are wholly Imperial.

EXPENDITURE.

(a) India (Imperial) and England.

165. A very considerable lapse of Rs 16.92 lakhs occurs in the Budget Estimate of the current year, mainly in the reserve provision for unforeseen requirements and in the allotments made for Imperial buildings in Burma, Eastern Bengal and Assam, Bengal and Punjab. In 1910-1911 the total Imperial grant has been fixed at Rs 100 lakhs, exclusive of Rs 3.37 lakhs allotted for petty expenditure incurred in the Civil Department in the several minor administrations and Rs 7.9 lakhs to be spent by the Baluchistan administration. The purposes to which this grant will be applied are shown below —

	R
1. Establishment, tools and plant	17,96,000
2. Repairs	23,70,000
3. Works in progress	21,40,000
4. New works :—	
(a) costing up to Rs 50,000	8,55,000
(b) costing more than Rs 50,000	13,81,000
5. Payments in England on stores, lurlough allowances, etc.	10,98,000
6. Reserve provision for archaeological expenditure	1,00,000
7. Reserve provision for other unforeseen expenditure	2,60,000
	<u>1,00,00,000</u>

166. The following is a list of the new works and works in progress on which it is probable that allotments of 1 lakh or more will be made in the ensuing year.

Provinces	Name of work.	Amount of grant.
		R
Central India	New Daly College, Indore	1,20,000
Eastern Bengal and Assam	New Salt golahs at Chittagong	1,50,000
Bengal	Extension of the Central Telegraph Office building, Calcutta	1,10,000
	New Secretariat for the Department of Commerce and Industry, Calcutta	3,50,000
	Reconstruction of the Government Central Press building at No. 166 Dharamtala Street, Calcutta	1,75,000
Bombay	New Custom House, Karachi	1,00,000
	New General Post Office, Bombay	2,50,000

Provincial.

167. The Revised estimate shows a total increase of Rs 4.99 lakhs over the Budget of the current year. Certain expenditure incurred in the Civil Department, mainly on contributions to municipalities and district and local boards in connection with roads, buildings and miscellaneous public improvements (e.g., drainage, water supply, etc.), is recorded under this head, and the amount of such expenditure in 1909-1910 will fall short of the Budget by Rs 12.29 lakhs. Of this Rs 10.52 lakhs occurs in the two Bengals and is chiefly due to two causes, viz., firstly, smaller payment of contributions to District Boards, and secondly, the record under appropriate heads of certain special contributions for which provision was made here in the Budget. There is also a saving of Rs 2.81 lakhs in Madras, owing mainly to the inability of the Madras Corporation to fully utilise the grant of Rs 6 lakhs for water supply and drainage works, but this is partly counterbalanced by excess expenditure in other provinces.

168. The expenditure in 1909-1910 on roads and buildings in the Public Works Department exceeds the Budget by Rs 17.28 lakhs and this excess is shared by all the provinces with the exception of Madras where there is a small

lapse in the Budget grant. Owing to the unfavourable position of their provincial finances, the Governments of almost all these provinces were compelled to restrict very considerably the grants made on this account in the current year's Budget; and they have appropriated to Civil Works expenditure any net savings in the grants under the other heads, as well any sums that have been available owing to an improvement in their resources. The largest increase occurs in Eastern Bengal and Assam where considerable outlay is being incurred in connection with the laying out of the new headquarters at Dacca.

169. In 1910-1911, Madras proposes to spend about 20 lakhs from its heavy accumulation of balances. Otherwise the grants have been fixed with reference to the condition of the provincial balances; and but for the special Imperial assignments given in the current year, the programme in the Central Provinces and Bengal would have to be cut down substantially below the normal scale. The total increase over the Revised estimate of the current year amounts to Rs 50·2 lakhs. Of this Rs 26 61 lakhs occur in the Civil Department and are chiefly due to provisions for a contribution of Rs 15 lakhs to the Rangoon Port Trust in connection with the river training scheme (of which Rs 10 lakhs will be met from the special Imperial assignment made in the current year), for a grant of Rs 5 lakhs to the Madras Port Trust and an increased grant of Rs 4 lakhs to the Madras Municipality; and for a lump allotment of Rs 1 lakh in the Punjab for expenditure that may be necessitated at Dera Ghazi Khan. The increased provision for departmental expenditure therefore amounts to Rs 23·59 lakhs; and this is distributed among all the provinces with the exception of Burma where the state of the provincial balances does not permit of a higher scale of expenditure than in the current year, and in Bombay where a smaller programme of new works is contemplated. The increase is largest in Madras (Rs 11·11 lakhs), where it is proposed to utilise a portion of the heavy accumulation of balances in undertaking a more active programme of Civil Works with reference to the recommendation of the Finance Committee. The other important increases occur in Bengal where the expenditure in the current year had to be badly stinted owing to want of funds; in the United Provinces where work in connection with the Medical College at Lucknow will be commenced, and in the Punjab owing to larger allotments for town improvement works in the new colonies and for other purposes.

REVENUE.

170 Under Imperial the decrease of Rs 3·23 lakhs in the Revised as compared with the Budget Estimate of the current year is chiefly caused by the postponement to next year of the sale of the investments in connection with Mr. Phipp's donation to the Agricultural and Research Institute at Pusa; and the increase of Rs 4 69 lakhs in next year's revenue is due to the same cause as well as to the sale of certain Imperial buildings. The variations in the Provincial figures are unimportant and call for no remarks.

Revised, 1909-10.

171. The Revised anticipates an expenditure in India of Rs 21,45.57 lakhs (£14,303,800) as compared with the budget provision of Rs 21,59.57 lakhs (£14,397,100), the expected saving being Rs 14.00 lakhs (£93,300).

172. The most important reduction (Rs 14.76 lakhs) occurs under the charges for food supplies and compensation for dearness of food and forage, and is due to a good monsoon followed by a marked improvement in prices. The replacement of service pay by proficiency pay is producing a progressively increasing saving, which accounts for a reduction of Rs 3.50 lakhs in the current year. Ordnance expenditure in India has fallen by Rs 2.84 lakhs. A reduction of Rs 1.82 lakhs under telegrams is apparently due to the introduction of the revised rates. On the other hand there is a considerable increase (Rs 2.05 lakhs) in the pension charges for Indian troops; also some growth (Rs 75 lakh), which appears to be continuous, in the expenditure connected with the Volunteer force. Conveyance charges exhibit an increase of Rs 2.89 lakhs partly owing to the enhancement of 1st and 2nd class fares on certain railways. Two further items of increase, namely, Rs 2.80 lakhs on account of the clothing allowance for British troops and Rs 3.15 lakhs in the charges for grass and dairy farms, are to a large extent balanced by corresponding receipts. The net effect of these increases and decreases is a saving of Rs 11.28 lakhs (£75,200).

173. Three special additions to the year's expenditure aggregating Rs 6.13 lakhs (£40,900) may also be mentioned, namely —

- (1) the bonus (Rs 1.04 lakhs) of a week's pay to the lower-paid Government servants which was given in connection with the 50th anniversary of the transfer of India to the Crown,
- (2) an increase (Rs 2.08 lakhs) in the hutting grant (i.e., the allotment for the repair and construction of Indian Infantry lines), and
- (3) an anticipated expenditure in India of Rs 3.01 lakhs in connection with the arms traffic operations now in progress

174. Many of the variations represent ordinary fluctuations and to a large extent cancel one another. Thus, there is an excess of Rs 3.50 lakhs in the charges for pay and allowances of regimental officers, and of Rs 1.02 lakhs in the expenditure on fuel, lighting and petty supplies. The principal decreases arise from reduced charges for Indian Army recruits (Rs 2.50 lakhs), savings due to short strength of the Supply and Transport personnel (Rs 2.50 lakhs), reduced charges for the supply and maintenance of peace stores (Rs 1.55 lakhs), and short expenditure on the personnel of ammunition columns (Rs 1.42 lakhs) which were not fully brought up to strength during the year. The net effect of the particular fluctuations here mentioned is a decrease of Rs 3.45 lakhs (£23,000).

175. Under Home expenditure a decrease of £309,600 is anticipated, the total expenditure assumed being £4,644,200 as compared with the budget provision of £4,953,800. The estimate allows for the expenditure at Home of £24,900 in connection with the arms traffic operations. The largest lapses occur under the following heads :—

	Saving in 1909-10.
	£
(1) Stores	218,900
(2) Payments to War Office in respect of British Forces serving in India	44,100
(3) Indian Troop Service	39,800
(4) Furlough allowances of Indian Service Officers	10,000
(5) Retired pay of Indian Service Officers	10,000

176. A part of the lapse under Stores is due to advance payments in 1908-09 and to the postponement of others to 1910-11. A part is explained by the re-examination in India of estimates and requirements under Ordnance and Clothing stores, these having been overstated in the original Budget. The savings under items (2) and (4) represent ordinary fluctuations. A large part (£24,000) of the saving under the Indian Troop Service is a definite economy, arising from the employment of the R.I.M.S. *Dufferin* for one voyage to and from England in place of a hired transport. It is hoped that this experiment may be extended to two voyages in the following

year. There is a relatively small set-off to this economy in additional expenditure (Army and Marine) in India. The charges for retired pay of Indian Service officers are at present on a gradually descending scale.

177. The Revised estimate anticipates an improvement under receipts of Rs 157 lakhs (£10,400). The increase is mainly due to the new clothing allowance scheme for British troops, already referred to, under which the soldier receives an allowance for clothing which was previously supplied in kind, and makes an actual payment to the clothing factory for articles of wear obtained from it.

178. Thus the net expenditure of the year is expected to be £413,300 below the Budget estimate. The improvement may be regarded broadly as due to a saving of nearly £100,000 under food charges; and to large savings at Home, mainly under stores.

179. No separate reference has yet been made to the Schedule expenditure which is merged in the above figures. As was explained by the Finance Member in paragraph 44 of the Financial Statement for 1909-10, the Special Grant originally instituted in connection with the Reorganization and Redistribution schemes was abolished with effect from the 1st April 1909, and the Government of India practically reverted to the system in force prior to 1904-05. Under this system a schedule is prepared of important measures to be undertaken in the following year, i.e., of schemes the cost of which exceeds a certain limit, now placed at Rs 50,000. In the case of a new measure the Schedule includes the total expenditure to be incurred during the year. In the case of one already in progress the Schedule states the new initial expenditure to be incurred and the further increment of recurring expenditure in excess of that attained by the end of the previous year. It thus indicates the extent to which the Budget provides for further outlay on large undertakings.

180. The total Schedule provision for Army expenditure in the Budget of 1909-10 was Rs 33.25 lakhs (£221,700), but it is anticipated that the actual will only amount to Rs 27.35 lakhs (£182,300), practically the whole saving of £39,400 being due to the reduction of Home store demands, already referred to, by £38,000 in connection with the Schedule measure: Re-armament of Horse and Field Artillery.

The greater part of the Schedule provision has been applied to the following measures already in progress:—

	Expenditure in 1909-10.	
	Lakhs.	Equivalent in
	R	£
(1) Increase of reserve of rifles	70	4,700
(2) Addition of 8 new Royal Horse and Field Artillery Ammunition Columns	11.72	78,100
(3) Re-armament of the Royal Horse and Field Artillery with quick-firing guns	4.02	26,800
(4) Increase of the Indian Army Reserve	2.42	16,100
(5) Establishment of Sargodha young stock depôt	1.31	8,700
(6) Extension of dairies53	3,500
(7) Revision of the medical and surgical equipment of field hospitals	0.63	4,200
(8) Reconstruction of accommodation for Indian troops at Bannu and Sialkot	1.42	9,500

Budget, 1910-11.

181. The Budget for 1910-11 may first be compared with the Revised for 1909-10.

The Indian expenditure anticipated in the coming year is Rs 21,96.01 lakhs (£14,640,100) against Rs 21,45.57 lakhs (£14,303,800) in the Revised, or an increase of Rs 50.44 lakhs (£336,300). The Budget figure under Army, India, should, however, be increased by Rs 1.43 lakhs as a result of several correcting entries involving transfers between the Indian and the Home estimates. The real increase proposed in Indian expenditure is thus Rs 51.87 lakhs (£345,800).

182. The main cause of increase is the additional provision (Rs 15.87 lakhs) required under conveyance charges. The Railway Companies have intimated that they will withdraw, with effect from the 1st January 1910, from their

adherence to the revised rates for military traffic which were provisionally introduced on the 1st January 1908, and have asked the Government of India to agree to certain enhancements. The question is still under examination; but it has been thought necessary to provide for the contingency and an addition of R13 00 lakhs has been made on this account.

An additional provision of R1·30 lakhs has been made to meet the further growth of pension charges. The allotment for the purchase of mules was restricted in 1909-10 below the normal and R5·28 lakhs more has been provided to make up the consequent shortage of animals. The complete introduction of the clothing scheme involves an addition of R11·35 lakhs, but the expenditure will be partly balanced by receipts. The extension of the local purchase of clothing in India involves an increase of R2·40 lakhs, and the anticipated employment of the *Dufferin* for two voyages an increase of R1 48 lakhs; but these additions again will be more than counterbalanced by reductions in the Home estimates. The Indian expenditure on the arms traffic operations in 1910-11 is estimated to exceed that of 1909-10 by R6·18 lakhs.

In addition, the new recurring expenditure and the higher initial expenditure contemplated in the Schedule for 1910-11 involves an increase of R13·78 lakhs.

An increase of R7·25 lakhs under the very large but fluctuating head of pay of regimental officers and soldiers, British and Indian, also requires mention.

183. The various increases above specified aggregate R64·89 lakhs (£432,600). Against this amount certain reductions of expenditure must be set off, of which the following, totalling R17·70 lakhs (£118,000), may be separately enumerated. (1) A further decrease of R6·94 lakhs under food supplies and compensation which reduces the provision for food charges in the Budget of 1910-11 to R21·70 lakhs less than that included in the Budget of the current year. (2) A decrease of R4·39 lakhs in local Ordnance charges partly connected with economies in factories and arsenals. (3) Additional savings of R2·50 lakhs on proficiency pay. (4) A reduction of R1·00 lakh arising from the reorganization of the coast defence companies of artillery. (5) The bonus given in 1909-10 (R1·04 lakhs) does not re-appear. (6) The provision for hutting is less by R1·83 lakhs as any further allotments for the improvement of the Indian Infantry lines will be provided from 1910-11 through the Military Works head.

184 The Home estimates for 1910-11 propose an expenditure of £4,848,400 as compared with £4,644,200 in the Revised, *i.e.*, an increase of £204,200. But as already explained certain adjustments require to be made to arrive at the figure for Home expenditure actually intended, namely (1) an addition of £84,200 to the sum of £28,000 already included in the Home estimates for the arms traffic operations, (2) an addition of £34,100 to the sum provided for the purchase of rifles, (3) a deduction of £69,400 representing the expected gross saving from the use of the *Dufferin* in the trooping service; and (4) a deduction of £58,400 representing a reduction in the earlier forecast of Ordnance stores. The true increase in the Home expenditure is thus £194,700.

The increase is mainly attributable to the arms traffic operations, and to the sums, aggregating £90,500, which have been provided for the purchase of rifles. The important variations under other heads may be summarized as (1) an increase of £40,500 in the retired pay of British forces, which is at present a developing charge, (2) an increase of £27,600 in the capitation rate, which depends on the strength of British troops from time to time; (3) a further decrease of £20,000 in the retired pay of Indian Service officers; and (4) an excess of £45,000 in the saving expected from the use of the *Dufferin* as compared with the saving attained in the current year.

185. The Budget anticipates receipts amounting to R1,51·42 lakhs (£1,009,400), *i.e.*, an improvement, as compared with the Revised, of R8·24 lakhs in India, and £17,200 in England. The most important items are in addition of R6·16 lakhs in connection with the new clothing allowance scheme and of R1·68 lakhs under dairies, representing larger receipts arising from their more extended operations.

186. The net Army expenditure for 1910-11 thus exceeds the probable actuals of 1909-10 by £468,400. The facts leading to this result will be summarized in dealing with net military expenditure as a whole.

187. The main differences between the Budget of 1910-11 and that of 1909-10 may be briefly stated. The Indian expenditure to be incurred in the coming year, after adjustment as above explained, exceeds the provision in the original estimate for 1909-10 by Rs 37.87 lakhs (£252,500), but the Home figures, similarly corrected, show a reduction of Rs 17.24 lakhs (£114,900). Taking both together, the increase is Rs 20.63 lakhs (£137,600). The increase in India is broadly due to the additional cost of railway movements, increase in the Schedule, the new clothing scheme, increased provision for horses and mules, larger provision under regimental pay and allowances, the increase of pensionary charges of Indian troops, and expenditure in connection with the arms traffic operations; partly counterbalanced by a large improvement under food supplies, by savings on proficiency pay, and by considerably reduced ordnance requirements. The savings in England are accounted for, as already stated, by very large reductions in the store demands, and also by economies in trooping charges; partly counterbalanced by expenditure at Home in connection with the arms traffic operations.

188. The receipts anticipated in the new Budget show an improvement, as compared with the Budget of 1909-10, of Rs 12.39 lakhs (£82,500), the principal addition being the expected receipts from soldiers under the new clothing scheme.

189. The net expenditure shows an excess of £55,100.

190. The Schedule expenditure incorporated in the Budget, 1910-11, is Rs 38.57 lakhs (£257,100), as compared with Rs 27.35 lakhs (£182,300) in the Revised and Rs 33.25 lakhs (£221,600) in the Budget of 1909-10. The following are the more important measures to be undertaken or under consideration:—

	Further Expenditure proposed in 1910-11 (India and Home).	
	Lakhs.	Equivalent in £
<i>(a) Measures in progress.</i>		
(1) Addition of 8 new artillery ammunition columns	2.39	15,900
(2) Re-armament of horse and field artillery	3.77	25,100
(3) Light entrenching tools	2.08	13,900
(4) Extension of dairies	2.00	13,300
(5) Establishment of a cavalry school	.55	3,700
<i>(b) New Measures.</i>		
(6) Formation of 4 Signal Companies	4.31	28,700
(7) Purchase of short rifles for regular troops	10.33	68,900
(8) Re-armament of Militia	3.40	22,700
(9) Rifle carrying equipment for Indian cavalry units	1.50	10,000
(10) Acquisition of land for rifle ranges, etc., in Nowshera Cavalry Cantonment	.85	5,700
(11) Provision for increase in pay of transport establishments	1.90	12,700
(12) Creation of an Inspection Branch of the Ordnance Department and reorganisation of the system of Ordnance Factory Accounts	1.20	8,000
(13) Purchase of 250 reserve artillery horses	2.07	13,800

Revised, 1909-10.

191. The total expenditure (India and Home) anticipated in the Revised exceeds the Budget provision by £5,300. The total receipts show an increase of £7,700. The net figure is thus £2,400 less than the Budget. More extensive repairs and larger issues of coal have been made on behalf of vessels of the Royal Navy, with correspondingly higher receipts. A reduction of £7,000 is expected in the expenditure on stores and coal for vessels of the Royal Indian Marine, but heavier repairs have been undertaken and an expenditure of £4,500 has been incurred in fitting and supplying the *Dufferin* for trooping work.

192. £3,300 were provided towards the construction of a tug to replace the *Elephanta* and it is expected that this amount will be fully spent.

Budget, 1910-11.

193. The Budget for 1910-11 anticipates an increase of £5,200 in expenditure, and a decrease of £2,500 in receipts, or a net increase of £7,700. All charges on account of the arms traffic operations are being treated as special service expenditure and included under the Army head.

This net increase is mainly due to a provision of £9,500 for stores and coal for use by the *Dufferin* while engaged in trooping service. A decrease of £15,300 in the receipts anticipated from Local Governments and the Royal Navy on account of work done for them, is counterbalanced by an increase of £14,400 in the hire of vessels for the Colonial trooping service which will ultimately be recovered from the Imperial Government.

194. The Budget provides £9,900 for the completion of the tug to replace the *Elephanta*.

195. Under this head, Ordinary expenditure, and expenditure on "Special Demands" i.e., on Military Works Schedule measures, are separately compiled in the ordinary course of accounting, and can therefore be separately examined.

Revised, 1909-10.

196. Under Ordinary expenditure the Revised anticipates an excess of ₹1'94 lakhs (£12,900) which is due to the transfer, during the course of the year, of charges (amounting to ₹2'71 lakhs) connected with the maintenance of electrical installations and some other items from Special Demands. A small lapse is anticipated in the allotments for actual works.

197. The Military Works receipts represent the rent of military quarters, etc., and the sale-proceeds of materials. The rent receipts are increasing with the yearly additions to the number of quarters constructed. The main cause of the improvement of ₹1'67 lakhs (£11,200) anticipated in the Revised is, however, the occurrence of arrear payments.

198. The expected improvement of ₹2'21 lakhs (£14,700) under Special Demands is due to the transfer mentioned above. Otherwise the budget provision is being very fully utilized, an additional expenditure of ₹5'00 lakhs having been authorised in the course of the year to enable the Commander-in-Chief to make an immediate beginning with the improvement of the Indian Infantry lines.

The bulk of the funds provided in the Budget for Schedule expenditure has been applied to buildings in progress in Quetta, Jubbulpore, Ahmednagar and the Nowshera Cavalry Cantonment where accommodation is required for additional troops, and to meet the requirements of the Gun Carriage Factory at Jubbulpore and the new Kirkee Arsenal. ₹1'00 lakh was also allotted during the year for the

conversion of vacant military buildings at Saugor to accommodate the Cavalry School which is being instituted in that place.

On Military Works expenditure as a whole, a net saving of £13,000 is expected.

Budget, 1910-11.

199 The Ordinary Military Works grant for 1910-11 has been fixed at R99.82 lakhs (£665,400), i.e., R4.76 lakhs (£31,600) in excess of the figure adopted in 1909-10. The increase is partly due to the transfer of charges for electrical installations, etc., already mentioned, and partly to a slight expansion of the grant which was somewhat restricted in the current year.

The increase of R 67 lakh (£4,500) shewn in the estimate for receipts allows for a further improvement in the rents from officers' quarters, etc.

200. The provision made for Special Demands, namely R32.13 lakhs (£214,200), is R1.15 lakhs (£7,600) below the Budget estimate of the current year, but would have been slightly higher but for the transfer of charges already mentioned. A large part of this sum has been allotted, in relatively small amounts, to the prosecution of work already in progress in the cantonments mentioned above. The principal new works proposed are:—

	Expenditure to be incurred in 1910-11	
	Lakhs R	Equivalent in £
(1) Accommodation for 2 additional companies of British Infantry at Kirkee Arsenal .	2 00	13,300
(2) Piped water supply on the Ridge at Jubbulpore	1 00	6,700
(3) Officers' quarters, mess house and hospital accommodation for British troops in the Nowshera Cavalry Cantonment .	1 50	10,000
(4) Accommodation for 4 signal companies to be raised in 1910-11	1 00	6,700
(5) Special storage accommodation for cordite in several arsenals	1 20	8,000
(6) Payments to meet the cost of adapting the railway bridges over the Beas and Sutlej rivers for use as roads for military traffic .	1 72	11,500
(7) Improvement of the water-supply at Bangalore, Bannu and Cawnpore	1 05	7,000

A further provision of R5.00 lakhs is also made for continuing the improvement of the Indian Infantry lines.

201 The net expenditure proposed in 1910-11 is thus R2.94 lakhs (£19,500) above the Budget figure for 1909-10, the increase being shared in effect, as already stated, between Ordinary and Special Demands.

47A SPECIAL DEFENCES.

		Accounts, 1906-1907.	Accounts, 1907-1908.	Accounts, 1908-1909.	1909-1910		1910-1911, Budget.
					Budget.	Revised	
EXPENDITURE.							
India	R	14,11,302	14,31,376	2,55,230	1,79,000	1,76,000	22,000
Equivalent in Sterling	£	94,087	95,425	17,015	11,900	11,700	1,500
England	£	44,271	20,862	12,039	16,000	25,000	
TOTAL	£	138,358	116,287	29,044	27,900	36,700	1,500

202. The Revised shows a trifling decrease of £200 under Indian expenditure and an increase of £9,000 under Home expenditure due to the Secretary of State's anticipation of increased payments in England for coast defence armaments.

The original programme of Special Defences is rapidly approaching completion and the only provision made in 1910-11 is that of R 22 lakh (£1,500 for expenditure in India, no outlay being anticipated at Home.

The entire charges are treated as appertaining to the Schedule.

MILITARY SERVICES : SUMMARY.

		Accounts, 1906-1907.	Accounts, 1907-1908.	Accounts, 1908-1909.	1909-1910.		1910-11, Budget.

Total Receipts	£	1,416,743	1,167,433	1,047,641	1,055,200	1,084,500	1,147,400
NET EXPENDITURE	£	20,169,343	19,248,354	19,602,998	19,653,000	19,233,100	19,706,500

203. On a comparison of the estimates for Military Services as a whole with the Budget for 1909-1910, the Revised shows a decrease of £419,900, and the Budget for 1910-1911 an increase of £53,500, in net expenditure. These results cannot be correctly attributed to a few selected items alone; but the classes of charges enumerated below have exercised a marked influence, and on other grounds require special prominence. The portion of the saving in the Revised for which they do not account is mainly due to miscellaneous lapses under other heads of the Home estimates. As regards the Budget, the close approximation between the net increase exhibited under these special items to the net increase shown by the Budget as a whole is to some extent illusory, as other reductions are anticipated in the Home estimates which will be counter-balanced by miscellaneous increases and fluctuations in the Indian figures. The selected items are as follows:—

	Budget 1909-10.	Revised 1909-10, more (+) less (—) than Budget 1909-10.	Budget 1910-11, more (+) less (—) than Budget 1909-10.
	£	£	£
All food charges	1,951,700	—98,300	—144,700
Conveyance charges	299,000	+19,300	+116,100
Home stores	639,700	—218,900	—124,100
Indian Ordnance charges	702,100	—18,900	—37,600
Arms Traffic operations	+44,900	+173,500
Schedule, recurring expenditure, 1910-11.	+57,100
TOTAL	3,592,500	—271,900	+40,300
All Military Heads—Net	19,653,000	—419,900	+53,500

204. The improvement under food charges is mainly due, as already stated, to a fall in prices, but stricter administration of the compensation charges has also contributed to the final result. As the following figures will show, there is still room for a considerable further fall :—

Years	Compensation charges.	Other food charges.	Total.
	£	£	£
Average for four years 1901-02 to 1904-05	214,800	982,900	1,197,700
1905-06	279,100	1,117,500	1,396,600
1906-07	342,600	1,259,700	1,602,300
1907-08	426,700	1,239,200	1,659,900
1908-09	574,000	1,473,100	2,047,100
1909-10 (Revised)	422,900	1,430,600	1,853,500
1910-11 (Budget)	400,000	1,407,100	1,807,100

205. The recent course of the conveyance charges is also of interest. The following figures relate to railway charges only :—

	£
1906-07	333,900
1907-08	294,300
1908-09	261,100
1909-10 (Revised)	259,300
1910-11 (Budget)	354,500

The fall in 1907-08 is partly attributable to the new vehicle and maundage rates temporarily introduced on the 1st January 1908. These were in full force throughout 1908-09 and 1909-10. As already explained, it has been necessary to make tentative provision for the higher rates now demanded by the railway companies with effect from the 1st January 1910, i.e., the provision for 1910-11 covers arrear payments as well as a higher scale throughout the coming year.

206. As regards Home stores, the Revised, as already explained, shows a reduction of £218,900. The lower figure is being maintained in the coming year apart from the special expenditure on rifles, and in addition to the diminution in the miscellaneous demands for Ordnance stores, to which the reductions at Home are mainly due, there has also been, as the foregoing table shows, a considerable decline in the Indian factory and arsenal charges.

207. The combined Indian and Home provision made for expenditure on the arms traffic operations in the Persian Gulf amounts to £44,900 in 1909-10, and £173,500 in 1910-11, all under the Army head. But for this Special Service charge, the Budget for the coming year would have shown a reduction on that of 1909-10 amounting to £120,000.

208. The Schedule provision for the current year was stated in March last to be £474,900. This, however, took account of some recurring expenditure already attained, the Schedule following in this respect, though with some modification, the system in force since 1904-05. As explained in paragraph 179 above, the Schedule will in future only show new expenditure to be incurred in any year. Reducing the Budget figure for 1909-10 to this basis, the Schedules of the two years compare as follows :—

	India.		Home		Total
	Initial	Recurring.	Initial	Recurring.	
	£	£	£	£	£
Budget, 1909-10 .	277,800	18,700	73,100	2,300	371,900
Revised, do. .	258,900	13,700	51,800	2,200	326,600
Budget, 1910-11 .	334,300	54,300	91,300	2,800	482,700

Though the Schedule proposed for 1910-11 is thus higher than that of the current year, it still remains much below the standard accepted in the years 1904-05 to 1908-09, when the system of a Special Grant was in force and the annual provision for new Schedule expenditure never fell below £1,000,000.

212. The details of the Budget grant for 1910-1911 are shown below :—

[Lakhs of rupees.]

5 Madras and Southern Marhatta	72'87	1'35	...
(b) Branch line Companies with firm Guarantee	0'40
	270'03	72'18	10'00

* Includes '17 for a short branch line under construction.

† Includes '23 for a short branch line under construction.

213. As in previous years, a greater portion of the grant in 1910-1911, both in the case of State and Companies' lines, has been allotted for open line works and rolling-stock; this is also in accordance with the recommendation of the Indian Railway Finance Committee that the equipment of existing lines should take precedence of the construction of new lines.

In making allotments for new lines, the needs of the several provinces have been very carefully considered. The Southern Shan States line is one of considerable administrative importance and will open up and develop the fertile valleys and plateaux of these States, the progress of which has hitherto been much retarded for want of communications. The Rangia-Tangla branch of the Dhubri-Gauhati extension of the Eastern Bengal State Railway will be of considerable service to the tea industry, and to the general public in the Mangaldai Subdivision in Assam which is very poorly provided with communications. The Kalabagh-Bannu line will tap the valuable Makerwal coal-fields and will assist in developing a backward portion of the Frontier Province. The Samastipur-Roserah line in Bengal is required to provide railway connection in a district which is badly provided with roads. The Balaghat-Katangi branch of the Bengal Nagpur railway, which is the only new line to be constructed from the capital of Companies, will serve the manganese industry in the Central Provinces, and will carry the supply of this mineral which will be used in the manufacture of steel at the Tata works at Kalmati.

214. The figures in the table in paragraph 211 do not include the expenditure on Protective Railways met from the Famine Insurance grant, nor of Branch Line Companies not in receipt of a direct guarantee. Including this expenditure, and also some small expenditure from Provincial Revenues, the total outlay on Railway Construction in the three years is as follows :—

	Accounts, 1908-1909	Revised Estimate, 1909 1910	Budget Estimate, 1910 1911.
	R	R	R
Total as in preceding table	15,06,76,066	13,85,35,000	16,30,00,000
Famine Protective Lines	1,048	2,22,000	5,00,000
Branch Lines not on firm guarantee	87,964	11,73,000	18,04,000
Provincial State Line	6,235	23,000	4,000
Grand total in Rupees	15,07,71,313	13,99,53,000	16,53,08,000
Grand total in £ sterling at R15 to the £	10,051,421	9,330,200	11,020,500

CONSTRUCTION OF PRODUCTIVE IRRIGATION WORKS.

215. The figures are—

	Accounts, 1908-1909.	Budget, 1909-1910.	Revised, 1909-1910.	Budget, 1910-1911.
Total in Rupees . . .	1,47,52,336	1,50,00,000	1,60,00,000	1,70,00,000
Equivalent in Sterling . .	983,489	1,000,000	1,066,700	1,133,300

216. The Budget grant of 150 lakhs has been raised to 160 lakhs in the Revised, and it is expected that the latter figure will be fully spent during the current year. The grant in next year's Budget has been fixed at 170 lakhs as it appears probable from the progress of expenditure that the increased allotment will be usefully employed. The following table shows the projects included in the programme of 1909-1910 as now revised and in that of 1910-1911, and the amount to be spent on each:—

Name of project.	Expenditure in	
	1909-1910.	1910-1911.

Divi Island Project	90,000	1,22,000
Other Projects	5,82,000	7,33,000
TOTAL R	1,60,00,000	1,70,00,000
Equivalent in Sterling £	1,066,700	1,133,300

A greater portion of the grant will be again applied to push on work in connection with the Triple Canal project in the Punjab and with the Upper Swat River Canal in the Frontier Province.

WAYS AND MEANS.

HOME TREASURY.

217. The bulk of the payments made in England on account of the Government of India consists of expenditure chargeable to the Indian revenues; and if this represented the only charges, the Ways and Means programme would be a simple arrangement, as the whole of the expenditure would ordinarily be met by remittance of funds from India. The capital outlay on the construction of railways and irrigation works, however, necessitates heavy borrowing; and a greater portion of the money required is usually raised in England, either direct or through the agency of Companies. A further complication is introduced by the practice, under which all payments made in England to Railway Companies working purchased lines, for purchase of stores and other capital purposes, as well as all moneys raised by them and paid into the Home Treasury, are brought to account under the appropriate heads in this country and are treated in the Home Accounts and Estimates as remittances to or from India respectively. The transactions connected with the Gold Standard Reserve, and with the replacement of one particular form or item of direct or indirect debt by another, also largely swell the receipts and charges of the Home Treasury without affecting the general Ways and Means programme.

218. The following are the details of the transactions appearing in the Budget and Revised Estimates of the Home Treasury for 1909-1910 and in the Budget Estimate of 1910-1911.

	Budget, 1909-1910.	Revised, 1909-1910.	Budget, 1910-1911.

Council Bills	16,200,000	17,000,000	16,500,000
Permanent Debt incurred	2,823,700	8,199,600	1,637,500
Reduction of cash balance	4,369,300	—4,304,900	6,139,500
TOTAL	23,393,000	20,894,700	24,277,100
Opening Balance *	7,697,989	8,453,715	12,758,615
Closing Balance	3,328,689	12,758,615	6,610,115

* The heads marked with an asterisk appear on both the receipt and payment sides. As the receipt and disbursement under each of them are generally equal, they do not affect the Ways and Means of the year to any material extent.

† These entries arise in connection with the purchase of the Indian Midland Railway, and do not otherwise affect the Ways and Means of the year.

219. The net disbursements in 1909-1910 are now taken at £20,894,700 or £2,498,300 less than the Budget. The transactions relating to the Gold Standard Reserve described in paragraph 229 below have resulted in a net addition of £1,594,300 to the balances of the Home Treasury. The balance of the drop in the net disbursements, amounting to £904,000, is mainly due to smaller advances (to the extent of £756,800) to Companies working purchased railways and to a reduction (£263,700) in the expenditure chargeable to revenue, the greater portion of which occurs under purchase of military stores. These decreases have been in part counterbalanced by the payment of sterling bills (£156,000) drawn in India in September 1909 with the object of steadying exchange.

220. As a result of the revival in the export trade, the total drawings of the Secretary of State in the current year are expected to amount to £23,630,000. Of this £6,630,000 will be appropriated in repaying to the Gold Standard Reserve the balance of the gold withdrawn from it in 1908-1909 in support of exchange; and the remaining £17,000,000 will be available to meet the disbursements of the Home Treasury, against a Budget estimate of £16,200,000. The amount received during the year in the Treasury in respect of sterling loans will also exceed the Budget by £5,375,900 owing to the reasons explained in paragraph 223 below. The total of these various improvements amounts to £8,674,200 and the result will be that the balances of the Treasury will be increased during the year by £4,304,900 instead of being drawn upon to the extent of £4,369,300.

221. The details of the transactions in respect of capital raised and deposited by Railway Companies are as follows :—

RECEIPTS

Subscribed Capital.

	Budget, 1909-1910 £	Revised, 1909-1910 £
To discharge Debentures—		
Assam-Bengal Railway	620,900	...
Bengal-Nagpur Railway	2,335,500	...
Indian Midland Railway	191,000	...
Madras and Southern Mahratta Railway	345,000	150,000
	<u>3,491,400</u>	<u>150,000</u>
To meet Capital outlay—		
Miscellaneous (Transfer fees, etc)	1,300	2,100
TOTAL RECEIPTS	<u>3,492,700</u>	<u>152,100</u>
	ISSUES	
For discharge of Debentures	3,491,400	205,200
For Capital outlay, i.e., Stores, Establishment Charges, etc	1,419,400	1,418,100
TOTAL	<u>4,910,800</u>	<u>1,623,300</u>

The Madras and Southern Mahratta Railway was the only line which was able to raise any fresh capital to replace debentures which had matured. Debentures to the extent of £3,311,400 were renewed at a discount of £25,000 and those for another £30,000 were discharged.

222. The following are the details of the Railway remittance transactions. As already explained, they occur almost wholly in connection with the capital account of the purchased lines worked by Companies.

	Budget, 1909-1910. £	Revised, 1909-1910. £
RECEIPTS.		
Debentures raised—		
East Indian Railway for additional capital expenditure	2,400,000	2,459,400
Transfer fees, etc	4,700	5,500
TOTAL RECEIPTS	<u>2,404,700</u>	<u>2,464,900</u>
ISSUES.		
Rental paid to South Behar Railway Company	30,000	30,000
Advances for purchase of stores—		
East Indian Railway	1,001,200	770,000
South Indian Railway	342,500	316,500
Bengal and North-Western Railway	54,300	50,200
Great Indian Peninsula Railway	1,067,700	583,200
Bombay, Baroda and Central India Railway (including Rajputana-Malwa Railway)	634,300	621,500
TOTAL	<u>3,130,000</u>	<u>2,371,400</u>
Rohilkund and Kumaon Railway Company		
Interest on Debenture Stock allocated to State works	...	1,800
TOTAL ISSUES	<u>3,130,000</u>	<u>2,373,200</u>

The East Indian Railway Company was able to raise Debenture stock of the face value of £2,550,000, realising the amount shown above.

223. Of the sum of £8,199,600 shown against Permanent Debt in the table in paragraph 218, £2,699,600 represent receipts in respect of the loan of £7½ million issued in February 1909. A new 3½ per cent. sterling loan of £7½ million was issued in January 1910 at the fixed price of £96½. As in the case of the loan issued in the previous year, credit will be taken in the accounts only for the actual money received, and a sinking fund created for the redemption of liabilities incurred in excess of this sum. Of the net amount receivable, £5,500,000 will be received in the current year and the balance of £1,637,600 in 1910-1911.

224. The whole of the £6 million India Bills which fell due during the year were renewed for 12 months, the average prices of issue being as shown below :

- (i) £1 million (which fell due on 11th April, 1909) at £97-16-0 32
- (ii) £2½ " (" " " " 16th June, 1909) at £96-18-0 57
- (iii) £2½ " (" " " " 1st December, 1909) at £96-16-1 71.

225. The Budget Estimates provide for a net disbursement of £24,277,100 including a payment of £817,900 for the discharge of Railway debentures which mature during the year. The increase of £884,100 over the net disbursement in the current year's Budget is the net result of the following variations —

	<i>Worse.</i>	£
Net expenditure on Revenue account, <i>more</i>	.	333,500
Deposits, Advances and miscellaneous Remittance transactions, net	.	699,800
Permanent Debt discharged, <i>more</i>	.	638,500
	<i>Better.</i>	
Net payments to Railway Companies, <i>less</i>	.	426,700*
Outlay on State Railways, <i>less</i>	.	358,700
Outlay on Irrigation Works, <i>less</i>	.	2,300

226 The principal difference under Deposit, Advance and miscellaneous Remittance transactions in the two years consists of a special net payment of £741,100 in 1910-1911 on account of the Gold Standard Reserve, in connection with the investment of part of the liquid balances of the fund held at the end of the current year in the Home Treasury.

227. Of the net disbursement of £24,277,100, it is proposed to meet £16,500,000 by Council Bills supplemented by the sum of £1,637,600 to be received next year on account of the balance of the 7½ million sterling loan of the current year. The difference between the sum of these two items and the amount of net disbursement will be met by drawing on the Secretary of State's cash balances, which are estimated to stand on 31st March 1911 at £6,619,115, inclusive of £1,323,018, held as cash at short notice on behalf of the Gold Standard Reserve.

228. The estimates also provide for the repayment at par of £2,250,000 capital stock of the Indian Midland Railway on the 31st December 1910, when the present contract with the Company will terminate, as well as for the assumption by the Secretary of State of the liability of that Company for debentures amounting to £3,654,100. It is proposed to provide the funds required to meet the repayment of the Capital Stock by the issue of temporary debt. The whole of the India Bills, amounting to £6 millions, which fall due in 1910-1911 will, also be renewed.

	Budget, 1909-1910.	Budget, 1910-1911.

	—	—	—

232. The programme herein announced of the probable drawings on India and of the transactions in connection with the Government Sterling Debt and the borrowings of Railway Companies, represents the present intentions of the Secretary of State. But in view of the varying conditions of Indian finance and of the London money market, no assurance can be given that this programme will be adhered to either in amount or in form. The Secretary of State reserves to himself the right to vary the programme to any extent that may be considered necessary during the course of the year. The estimate of Council drawings is for the amount necessary to provide for the Secretary of State's requirements, but additional Bills will as usual be sold if needed to meet the demands of trade.

* Exclusive of £6,630,000 appropriated for the Gold Standard Reserve.

INDIA.

233. The following is a summary of the Estimates of Ways and Means in India during 1909-1910 and 1910-1911 :—

* The figures under heads 2 and 13 (a) balance each other.

† Head 11 represents expenditure defrayed by reduction of Provincial balances.

‡ The figures shown under head 14 differ from those given in the Home Treasury Ways and Means statement, as Bills drawn by the Secretary of State towards the end of one year are paid in India in the next. The figures of the present statement represent payments in India.

234 In the Budget Estimate of 1909-1910, the cash balance in Indian Treasuries on 1st April 1909 was taken at 15.35 lakhs. It was estimated (1) that the net Imperial revenue in India would amount to 28.42 lakhs, (2) that the net deposits in Savings Banks and Provident Institutions would increase during the year by 128 lakhs, (3) that a sum of 44 lakhs would be available from the

Famine Insurance grant for the avoidance of debt, (4) that the remittance transactions of Railway Companies would result in a net credit in India of 469 lakhs, (5) that repayments of loans granted to cultivators, municipalities, etc., in previous years would exceed the net amount of such loans to be issued during the year by 42 lakhs, and (6) that miscellaneous deposit and remittance transactions would yield a net receipt of 92 lakhs. On the other hand, provision was made (1) for a net expenditure of 30 lakhs from Provincial balances, (2) for capital expenditure in India on railways (inclusive of outlay by companies) and canals to the extent of 11,04 lakhs, (3) for the discharge of 19 lakhs of the permanent debt, and (4) for the payment of Council Bills to the extent of 24,10 lakhs. The total receipts amounting to 36,17 lakhs were sufficient to meet the total payment of 35,63 lakhs. But as the cash balances at the end of the year would have stood at the inconveniently low figure of 15,89 lakhs, it was proposed to replenish it by a loan of $2\frac{1}{2}$ crores.

235. The results according to the Revised Estimates show considerable variations from this forecast. The year opened with a balance which was nearly the same as the Budget forecast, and the full amount of the contemplated rupee loan of $2\frac{1}{2}$ crores was raised in July. The revenue returns in the earlier months of the year, however, proved disappointing, while the Secretary of State's drawings were brisker than was anticipated. By the end of October the balances had fallen to 10 crores, and as they did not materially improve by the end of November, a sum of 3 crores had to be borrowed temporarily from the Gold Standard Reserve in the following month to meet the demands of the Home Treasury. The large amounts of opium revenue which have been coming in since November and the improvement in the Railway receipts have, however, wholly altered the situation. The whole of the temporary loan taken from the Gold Standard Reserve will be repaid by payment of Council Bills the proceeds of which are being appropriated by the Secretary of State for permanent or temporary investment on behalf of the Reserve in England; and we now expect to remit to the Secretary of State in aid of the Home Treasury £800,000 more than we budgeted, and still to close the year with a balance of 18,75 lakhs. Taking India as a whole, there will be an improvement of 99 lakhs over the Budget in the combined revenue account of the Imperial and Provincial Governments; though as a result of the large assignments from Imperial to Provincial described in paragraph 59, this would appear in the accounts as a gain of 133 lakhs in the Provincial balances and a loss of 34 lakhs in the net Imperial revenue. A sum of 10 lakhs has been received from Native States towards the cost of construction of State railways, and one of 23 lakhs by the sale of sterling bills on London in September 1909, with a view to steady exchange. The amount available from the Famine Insurance grant for the avoidance of debt will exceed the Budget by 21 lakhs and the net receipts in connection with *lakavi* and other loans will be more by 88 lakhs. There will also be an increase of 18 lakhs in the net receipts from miscellaneous deposit and remittance transactions, while a large saving of 90 lakhs will take place in the Budget provision for capital expenditure on railways (inclusive of outlay by companies) and on canals. The total improvement from all these sources amounts to 349 lakhs. But on the other hand the net credits from remittances of Railway Companies will fall short of the Budget Estimate by 114 lakhs, there will be an increase of 195 lakhs in the payment of Council Bills from treasury balances, and there will be a small increase of 4 lakhs in the amount of permanent debt discharged. The closing balances on 31st March 1910 will thus be 36 lakhs more than the Budget Estimate of 18,39 lakhs.

236. In paragraph 206 of the last Financial Statement it was announced, subject to the usual reservations, that a new $3\frac{1}{2}$ per cent rupee loan of $2\frac{1}{2}$ crores would be raised in 1909-1910. Tenders for this loan were opened on the 28th July, and the result was as follows —

Total amount tendered.	Amount accepted.	Average rate of accepted tenders	Minimum rate accepted
R	R	R a p	R a p.
6,85,22,300	2,50,00,000	93 15 007	93 12 0

237. In 1910-1911 the net Imperial revenue in India is estimated at 28,94 lakhs; Savings Banks and similar deposits are expected to yield a net receipt of 168 lakhs; a sum of 75 lakhs will be available from the Famine Insurance grant for the avoidance of debt, the remittance and capital transactions of Railway

Companies are likely to result in a net credit in India of 458 lakhs; repayments of loans granted to cultivators, municipalities, etc., in previous years will exceed the net amount of such loans to be issued during the year by 20 lakhs, and deposits and miscellaneous remittance transactions are expected to show a net receipt of 70 lakhs. On the other hand provision has been made. (1) for an expenditure of 95 lakhs from Provincial balances, and of 19 lakhs in connection with the redemption of permanent debt; (2) for capital expenditure of 13,21 lakhs in India on Railways and Canals, and (3) for payment of Council Bills to the extent of 24,15 lakhs. The total amount of funds required by the Government of India next year therefore aggregates 38,50 lakhs, while the receipts at its disposal amount to only 36,85 lakhs.

238. It will not be possible to provide any considerable portion of the additional funds required from the cash balances which are expected to stand at the beginning of the year at 18,75 lakhs. It is accordingly intended to raise a new rupee loan of 1½ crores in 1910-1911. With a loan of this amount it will be possible to close the year, according to the present estimate, with a balance of about 18,60 lakhs. The announcement now made regarding the rupee loan is in accordance with present intentions, but full liberty is reserved, as usual, to vary the programme now announced to any extent that may be considered desirable.

239. The following table gives details of the transactions of Savings Banks and Provident funds during a series of years, and the estimated transactions for 1909-1910 and 1910-1911 —

YEAR	Net additions to deposits, cash	Interest	Total addition.
	₹	₹	₹
1899-1900	1,40,000	33,48,000	34,88,000
1900-1901	19,44,000	34,80,000	54,24,000
1901-1902	31,04,000	36,87,000	67,91,000
1902-1903	52,40,000	39,00,000	91,40,000
1903-1904	66,99,000	42,15,000	1,09,14,000
1904-1905	78,94,000	45,87,000	1,24,81,000
1905-1906	31,49,000	46,80,000	78,29,000
1906-1907	50,94,000	52,25,000	1,03,19,000
1907-1908	14,86,000	53,50,000	68,36,000
1908-1909	—26,22,000	54,63,000	28,41,000
1909-1910 (Revised)	60,78,000	57,09,000	1,17,87,000
1910-1911 (Budget)	94,85,000	61,72,000	1,55,57,000

240. The Budget estimate of 25 lakhs for net deposits in Postal Savings Banks in the current year will be almost wholly realised. For next year the estimate of deposits in these Banks is taken at 40 lakhs and the deposits in the new General Provident Fund for Government servants are expected to grow by 44 lakhs.

L. M. JACOB,

Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Fort William, the 21st February 1910.

No. 364-I. B.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor General in Council is pleased to apply to Berar, the provisions, so far as they may be applicable, of the Whipping Act, 1909 (IV of 1909), subject to any amendments to which the Act is for the time being subject in British India:

Provided, firstly, that for the purpose of facilitating the application of the provisions of the said Act, any court having jurisdiction within Berar may construe them with such alterations not affecting the substance as may be necessary or proper to adapt them to the matter before the Court.

Provided, secondly, that all references in the said Act to "British India" and the "Local Government" shall be read as referring to Berar and the Chief Commissioner of the Central Provinces, respectively;

Provided, thirdly, that all references in the said Act to the Indian Penal Code, and the Code of Criminal Procedure, 1898, shall be read as referring to the Indian Penal Code, and the Code of Criminal Procedure, respectively, as applied to Berar.

The notification of the Government of India in the Foreign Department, No. 3879-I B, dated the 31st August 1900, and so much of notification No. 1811-I. B., dated the 1st July 1898, as relates to the Whipping Act, 1864 (VI of 1864), are hereby cancelled.

No. 570-Est. A.—With reference to Rule IV of the Rules published in notification No. 1680-G., dated the 27th July 1906, the undermentioned officer is confirmed in the Political Department as a Political Assistant of the 3rd Class:—

Lieutenant W G Neale.

The 24th February 1910.

No. 623-Est A—Mr H. N. Bolton, a Political Assistant of the 1st class, is posted as Divisional and Sessions Judge, Peshawar Division, with effect from the 11th February 1910.

The 25th February 1910.

No. 397-I-B.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor General in Council is pleased to direct that a summons issued by any Civil or Revenue Court situate in the Baroda State, and not established or continued by the authority of the Governor General in Council, shall, if sent to any Court so established or continued in the territories of any Foreign Prince or State, be served by that Court as if the summons had been issued by itself, and, after being so served, be returned with an endorsement of such service under the hand of the Judge of the Court.

No. 398-I-B.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor General in Council is pleased to declare that a summons issued by any Civil or Revenue Court established or continued by the authority of the Governor General in Council in the territories of any Foreign Prince or State, may be sent for service to any Civil Court of the Baroda State, and that if such Court returns the summons with an endorsement signed by the Judge or other officer of the Court that the summons has been served, such endorsement shall be deemed to be evidence of service.

No. 399-I-B.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor General in Council is pleased to notify that a decree of any Civil Court situate in the Baroda State, and not established or continued by the authority of the Governor General in Council, may, if sent for execution to a Court established or continued by the authority of the Governor General in Council in the territories of any Foreign Prince or State, be executed by that Court to the same extent and in the same manner as that Court might execute, within the limits of its jurisdiction, a decree made by itself.

No. 415-G—It is notified for general information that the office of Vice-Consul for Chile at Calcutta has been abolished.

S H. BUTLER,
Secretary to the Government of India.

J. S. MESTON,

Secretary to the Government of India.

FINANCE DEPARTMENT (MILITARY FINANCE).

NOTIFICATION.

PAY AND ALLOWANCES.
FUNDS.

Calcutta, the 24th February 1910.

Indian Military Service Family Pension Regulations.

No. 366-P—The amended Appendix to the Indian Military Service Family Pension Regulations referred to in Notification No 330-P., dated the 18th February 1910, in the issue of the *Gazette of India* dated the 19th February 1910, is published below:—

APPENDIX.

Reports and applications under these Regulations should be made:—

1. To the Controller of Military Accounts, Eastern Circle, Lucknow, when the subscriber (except Royal Indian Marine) is drawing pay or pension in India or at a colonial station (including China) where a unit of the Indian Army is stationed

2 To the Examiner of Marine Accounts, Bombay, in the case of officers of the Royal Indian Marine drawing pay or pension in India.

3. To the Director of Funds, India Office, Whitehall, London, S W., if the subscriber is drawing his pay or pension elsewhere, or if the subscriber, after receiving in India or at a colonial station in advance the pay for the privilege leave portion of combined leave, proposes to draw his furlough pay elsewhere.

Form (A) of a letter from an Officer with whom it is optional under Regulation 2 to contribute under these regulations, announcing his intention to do so.

Sir,

I have the honour to announce my intention of contributing for pensions for my family under the regulations published with the Notification by the Government of India, in the Military Department, No 1315, dated 28th December 1872.

I agree to be bound in every respect by the said regulations and by any orders in modification thereof that may be hereafter passed by the Secretary of State for India in Council.

GAZETTE OF INDIA.

NOTICE.

The 25th October 1909.

From the 13th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 6th November all notifications and other matter intended for publication in the *Gazette* should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.

The 25th February 1910.

O. T. BARROW,
Comptroller General.

GOVERNMENT OF INDIA.
DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 24th February 1910.

NOTIFICATIONS.

No. 1192 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 21st February 1910:—

- No. 73 of 1910 —Societe Anonyme "La Photographie des Couleurs", manufacturers, 24, Courte rue de l' Hopital, Antwerp, Belgium, Joseph Sury, engineer chemist, of Wyneghem, Belgium, and Edmond Bastyns, druggist, of 29, rue des Tanneurs, Antwerp, Belgium. *Printing on paper of photographs in color*
- No. 74 of 1910.—Societe Anonyme "La Photographie des Couleurs", manufacturers, 24 Courte rue de l' Hopital, Antwerp, Belgium, Joseph Sury, engineer chemist, of Wyneghem, Belgium, and Edmond Bastyns, druggist, of 29, rue des Tanneurs, Antwerp, Belgium. *Printing on paper of photographs in color.*
- No. 75 of 1910.—William George Yarworth Jones, engineer, of 218 Shaftesbury Avenue, London, W C., England. *Improvements in and connected with pneumatic tyres.*
- No. 76 of 1910.—Yarrow and Company (Bolton), Limited, sanitary engineers, of District Bank Chambers, Wood street, Bolton, in the county of Lancaster, and Matthew Yarrow, surveyor, of the same address. *Improvements appertaining to machines for manufacturing earthenware pipes or mains, retorts and the like.*
- No. 77 of 1910—J Stone and Company, Limited, engineers, of Deptford in the county of Kent, England, and Alfred Henry Darker, engineer, of No 41, Lee Terrace, Blackheath, in the county aforesaid, in the employ of the said Company. *Improvements in secondary batteries.*
- No. 78 of 1910 —Henry Arthur Westmoreland, manufacturer, of La Court Terrace, Burntwood Lane, Earlsfield, London, S. W., England. *Improvements in Droppers and Standards.*
- No. 79 of 1910.—Alfred Worswick, engineer, of the Woodlands, Gathurst, in the county of Lancashire. *Improvements in propellers and the like.*
- No. 80 of 1910.—M. R Rangachari, Superintendent, Coles Memorial High School, Hindu Hostel, Kurnool, Madras Presidency. *Nava supari or the new substitute for arecanut*
- No. 81 of 1910.—Gavin Walker, engineer, of 31 Wills street, Melbourne West, in the State of Victoria, Commonwealth of Australia. *Improvements in and relating to air-bridges of boiler furnaces.*
- No. 82 of 1910.—T V Sundaram Aiyar, clerk, Archæological Survey Department, Southern Circle, Madras, residing at 296, Linghi Chetty street, and care of Dr O V Sabesa Aiyar, 5, Thambu Chetty street, Madras. *A key-board for typing tamil language.*
- No. 83 of 1910 —Munshi Hoosain Buksh, 1st grade sub-overseer, Military Works, Meerut Cantonment. *A double acting hand power water lift*
- No. 84 of 1910 --Pirojshaw Burjorji Godrej, safe maker, of the Godrej and Boyce Manufacturing Co., Parel, Bombay. *Improvements in safes.*
- No. 85 of 1910 —Pirojshaw Burjorji Godrej, safe maker, of the Godrej and Boyce Manufacturing Co., Parel, Bombay. *Improvements in non-conductors of heat applicable to fireproof safes*
- No. 86 of 1910.—William James Angus Morrow, engineer and contractor carrying on business as Morrow and Co., engineers and contractors at 8, Kyu street, Calcutta. *A hot water apparatus adaptable for Indian chulas or fire places made of bricks.*

No. 87 of 1910.—Alfred Eldred Waldimer Sharpe, late mechanic of the Car. and Wag. Dep., E. I. Railway, 129 Dhurumtollah street, Calcutta. *An improved type of journal bearing for railway rolling-stock.*

No. 88 of 1910.—Walter Perry Notcutt, merchant, of 8, White street, Moorfields, London, England. *An improved machine for cutting abrasive files.*

No. 89 of 1910.—John Joseph Rawlings, engineer, of 82, Gloucester Road, South Kensington, in the county of London, England, and Henry William Handcock and Alfred Herbert Dykes, consulting engineers, both of Westminster Chambers, 1, Victoria street, in the city of Westminster, England. *Improvements in and connected with the sheathing of electrical wires.*

No. 90 of 1910.—George Henry Benbow Steele, engineer, of 220 Lake street, Perth, Western Australia, Commonwealth of Australia, and Arthur Harold Boulter, carpenter, of 221, Park street, Subiaco, Western Australia, aforesaid, and Joseph Hargreaves, carpenter, of Kimberly street, Leederville, Western Australia, aforesaid. *An improved spark arriester.*

No. 91 of 1910.—Hans Kühl, doctor of philosophy, at 4a, Zehlendorferstrasse, Grosslichterfelde near Berlin. *New and useful manufacture of cement.*

No. 92 of 1910.—Arthur Ross, junior, engineer, 1, Glengal Road, Old Kent road, London, S.E., England. *Improvements in or relating to water-feeding and circulating devices for steam boilers.*

No. 93 of 1910. Dr. Wilhelm Schmidt, engineer, of 2, Rolandstrasse, Cassel-Wilhelmshohe, Germany, and Peter Thomsen also of Cassel-Wilhelmshohe, Germany. *Improvements in steam superheaters for locomotives*

No. 94 of 1910.—Alexander Spencer, engineer, of 77 and 79 Cannon street, in the city of London, England. *Improvements in central buffer and draw gear apparatus for railway and like vehicles.*

No. 95 of 1910.—John Peachey Crouch, engineer, of Ely House, Newton Heath, Manchester in the County of Lancaster, England, and James Etchells, electrician of 27, Lily lane, Moston, Manchester aforesaid. *Improvements in or relating to electric lighting or heating systems, especially applicable to train lighting.*

No. 96 of 1910.—John Peachey Crouch, engineer, of Ely House, Newton Heath, Manchester, in the County of Lancaster, England, and James Etchells, electrician of 27, Lily lane, Moston, Manchester, aforesaid. *Improvements in or relating to electrical distribution systems.*

No. 97 of 1910.—Henri Donner of Sophieka 17, log. 8 Moscow, Russia. *An improved process and apparatus for obtaining an increase in the pressure of a liquid.*

No. 98 of 1910.—Societe Anonyme Electrometallurgique Procèdes Paul Girod, of Ugine (Savoie) France. *Improvements in the process of refining steel.*

No. 99 of 1910.—Albert Victor Naylor, engineer, residing at Engineers Workshop, G I P. Railway, Byculla, Bombay. *Improvements in coupling gear of railway vehicles.*

No. 100 of 1910.—William Henry Crutchley of Bury House, Wolverley, Kidderminster in the county of Worcester, England, Schoolmaster Arthur Edmund Boucher of Lowethorpe near Kidderminster in the county of Worcester, England. *Improvements in slate pencils.*

No. 101 of 1910.—Syamala, 582, Goods Shed street, Madura, Madura District, Madras Presidency. *A waterlift.*

No. 1193 P.—AN application for leave to file an amended specification in respect of the undermentioned invention has been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act.

No. 105 of 1909.—Tracy Gavin Jones, manager, of Gavin Jones and Son, Cawnpore, British India. *Improvements in chain pumps and the like for raising water or other liquid.*

No. 1194 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the

Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M. daily, and Saturdays 11 A.M. to 1 P.M., at the Secretary's office, 2 Bankshall Street, Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

- No. 104 of 1909.—Frederic Hodson, timber merchant, care of Post Box 53, Rangoon. *A portable forest sawing machine.* (Specification filed 9 February 1910.)
- No. 299 of 1909.—Black Sand and Gold Recovery Company, a corporation of the state of Arizona with office at Chicago, Illinois, United States of America. *A pipe dredge.* (Specification filed 31 January 1910.)
- No. 320 of 1909.—The Sub-Target Company, Limited, of 29a, Charing Cross road, London, W.C., England. *Improvements in or relating to apparatus for rifle, gunnery and like practice.* (Specification filed 11 February 1910.)
- No. 321 of 1909.—Murex Magnetic Company, Limited, of 55 and 56, Bishopsgate street within, London, England. *Improvements relating to the treatment of ores.* (Specification filed 11 February 1910.)
- No. 322 of 1909.—Murex Magnetic Company, Limited, of 55 and 56, Bishopsgate street within, London, England. *Improvements relating to the treatment of ores or the like.* (Specification filed 11 February 1910.)
- No. 323 of 1909.—Herbert William Garratt, locomotive engineer, of 25 Lewiston Place, Portland Avenue, Stamford Hill, in the county of Middlesex, England. *Improvements in and relating to locomotive engines.* (Specification filed 11 February 1910.)
- No. 324 of 1909.—Alexander Gibb and Thomas Graham Menzies, civil engineer, of Goytre House, Pontypool, Monmouthshire, England, and 130, Wellesley road, Chiswick, London, England, respectively. *Improvement in apparatus for laying concrete.* (Specification filed 11 February 1910.)
- No. 325 of 1909.—Sorabji Muncherji Rutnagar, journalist, 27, Meadows street, and Dossabhoy Maneckji Wadia, mill manager, No 2, Wardon road, both of Bombay. *Improvements in or relating to carding engines.* (Specification filed 11 February 1910.)
- No. 387 of 1909.—John Munster Schneider, assistant inspector of lights, Bombay Port Trust. *The improvement of ships lights, to be called Schneider's spinning reflector.* (Specification filed 5 February 1910.)
- No. 395 of 1909.—K. Tholasi Doss, bangle merchant, residing at No 6, Vinayaga Modally street, Madras. *The Tholasi Doss water lift.* (Specification filed 7 January 1910.)
- No. 417 of 1909.—Margaret Louisa Corrie, gentlewoman, of Villa Joyeuse, Biarritz, France. *A portable support for mosquito nets and similar contrivances.* (Specification filed 11 February 1910.)
- No. 472 of 1909.—George Edward Marshall, trunk manufacturer, of 51, Queen's road, Bayswater, London, W. *Improvements in airtight or lined trunks, boxes, chests or like receptacles.* (Specification filed 10 February 1910.)
- No. 490 of 1909.—Sven Roltson Schmidt, gentleman, residing at Huntington, county of Suffolk and state of New York, United States of America. *Improvements in non-refillable bottles.* (Specification filed 11 February 1910.)
- No. 498 of 1909.—Arthur Barker, engineer, of 20, Meads road, Wood Green, London, England. *Improvements in vaporizers or carburettors for internal combustion engines or motors.* (Specification filed 11 February 1910.)
- No. 505 of 1909.—Edward Hudson and Walker Skelton Hudson, engineers, both of Gildersome Foundry, Gildersome, near Leeds in the county of York, England. *Improvements in wagons.* (Specification filed 11 February 1910.)
- No. 554 of 1909.—Lala Kanhialal Nandkishore, lock and safe manufacturer, Kalbadevi Road, Bombay. *Improvements in locks.* (Specification filed 7 February 1910.)

No. 555 of 1909.—Lala Kashialal Nandkishore, lock and safe manufacturer, Kalbadevi road, Bombay. *Improvements in padlocks.* (Specification filed 7 February 1910.)

No. 571 of 1909.—John Lenton Hills, railway employé, of 1278, Hare street, Kalgoorlie, Western Australia, in the Commonwealth of Australia. *Improvements in locomotive ash pans.* (Specification filed 11 February 1910.)

No. 584 of 1909.—Burn and Company, Limited, engineers, Howrah, British India. *A paddy husker and polisher.* (Specification filed 4 January 1910.)

No. 585 of 1909.—Edward William Potter, engineer, St. Andrew's Colonial Homes, Kalimpong, Bengal, India. *Automatically throwing a shuttle from side to side in the process of weaving cloth in a hand loom.* (Specification filed 24 January 1910.)

No. 597 of 1909.—William Jackson, engineer of Thorne Grove, Mannofield, near Aberdeen, in the county of Aberdeen, North Britain. *Improvements in apparatus for drying tea leaf or other produce.* (Specification filed 11 February 1910.)

No. 598 of 1909.—William Jackson, engineer, of Thorne Grove, Mannofield, near Aberdeen, in the county of Aberdeen, North Britain. *Improvements in apparatus for drying tea leaf or other produce.* (Specification filed 11 February 1910.)

No. 629 of 1909.—Claude Albemarle Bettington, lieutenant in the British Land Forces, of the Junior United Service Club, 11 & 12, Charles street, St. James' and of 14, Half Moon Street, Piccadilly, in the county of London, England. *Improvements in and relating to apparatus for pulverising coal and other materials.* (Specification filed 9 February 1910.)

No. 659 of 1909.—W. R. Sykes, Interlocking Signal Company, Limited, and William Robert Sykes, engineer, both of 26, Voltaire road, Clapham, London, S. W., England. *Improvements in railway signalling.* (Specification filed 1 February 1910.)

No. 670 of 1909.—Claude Albemarle Bettington, lieutenant in the British Land Forces, of the Junior United Service Club, 11 & 12, Charles street, St. James', and of 14 Half Moon street, Piccadilly, in the county of London, England. *Improvements relating to steam generators.* (Specification filed 9 February 1910.)

No. 676 of 1909.—Charles Francis Jenkins, mechanical engineer, of 312, Ouray Building, Washington, in the district of Columbia, United States of America. *Improvements relating to machines for making spirally wound tubes.* (Specification filed 1 February 1910.)

No. 681 of 1909.—Axle Lubricating Company, manufacturers, a corporation organized and existing under the Laws of the state of New York, and having a place of business at 26 and 27 Produce Exchange Building in the city of New York, in the state of New York, United States of America. *Improvements in lubricating devices particularly adapted for railway car axles.* (Specification filed 1 February 1910.)

No. 691 of 1909.—James Campbell Trainor, of 91a, Princess street, in the city of Dunedin in the dominion of New Zealand. *Improvement in discharging elevator for ships.* (Specification filed 8 February 1910.)

No. 693 of 1909.—Francis Conrad Osborn, mechanical engineer, of 65 & 67, West Larned street, Detroit, Michigan, in the United States of America. *Improvements in or relating to machines for making tubes from continuous strips or bands of paper or other material.* (Specification filed 8 February 1910.)

No. 695 of 1909.—Thomas Gare, engineer, of Bramble Beach, Warren Drive, New Brighton, in the county of Chester, England. *Improvements in apparatus for the manufacture of rubber articles from old or waste rubber.* (Specification filed 8 February 1910.)

No. 2 of 1910.—Herbert Sewill, stockbroker, late of 4 & 6, Copthall Avenue, but now of 42, Poultry, in the city of London, England. *Improvements in the means for suspending bird cages, flower pots and the like.* (Specification filed 11 February 1910.)

No. 3 of 1910.—Robert Stock, manufacturer, of 48-49, Copenickerstrasse, Berlin, S. O., Germany. *Improvements in or relating to motor ploughs and the like.* (Specification filed 10 February 1910.)

No. 1195 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

- No. 282 of 1898.—Joseph Temperley and John Ridley Temperley. *Improvements in apparatus for raising, lowering and conveying or transporting loads.* (From 22 February 1910 to 22 February 1911.)
- No. 434 of 1900.—John Edward Neale. *An improved telegraphic train signalling instrument.* (From 7 June 1910 to 7 June 1911.)
- No. 485 of 1901.—James Albert Chambers. *Improvements in the manufacture of glass articles and apparatus therefor.* (From 13 May 1910 to 13 May 1911.)
- No. 413 of 1902.—The Cotton Seed Company, Limited. *Improvements in or relating to the treatment of cotton seed.* (From 12 May 1910 to 12 May 1911.)
- No. 414 of 1902.—The Cotton Seed Company, Limited. *Improvements in or relating to machines for cracking and disintegrating cotton seed.* (From 12 May 1910 to 12 May 1911.)
- No. 355 of 1905.—The National Wire Bound Box Company. *Boxes and means for making blanks therefor.* (From 12 March 1910 to 12 March 1911.)
- No. 490 of 1905.—Robert Haylock Owen. *Improved appliances for use in ascertaining distances and altitudes, the same being particularly applicable in range finding.* (From 13 March 1910 to 13 March 1911.)
- No. 565 of 1905.—Bruno Vassel. *A new or improved composition for flooring and the like.* (From 14 February 1910 to 14 February 1911.)

No. 1196 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling and using the said inventions in British India, and of authorizing others so to do, has ceased:—

- No. 460 of 1904.—George Sinclair. *Improvements in smoke consuming apparatus for steam boiler and other furnaces.* (Specification filed 14 November 1905.)
- No. 96 of 1905.—Francois Fernand Bourdil. *Improvements in microphones.* (Specification filed 13 November 1905.)
- No. 121 of 1905.—Donald Clark. *An improved process for the separation of gold from silver, and other metals and metallic substances with which it is commonly associated in slimes and in precipitates on zinc, or other metals or substances.* (Specification filed 13 November 1905.)
- No. 131 of 1905.—Guy P. Boys. *A box for carrying and keeping cartridges, entitled "The Comes cartridge magazine".* (Specification filed 14 November 1905.)
- No. 141 of 1905.—Rakhal Dass Khan. *An improved grinding, husking, and dhal-splitting machine.* (Specification filed 14 November 1905.)
- No. 176 of 1905.—Bertram Hunt. *Improvements in the separation of liquids from solids.* (Specification filed 13 November 1905.)
- No. 179 of 1905.—Thomas Goulding. *Improvements relating to cushions for billiard and like tables.* (Specification filed 18 November 1905.)
- No. 183 of 1905.—Nils Aall Krag. *Improvements in post marking or stamping and cancelling or franking machines.* (Specification filed 15 November 1905.)
- No. 187 of 1905.—His Highness Ram Singh, Herbert Cunningham Clogstoun and Arthur Noel Torphe. *An improved fibre or flax extractor.* (Specification filed 18 November 1905.)
- No. 191 of 1905.—William Pickering. *Improved process for making bread.* (Specification filed 13 November 1905.)
- No. 196 of 1905.—Harry Erskine Coles. *Improved means for carrying a rifle or shot gun on horseback.* (Specification filed 14 November 1905.)

No. 201 of 1905.—Thomas Steel Perkins and Ray Philip Jackson. *Improvements in or relating to multiple-unit control for electric motors.* (Specification filed 14 November 1905.)

No. 204 of 1905.—Thomas Hughes Delabere May. *Improvements in or relating to apparatus for mixing substances together in regular proportions.* (Specification filed 18 November 1905.)

No. 208 of 1905.—Julius Leede. *Improvements in apparatus for making gas.* (Specification filed 18 November 1905.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

No. 418 of 1901—Christopher Rawson. *Improvements in indigo manufacture.* (Specification filed 12 November 1902.)

Fee in respect of the continuance of an exclusive privilege—

4 (d) After the expiration of the sixth year and before the expiration of the seventh year from the date of the filing of the specification—

The sum of Rs 50 for the above invention.

NOTICES

THE PATENT OFFICE.

2, BANKSHALL STREET, CALCUTTA

Public room open, 11 A.M. to 4 P.M., Saturdays 11 A.M. to 1 P.M.

1. *All communications* relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act (V of 1888), or in continuation of such applications should be addressed to the Patents Secretary, 2, Bankshall Street Calcutta. Directions for inventors and others are given in the Act Manual (Price Rs 1 or 1s 6d.).

2. *Fees* payable under the fourth and sixth Schedules must be received in full and in cash at the office within the times allowed by the Act. The office cannot be responsible for any delay attending the collection of cash on cheques. Cheques not payable at Calcutta are subject to commission. Preferably fees should be sent by money order payable at Calcutta to the Patents Secretary.

3. *Trade marks* are not registered and *medicines* are not patented under the Inventions and Designs Act.

4. *Applications* made under the Act are placed for inspection in the public room for 10 days from the date of the *Gazette of India* in which their filing has been notified.

5. *Specifications* of inventions which have been notified as filed in the *Gazette of India* may be inspected on payment of a fee of one rupee at—

Calcutta—Patent Office, 2, Bankshall Street.

Madras—General Record Department, Fort St George

SENATE HOUSE;

The 24th February, 1910.

THE HON'BLE THE RESIDENT IN MYSORE.

NOTIFICATIONS.

Bangalore, the 18th February 1910

No. 11.—Whereas it appears to the Hon'ble the Resident in Mysore that land is required for a public purpose, namely, for improving Miller's Road, near the bridge at the Cantonment Railway Station, Civil and Military Station of Bangalore.

It is hereby declared that the undermentioned land is required for the said purpose.

This declaration is made under the provisions of section 6 of Act I of 1894 as applied to the Civil and Military Station of Bangalore, and under section 7 of the said Act, the Collector of the Civil and Military Station is hereby directed to take order for the acquisition of the said land.

SPECIFICATION OF LAND.

Where situated.	Name of owner.	Description of land	Area.	Boundaries.				REMARKS.
				North.	East	South.	West.	
At the junction of Miller's Road and Tankur Road in the Civil and Military Station of Bangalore.	Mrs. Pratt.	Town site.	1295 square feet.	Mrs. Pratt's property	Miller's Road.	Tankur Road.	Vacant land.	A plan of the land can be seen in the office of the Collector, Civil and Military Station of Bangalore.

The 22nd February 1910.

No 12.—The Hon'ble the Resident in Mysore is pleased—

(i) to revoke the appointment of the Reverend A. H. Baker as a Marriage Registrar for the Civil and Military Station of Bangalore, made in this Residency Notification No. 2141-2245, dated the 26th June 1888, and

(ii) to cancel the license granted to the said Reverend A. H. Baker in this Residency Notification No. 2142-2245, dated the 26th June 1888

By order,

W. G. GREY, Major,
First Assistant Resident.

THE HONOURABLE THE AGENT TO THE GOVERNOR GENERAL IN BALUCHISTAN.

NOTIFICATION.

Sibi, the 18th February 1910

No. 420-S In exercise of the powers conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), the Hon'ble the Agent to the Governor General in Baluchistan proposes to make the following addition to rule 5, Chapter III, Part II of the petroleum rules published in his Notification No. 2306, dated the 29th April 1909.—

"Provided also that in case of installations or storage sheds intended for the storage of petroleum which has a flashing point above 150° Fahrenheit, the license may contain, in lieu of the conditions endorsed on the form prescribed for it by these rules, such conditions as may in each case be approved by the licensing authority on the recommendation of the Chief Inspector of Explosives."

This draft is published under the provisions of section 24 of the Indian Petroleum Act, 1899, for the information of persons likely to be affected thereby, and it is hereby notified that the draft will be taken into consideration on or after the 15th April 1910.

Any objection or suggestion which may be received from any person with respect to the said draft amendment before the date aforesaid will receive consideration

By order,

A. L. JACOB, Major,
First Assistant

THE HON'BLE THE CHIEF COMMISSIONER OF BRITISH BALUCHISTAN.

NOTIFICATION

* Agents for sale of the Legislative Department publications.

NOTICE—Books and Acts required for private use only can be purchased. Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through the Local Government to whom the applicant is subordinate.

Application for Government publications which are no longer in print should be made to the Agent to the particular Government under whose orders they were originally issued.

[The amounts within parentheses are for packing and postage.]

PART IV.

• Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA. LEGISLATIVE DEPARTMENT.

ACT NO IV OF 1910.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 25th February 1910, and is hereby promulgated for general information —

An Act further to amend the Indian Companies Act, 1882.

WHEREAS it is expedient further to amend the Indian Companies Act, 1882, it is hereby enacted as follows —

1 This Act may be called the Indian Companies (Amendment) Act, 1910.

2 After section 73 of the Indian Companies Act, 1882, the following shall be inserted, namely —

"Payment of interest out of capital"

"73A Where any shares of a Company are issued for the purpose of raising money to defray the expenses of the construction of any works or buildings or the provision of any plant which cannot be made profitable for a lengthened period, the Company may pay interest on so much of that share capital as is for the time being paid up for the period and subject to the conditions and restrictions in this section mentioned, and may charge the same to capital as part of the

cost of construction of the work or building, or the provision of plant

Provided that—

- (1) no such payment shall be made unless the same is authorized by the Company's articles of association or by special resolution;
- (2) no such payment, whether authorized by the articles of association or by special resolution, shall be made without the previous sanction of the Governor General in Council;
- (3) before sanctioning any such payment, the Governor General in Council may, at the expense of the Company, appoint a person to inquire and report to him as to the circumstances of the case, and may, before making the appointment, require the Company to give security for the payment of the costs of the inquiry;
- (4) the payment shall be made only for such period as may be determined by the Governor General in Council, and such period shall in no case extend beyond the close of the half-year next after the half-year during which the works or buildings have been actually completed or the plant provided;
- (5) the rate of interest shall in no case exceed four per cent per annum or such lower rate as the Governor General in Council may, by notification in the Gazette of India, prescribe;
- (6) the payment of the interest shall not operate as a reduction of the amount paid up on the shares in respect of which it is paid;

(7) the accounts of the Company shall show the share capital on which, and the rate at which, interest has been paid out of capital during the period to which the accounts relate.

(8) nothing in this section shall affect any Company to which the Indian Railway Companies Act, 1895, or the Indian Tramways Act, 1902, applies

Re-issue of Redeemed Debentures

" 73B (1) Where either before or after the

Power to re-issue re-deemed debentures in certain cases

passing of this Act a Company has redeemed any debentures previously issued, the Company, unless

the articles of association or the conditions of issue expressly otherwise provide, or unless the debentures have been redeemed in pursuance of any obligation on the company so to do (not being an obligation enforceable only by the person to whom the redeemed debentures were issued or his assigns), shall have power, and shall be deemed always to have had power, to keep the debentures alive for the purposes of re-issue, and where a Company has purported to exercise such a power the Company shall have power, and shall be deemed always to have had power, to re-issue the debentures either by re-issuing the same debentures or by issuing other debentures in their place, and upon such a re-issue the person entitled to the debentures shall have, and shall be deemed always to have had, the same rights and priorities as if the debentures had not previously been issued

(2) Where with the object of keeping debentures alive for the purpose of re-issue they have either before or after the passing of this Act been transferred to a nominee of the Company, a transfer from that nominee shall be deemed to be a re-issue for the purposes of this section

(3) Where a Company has either before or after the passing of this Act deposited any of its debentures to secure advances from time to

time on current account or otherwise, the debentures shall not be deemed to have been redeemed by reason only of the account of the Company having ceased to be in debit whilst the debentures remained so deposited

(4) The re-issue of a debenture or the issue of another debenture in its place under the power by this section given to, or deemed to have been possessed by, a Company, whether the re-issue or issue was made before or after the passing of this Act, shall be treated as the issue of a new debenture for the purposes of stamp-duty, but it shall not be so treated for the purposes of any provision limiting the amount or number of debentures to be issued.

Provided that any person lending money on the security of a debenture re-issued under this section which appears to be duly stamped may give the debenture in evidence in any proceedings for enforcing his security without payment of the stamp-duty or any penalty in respect thereof, unless he had notice or, but for his negligence, might have discovered, that the debenture was not duly stamped, but in any such case the Company shall be liable to pay the proper stamp-duty and penalty

(5) Nothing in this section shall prejudice—

(a) the operation of any decree or order of a Court of competent jurisdiction passed or made before the date of the passing of this Act as between the parties to the proceedings in which the decree was passed or the order made, and any appeal from any such decree or order shall be decided as if this Act had not been passed, or

(b) any power to issue debentures in the place of any debentures paid off or otherwise satisfied or extinguished, reserved to a Company by its debentures or the securities for the same."

J M MACPHERSON,

Secretary to the Government of India.

GOVERNMENT OF INDIA
LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 25th February 1910, and is hereby promulgated for general information.—

ACT NO. V OF 1910.

An Act to provide for the prevention of the spread of Dourine

WHEREAS it is expedient to provide for the prevention of the spread of dourine, It is hereby enacted as follows —

1. (1) This Act may be called the Dourine Act, 1910.
Short title and extent.

(2) This section extends to the whole of British India: the rest of this Act extends only to such areas as the Local Government may, by notification in the local official Gazette, direct.

2. (1) In this Act, the expressions "inspector" and "veterinary practitioner" mean, respectively, the officers appointed as such under this Act, acting within the local limits for which they are so appointed.

(2) The provisions of this Act in so far as they relate to entire horses shall, if the Local Government, by notification as aforesaid, so directs, apply also to entire asses used for mule-breeding purposes.

3 The Local Government may, by notification as aforesaid, make such orders as it thinks fit directing and regulating the registration of entire horses maintained for breeding purposes.

4. (1) The Local Government may, by notification as aforesaid, appoint any persons it thinks fit to be inspectors, and any qualified veterinary surgeons to be veterinary practitioners, under this Act, and to exercise and perform, within any area prescribed by the notification, the powers conferred and duties imposed by this Act upon such officers respectively.

(2) Every person so appointed shall be deemed to be a public servant within the meaning of the Indian Penal Code.

5. An inspector may, subject to such rules as the Local Government may make in this behalf,—

(a) enter and search any building, field or other place for the purpose of ascertaining whether there is therein any horse which is affected with dourine, and

(b) prohibit, by order, permitting, the owner or keeper of any horse, which in his opinion is affected with dourine, from using such horse for breeding purposes, pending examination by the veterinary practitioner

6 An inspector issuing an order under section 5, clause (b), shall forthwith forward a copy of such order to the veterinary practitioner

7. A veterinary practitioner receiving a copy of an order forwarded under section 6 shall, as soon as possible after receipt of such copy, examine the horse mentioned therein, and may for such purpose enter any building, field or other place.

8 A veterinary practitioner may—
Powers of veterinary practitioner

(a) cancel any order issued under section 5, clause (b), or

(b) if on microscopical examination he finds that any horse is affected with dourine,—

(i) in the case of an entire horse, cause it to be castrated,

(ii) in the case of a mare, cause it to be branded in such manner as he may direct, or with the previous sanction of the Commissioner or such other officer as the Local Government may appoint in this behalf, cause it to be destroyed

9. When any horse is castrated or destroyed under section 8, the market-value of such horse immediately before it became affected with dourine shall be ascertained; and the Local Government shall pay as compensation to the owner thereof—
Compensation for horse destroyed, etc.

(a) in the case of a mare which has been destroyed, or of an entire horse which has died in consequence of castration, such market-value, and,

(b) in the case of an entire horse which survives castration, half the amount by which such value has been diminished owing to infection with dourine and castration

10 (1) A veterinary practitioner may award, as compensation to be paid to the owner of each horse castrated or destroyed under section 8, a sum not exceeding two hundred and fifty rupees.
Settlement of compensation

(2) If in the opinion of the veterinary practitioner the amount which should be paid as such compensation exceeds two hundred and fifty rupees, he shall report accordingly to the Collector, who shall decide the amount to be so paid.

11 (1) The Local Government shall, by rules published in the local official Gazette, make provision for the constitution of a committee or committees for the hearing of appeals from decisions under section 10.
Committees for hearing appeals

(2) Such rules shall provide that not less than one member of any committee constituted thereunder shall be a person not in the employ of Government or of a local authority

12. Any owner may, within two months from the date of a decision under section 10, appeal against such decision to the committee constituted in that behalf by rules made under section 11, and the decision of such committee shall be final.
Appeals

13. (1) Whoever, being an inspector appointed under this Act, vexatiously and unnecessarily enters or searches any field, building or other place, shall be punishable with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both

(2) No prosecution under this section shall be instituted after the expiry of three months from the date on which the offence has been committed.

14 (1) The Local Government may make rules for the purpose of carrying into effect the provisions of this Act

(2) In particular, and without prejudice to the generality of the foregoing power, such rules as aforesaid may—

(a) regulate entries, searches and orders by inspectors under section 5;

(b) regulate the action to be taken by veterinary practitioners under section 8, and

(c) make provision for the payment of compensation to the owner of any mare branded under section 8

(3) All such rules shall be published in the local official Gazette, and, on such publication, shall have effect as if enacted in this Act

(4) In making any rule under this section the Local Government may direct that a breach of it shall be punishable with fine which may extend to fifty rupees

15 Whoever uses or permits to be used for breeding purposes—
Penalties

(a) any horse which has not been registered in accordance with the requirements of a notification under section 3, or

(b) any horse in respect of which an order under section 5, clause (b), is in force, or

(c) any mare which has been branded in pursuance of section 8, clause (b), shall be punishable with fine which may amount, in the case of a first conviction to fifty rupees, or, in the case of a second or subsequent conviction, to one hundred rupees.

16. No suit, prosecution or other legal proceeding shall lie against any person for anything which is, in good faith, done or intended to be done under this Act.
Protection to persons acting under Act.

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 28.

GOVERNMENT OF INDIA. LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 25th February 1910.—

NO. 4 OF 1910.

A Bill further to amend the Indian Stamp Act, 1899.

WHEREAS it is expedient further to amend the Indian Stamp Act, 1899, It is hereby enacted as follows:—

1. This Act may be called the Indian Stamp Short title and (Amendment) Act, 1910.
commencement.

2 In section 8, sub-section (1), of the Indian Stamp Act, 1899 (hereinafter referred to as "the said Act"), for the words "eight annas per centum" the words "one per centum" shall be substituted

Amendment of Act II, 1899, section 8.

3. In Schedule I of the said Act the following Amendment of Act amendments shall be made, 11, 1899, Schedule I namely:—

(i) In Article No. 5, for the words "one anna" in the second column opposite clause (a), the following shall be substituted, namely:—

"Subject to a maximum of ten rupers, one anna for every Rs 500 or part thereof of the value of the security or share or the amount of the bill."

(ii) In Article No. 13, for clause (b) the following shall be substituted, namely:—

				If drawn singly.	If drawn in set of two, for each part of the set.	If drawn in set of three, for each part of the set.
(b) where, payable otherwise than on demand, but not more than one year after date or sight—						
			Rs.	Rs. a p.	Rs. a p.	Rs. a p.
if the amount of the bill or note does not exceed				0 2 0	0 1 0	0 1 0
if it exceeds Rs 200 and does not exceed				0 6 0	0 3 0	0 2 0
Ditto	500	ditto	1,000	0 12 0	0 6 0	0 4 0
Ditto	1,000	ditto	1,200	1 2 0	0 9 0	0 6 0
Ditto	1,200	ditto	1,600	1 8 0	0 12 0	0 8 0
Ditto	1,600	ditto	2,500	2 4 0	1 2 0	0 12 0
Ditto	2,500	ditto	5,000	4 8 0	2 4 0	1 8 0
Ditto	5,000	ditto	7,500	6 1 0	3 6 0	2 4 0
Ditto	7,500	ditto	10,000	9 0 0	4 8 0	3 0 0
Ditto	10,000	ditto	15,000	13 8 0	6 12 0	4 8 0
Ditto	15,000	ditto	20,000	18 0 0	9 0 0	6 0 0
Ditto	20,000	ditto	25,000	22 8 0	11 4 0	7 8 0
Ditto	25,000	ditto	30,000	27 0 0	13 8 0	9 0 0
and for every additional Rs. 10,000 or part thereof in excess of, Rs. 30,000.				9 0 0	4 8 0	3 0 0

(iii) In Article No. 27, for the entry in the second column, the following shall be substituted, namely—

“The same duty as a conveyance (No. 23), for a consideration equal to the face amount of the debenture”

(iv) In Article No 59, in the second column’

for the words “Three-quarters of the words “one and a half times shall be substituted.

(v) In Article No. 62, in the second column for the words “one-quarter”, when they occur opposite clauses (a) and (b), the words “one-half” shall be substituted.

STATEMENT OF OBJECTS AND REASONS

THIS Bill proposes to amend the Indian Stamp Act, 1899, in order to increase the duties which are leviable on certain instruments under that Act. The measure is purely a fiscal one, and the classes of documents which have been selected for enhanced taxation are among those on which the present rates of duty fall with comparative lightness.

2. The proposals are—

First—To double the present duties chargeable on—

- (a) the issue of debentures by a local authority;
- (b) debentures generally;
- (c) share-warrants to bearer issued under the Indian Companies Act, 1882; and
- (d) transfers of shares and debentures;

Second.—To raise the duty on an agreement or memorandum of agreement for the sale of Government securities, shares or bills of exchange, from a fixed sum of one anna to a graduated sum, varying with the amount of the consideration for the sale, but subject to a maximum charge of Rs. 10; and

Third—To increase by roughly one-half the duty on bills of exchange and promissory notes.

GUY FLEETWOOD WILSON.

The 25th February 1910.

J. M. MACPHERSON,
Secretary to the Government of India.

**GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.**

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 25th February, 1910 —

NO. 5 OF 1910

*A Bill further to amend the
Court-fees Act, 1870.*

WHEREAS it is expedient further to amend the Court-fees Act, 1870; It is hereby enacted as follows :—

1. This Act may be called the Court-fees Short title and (Amendment) Act, 1910. commencement.

2. In Schedule I to the Court-fees Act, 1870, as amended by the Amendment of Act VII, 1870, Schedule I. Succession Certificate Act, 1889, the following amendments shall be made, namely :—

(i) in article 11, for the entries in the second and third columns, the following shall be substituted, namely :—

When the amount or value of the property in respect of which the grant of probate or letters is made exceeds one thousand rupees, but does not exceed ten thousand rupees.	Two per centum on such amount or value.
When such amount or value exceeds ten thousand rupees, but does not exceed fifty thousand rupees.	Two and one-half per centum on such amount or value.
When such amount or value exceeds fifty thousand rupees.	Three per centum on such amount or value.

Provided that when, after the grant of a certificate under the Succession Certificate Act, 1889, or under the Regulation of the Bombay Code No VIII of 1827, in respect of any property included in an estate, a grant of probate or letters of administration is made in respect of the same estate, the fee payable in respect of the latter grant shall be reduced by the amount of the fee paid in respect of the former grant.

(ii) in article 12A, for the entries in the second and third columns, the following shall be substituted, namely :—

(1) As regards debts and securities.	The same fee as would be payable in respect of a certificate under the Succession Certificate Act, 1889, or in respect of an extension of such a certificate, as the case may be.
(2) As regards other property in respect of which the certificate is granted—	
When the amount or value of such property exceeds one thousand rupees, but does not exceed ten thousand rupees.	Two per centum on such amount or value.
When such amount or value exceeds ten thousand rupees, but does not exceed fifty thousand rupees.	Two and one-half per centum on such amount or value.
When such amount or value exceeds fifty thousand rupees.	Three per centum on such amount or value.

STATEMENT OF OBJECTS AND REASONS.

THE Bill proposes to raise the existing duty payable on the probate of a will or letters of administration, as well on the certificates taken out under the Bombay Regulation No. VIII of 1827. The measure is a purely fiscal one, and the proposal is to increase the present rate only in the case of estates valued at more than Rs. 10,000. The enhancement is studiously moderate, namely, $2\frac{1}{2}$ per cent (instead of the present 2 per cent) when the estate is valued at from Rs 10,000 to Rs 50,000, and 3 per cent. on all properties valued at more than Rs. 50,000.

GUY FLEETWOOD WILSON.

The 25th February 1910

J M MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

NO. 6 OF 1910.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 25th February, 1910 :—

A Bill Further to amend the Indian Tariff Act, 1894.

WHEREAS it is expedient further to amend the Indian Tariff Act, 1894 ; It is hereby enacted as follows :—

1. (1) This Act may be called the Indian Tariff Short title and commencement. (Amendment) Act, 1910 ; and

(2) It shall be deemed to have come into force on the 25th day of February, 1910.

2. For Schedule III to the Indian Tariff Act, Substitution of new 1894, as amended by the Schedule for Schedule Indian Tariff Act (1894) III, Act VIII, 1894. Amendment Act, 1896, the Indian Tariff (Amendment) Act, 1906, and the Indian Tariff (Amendment) Act, 1908, the

Schedule appended to this Act shall be substituted.

3. In Schedule IV to the Indian Tariff Act, Amendment of 1894, as amended by the Schedule IV, Act Indian Tariff Act (1894) VIII, 1894. Amendment Act, 1896, the following amendments shall be made, namely :—

(i) In No. 11, the entries—

"Tobacco, unmanufactured.	Free.
Tobacco, manufactured.	...	ad valorem	Five per cent."

shall be omitted.

(ii) In No. 15, the entries—

"Silver bullion or coin, except current coin of Government of India, which is free	...	ad valorem	Five per cent."
--	-----	------------	-----------------

shall be omitted.

(iii) In No. 16, in the fifth column, opposite the entry "Petroleum", for the words "One anna" the words "One anna and six pies" shall be substituted.

4. The Indian Tariff (Amendment) Act, 1906, and the Indian Tariff (Amendment) Act, 1908, are hereby repealed.

SCHEDULE III.—(IMPORT TARIFF).

LIQUORS, OPIUM, SALT, SALTED FISH, TOBACCO AND SILVER.

Names of Articles.	Per	Rate of duty.	No.	Names of Articles.	Per.	Rate of duty.
Liquors—		<i>Rs a.</i>	3	SALT	Indian maund of 82½ lb. avoirdupois weight.	The rate at which excise-duty is for the time being leviable on salt manufactured in the place where the import takes place.

Champagne and all other sparkling wines not containing more than 42 per cent. of proof spirit.	liquid gallon .	3 12		Unmanufactured	pound	1 8
All other sorts of wines not containing more than 42 per cent. of proof spirit	" "	1 8		Cigars	"	2 8
Provided that all sparkling and still wines containing more than 42 per cent. of proof spirit shall be liable to duty at the rate applicable to spirit, other sorts.				Cigarettes weighing less than 3 lbs per thousand	thousand	5 0
				Cigarettes weighing 3 lbs or more per thousand	pound	2 0
				Manufactured, other sorts	"	1 10
OPIUM and its alkaloids	ser of 80 tolas .	24 0	6	SILVER bullion or coin, except current coin of the Government of India, which is free	ounce	0 4

STATEMENT OF OBJECTS AND REASONS.

THIS Bill proposes to alter the Indian Tariff Act, 1894, by increasing the present import-duties on liquors, tobacco, silver and petroleum. The measure is essentially a fiscal one: and if it becomes law, the intention is to put it into retrospective effect from the 25th February. Simultaneously, the excise duties levied in India on beer which is locally brewed and on spirits which are locally manufactured to resemble imported spirits, will be raised to the new tariff rates.

2. The duty on beer was raised two years ago, but it is still low, and the last enhancement does not appear to have decreased the consumption. The duties on wines have not been changed since 1875, and they are clearly inadequate. The present duty on imported spirits is now below the rates which are levied in many parts of India as excise on indigenous spirits, and the import of cheap foreign alcohols is unduly favoured by the existing tariff rates. It is now proposed to raise the normal tariff rate to the convenient figure of 1½ annas per degree of proof. A corresponding increase is made in the rate for liqueurs, and advantage has been taken of the opportunity to make the definition of this class of liquors at once simpler and more comprehensive. An arbitrary and frequently unworkable distinction in the taxation of spirits used in drugs and medicines has been removed as unsuitable to present conditions; and those spirits have been relieved of the full rate of duty in recognition of the purposes for which they are employed.

3 A minor change in Schedule III of the Act is proposed, by bringing the alkaloids of opium into the same category, for the purpose of taxation, as opium itself. The intention is to impose an adequate duty on morphia and its congeners when imported otherwise than as ingredients in recognised medicines.

4. The next proposal is to impose a quantitative duty on tobacco, which has never yet borne its fair share of taxation. Incidentally, some check may be imposed on the detrimental habit of excessive cigarette-smoking.

5. The enormous imports of silver and petroleum in recent years point to those commodities as suitable for increased taxation. The object is solely an enhancement in revenue ; and it is considered preferable to obtain the extra taxation from a few articles of comparative luxury in practically universal use, rather than to spread it over a large number of commodities used by the poorer classes and from many of which the increased yield would be insignificant.

6. Clause 4 is intended to repeal the Acts which brought into force the most recent enhancements in the duties on spirits and beer respectively.

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA,
ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS,
UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS,
1861 TO 1909 (24 & 25 VICT., C. 67, 55 & 56 VICT., C. 14,
AND 9 EDW. VII, C. 4).

The Council met at Government House on Tuesday, the 8th February 1910

PRESENT

His Excellency the EARL OF MINTO, P.C., G.C.M.G. G.M. S.I., G.M.I.E.,
Viceroy and Governor General of India, *presiding*,

and 61 Members, of whom 55 were Additional Members.

OATH OF OFFICE

The following Additional Member, before taking his seat, made the prescribed affirmation of his allegiance to the Crown.—

The Hon'ble Kanwar Sir Ranbir Singh, K.C.S.I.

QUESTION AND ANSWER.

The Hon'ble MR. CHITNAVIS asked :—"Has Government received any communication from the Hon'ble the Chief Commissioner of the Central

Provinces for vesting Municipal Committees with discretionary powers to grant pensions for good and meritorious service? If so, will Government please state what action is proposed to be taken in the matter?

The Hon'ble SIR HERBERT RISLEY replied :—" The Government of India have received no communication of the nature indicated by the Hon'ble Member."

PRESS BILL.

The Hon'ble SIR HERBERT RISLEY presented the Report of the Select Committee on the Bill to provide for the better control of the Press, and applied to the President to suspend the Rules of Business to admit of the Report being taken into consideration.

His Excellency THE PRESIDENT declared the Rules suspended.

The Hon'ble SIR HERBERT RISLEY moved that the Report be taken into consideration.

The Hon'ble MR. GOKHALE said :—" My Lord, it is a cruel irony of fate that the first important measure that comes before the Reformed Council is a measure to curtail a great and deeply cherished privilege which the country has enjoyed, with two brief interruptions, for three-quarters of a century. But while the plans of statesmen have matured slowly, events designed by malignant fates to frustrate their purpose have moved faster. And thus we find that just when the scheme of reforms has materialised, the sky is dark with clouds which probably will roll away before long, but which for the time wear a threatening aspect. My Lord, I confess that the regret with which I approach a consideration of this Bill has been deepened by the fact that the measure is being hurried through its several stages by suspending the standing orders and without giving the country practically any opportunity to express its opinion on it. In saying this, I do not forget the fact that Lord Lytton's Act of 1878 was introduced and passed at one sitting, nor do I overlook the consideration shown by your Lordship, after deciding to suspend the standing orders, in giving us at least these three days for consideration and in referring the Bill to a Select Committee. But, my Lord, was this unusual procedure necessary? Surely a week or ten days' delay in enacting this measure would not have made any appreciable difference to anybody, since the Bill seeks to apply to the situation what at best can only be a slow remedy. However, I do not wish to pursue this point further, I might not have said even this much, had it not been for the fact that the Government has been reproached in certain quarters for giving us even these three days.

" My Lord, in the minute of dissent which my Hon'ble friend Mr. Mudholkar and I have appended to the Report of the Select Committee, we have briefly stated our position in regard to this measure. That position I would like to amplify in the few minutes for which I propose to occupy the attention of the Council. It is admitted on all hands—the Hon'ble Member in charge of the Bill has admitted it in his speech—that the Penal Code is amply sufficient to punish sedition and that the special legislation of last year can effectively put down incitements to violence. What is contended however is that the punishment of seditious writings and utterances under the Penal Code, so far from restricting the area of sedition, actually widens it by reason of the unhealthy excitement it causes and keeps up for months the rush of natural sympathy of the public to the accused, the crown of martyrdom that comes to be placed on their heads and the amount of odium which the proceedings bring to the Government. And it is urged that the Government is convinced that the right plan to deal with sedition is to proceed by way of prevention rather than by way of punishment. Now, my Lord, I will at once admit that there is considerable force in the whole of this contention. But even so, section 108 of the Criminal Procedure Code, which is a means of prevention and which was introduced into the Code twelve years ago for the express purpose of placing such a means at the disposal of the Government, should have been sufficient, and what I cannot quite understand is why it has not been found effective. The

only explanation I have heard is that the proceeding under that section being judicial and liable to revision by the High Court, it practically means a trial for sedition, with this difference only that the person proceeded against, instead of being severely sentenced, is merely called upon to give security. But this was precisely the chief merit claimed for the section when it was enacted in 1898, as a reference to the proceedings of the Council of that time will show. My Lord, I cannot help saying that it would have been fairer to the Legislature if the Government had tried section 108 of the Criminal Procedure Code in some cases, instead of allowing it to remain practically a dead letter, before applying for fresh powers. Or if it was considered that the time had gone by when the section, as it stood, could be usefully applied—I myself am inclined to think that in some parts of the country the evil has now gone beyond the stage where section 108 could be applied with much effect—a proposal to amend the section so as to make its operation more simple and expeditious would have caused less disturbance to our ideas on this subject and would undoubtedly have been more acceptable.

“ My Lord, the principal addition which the Bill makes to the powers already possessed by the Government for dealing with sedition is that it makes the taking of security from printing-presses and newspapers a purely executive act. It also empowers the Executive to order the forfeiture of such security and even the confiscation of printing-presses on the ground that an offence has been committed, though here an appeal is allowed to a special Tribunal of High Court Judges. These are the main provisions and they embody what may be called the principle of the Bill. My Lord, in ordinary times I should have deemed it my duty to resist such proposals to the utmost of my power. The risks involved in them are grave and obvious. But in view of the situation that exists in several parts of the country today, I have reluctantly come, after a careful and anxious consideration, to the conclusion that I should not be justified in opposing the principle of this Bill. It is not merely the assassinations that have taken place, or the conspiracies that have come to light, or the political atrocities that are being committed, that fill me with anxiety. The air in many places is still thick with ideas that are undoubtedly antagonistic to the unquestioned continuance of British rule, with which our hopes of a peaceful evolution are bound up; and this is a feature of the situation quite as serious as anything else. Several causes have contributed to produce this result, of which the writings in a section of the Press have been one. And to the extent to which a remedy can be applied to these writings by such executive action as is contemplated in the Bill, I am not prepared to say that the remedy should not be applied. There is no doubt that even if the powers conferred by the Bill are exercised judiciously, some inconvenience and even hardship is inevitable to well-intentioned concerns. And if the powers are not exercised with care, great harm is bound to follow. Moreover, as long as this law continues in force, even the best Indian concerns must work in an atmosphere of uncertainty and apprehension. But all these risks may be temporarily borne if they help in some measure to free the air of ideas of which I have spoken. Only it is of the utmost importance that they should be temporary, and I therefore most earnestly urge that the operation of this law should be limited to a period of three years only. Further, I think the rigour of some of the provisions can well be softened without rendering the Bill less effective. With these, however, I will deal when I move the amendments of which I have given notice.
